Attention Mr. Philip Phelan

Dear Sirs:

Replying to your communication of March 15th requesting railway company's receipts for the freight charges shown upon our invoices of February 23rd, #4565, and February 23rd, #4566.

First of all let us advise that it is absolutely impossible for us to forward such railway company's freight receipts to you for the reason that when we tendered upon your requisition 18557, file 1538, our computation of freight was based upon inclusion of this merchandise in our carload shipments to our Edmonton branch and L.C.L. shipment from Edmonton to Grouard. Undoubtedly our quotation was favourable in comparison with other quotations and resulted in your order #2640 being forwarded to us February 3rd, and your purchase order exactly copied the figures of our quotation, which showed the sales tax and freight as separate items. Were it not for the fact that the merchandise could have been enclosed in a carload shipment to Edmonton, freight charges would necessarily have been higher upon our quotation, but the facts as they are simply make it impossible for us to submit receipted railway freight bills for these amounts.

Yours very truly,

Right Reverend Sir:

In our appropriation for the fiscal year 1938-39 the following provision was made for repairs, improvements and purchase of new equipment at the five schools in the Diocese of Grouard:

Grouard Residential School	\$	1800.00
Joussard "	"	1500.00
Sturgeon Lake "	"	1000.00
Vermilion "	"	1000.00
Wabasca R.C. "	"	<u>2000.00</u>
Total	\$	7300.00

For some months past we have been requested on several occasions to supply new laundry machinery for the Grouard Residential School. This will cost approximately \$3100.00. We endeavoured to find funds for this purpose in our appropriation for the fiscal year which closed on March 31, 1938 but owing to other heavy expenditures it was not found possible to provide this laundry equipment. It has, therefore, been decided to purchase this equipment immediately and pay its cost from the current year's appropriation.

Owing to the present set up of our appropriation it will not be possible to expend at the five schools in the Grouard Diocese an amount greater than that provided. As a result the cost of the laundry machinery for Grouard will have to be deducted from the total amount provided. This means that there will be an amount of \$4200.00 available for repairs, improvements and any new equipment that might be necessary at the schools in the Grouard Diocese.

Please let me know as soon as possible in what manner you wish this amount expended.

As all purchases have to be made through our Purchasing Agent it will be necessary for you to forward full particulars regarding any equipment that you require. Catalogue numbers and approximate cost of such equipment should be given for our guidance.

In view of the fact that Reverend S. Lajoie, O.M.I., has been in communication with us regarding the laundry machinery I am sending a copy of this letter to him.

Yours truly,

Memorandum:

DEPUTY MINISTER

In my memorandum of March 10 I recommended purchase of laundry equipment for the Grouard Indian Residential School at an approximate cost of \$3100.00.

I understand that it was found impossible to secure this equipment before the end of March. Since that time we have received additional requests for new laundry equipment at the Grouard School and I would appreciate if immediate steps were taken to supply the equipment requested in my memorandum of March 10.

Funds for the purpose are available in the appropriation for the current fiscal year.

Memorandum:

DEPUTY MINISTER

I desire to refer to my memoranda of March 10 and May 11 with reference to purchase of laundry equipment for the Grouard Indian Residential School.

I am today in receipt of a telegram from the Principal in which he states that owing to the necessity of providing urgent repairs to the building he desires that the funds be used for this purpose rather than for the purchase of new laundry equipment. As yet he has not forwarded details regarding the repairs to which he refers in his telegram but in the meantime I would appreciate if no further action be taken in connection with the purchase of the laundry equipment.

Dear Sir,

At the receipt of a copy
of yours to H. C. C. Mgr. Langlois
D.M. in connection with appropri-
ation for schools in Grouard diocese.
I wired you requesting postpone-
ment of acquisition of Laundry
Equipment for Grouard. Allow me
to give explanation of my decision.

We are surely in need of a
Laundry at the Grouard Residential School.
It is a pity for such an Institution to
have to make the washing on ma-
chines just fit for an ordinary family.

On the other hand, our finances do not allow us to go in such an expenditure.

According to your statement the Laundry has to be taken from the appropriation ~~is to be used for the schools~~ in the Grand Diocese. The appropriation of this year is far below of what it was last year. Anyhow, it is up to us to use it in the best way. Heavy repairs in every Mission are urgent. They can not be postponed. They will absorb more than the total appropriation. Having in mind that first we have to keep finances on sound basis, I have requested you not to buy the Laundry. The Sisters are willing to suffer a year more not to create financial difficulties in the Vicariate. If the Dominion of Canada can not carry on this expenditure, how we so wonder if our Administration, troubled with the problem of destitution prevailing

amongst Indians, does not feel itself able to do so.

And this has to be appreciated in line with what I wrote you lately in connection with the financing of the new Boys' Building at Grouard. Unless increase of revenue is secured, we can not spend \$3,100.00 on a Laundry or on repairs. All repairs are urgent. They will be made first. Nevertheless, we would appreciate receiving Laundry Equipment.

I may seem rather particular on question of money. This is true. The future is not so bright. The prospects on the crop are worst than ever in the Peace River district. If the drought keeps on we will have to buy saddle vegetables and cattle feed. There has been no rain since early last fall. We will have to slaughter our cattle or to buy feed at high price. How long is

Reverend Sir:

I have your letter of the 18th instant with reference to official letter of May 11.

On receipt of your telegram of May 18 instructions were given to cancel the order for the laundry equipment for the Grouard Indian Residential School.

As soon as Bishop Langlois and yourself have had an opportunity to decide exactly what repairs should be done at the five schools in the Diocese of Grouard you should forward full particulars to the Department. As you are aware from previous correspondence all purchases have to be made through the Purchasing Agent and it is therefore necessary to give very detailed information in order that he may place the orders.

Dear Sir,

Before leaving for the East where he will be consecrated, His Excellency Mgr Ubald Langlois, O.M.I., has requested me to write you in connection with the repair work to be done this summer at the Schools in Grouard Vicariate. Please find enclosed memo showing how the appropriation will be used.

The estimates on the repairs mentioned above are higher than the amount of money to be applied to. Most of these repairs are so urgent that they can not be postponed, especially as far as chimneys and foundations are concerned. Safety first. This explains why I requested you to postpone the buying of Laundry Equipment for Grouard, if this expense has to be deducted from appropriation voted.

I don't mention any equipment notwithstanding the fact that a lot of furniture has been asked for by Principals, namely mattresses for Sturgeon Lake School, (1 doz, 5'x2½'; 1 doz. 5½' x 2½'; 1 doz. 4½' x 2½' 0 and two Water Fountains for Sturgeon Lake, for recreation Halls.

I hear that there is no watchman's clock at Fort Vermilion. (Davis Paradis Watchmen's Corporation Ltd, New-York.) We have to rely on the watchman's fidelity.

We will do our best to use the money in the most profitable way. We can't do much this year especially if there is no change in temperature. Unless rain comes within a short future, the crop will be a failure.

Any suggestion or remark will be accepted with appreciation.

Ottawa, Ont.

Dear Mr. Phelan,

I hasten to answer yours of the 27 th of
May last received by last mail.

Re: Laundry Equipment.

I note that according to my message of
May 18 th, the Department has cancelled order for Laundry
Equipment for Grouard. My standing was explained to the De-
partment by a letter I addressed the same day to Mr. Hoey.

It is not without deep regret that
I have taken such a step. I couldn't otherwise in the circum-
stances.

Re: Repairs at Schools in Grouard
Vicariate.

As the letter showing the appropriate
on for this purpose has been signed by Mr. Hoey, an answer
was directed to him. Enclosed a copy.

By the last paragraph of yours of
the 27 th of May last, I feel that you are requesting more
details than those given.

On the 19 th of April, just after
the reception of yours of the 11 th of same, I addressed you
a long letter explaining the situation for this year. My
letter did not reach you or yours did not, but the fact is
that I did not get any answer to my request of practical
direction in the circumstances. Anyhow, here is the situ-
ation regarding each of the Missions in connection with
appropriation.

I- Grouard Resd. School. Appropriation \$1,800.00

N.B. The following figures refer to my letter of

Indian Affairs. (RG 10, Volume 6366, file 761-5, part 3)

May 30 th and to estimates attached addressed to Mr. Hoey.

- 1) Repairs to Foundations of Convent and Principal's residence.

Estimates: \$1,200.00

As pointed out in my letter of May 19 th, Cement had been ordered early in spring before the freezing out. At the exception of a few thousands of feet of common lumber, practically nothing else will be requested. Most of the expense will go to wages and some sand and gravel.

- 2) Sidewalks around new Boys' Building. \$300.00

Cement ordered with other lot.

- 3) Work at Sewers. \$100.00

About two hundred feet of Sewer Pipes needed. They have been ordered not to delay the work. Trenches could not be left opened for long.

- 4) Digging a Well. \$200.00

1250 feet of rough lumber needed with about 200 feet of water pipes. Work.

II- Jousard Resd. School. Appropriation: \$1,500.00

Work to be done including repairs to

Warehouse, Garage, Machine Shop and Implement Shed combined: Estimates: \$1,500.

110 sacks of Cement ordered with lot coming to Grouard in order to have carload freight rates. Corrugated Galvanized Iron for roof ordered early in spring in order to start work. Work progressing rapidly.

III- Sturgeon Lake Res. School. (Approp. \$1,000.00

- 1) Repairs to Foundations of Boys' Building. Estimates: \$300.00

About 100 sacks of cement needed.

Indian Affairs. (RC 10, Volume 6366, file 761-5, part 3)

Should I order this cement or if the Department will do?... For such a small lot, I believe that we do better locally as we have to pay freight by the hundred pounds if we have less than a carload. I am asking for tenders which will be submitted to the Department if thought advisable.

It is very important that the work be done during the summer holidays not to disturb classes. The Principal and the Teachers have requested me to start the work with the first days of July.

2) Painting of the Boy's Building.

Estimates: \$700.00

To make a good job, 125 gallons of prepared Paint are requested. Generally, we buy White lead and suitable Oil. We save a lot in that way.

IV- Fort Vermilion,

Appropriation: \$1,000.00

1) Chimneys.

Estimates: 600.00

Brick, lime, cement and lining bought and shipped last fall by last boat. It was too late to do the work last year.

2) Chicken House.

Estimates: 400.00

8½ squares of Corrugated Iron; 80 feet dip Starter and 40 feet Roof Top needed. Not ordered yet. Nails.

70 sacks of cement for floor.
Local lumber to be used. Windows.

V- Wabasca, R.C. Res. Indian School.

Appropriation: \$2,000.00

1) Chimneys.

Estimates: \$1,200.00

The material was bought early in January last to be hauled on winter roads. We pay an average of two cents a pound in winter when it costs five or six cents for summer hauling, when it is possible to do. Besides, when I was notified to purchase through the Department's Agent, all the stuff had reached Wabasca since weeks.

Indian Affairs. (RG 10, Volume 6366, file 761-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Wabasca, to be continued.

2) Diesel Engin.

Estimates: \$850.00

The old engine for the electric Plant got out of order last winter. As replacement could not be deferred, the Principal took on him to buy a new one. This was before I was notified to pass through the Department for any purchase. Besides, when I heard, the deal had been done.

With this engine, we will save a lot on gas and oil. Nevertheless, had it not been absolutely needed, it would not have been bought. It was out of question to leave the Mission without light and power for a month or so.

I would appreciate a prompt answer as to the material not bought yet. The season is so short that work has to be started early in summer to be over with cold weather.

I presume you had the opportunity of meeting his Excellency Mgr U. Langlois, O.M.I. on his way for his consecration. His intention was to call on you and discuss some of our problems. He may not have gone in details as he is just coming in office. He left to me to submit to the Department the work to be done this summer.

I feel it would be of some advantage to both parties if I could go to Ottawa and treat the many problems of our schools. As I am alone in the office, it is not easy for me to be away for two weeks. And besides, I have to spare every cent. The future does not look so bright. A terrible drought prevails in the District. Unless rain comes within a short future, the crop will be a complete failure. I am taking steps to ascertain us feed for milk cows next winter. As to other cattle, we may have to slaughter them at fall. We will see then.

Please excuse me if I happen to be rather slow to answer letters. Days should be 48 hours long.

Hoping to have answered your desires, I remain,

Reverend Sir:

I have your letter of the 6th instant in connection with the repairs and improvements required at the five schools in the Diocese of Grouard.

In order that we may have a complete record on our files I am today writing you a separate letter regarding each school.

However, in order that you may have the situation clearly before you some general observations are necessary.

As pointed out in previous letters new purchasing regulations came into effect from the first of January of this year. They require that all material etc. be purchased through the office of our Departmental Purchasing Agent. You will, therefore, see the necessity in future of not purchasing anything for which the Department is expected to pay without first supplying us with full particulars in order to enable us to comply with the purchasing regulations. This rule may appear a little strict to you but I feel you will realize that those of us who are administering the appropriation provided by Parliament for Indian schools have to comply with any regulations that are made and to do this we require the co-operation of Indian Agents, Principals of Residential Schools and any other officials interested in Indian education. I realize that the schools in the Grouard Diocese are situated in rather isolated places to which it is often difficult to ship supplies. It will, therefore, mean that in future you will have to

anticipate your requirements and let us know two or three months ahead what you require in order to enable us to purchase the articles through our Purchasing Agent and have them delivered to the respective schools at those seasons of the year when transportation facilities are best. However, in view of the action that you have already taken it has been decided not to require you to strictly observe the regulations this year.

Referring particularly to the Grouard Indian Residential School I note that you have already purchased the cement an account covering the cost of which may be forwarded.

I presume that the few thousand feet of common lumber required at this school can be purchased locally. If so, you may make the purchase but when forwarding the account in triplicate covering its cost you should attach to the account an explanation setting forth that this lumber was secured at a very reasonable cost and was secured from local sources.

I note that you have also ordered the 200 feet of sewer pipe that is required. The account covering the cost of this will be paid.

Please keep in mind that the total expenditure for material and labour for the repairs at Grouard Residential School must not exceed \$1800.00.

N.B. Material ordered early in spring
and work progressing rapidly.
This was done before notification
had reached me.

Besides, due to scarcity of fur, many
Indians were looking for work. They
needed help. Work was started early

Water should be brought to the cow-

REPAIR WORK.

Wabasca Roman Cath. Indian Residential School.

Appropriation: \$2,000.00

L) Chimneys. Estimate \$1,200.00

N.B. As explained in previous correspondence, the material was bought early in January to be hauled on winter roads. We pay an average of two cents a pound in winter when it costs five or six cents for summer hauling, if possible. Besides, when I was notified to buy through the Department, material had reached Wabasca since weeks. Receipted bills can be produced at any time.

2) Diesel Engin.

800.00

N.B. The old engin for the electric Plant got out of order last winter. As replacement could not be delayed, the Principal took on him to buy a new one. This was before I was notified to pass through the Department for purchases.

\$2,000.00

The engin was bought from Bruce Robinson Electric Ltd., Edmonton.

Dear Sir,

[Large handwritten 'E' and 'EXD' stamp]
I hasten to answer yours of the 6 th inst.
in connection with repair work to be done in each of the
Indian Residential schools of the Vicariate of Grouard, Alta.
Please find enclosed a sheet containing details for each School.

You will find that a great part of the mate-
rial has been ordered already. This is due to the fact that
notification ~~that~~ all purchases had to be done through the Depart-
ment has reached me too late. As pointed out, most of the mate-
rial bought had to be hauled *by* on winter roads or before the
freezing out on account of reliable roads in summer. Let it be
understood that, as far as I may be concerned, in the future,
estimates and figures will be prepared soon enough that all
material which may be requested could be bought through the
Purchasing Agent of the Department.

I hope that the misunderstanding which oc-
curred this year will not interfere with the work. I have done
by best to cope with the situation.

I wonder if I should not point out the terri-
ble situation developping in this part of Alberta. Hunting has
been very poor for the last season, and there is no hope that
fur will be restored for some time as, due to a prolonged
drought, fire is sweeping the country. Fire extends from here
to down North Fort-Vermilion and over. It is fortunate that
we are doing some work in our Missions. Otherwise, most of the
families would be starving. And what will happen next winter?..
Having this in view, we use as much as possible Indian work.

I will consider a duty to provide with any
further explanations or details asked for.

Believe me, Dear Sir,

Yours truly,

F. S. LaJole, - O.M.I.,

Dear Sir,

Excuse me if I have delayed answering your last communications in connection with repair work to be done this year in our Schools. I have been out of the office for a few days.

I take notice that you authorise me to go ahead with the work. Directions will be closely followed. All bills and statements will be forwarded in due time in the way specified by the Department.

I was pleased to receive notification that advances have been made on the June quarter per capita allowances at the amount of \$14,400.00. There is no doubt that this money will be forwarded soon.

Yours truly,

My dear Mr. Hoey:-

The Grouard residential school has a very inadequate water supply at the present time. His Excellency Bishop Langlois, under whose jurisdiction this school is situated, suggests that the lake which is only about 2,000 feet from the school might provide an abundant and safe supply.

I hope that you will be able to send one of your engineers to the Grouard school to investigate this matter and should he report favourably, that you will be able to supply the funds necessary for this installation.

Dear Mr. Hoey:-

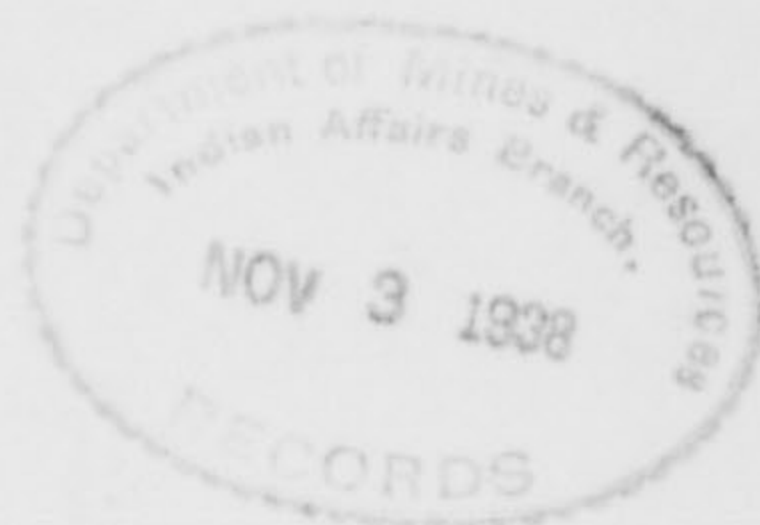

In a letter from Reverend Father Lajoie, administrator of the Grouard Indian residential schools which I received lately, my attention is called to the drought condition that prevailed in that part of Alberta where these schools are situated. Father Lajoie informs me that even the school gardens did not produce vegetables in sufficient quantity and that such vegetables as are considered essential for the health of the children will have to be imported, at great cost due to transportation charges.

Last year, the Department was able to help the Saskatchewan and Alberta schools that were in the drought area. Could not something similar be done this year for the Grouard group. Your inspector, Mr. Smith, might be asked to communicate with Father Lajoie and to make a report on conditions as he finds them.

Hoping that you will give this matter your usual sympathetic consideration, I remain

Dear Sir:

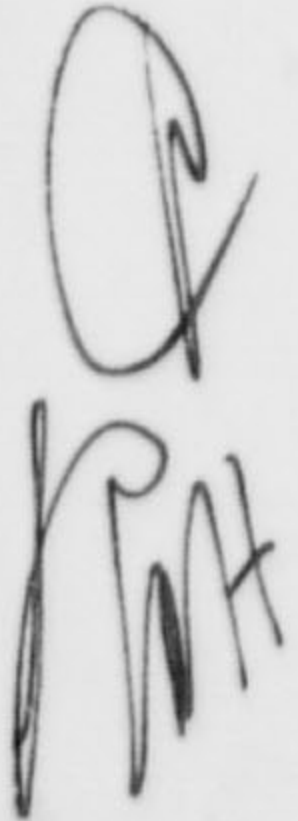

The following letter has just been received
from Rev. J.O. Plourde, O.M.I.:

"In a letter from Reverend Father Lajoie, administrator of the Grouard Indian Residential Schools which I received lately, my attention is called to the drought condition that prevailed in that part of Alberta where these schools are situated. "Hoping that you will give this matter your usual sympathetic consideration, I remain"

No special provision has been made in the current year's appropriation for any such assistance as requested by Father Plourde. While I have no doubt that conditions may be as he states at the same time it is extremely doubtful if this Branch could make any allowance to a single group of schools. However,

85 "	Turnips	Total Area Sown: 13 Acres
6 "	Peas	
21 "	Cabbages	
15 "	Beets	
11 "	Parsnip	

The Principal advises that he will require for the current / school year, in addition to the above, the following quantities of vegetables:

50 bushels Potatoes
40 bushels Carrots

The above could best be purchased in Edmonton and shipped in heated car, addressed to:

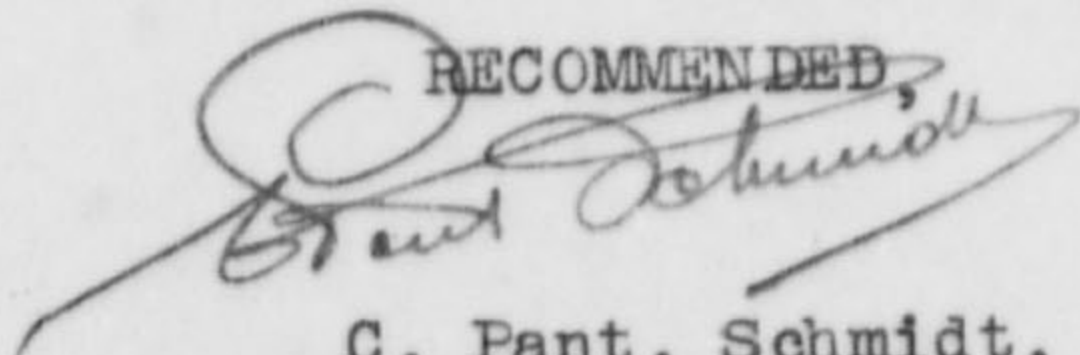

Rev. C. N. Middleton, Wabasca,
C/o B. Watkins,
Slave Lake, Alta.

Freighting from Slave Lake to Wabasca by heated caboose over the 90-mile trail.

The drought condition in the Wabasca District was very severe. This school was fortunate in not being so severely hit by drought and is able to report a crop just a shade below fair. They will be short of potatoes and carrots only. I would recommend that to the 40 bushels of carrots requisitioned, 7 cases of canned carrots ~~in 10s~~ be substituted. The latter are easier and cheaper of transportation and less liable to damage during the long overland haul from Slave Lake to Wabasca, they will also keep better during the ensuing summer months.

I recommend the supply of the above, same to be marked for shipment during March 1939.

3 bus.	Beets

The Administrator of R.C. Indian Residential Schools in this Agency submits his requisition for the following vegetables which in his opinion are needed by that school:

8 sacks	of Onions
8 sacks	of Peas for Soup
5 sacks	of White Beans
8 cases	Corn 6 x 10s
8 cases	Peas 6 x 10s
6 cases	Wax Beans
5 Galls	Dill Pickles

The goods requisitioned could be ordered at Grande Prairie from Campbell, Wilson & Horne, Limited. The School's Truck could take delivery there.

Late sown garden crops have suffered from drought to a certain extent, at Sturgeon Lake. Transplanted crops were irrigated and produced plenty. A surplus of oats at this School's farm was exchanged with Joussard I. R. School for potatoes of which the former was in need, this crop having been deficient.

The requisition for vegetables and canned goods mentioned above is found fair and the supply of same is recommended.

600 lbs Tomatoes	from 1600 sq. ft
250 lbs Pumpkins	
10 bus. Beans	
10 " Peas	
2400 heads Cabbages	from 3600 sq. ft

Rev. Father Lajoie, Administrator of the R.C. Residential schools in this Agency has submitted a requisition as follows hereunder for dry and preserved vegetables as being needed by this school:

- 10 Sacks of Onions
- 10 Sacks of Peas fro Soup
- 10 Sacks of White Beans
- 10 Galls of Dill Pickles
- 12 Cases of Peas 6 x 10s
- 12 Cases of Corn 6 x 10s
- 10 Cases of Wax Beans 6 x 10s
- 10 Cases of Tomatoes

Shipment to be addressed to:
Rev. P. Serrand, Principal,
Joussard Indian Residential School,
Joussard,
Alta.

At Joussard the crop was considered good. There was a surplus at the School of nearly 1000 bushels of potatoes which were exchanged with Sturgeon Lake Indian Residential School for Oats and with Peace River Mission (not a School) for hogs. These exchanges were to cover deficiencies and such practice of exchanging surpluses has obtained in the past.

I would nevertheless recommend the supply of the requisition as submitted, for the reason that these vegetables are required in addition to the crops they have harvested and will vary the daily menu.

RECOMMENDED, Yours faithfully,

Grant Schmidt

Sir:

I have for acknowledgment your No. 131-1-5 of the 7th ultimo, re letter addressed to the Department by Rev. J. Plourde, O.M.I., in which he refers to a letter received from Rev. P. S. Lajoie, O.M.I., Administrator for the R. C. Schools in the Grouard district, stating that on account of drought during the past summer, the school gardens did not produce sufficient vegetables for their needs, and that it will therefore be necessary to ship in a certain amount of canned vegetables:

Upon receipt of your letter, I wrote our Indian Agent, Mr. N.P. L'Heureux, as follows:

" I am in receipt of a communication from the Supt. of Welfare and Training, stating that the Department have been informed that owing to the drought conditions that prevailed in the Grouard district, where we have several residential schools, even the school gardens did not produce vegetables in sufficient quantities, and that such vegetables as are considered essential for the health of the children will have to be imported, at great cost, due to transportation charges:

" Will you please discuss this matter with Rev. Father Lajoie, Administrator of the R. C. Schools in the Grouard district, and let me have your report and recommendation in the matter.

" Also, let me have similar reports regarding the Anglican Schools at Whitefish and Wabasca."

I have since visited the Lesser Slave Lake Agency, being there from November 25th to December 6th. On my arrival there, Agent L'Heureux informed me he had written to the Principals of all Schools, asking them for a report of what they had harvested this year. He had received replies from all but Rev. Cathcart of St. Andrew's C. E. School at Whitefish Lake, who was away on a holiday.

Agent L'Heureux had not discussed the matter with Rev. P. S. Lajoie. This we did together, when he informed us that they were short of canned vegetables at all schools, and asked that we recommend purchase of same by the Department as per lists attached hereto.

The Agent and I then visited the Grouard, Sturgeon Lake and Jousard Schools, saw the stores of vegetables -- canned and bulk -- which they had on hand, and are agreed and satisfied that these are not sufficient to last until next year's crop is ready for use.

We met Rev. Father Beuglet, Principal of Wabasca R.C. School and found that his school was the hardest hit by drought, his potato crop having been a failure. He claims that the few potatoes harvested will not be fit for seed: They are spoiling. Twenty-five sacks have been thrown away already.

We did not visit Fort Vermilion School, but Father Lajoie stated he had been there this Autumn and found they did not have sufficient of certain vegetables.

We visited the Church of England School at Whitefish Lake. The Principal had not yet returned from his holiday. Mr. N. Reynolds, the Boys' Supervisor and Farming Instructor, who was in charge, informed us they had sufficient vegetables for their requirements.

We did not visit the Wabasca Church of England School, but communicated by local radio and telegraph with Rev. C. N. Middleton, the Principal, who stated he will require 50 bushels of potatoes and 40 bushels of carrots.

The drought did great damage in the Grouard district -- more so to small seed (garden stuff). -- Late rains helped grain (oat) crops, but did not benefit garden stuff, which had made a start and withered away before the rains came.

I recommend that the request for potatoes and canned goods be approved, purchase to be made from wholesale houses.

From personal observation and conversation with the Principals, I would say the other residential schools in the Province have sufficient vegetables for their requirements.

Rev. P. S. Lajoie told me that it was his intention to go East after Christmas, and that he would call on the Department when passing through Ottawa.

Reverend Sir:

I desire to refer to your letter of October 27 and my reply of November 7 in connection with drought conditions prevailing in the Grouard district of Alberta during the past summer.

A very complete report has been received from Mr. C. P. Schmidt, Inspector of Indian Agencies, and it appears that at some of the schools at least the school gardens did not produce sufficient vegetables to meet their requirements.

Our appropriation for the current fiscal year did not provide any funds that could be used to reimburse the schools for the loss that they have suffered. It might also be argued that conditions in the Grouard district are not similar to the conditions that prevailed last year in the Province of Saskatchewan when assistance was given to schools that had suffered from drought. The Province of Saskatchewan suffered from drought conditions for several years during which time no help had been given the schools and as a result their condition deserved special consideration last year. I understand that the summer of 1938 was the first time in many years that the Grouard district had suffered from drought.

Taking the above into consideration and the further fact that the Church representatives recently met the Honourable the Minister with a view to having the deduction in the per capita rate restored, I feel

that it would not be advisable to urge him to reimburse the schools in the Grouard district for a loss which, it is hoped, will not occur again.

WATER SUPPLY

INADEQUATE: A pipe-line from the school to Buffalo Bay (the extreme North-west end of Lesser Slave Lake) was used in the past. Owing to drought this summer, that part of the lake is now almost dry, except for a small body of water found on each side of a creek which runs through this bay. A ditch, several hundred feet long, was dug last summer, to bring the water from the creek to the end of the pipe-line. This, however, did not prove satisfactory, as the water therein was riled and weedy. I am attaching hereto a diagram showing the distance from the buildings to the water, at the present time. The pipe-line cannot now be used, as the shallow water in the lake and ditch is frozen through.

low this winter.

Let me point out that the situation is about the same in three other Schools of the Vicinity of Grouard, namely at Loussard, Sturgeon Lake and Fort Vermilion. The problem is serious and of so hard a solution that an Engineer alone is able to give practical direction. The water being very low in the lakes this winter there will never be better opportunity of investigating on the situation.

Hoping to hear soon of the decision of the Department. I remain,

Re: Grouard Indian Residential School
Sturgeon Lake Indian Residential School
Joussard Indian Residential School
Vermilion Indian Residential School.

It is reported that the water situation at the four schools mentioned above is very serious and we have received an urgent request for an engineer to visit them at the earliest possible date with a view to determining what is the best action to take.

I should, therefore, appreciate it if you could send an engineer to these schools and have him report what should be done to secure an adequate supply of water at each of them. It is understood, of course, that he will include in his report not only an outline of the work but an estimate of the cost.

C
The Grouard school is located 13 miles from the village of Grouard, Alberta. The Joussard and Sturgeon Lake schools can be reached from Grouard. I would recommend that an engineer first proceed to Grouard and the Principal there will arrange for transportation to Joussard and Sturgeon Lake. If your engineer wires Rev. C. regarding the time of his arrival at Grouard

Dear Mr. L'Heureux :

I should like to present a request for an electric bread-mixer for our school. With over a hundred growing boys and girls, and the Mission staff and employees to bake for, you can readily see that an electric bread-mixer has become a necessity. The mixer should have a capacity of approximately 125 pounds of flour.

This will not in any way hinder our girls from learning how to make bread, but will be a great time and energy saver. I shall indeed be grateful if you will approve and forward this request to the Department.

Dear Sir.

I have just received from His Excellency Mgr U. Langlois, O.M.I., of Grouard, a report of the survey made by the Engineer sent by the Department to investigate on the water problem at the Grouard Indian Residential School.

According to the report, the Engineer recommends the building of a large cistern where the water coming from the roofs or pumped from the lake could be stored for winter use.

I have no explanations. It seems the most practical way, and the less expensive too, to secure water. There is no doubt that the project is approved by His Excellency Mgr Langlois since he asks me to wire him the answer if the Department agrees to the proposition. Due to mild weather and to the fact that there is practically no frost in the ground, the work could be done this winter.

This cistern would be built with the credit asked for on the fiscal year 1939-40. Some material will be needed, I presume that the authorisation of doing the work would mean that the material can be bought locally, accounts to be rendered in due time and in due form.

Would you, please, send me the answer at the following address: 600, Cumberland Street, Ottawa, unless you wire yourself to Mgr Langlois.

Thanking you in advance for the attention,

MR. BAILEY

Re: Grouard Indian Residential
School

I enclose receipted accounts amounting to \$844.62 covering material purchased for repairs to the foundation and cellar of the Grouard Indian residential school.

The total expenditure at this school was \$2082.47 (Material \$844.62 - Labour \$1237.85).

Authority to make the payment was requested in our memorandum to the Deputy Minister dated February 20, 1939. This has been approved by the Honourable the Minister. It would, therefore, be appreciated if you would issue purchase order so that reimbursement may be made to the Grouard Diocese as this is a Church-owned school.

The above amount should be charged to Vote 77-10-691.

Grouard, Alta., Nov. 5 th, 1938.

Mr. Philip Phelan, Chief, Training Division,
Indian Affairs Branch,
Parliament Buildings,
Ottawa, Ont.

Dear Sir,

I am forwarding under same cover report
on labour done last summer at the Grouard Indian Residen-
tial School. Return sheet and receipted invoices attached.

Let me call your attention that I am reporting
only the work done at foundations, cellars and sidewalks.
A lot of other repairs was performed too, but as the credit
was exhausted, I am not reporting on. Most of the sewers
have been fixed and a lot of work done to bring water in
the barns. Water is a very hard problem here.

A car load of cement was purchased in April
in order to profit by frozen roads for hauling, and to start
the work early in the season. So, cement work was done in
the best conditions.

Believe me,

Dear Sir,

Yours very truly,

Grouard Mission, Alta..
31st January, 1939.

Memorandum - C. M. Walker, Esq..
Banff, Alberta.

I arrived at Grouard Station at four a.m. this morning and was met by a team and sleigh and reached the mission at 7:30 a.m. Spent the day investigating and discussing the water supply situation here with various interested officials and feel that I should put on record my appreciation of the kindly courtesy and assistance I have received from all.

The present water situation is entirely unsatisfactory. For drinking water they are using melted ice obtained from the main Lesser Slave Lake, eight miles away. For domestic and sanitary purposes they are hauling water in barrels from the remnants of Buffalo Lake, a distance of 400 yards. For stock watering purposes they have a quite satisfactory well.

Buffalo Lake, which is now at its lowest recorded level, is, even at its best during high water periods, quite unsatisfactory in my opinion. It is simply a huge slough several square miles in extent when full but last summer was a big hay meadow. There is a small sluggish creek formed by seepage, flowing through it from which they are now obtaining their domestic water supply. Today there was two feet of rusty-coloured water in the water-hole out in the ice, which I am confident is likely to be subject to pollution and contamination. They have a pump for getting water out of this so-called lake, which is now out of action due to a complete absence of water at the intake. The pump would be useless in wintertime anyway due to the 2-inch water main freezing as it is only a couple of feet beneath the surface. Even during periods of high water, I believe this source for domestic water to be unsatisfactory.

The present well has a flow of approximately 1200 gallons (perhaps more) per day but I would condemn it as a source of domestic supply as it is too near the barn and in the barnyard and so subject to contamination from surface water. The water has a satisfactory taste and was also quite satisfactory for washing my hands in as the soap lathered well. However, the Sister in charge of the kitchen stated it was not satisfactory for laundry purposes and for washing the dishes as it required too much soap. She prefers to use melted snow water in winter and rain water in summer. While there may be something in what she says, I believe she has been doing it for so long that it has become a habit and would instinctively balk at any sudden change but might accept a change for the better slowly.

Recommendations

There is not only the well mentioned above but another well sixty feet from it used for stock watering purposes, both wells being about 33 feet deep. There have also been two other wells within two hundred yards getting water at the same level and I have been informed that there are some slight water seepages on Buffalo Lake shore in this close vicinity, all of which leads me to believe that there is a water-bearing strata about thirty to forty feet deep in the area occupied by the Mission Buildings.

Consequently, I would recommend that a well be dug (not drilled) on a site selected behind the Boys' Dormitory. I do not expect a big flow of water and so suggest that the well be about 8' x 8' to form a big collecting basin at the bottom. If a satisfactory supply is found, a pump should be installed with a 3000-gallon lumber tank built over it, from which water will flow by gravity to pressure tanks already installed in five buildings, namely Boys' Dormitory, Convent, Priests' House, Kitchen and Laundry. The gravity supply system would require to be buried about seven feet underground.

The above recommendation, if carried out, would I think provide all the main mission buildings with a satisfactory supply for drinking, ablutions, bathing, water closets and fair fire protection, and might in time be accepted by the Sisters for kitchen and laundry purposes.

The estimated cost is \$1,700.00 but has been worked out roughly and is subject to change after I have had an opportunity of checking prices when passing through Edmonton.

There is one related question which I should mention and which will apply to any proposed work for the Mission Schools at Jossard, Sturgeon Lake and Fort Vermilion. The current wages paid by all these schools for labour is low and a little more than half that set by the Fair Wages Scale. If our Engineering Branch does the work itself, it will have to pay the Fair Wages Scale which for labourers, for example, is 45¢ per hour while the local rate is 20¢ or 25¢ per hour. You can see where this would be upsetting locally. Consequently, I would suggest that any work done be turned over to the school authorities within the Indian Branch for execution, our Branch remaining entirely in an advisory capacity. This arrangement, I believe, would save the department money and be more satisfactory all around and especially to the local school authorities who are thoroughly conversant with local conditions and labour.

"C. K. LeCapelain"
Assistant Engineer.

P.S. Am going to Jossard tomorrow (1st February) and afterwards to Sturgeon Lake by snowmobile if they can get it to work.

Joussard and Vermilion Residential
Schools' Water Systems.

With reference to the above, I am forwarding herewith, copy of a report prepared by Mr. C.K. LeCapelain who has made an inspection of the Grouard Mission water supply.

This report may be considered merely as an interim report, and further information will be available shortly, when Mr. LeCapelain has had time to check prices etc.

It might be noted, however, that he has estimated \$1700.00 as the cost of digging a well 8' x 8' presumably 40' deep, and the installation of a pump with a 3000-gallon lumber tank from which water will flow by gravity to pressure tanks in the five buildings.

Wabasca R. C. School	\$2,056.84
Necessary expenditure for water at four schools	<u>4,800.00</u>
Total	\$6,856.84
Possible additional expenditure for water without taking Wabasca into consideration	<u>2,300.00</u>
Grand Total	<u>\$9,156.84</u>

The above figures indicate that if the expenditure to improve the water situation is made practically the total amount provided in the Estimates for 1939-40 will be required. It is possible, however, that there might be some saving on the estimated cost of the improvements, as it is our intention to request you to have the work done under your supervision. You realize, of course, that the engineer's reports have just reached us and, as both our Main Appropriation and the Supplementaries for the fiscal year 1939-40 have been prepared, it is not possible to provide funds other than those already specified in our 1939-40 Appropriation.

Considering the whole question, the Department feels that, in view of the representations made by yourself and the further information received from our engineer, it would appear advisable to improve the water situation before making any other expenditure. The total amount provided in the Appropriation for 1939-40 for the five schools in the Grouard Diocese cannot be exceeded and, consequently, until the improvements to the water system of the schools are made and the Department is definitely aware of the actual expenditure, it will not be possible to consider further purchases or the authorization of additional repairs and improvements.

I thought it advisable, before requesting the Surveys and Engineering Branch to issue definite instructions regarding the manner in which the water supply should be handled, to write you fully, in order to save correspondence and so that both of us may be fully aware of the situation from a financial standpoint.

When you have had an opportunity of studying the contents of this letter, I would like to hear from you. It would be appreciated if your reply was forwarded as soon as possible, as, if we are to proceed with the improvements to the water supply at the four schools mentioned above, and also at the Wabasca School when the engineer's report is received, it will be advisable to make the necessary arrangements at the earliest possible date.

Yours truly,

R. S. Hoey,
Supt. of Welfare & Training.

lumber tank from which water will flow by gravity to pressure tanks in the five buildings.

(2) Joussard:

The engineer does not consider it probable that digging a well in the vicinity of the building would result in a sufficient or suitable supply of water. He recommends digging a well close to the present pump house on the lake shore.

Should this well prove unsatisfactory, it will be necessary to go out into the lake and lay sufficient pipe to a depth sufficient to make it safe against frost.

(3) Sturgeon Lake:

Digging a well near the lake and providing tanks, piping, etc., in connection therewith.

Should the well prove a failure, it is recommended that the intake be extended another 350' and laid in such a way as to be usable in the winter season.

(4) Vermilion:

Digging a new well and supplying a new pump house to house a 3000-gallon tank and pump - a new pipe line to be laid to tanks in the basement of the convent and boys' dormitory.

It may be necessary to have a water pump for distribution. In this event, two shallow well electric pumps might be purchased.

The following table shows the estimated cost of the work recommended by the engineer:

	<u>Necessary Expenditure</u>	<u>Possible Add. Expenditure</u>
Grouard	\$1,700	-
Joussard	450	\$1,350
Sturgeon Lake	1,000	700
Vermilion	1,650	250
Wabasca	-	-
	\$4,800	\$2,300.

The second column of the above table, viz., "Possible Additional Expenditure", refers to Paragraph 2 in regard to Joussard, Sturgeon Lake and Vermilion.

From the information given above, the following is a summarized statement of the possible expenditure:

Rev. Sir:

We have recently received, from the engineer who visited the Grouard Diocese, reports in connection with the water situation at four of the schools, and it is presumed that the report on the Wabasca School will reach us shortly.

The situation is apparently rather serious, at least from a financial point of view, and I felt it advisable to write you immediately and can communicate with you again when the report on Wabasca is received.

The following amounts are provided in our Appropriation for the fiscal year 1939-40 for the schools in your Diocese:

	<u>Repairs & Improvements</u>	<u>Equipment</u>
Grouard	\$2,000	\$1,200
Joussard	750	1,250
Sturgeon Lake	1,500	-
Vermilion	300	200
Wabasca	<u>3,000</u>	<u>-</u>
	\$7,550	\$2,650
	Total \$10,200.	

We have already authorized purchase of the following:

REPORT on Water Supply Situation at
Grouard Residential School, Alta.

The present water supply situation at this school is entirely unsatisfactory. For drinking water they are using melted ice obtained from the main Lesser Slave Lake eight miles away. For domestic and sanitary purposes they are hauling water in barrels from the remnants of Buffalo Lake, a distance of 400 yards. For stock-watering purposes, they have two satisfactory wells at the barns.

The sanitary and plumbing facilities within the school buildings are the best of the four residential schools that I visited during this trip, namely Grouard, Jossard, Sturgeon Lake and Fort Vermilion, and would be adequate for the present situation if they had a proper source of water supply.

Buffalo Lake, which is now at its lowest recorded level, is, even at its best during high water periods, quite unsatisfactory as a source of water supply in my opinion. It is simply a huge shallow slough several square miles in extent when full, but last summer was practically dry and a big hay meadow. There is a small sluggish creek formed by seepage flowing through it, from which they are now obtaining their domestic water supply. On the 31st January, 1939, there were two feet of rusty-coloured water in the waterhole cut in the ice which I am confident is likely to be subject to pollution and contamination.

They have a pump for getting water out of this so-called lake, which is now out of action due to a complete absence of water at the intake. The pump would be useless in winter time anyway due to the 2" water main freezing as it is only a couple of feet beneath the surface. Even during periods of high water, I believe Buffalo Lake to be unsatisfactory as a source of domestic water supply.

The main well at the barn has a flow of approximately 1200 gallons per day. The other well close at hand has a much smaller flow. I would condemn both these wells as sources of domestic water supply owing to their proximity to the barn and the danger of their being contaminated by surface water. The water

has a satisfactory taste and was also quite satisfactory for washing my hands in as the soap lathered well. However, the Sister in charge of the kitchen and laundry stated it was not satisfactory for laundry purposes nor for washing the dishes as it required too much soap. She prefers to use melted snowwater in winter and rainwater in summer. While this opinion can be appreciated as there is no softer water obtainable anywhere, still she may accept and use similar water to that obtained in the well at the barn if it can be obtained cheaper and more economically and with no more effort on her part than by turning on a faucet.

Both wells near the barns are about thirty-three (33) feet deep and have about five (5) feet of water standing in them. Two other wells have been dug in the past but are not now used; both had moderate flows of water. One of them outside the convent was 20 feet deep and the other between the priests' house and the lake shore was about 6 feet deep. I was informed that there are some slight water seepages along the shore of Buffalo Lake in the vicinity of the school buildings, all of which leads me to believe that there is a water-bearing stratum about 30 feet deep in the area occupied by the school buildings. Consequently, I think that sufficient water can be obtained from a well or wells for the school purposes, especially if a storage reservoir is built for banking up a supply of water on days when little is used for use when a larger quantity is required, such as on washdays and for fire protection purposes.

The residential buildings of the school are provided with water closets and septic tanks so the new well should be sited above the disposal fields and away from possible runoff water from the barns. With this in mind, I selected a site towards the rear of the boys' dormitory where they should try first for water. This site is on a slight eminence with the surface sloping away in practically all directions.

I would recommend that this well be dug 8 x 8 feet to form a collecting basin at the bottom and it is expected that water will be found within 40 feet. If a satisfactory supply is found, a pump should be installed with a 3000-gallon lumber tank built over it, from which water will flow by gravity to pressure tanks already installed in five buildings, - namely Boys' Dormitory, Convent, Priests' House, Kitchen and Laundry. The gravity supply system should be buried below frost line and the pump and 3000-gallon tank housed in a warm building.

The above recommendations, if carried out, would I think provide all the main school buildings with a satisfactory all-year supply of water for drinking, ablutions, bathing, water closets and fair fire protection (combined with chemical extinguishers), and might in time be accepted by the Sisters for kitchen and laundry purposes.

The prevailing rate for labouring wages paid by the school is low and a little more than half that set by the Dept. of Labour Fair Wage Scale. If our Engineering Branch does the work itself, it will have to pay the Fair Wage Scale which for labourers, for example, is 45¢ per hour, whereas the local rate is 20¢ or 25¢ per hour. It can be understood that this would be upsetting locally. Consequently, I would suggest that any work done be accomplished by the school authorities under the control of the Indian Affairs Branch, our Engineering Service remaining entirely in an advisory capacity. This arrangement, I believe, would save the department money and be more satisfactory all around and especially to the local school authorities who are thoroughly conversant with local conditions and labour.

Mr. Wardle

Re: Water Supply Situation at
Grouard Indian Residential
School

As instructed in your memorandum of January 20th last, arrangements were made for an inspection of the water situation at the above School, and resulting reports, which have now been received, are attached in duplicate.

Encls.

X
Apparently there are no means at present of obtaining water at this School that are worth considering. Our Engineer rules out both Buffalo Lake and present wells near barn, as both these sources of water are likely to be subject to pollution and contamination.

The present wells at the barn apparently furnish a satisfactory water supply for the stock.

We recommend the undertaking of the work estimated by our Engineer to cost \$1,700.00, which estimate is detailed on page 3 of his report. This covers the digging of a well, installing a pump and a 3000 gallon tank, in a building to be constructed near the well, and the laying of the necessary pipe below frost line to carry water, by gravity, to pressure tanks already installed in the buildings.

Labour costs in above estimate are based on prevailing rates of pay in the district as mentioned in the last paragraph of our Engineer's report.

Respectfully submitted,

you in your own container for examination.

BACTERIOLOGICAL.

Number of organisms per C.C. or each 15 drops: 180
Presence of organisms indicating unfavorable contamination:
Negative.

CHEMICAL : See attached results.

The water represented by the sample does not show
any bacteriological of unfavorable contamination.

Chemically it is a very hard water containing
sodium sulphate, a laxative salt, and throwing down a sedi-
ment of iron. Iron is injurious when there is a distinct
taste of it and should be allowed to sedimentize before the
water is used for domestic purposes. This is not a good
water for domestic purposes., owing to the saline content.
As we have no information as to the source of this sample,

Dear Sir,

Yours of the 15 th inst in connection with the water problem in the Indian Residential Schools of the Vicariate of Grouard is at hand. Let me, first, thank you for the interest you pay to the question.

After having discussed the question with His Excellency Mgr Ubald Langlois, O.M.I., Vicar Apostolic, I am authorized to tell you that the authorities of the Vicariate fully agree with the Department, I mean that it is advisable to improve the water situation before making any other expenditure. So, let it be understood that the improvement of the water system in our schools will have the priority on any new expense. (As pointed out in your letter, Wabasca makes an exception, material and furniture having been shipped by now.) Would there be a balance left, it will be used for the most urgent needs.

I understand that an Engineer is to make a survey of the water supply at our Wabasca School. We are pleased to hear this. So, our water problem will be settled in a definitive way.

It is too early to discuss the details, the engineer's report not being available yet. Nevertheless, let me add a word concerning Grouard. We have had the water coming in wells analysed at the Provincial Laboratory in Edmonton. This water has been classified as very hard, so poor that we wonder if it would be advisable to go in heavy expenses to secure such water. We feel that it would be of good policy to inquire on the feasibility of boring a well deep enough to get soft water. Soft water has been encountered at 680 feet at McEwan. This water is used with satisfaction in Hospital and Hotel.

I am gathering data on the problem. Informations secured will be communicated as soon as at hand. You easily understand that we are anxious to know ~~how~~ how it will turn out.

Rest assured that we will do our best to profit by the cooperation the Department is willing to give us in the solution of one of the most important problems we are facing. We are waiting for the recommendations of the Engineer to make the first move.

Thanking you once more for the interest you may to this question, I remain,

Memorandum:

DEPUTY MINISTER

A serious shortage of water has developed at four of the Church-owned Indian residential schools in the Diocese of Grouard.

The Surveys & Engineering Branch was requested to have one of their engineers visit the schools concerned and report what action should be taken to improve conditions.

I am now in receipt of the following reports from the Surveys & Engineering Branch:

1. GROUARD

Engineer recommends digging a new well and supplying pump and 3000 gallon tank at an estimated cost for material and labour of \$ 1,700.00

2. JOUSSARD

Engineer recommends digging a well at an estimated cost for material and labour of 450.00
If this proves unsatisfactory it will be necessary to go out into the lake and lay sufficient pipe to a depth to make it sufficient against frost. This latter item would cost an additional ... 1,350.00

Indian Affairs. (RG 10, Volume 6366, file 761-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

3. STURGEON LAKE

Engineer recommends digging a well near the lake and providing tanks, piping etc. at an estimated cost for material and labour of \$ 1,000.00
Should this prove a failure he recommends that the intake be extended another 350 feet and laid in such a way as to be useful in the winter season. This will necessitate a further expenditure of 700.00

4. VERMILION

Engineer recommends a new well be dug and a new pump house erected to house a 3000 gallon tank, also that a new pipe line be laid to tanks in the basement of the school. The engineer estimates the cost of material and labour at 1,650.00

In making the above recommendations the engineer considers that the work should be handled under the direction of the school management as they can obtain labour at a very reasonable rate. Of course, all work would be under the supervision of an engineer of the Surveys & Engineering Branch.

In our appropriation for the fiscal year 1939-40 amounts are provided for new equipment, repairs and improvements at the above-mentioned schools. I have already written to the Administrator of the Grouard Diocese pointing out to him that owing to the necessity of immediately improving the water supply at the four schools mentioned it is considered that this work should be a first charge against the money provided for repairs and improvements at the above-mentioned schools in the 1939-40 estimates. I have today received his reply approving our using the money in the manner suggested in the preceding sentence.

It would be appreciated if the Honourable the Minister would approve our authorizing the management of the above-mentioned four residential schools to proceed with the necessary work along the lines suggested by the engineer of the Surveys & Engineering Branch as soon as weather conditions permit.

Mr. Philip Phelan, Chief,

Dear Mr. Phelan,

Re: Water Supply.

On the recommendation of the engineer graciously sent by the Department to study the water problem at the Indian Residential School of Grouard, a sample of the water we can get here from wells, surface wells, has been sent to the Provincial Laboratory for analysis. Please find enclosed a copy of the report.

As you will see, it is very poor water, not good for domestic purposes, as stated, and not fit for laundry on account of its hardness. I do not want to anticipate on the recommendations of the engineer, but I can't refrain from stating that I am not ready to go in heavy expenses to secure such water before having acquired the certainty that it is impossible to get better water. Nevertheless, I will read with the keenest interest the report of the Engineer when available.

By the time, I am gathering data on the problem. Having heard that the Imperial Oil Co did some boring in the country a few years ago, looking for oil or gas, I am inquiring if any soft water was encountered and at what depth. Besides, I have applied for a copy of a report made by Provincial Geologists who made a survey on the possibility of getting soft water in the Peace River District. I will communicate you the results of my inquiry.

Let me profit by this opportunity to thank you, Mr. Phelan, for the help you gave me in Ottawa, and believe me yours very truly,

Re: Grouard Indian Residential
School

I enclose receipted accounts amounting to \$844.62 covering material purchased for repairs to the foundation and cellar of the Grouard Indian residential school.

The total expenditure at this school was \$2082.47 (Material \$844.62 - Labour \$1237.85).

Authority to make the payment was requested in our memorandum to the Deputy Minister dated February 20, 1939. This has been approved by the Honourable the Minister. It would, therefore, be appreciated if you would issue purchase order so that reimbursement may be made to the Grouard Diocese as this is a Church-owned school.

The above amount should be charged to Vote 77-10-691.

Memorandum:

DEPUTY MINISTER

A serious shortage of water has developed at four of the Church-owned Indian residential schools in the Diocese of Grouard.

The Surveys & Engineering Branch was requested to have one of their engineers visit the schools concerned and report what action should be taken to improve conditions.

I am now in receipt of the following reports from the Surveys & Engineering Branch:

1. GROUARD

Engineer recommends digging a new well and supplying pump and 3000 gallon tank at an estimated cost for material and labour of \$ 1,700.00

2. JOUSSARD

Engineer recommends digging a well at an estimated cost for material and labour of 450.00
If this proves unsatisfactory it will be necessary to go out into the lake and lay sufficient pipe to a depth to make it sufficient against frost. This latter item would cost an additional ... 1,350.00

3. STURGEON LAKE

Engineer recommends digging a well near the lake and providing tanks, piping etc. at an estimated cost for material and labour of \$ 1,000.00
Should this prove a failure he recommends that the intake be extended another 350 feet and laid in such a way as to be useful in the winter season. This will necessitate a further expenditure of 700.00

4. VERMILION

Engineer recommends a new well be dug and a new pump house erected to house a 3000 gallon tank, also that a new pipe line be laid to tanks in the basement of the school. The engineer estimates the cost of material and labour at 1,650.00

In making the above recommendations the engineer considers that the work should be handled under the direction of the school management as they can obtain labour at a very reasonable rate. Of course, all work would be under the supervision of an engineer of the Surveys & Engineering Branch.

In our appropriation for the fiscal year 1939-40 amounts are provided for new equipment, repairs and improvements at the above-mentioned schools. I have already written to the Administrator of the Grouard Diocese pointing out to him that owing to the necessity of immediately improving the water supply at the four schools mentioned it is considered that this work should be a first charge against the money provided for repairs and improvements at the above-mentioned schools in the 1939-40 estimates. I have today received his reply approving our using the money in the manner suggested in the preceding sentence.

It would be appreciated if the Honourable the Minister would approve our authorizing the management of the above-mentioned four residential schools to proceed with the necessary work along the lines suggested by the engineer of the Surveys & Engineering Branch as soon as weather conditions permit.

The Minister has approved of the above. He asked me to inquire if you had consulted with the Mines and Geology Branch for the purpose of ascertaining if they had any information in connection with the underground water supply at these various schools. He expressed the view that we should proceed carefully before spending the money in drilling wells until we were sure that there was a sufficient water supply.

Re: Water supply Grouard
Indian Residential School

In connection with the above I wish to refer to your memorandum of March 13 enclosing report made by Mr. LeCapelain. He recommended as follows:

That this well be dug 8 x 8 feet to form a collecting basin at the bottom and it is expected that water will be found within 40 feet. If a satisfactory supply is found, a pump should be installed with a 3000 gallon lumber tank built over it, from which water will flow by gravity to pressure tanks already installed in five buildings; namely, Boys' Dormitory, Convent, Priests' House, Kitchen and Laundry. The gravity supply system should be buried below frost line and the pump and 3000 gallon tank housed in a warm building. He estimates the cost of this work at \$1700.00.

As your engineer suggested that any work done be accomplished by the school authorities under the control of this Branch and that your engineering service remain entirely in an advisory capacity, I am arranging to forward an amount of \$1700.00 to the Principal of the Grouard Indian residential school. I am informing him that he is not to proceed with the work until he receives definite instructions from your engineer with regard to the manner in which the work is to be carried out.

Dear Sir,

Re: Water Supply.

I take the liberty of inquiring if we can rely soon on the engineer's report and recommendations in connection with the water supply at the Indian Schools of the Vicariate of Grouard. By your letter of the 15 th of March, I understood that this report was to be forwarded without delay. The mild season is so short here that we would like to start the work as soon as possible.

As pointed out in my letter of March 22 nd, I have gathered data on the experiments made in the country. Water has been encountered nearly everywhere at different depths varying from 65 feet down. As to the nature of the water, I could not get any precise information as the boring was done for Oil.

Having heard with great favour of Mr. Frederickson of St-Paul, Alta., the fellow who bore the well at the Indian School there, I wonder if it would not be profitable for us to call this gentleman here to study on the spot the best location for a well. Would you authorize the trip from St-Paul to here?.... We could have the benefit of his experience.

If there is no change in the temperature, the situation will be more serious next winter than during the past. ~~winter~~ There is very little water in the lake just now and it is receding every day. This water is far from being soft. We long for a change.

His Excellency Mgr U. Langlois, O.M.I., who is presently in the East, will presumably call on you in a few days. There is no doubt that a final decision on what is to be tempted will be arrived at.

Thanking you in advance, Dear Sir, for the attention you will give to this problem, I remain

Instruction for making installation of Water
System at Grouard:

(1) Drill Well -- Place Casing -- Connect Pump.

The well should be drilled behind the new building as near to the building as possible. The surface water flow which will be encountered about 30 ft. deep should be cased off. Well should be drilled to a satisfactory supply of soft water if funds will permit. When well is drilled a small pump house should be built to house pump and motor. A discharge line should be laid 7' deep underground from pump to connect with pressure tank inside basement near boiler.

(2) Excavate trenches and lay pipe lines.

Excavate trenches at least 7' deep and lay pipe as shown on sketch plan. Cover with straw and back-fill with earth. Place crosses and tees as shown or as required. Use pipe tapken up from the present intake into the lake.

(3) Install two pumps and make connections as shown on plan.

Install the centrifugal pump on top of the concrete cistern in the basement of the new building and make connections as shown on plan.

(4) Install pressure tank and make connections to same.

Place pressure tank in the basement of the new building near the boiler and seated on three saddles made of 6" x 12" beams.

I am forwarding herewith a copy of equipment and fittings ordered by our Supervising Engineer at Banff for the water installation at Grouard school.

Mr. Walker's letter to Father Lajoie also gives instructions as to how the installation is to be carried out, together with estimated costs.

I am also forwarding a blueprint of the water supply layout.

I might say in this connection that in order to avoid frost troubles and fire hazard our Engineers decided that the tanks should be of steel and should be installed in the basements of the building, this being more preferable and economical.

Here at Grouard it is not easy to find
suitable water. Water was encountered at 330
feet, rather soft water, but it was so dirty that
it was out of question to use such water. We have
to go deeper. By the rest, the laying of the pipes

Could the Department provide me with plans and estimates for an Ice Barn?... I presume that the Department has plans for such building suitable for Indian Schools.

We have to do something in that line at Jousard. The Ice Barn is falling down. It has been question to get a Frigidaire for Jousard, but a keen study of the question has brought us to the conclusion that we dont dispose of the electric power requested for a frigidaire. We dont want to overload the batteries. We will have to stay with Ice Barns.

I am aware that at Resolution, N.W.T., they have a system of refrigeration by salt. This has been installed seven or eight years ago, at least. It may be that the plans have been provided by the Department. I would be interested to get informations on this system.

Thanking you in advance for the attention you will give to this question,

Re: Grouard Indian Residential School
Joussard Indian Residential School
Vermilion Indian Residential School
Sturgeon Lake Indian Residential School

This week Right Reverend U. Langlois, O.M.I., Bishop of Grouard, visited this Branch and discussed with us the work that is in progress in connection with the water supply system at each of the above-mentioned schools.

As you have previously been informed funds were provided in the current year's appropriation for the improvements suggested by your engineers. However, it appears from the information received from Bishop Langlois that the work has not yet been completed.

No provision is being made in our appropriation for the fiscal year 1940-41 for money required in connection with the water systems at these schools and moreover the Principal of each of the schools is anxious to secure a considerable amount of new equipment if funds available in the current year's appropriation are not being used in connection with the water systems.

The season is advancing and I am extremely anxious to know at the earliest possible date what progress has been made at each of the four schools mentioned above, also when the water systems at these schools will be completed.

Re: Grouard Indian Residential School
Joussard Indian Residential School
Vermilion Indian Residential School
Sturgeon Lake Indian Residential School

I desire to refer to my memorandum of November 22 in connection with the water supply system at each of the above-mentioned schools. I am today in receipt of the following letter from Rt. Rev. U. Langlois, Bishop of Grouard:

"Referring to our recent conversation about the water problem at our Indian Residential Schools I suggest that your Department hires the services of Mr. J. L. Gervais, of Montreal, to locate the exact spot where the wells should be drilled to assure a sufficient supply of water.

"Mr. Gervais is not what is commonly called a water wizzard; he is a real scientist, a radio-physic prospector of great experience who specialized in the finding of water and well drilling. As you know, the science of radiation has lately made immense progress and the success Mr. Germais has met with proves that he has attained a high degree of proficiency in this new science. His address is 8609, St. Denis St., Montreal, and his phone No. Dupont 2965.

"May I mention that among the numerous credentials he would be glad to show you is a letter of recommendation to the Committee of National Defence signed by the Hon. Minister of Public Works, Mr. Cardin.

"I would suggest that Mr. Gervais be sent immediately to Joussard, Sturgeon Lake and other schools in Alberta or Saskatchewan where the water supply is not sufficient, and where your engineers have recommended the drilling of deep wells. In my humble opinion it is worth while trying the ability of this man, specially when his ability is so highly recommended. Mr. Gervais is not busy for the moment and he would be willing to undergo this trial almost for a nominal fee besides his expenses."

MEMORANDUM:

Mr. Wardle.

Re: Water Supply Systems at Grouard, Jousard,
Vermilion and Sturgeon Lake Indian Resi-
dential Schools.

I have your memorandum of the 24th ultimo with attached copy of a memorandum that you had received dated the 22nd ultimo from Dr. McGill with regard to the water supply systems at the above schools.

From recent reports received from Mr. Walker, we are now in a position to give the following information:

Grouard Water System:

The driller did not get water at the original depth estimated, and Mr. Walker advises that Father Lajoie has had the well continued to a greater depth in the hope of securing a suitable flow of water. On November 17th the well was down 650 feet with hopes that the drilling would soon break through shale formation into water bearing strata, particularly as water was found in a well drilled in the vicinity at approximately the above depth. Under the circumstances, however, Mr. Walker in a letter to Father Lajoie, dated November 20th, authorized the continuing of the well to 800 feet, which is as deep as the driller can go with his machinery.

If, however, water is not found then, Mr. Walker has suggested to Father Lajoie that they drop back to the 330 foot level and arrange to utilize the flow of about three gallons a minute of water that was found at this latter depth. It is Mr. Walker's opinion that, while this water when encountered was muddy, that it will clear in time.

Mr. Walker is in the same position as this office when he states that he is not aware under what financial arrangement Father Lajoie has been able to extend the well so much deeper than originally estimated, but assumes that he has funds available for the purpose separate and additional to the original \$1,700.00 allotment. Mr. Walker's statement of expenditure to date and estimated additional expenditure is as follows:

"Original allocation as per your letter
of June 8th and as shown distributed in my
report and letter of instructions of August
17th\$ 1,700.00

The work done is as follows:

1. All distribution mains laid 7' underground and covered.
2. Well down 650 ft. At 330 ft. flow of approximately three gallons per minute tapped. This was soft water but not clear. Father Lajoie has continued drilling and as he had reached 650 ft. before advising Mr. Walker, the latter instructed him to continue to the maximum depth capacity of the equipment on the ground, namely 800 ft., if necessary.

The work still to be done consists of completion of well drilling, the construction of a small pump house and the installation of the pressure tank and centrifugal pump.

Joussard Water System:

On the 20th ultimo Mr. Walker wrote Father Lajoie in accordance with instructions sent from this office based on authorization contained in your memorandum of the 14th ultimo for the undertaking of work at this school with \$2,700.00 which Dr. McGill was arranging to provide.

Mr. Walker suggested to Father Lajoie that it would be advisable to get drilling of the Joussard well under way immediately, and to do this it would be necessary to get another rig for the job providing the driller he then had at Grouard was likely to be detained for some time.

Since writing Father Lajoie on the 20th ultimo, Mr. Walker has received no report. Therefore, as far as our information goes at the moment, the standing of this project is as follows:

- "(A) Authorized Expenditure as per your letter of November 18th.....\$ 2,700.00
Estimated additional funds required, based on all available information to date..... Nil.
- (B) Work Done: No work done to date.
- (C) Work to be done: Drill well near main building, install pressure tanks, make pipe connections and build pump house."

Fort Vermilion Water System:

Under date of October 20th last Mr. Walker received the following telegram from Father Huguerre:

"Well and cribbing down thirty two feet (Stop)
Overcome by surface water coming fifteen hundred
gallons per hour (Stop) Two twelve gallon buckets
working steady with horses cannot keep up (Stop)
No pump available here (Stop) Waiting your sug-
gestions."

As the above depth would be below the water sur-
face in the river, Mr. Walker considered that it was river
water entering the well instead of surface water and on
October 26th sent the following telegram to Father
Huguerre:

"Retel do not dig well any deeper at present but ex-
tend cribbing to bottom of well (Stop) If possible
complete trenching laying and connecting pipe instal
pressure tank complete wiring and erect pump plat-
form chain hoist etc. (Stop) Advise soon as pump re-
ceived and installed how high above bottom water
rises in well before pumping."

The following is Mr. Walker's cost estimate and
work statement:

"(A). Original allotment.....\$ 1,650.00
Estimated additional amount required..... 350.00

Total estimated expenditure for season.....\$ 2,000.00

(B). Work done.
Distribution mains installed in 7 ft. trenches, connec-
tions made and back filling completed. Well dug and
cribbed. Pressure tank installed and connected.

(C). Work to be done.
1. Pump to be installed in cribbed well.
2. Trench to be dug and pipe to be laid from well to a
point below water surface in river, providing seepage
from river into well through river bank is inadequate
and makes this intake necessary."

Sturgeon Lake Water System:

Mr. Walker advises that according to reports re-
ceived from Father Lajoie, all land work scheduled for the
Sturgeon Lake installation, consisting of excavating trenches,
laying pipe, back-filling, connecting pipe and installing
pressure tank, has been done. It has been noted, however,
that Mr. Walker had suggested to the principal of this
school that it was advisable to endeavour to excavate some
450 lineal feet of trench into the lake. When Mr. Snelson
visited this school, he was told that it was considered
feasible to undertake this latter work by hand. Any other
method such as shipping a power excavator to Sturgeon Lake
was considered too expensive for so small a job. However,
in a later report, dated November 27th, Father Lajoie ad-
vised Mr. Walker that so far they had not been successful
in extending the trench into deep water by hand methods.

Indian Affairs. (RG 10, Volume 6366, file 761-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Mr. Walker has written the principal of this school, Father Fournier, asking him if he considered that this trench could be extended into the lake by working through the ice after the ice was about 6" thick. Mr. Walker further advised that if such method was not feasible, then apparently funds would have to be provided for drilling a well estimated to cost \$500.00. Mr. Walker advises, however, that no reply has as yet been received from the principal of the school, Father Fournier, with regard to this matter.

If it is found necessary to drill a well, the pump house and pipeline from the lake can remain as it is for use when the lake is not too low or frozen over, and would be available at certain times for fire protection and possibly could be converted later into a year-round standby supply if some feasible method can be found to deepen the intake into the lake. Mr. Walker considers this an important point as from the standpoint of fire protection, it is to the advantage of the school to secure water from the lake if possible.

From the above it will be noted that at the end of November, Mr. Walker's information was not complete enough to allow of a definite estimate of funds required or work to be done. However, in his report Mr. Walker submits the following statement as being the best he can supply under the circumstances for funds required and report on work done or proposed:

- "(A) Original allotment \$1,000.00
Estimated additional amount required 500.00
Total Estimated expenditure for season \$1,500.00
- (B) Work done: Pipe laid and connected in trenches and to installed pressure tanks.
Trench into lake started but not completed.
- (C) Work to be done: Trench into lake to be completed by working through ice if possible. If impossible then well to be drilled at an estimated additional cost of \$500.00."

Summarizing the preceding reports with reference to expenditure, the following statement is obtained:

	Estimated Ex- penditure for Season.	Allotment	Additional Funds Required.
Grouard	\$ 3,321.00	\$ 1,700.00	\$ 1,621.00
Joussard		2,700.00	
Fort Vermilion	2,000.00	1,650.00	350.00
Sturgeon Lake	1,500.00	1,000.00	<u>500.00</u>
	Estimated total additional funds required		<u>\$ 2,471.00</u>

Indian Affairs. (RG 10, Volume 6366, file 761-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

It will be noted that the above figures have been prepared by Mr. Walker with no work done at Joussard, but assuming that the original allotment will be sufficient. Also for Sturgeon Lake an additional \$500.00 is estimated as required, although this apparently will be contingent upon whether or not a well has to be drilled, on which latter point Mr. Walker had no definite information at the time of making his report on November 28th.

Memorandum:

Dr. McGill

Re: Water supply systems, Grouard,
Joussard, Vermilion and Sturgeon
Lake Residential Schools.

With reference to the above water supply systems I am forwarding a copy of a memorandum from the Chief Engineer outlining the status of the work in each case.

Grouard Water System:

In regard to the Grouard system for which the sum of \$1,700 was allotted it will be noted that drilling is continuing to 800 feet and that if the driller has no success at this depth they will drop back to the 330 foot level where a flow of 3 gallons a minute of water was found. The estimated total expenditure is \$3,321.

Joussard Water System:

It is noted that to date no work has been done although Mr. Walker has been in touch with Father Lajoie advising him that drilling of the well should be put underway immediately.

Fort Vermilion Water System:

It is noted, in connection with this water supply, that distribution mains have been installed in 7-foot trenches,

the well dug and crib and pressure tank installed and connected. Some additional work is required and the total estimated cost is placed at \$2,000, the original allotment being \$1,650.

Sturgeon Lake System:

It is noted that the work done in connection with this system consists of pipe being laid and connected in trenches and the installation of pressure tanks and that there remains to be done the completion of the trench which may or may not be possible. In the latter case it is suggested that a well be drilled which would be available in any case for fire protection and might be considered as a year round standby. It is estimated that an additional \$500 will be required if the well is to be drilled.

In connection with these water supply systems I have your memorandum of the 11th instant quoting from a letter received from the Rt. Rev. U. Langlois in which he recommends the employment of Mr. J.L. Gervais, of Montreal, to locate the exact spot where a well should be drilled. This matter will be referred to our Engineers and given full consideration, although it is doubtful if Mr. Gervais would be able to locate water by his method at depths to which the wells are being dug.

MEMORANDUM:

Mr. Wardle.

Re: Water Supply for Indian Residential
Schools at Grouard, Jousard, Fort
Vermilion and Sturgeon Lake.

Since receipt of your memorandum of the 13th instant, we have taken up the above question with Mr. Young, Chief Geologist of the Geological Survey, and quote a letter from him as follows:

"I have received your memorandum of December 19 asking if we have any information regarding the possibilities of securing water by wells for certain Indian Residential Schools in Alberta. I am afraid we have not much information of value but what we have is being collected and will be sent to you.

"You also ask if we know anything of the qualifications of Mr. J.L. Gervais of Montreal who has been represented as being a radio-physic prospector of great experience specializing in the finding of water and drilling of wells. We have no information about Mr. Gervais. I suggest that if you are considering employing him that you require him to indicate in some detail the method or methods he would employ and that he be asked to state what equipment he has. I am told that reputable companies claim some measure of success in determining the presence or absence of water-bearing horizons. Such a company is Hans Lundberg Limited, Victory Building, Toronto. I do not think they would guarantee to find indications of water and you might consider their scale of charges high."

It will be noted that Mr. Young is having collected what information he has on the areas in question to be forwarded later. As soon as same is received you will then be advised.

With regard to the employment of a water prospector, I may say that we concur in the inference in Mr. Young's remarks that there is hardly enough factual information available as to the reliability of results obtained by such prospectors particularly in view of the possibly rather high cost as intimated by Mr. Young to warrant giving serious consideration to the proposal of employing any such prospectors.

You will recall that our memorandum of the 7th ultimo gave a report on work done and expenditure made or anticipated as at approximately the end of November. Following a request made recently to Mr. Walker for an up-to-date report on the status of these jobs, we have received the following:

"As on January 4th, 1940.

AT GROUARD they are completing the construction of a small wooden pump house and the installation of the pumps and piping. They expect the installation to be completed very soon.

AT JOUSSARD drilling for the well is going on at a depth of 200 feet. They have encountered some gas and traces of oil but no suitable water as yet.

AT STURGEON LAKE nothing has been done since my last report November 29th.

AT FORT VERMILION They are now excavating the intake trench between the pump house and the river and expect all works to be complete by January 17th. They report total expenditures to date \$1900.00."

Mr. Philip Phelan, Chief, Training Division,
Indian Affairs Branch,
Parliament Buildings,
Ottawa, Ont.

Dear Sir,

I am enclosing herewith vouchers showing how the sum of \$1,700.00 forwarded by the Department to St-Bernard's Mission for the installation of water has been spent. I have delayed rendering account hoping to have for the next mail all figures for a final report. Unfortunately, the work is not completed yet. We are so far from supplies that more than once we have been delayed several days waiting for a small piece of fitting.

It is obvious by the account rendered that the sum of \$1,700.00 is far from covering all the expenses. Enclosed a preliminary statement of the cost. We have not to wonder if the cost runs over the first estimates. Nobody could know ahead how deep we should go to get water. The engineer had figured on a 200 feet well and water was encountered only at 702 feet. The working equipment having to be rated on the depth of the well, a certain amount had to be added on this item. The higher increase comes from the drilling and the material used. It will be a few days yet before I know precisely how much will be credited on casing returned to Beatty Pros Ltd.

As our batteries are already overloaded, we have decided after understanding with the engineering office at Banff to use a gasoline engine to pump from the well. It means that the pump house has to be larger and then more expensive than figured at the start. For the pumping from the cistern, (a 9,000 gallons cistern in the new Boys' Building), we intend to use two small automatic pumps we have here. Would not this teaming of pumps work, we would have to buy a new pump costing about \$200.00. We hope not to have to do so.

Remains the question of financing. I have had to borrow from the Bank to pay the most urgent bills especially the men's wages. Some firms are asking for money. May I expect that the Department will find soon the way of financing the expense exceeding \$1,700.00? A requisition at that effect should have been made by the engineering Office at Banff. Receiving this would help me a lot.

Let me profit by this opportunity to thank you for the interest you have paid to this important problem of water supply in our Schools. If we succeed to get an adequate water supply in our Missions, a great improvement will have been realized.

Yours very truly,

F. S. Lajoie, O.M.I.,

SHIP TO Rev. S. Lajoie, O.M.I., Grouard Indian Residential School, Grouard, Alta.

Purpose for which required Laundry equipment

NOTE:—Requisition for non-consumable equipment, state if New Issue or Replacement.
“ consumable equipment and supplies use columns 1 and 2.

Quantity		Quantity on hand (1)	Quantity used per month (2)	Unit Price	TOTAL
1	Washer -- the dimensions of this should be approximately as follows: Inside diameter 29", inside length 54", outside diameter 37", outside length 68".				
1	26" extractor -- outside measurements approximately 31" wide x 48" long x 36" high.				
2	Laundry trays as per attached cut from Ashdown catalogue.				
Note: Without being requested to do so Father Lajoie obtained prices on the washer and extractor from the Guarantee Laundry Machinery Co. and I enclose, for your information, their letter of October 8, 1940, together with pages from their catalogue showing the type of machine they are prepared to supply. I also attach cut from the Ashdown Co. catalogue. This machinery will be operated by a gasoline engine which the school has.					

I hereby certify that I have personal knowledge that all the above articles are required in the Department and for Departmental purposes only. The expenditure required by this requisition is strictly unavoidable and the public interest will suffer if it is not made.

Memorandum:

MR. BAILEY

I should appreciate it if you would issue purchase orders for the following accounts covering disbursements at the Grouard Indian Residential School:

1. Beatty Bros. Limited	\$ 297.75
2. G. Letourneau	108.54
3. Frontier Lumber Company	96.55
4. Frontier Lumber Company	189.90
5. T. Eaton Company	54.16

Account No. 1 covers the cost of piping and other supplies urgently required to keep the water system in proper operation.

Account No. 2 covers the cost of a new chimney which was extremely necessary.

Accounts 3 and 4 cover the cost of lumber purchased for emergency repairs.

Account No. 5 covers the cost of a new sink and chairs.

As you are aware Grouard is a Church-owned school and in submitting the accounts for payment the Principal points out that the purchases were made at the lowest possible price and all work was done by the school staff without any cost to

Memorandum:

MR. BAILEY

I should appreciate it if you would issue purchase orders for the following accounts covering disbursements at the Grouard Indian Residential School:

1. Beatty Bros. Limited	\$ 297.75
2. G. Letourneau	108.54
3. Frontier Lumber Company	96.55
4. Frontier Lumber Company	189.90
5. T. Eaton Company	54.16

Account No. 1 covers the cost of piping and other supplies urgently required to keep the water system in proper operation.

Account No. 2 covers the cost of a new chimney which was extremely necessary.

Accounts 3 and 4 cover the cost of lumber purchased for emergency repairs.

Account No. 5 covers the cost of a new sink and chairs.

As you are aware Grouard is a Church-owned school and in submitting the accounts for payment the Principal points out that the purchases were made at the lowest possible price and all work was done by the school staff without any cost to

Dear Mr. Phelan,

When in Ottawa last spring, I had understood from our conversations that the Department had no objection that the the special allocations made for repairs and equipment in our Schools be used mostly on the Sturgeon Lake School which is crumbling. It appears now that the allotment should be applied to the very School it was formerly appropriated. I would appreciate receiving an official list of the monies voted for each of our Schools. I cant trace any such list here.

In order to reduce the expenses, we have decided to turn in flour the wheat harvested on our farms. Having been offered of a Milling Mill at a very low price, the offer has not been turned down. I presume that it will not be out of order to charge this mill.

Studying The financial situation is getting serious. As outlined a year ago, we are feeling the burden of the war. In many lines, the prices are doubled or about. And while the other citizens enjoy an increase of revenues by way of wages or bonus, the Indian Schools have been cut by 7.76% of their revenues. No doubt that the authorities of the Department are sympathically the situation in order to afford effective remedy.

Thanking you in advance for the attention you will give to this question, I remain, Dear Mr. Phelan,

Yours truly,

Extract from letter dated May 1, 1942, received
from Rev. G. Forcade, O.M.I.

Referring to my request last February for
linoleum to cover our Gymnastic Hall, I would
add that, should it not be covered with material
of this kind, it will still be necessary, before
very long, to spend considerably on repairs of
this floor. Were these done with concrete and
paint, it would not better the sanitary condition.
I am not pressing you as I feel you are giving
this request your careful attention.

Reverend Sir:

I desire to refer to your letter of the 1st instant, in which you again mention the necessity for covering the hall at the Grouard Residential School with linoleum.

This would involve considerable expense and we are not prepared to give the matter further consideration unless specially requested to do so by Bishop Langlois. As you are probably aware, the amounts provided for Church-owned Indian residential schools are specifically stated in our appropriation and cannot be exceeded. Bishop Langlois is endeavouring to improve the conditions at the Sturgeon Lake School and consequently has expressed the desire that we do not spend any money for repairs and improvements at other residential schools in his Diocese without his express request.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir:-

131-1-11

We have had the projector on trial and concluded that it was not entirely satisfactory. The University informed us since that for projection of postcards, satisfaction could be obtained only on a special screen which costs \$36.00. I plan to go to the University and see just what it gives. We are very thankful for your kind assistance in this matter.

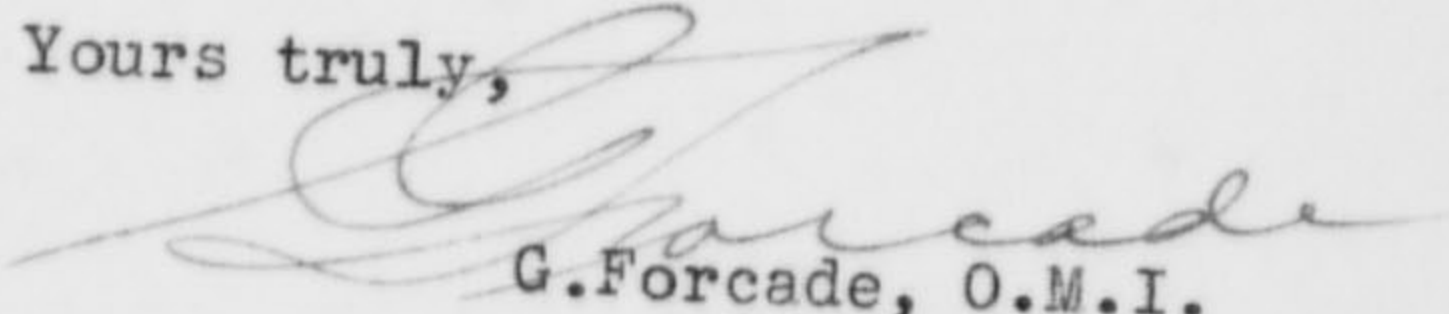

The children and I have just completed the building of a printing shop, and a dark room for photography in their school house. This has given them much enthusiasm as they are accurate and neat in this kind of work.

Mr. J.H. Ross and Dr. G.F. McNally who have recently paid us a visit both said they were very satisfied with the kind and quality of activities this school was carrying on with the children.

Thanking you once again,

Dear Sir:-

Re-131-1-5.

Re-covering our gymnastic hall with linoleum, I have discussed your letter with Bishop Langlois. I readily understand it would be unfair for me to ask for more than we have when the Sturgeon Lake school is in a state of dismal necessity.

W.H.
I am not acquainted with the status of Church owned school. Whatever be the case, I am sure the Government cannot help but recognize the enormous contribution the Church itself is giving it in this kind of work. May I also point out that the Youth Training Programme we are carrying out here is most genuine "vocational training". Out of five of my trainees this year who became eligible for military purposes, ~~for~~ made their application and three have been accepted. The three of them are leaving for England very shortly. Eighteen of our old pupils are in the army...most of them in England.

Mr. J.H.Ross who has just visited our Youth Traing Centre has noticed that whilst our vocational work was being promoted in the most effecient way, our gymnastic hall could bare to be improved for better health and better results. I therefor maintain my request for some govermental assistance in bettering the conditions we are in for physical traing. We have taxed our energies and our revenues to the utmost this year for the welfare of the children and this is why we feel somehow justified in asking for some outside help. I trust you will do everything possible to meet our demand.

Yours respectfully,

G. Forcade

Dear Father Forcade:

I have for acknowledgment your letter of June 9, in which you discuss again the desirability of securing a sufficient quantity of linoleum to cover the floor of your gymnastic hall.

We are communicating with Bishop Langlois, in the hope that it may be possible to secure funds from the appropriation set apart for the repair of church-owned schools, to enable us to purchase the linoleum you may require. There is always the possibility, of course, that it may be exceedingly difficult to secure linoleum at this particular time. I have been informed by a number of men, responsible for the organization of physical culture classes, that it is possible to treat the cement floor with certain chemicals and later paint it with a coat or two of gray paint, and that the results are reasonably satisfactory. I have been wondering if at any time you have thought of this treatment.

It is altogether likely that you shall hear from us again, just as soon as we receive a letter from Bishop Langlois.

Yours sincerely,

R. A. Hoey,
Supt. of Welfare & Training.

Dear Father Forcade,-

It has been brought to my attention that the school power plant is being over-taxed due to the operations of your handicraft plant, and it has been suggested that we endeavour to locate for your use a small diesel plant to power the machines which you use in your work.

If a plant suitable for your work can be found surplus to the requirements of some other government department, we will try to secure this for you. In order that we may advise the various departments the size of plant required, will you please furnish me with the following information:

- mm
1. How many machines do you operate?
 2. Describe each machine and the purpose for which it is used.
 3. Give the voltage of each machine, number of cycles, and the wattage consumed by each machine?
 4. The total wattage of lights used.
 5. The power required for any other purposes, such as pumps.
 6. The peak load.

You might also estimate for future requirements, that is any additional machines you propose to install, additional lights, etc. giving the above information in regard to them.

You understand, of course, that we do not guarantee to furnish a plant, but we will see what can be found on receipt of the information asked for.

O t t a w a, Ont.

Gentlemen,-

We have for acknowledgment your letter of August 18th, covering your enquiry for a 12 H.P., 6 KW., 50-62 Amp., 110 Volt, Light Plant.

We have today received declaration covering two Diesel Light Plants as follows:-

- 1 - Model 44-20 Diesel Light Plant;
- 1 - " 34-15 " " "

Both of these Units are located at Port Hardy Airport, Vancouver Island, B.C.

We would suggest that you arrange to have someone familiar with this type of Lighting examine the plants. It is quite possible they might suit your requirements.

We regret that we are not in a position to give you further information on these two Units.

Yours very truly,
WAR ASSETS CORPORATION,

D. M. MacKay, Indian Commissioner, Vancouver, B.C.

We have been trying to locate a lighting plant (diesel) for Father Forcade of St. Bernard's Mission, Grouard, Alta., and we have been advised by the War Assets Corporation, Montreal, through which branch all surplus equipment is handled, that they have the following plants at Port Hardy Airport, Vancouver Island, B.C.

- 1 Model 44-20 Diesel Light Plant.
- 1 " 34-15 Diesel Light Plant.

What we are interested in is a 12 H.P. - 6 K.W. 50-62 Amp. 110 Volt, plant, but possibly one of the above might be suitable. It is required for the operation of sewing machines and other power equipment used by Father Forcade in his handicraft operations.

It has been suggested that we arrange to have someone familiar with this type of lighting plant examine the plants. The War Assets Corporation were unable to give us any further information regarding the plants.

Will you kindly arrange to have them examined and furnish me with full particulars as to the size, type, make, voltage, amperage, the name of the manufacturer and everything else that would enable us to decide whether they would be suitable for Father Forcade's needs? If possible will you find out the value of the plants?

MEMORANDUM FOR FILE:

In the current year's appropriation \$300.00 is provided for repairs and improvements at the Grouard School and \$300.00 for the same purpose at Joussard. Father Plourde requested that this amount be allowed for labour in connection with the erection of a new steam bath at the Grouard Residential School.

When the O. C. is passed covering the grants to residential schools for the fiscal year, it will be necessary to secure a transfer of the amount of \$300.00 from the Joussard School to the Grouard School.

Dear Mr. Phelan:

During my recent visit to the Department, you explained that there was an amount of approximately \$896.34 unspent in the amount provided in the current year's appropriation for repairs and improvements at our residential schools, made up as follows:

Grouard	-	\$300.00
Joussard	-	297.20
Ft. Vermilion		40.62
Wabasca		258.52

As the Department has placed an order for cement for the amount unspent at the Wabasca Indian Residential School, I am not forwarding you any vouchers for this school. However, I am enclosing vouchers for repairs and improvements at the Joussard, Grouard and Fort Vermilion Residential schools as follows:

Ft. Vermilion	-	40.60
Grouard	-	299.30
Joussard	-	303.20

ATTENTION MR. PHELAN

CR
While visiting our Indian Residential Schools at Joussard and Grouard, the Indian boys attending these schools brought to my attention that they were badly in need of supplies for playing baseball. I would like to mention that this is about the only game in the summer time that they are really interested in, and they do play a good game, but they need a few gloves, balls and bats. At the time that Mr. McCrimmon went through here for the Treaty Payment, I mentioned this to him, and asked if the Department would assist in getting a few of these articles, and he replied that he thought they would, and to write to you for these things. Therefore I would respectfully ask for a contribution of \$30.00 to make up a good enough outfit for the boys of these two schools. I am sure that these boys would greatly appreciate this, as they are very fond of this game.

I would be very pleased to receive an early reply, as the season is going by.

In past years it has been customary to pay the residential schools in this agency \$40.00 per month for a night watchman for winter months.

As I am unaware of what months they are to be paid for, I am asking your confirmation of same.

Att'n: Sister Superior Graciosa

Reverend Sister:

We are pleased to enclose herewith a bulletin illustrating and describing the Pendrith line of Bread Dough Mixing Machines, and would quote as follows:

One (1) Pendrith Type "B" Dough Mixer, one bag capacity ..\$460.00,
f.o.b. Toronto, sales tax not included.

We are also enclosing a bulletin illustrating and describing the Reco Peeling Machine, Model #H10, which sells for \$56.00. Delivery of the Dough Mixer can be made at approximately nine months from date of order, and similar time is required for a potato peeler.

We sincerely regret that more prompt delivery cannot be effected, but owing to a heavy back-log of orders and unfavourable conditions in labour and material supply, it is impossible for us to make shipment in a shorter time.

Sincerely yours,

Re: Residential Schools

I am enclosing herewith a letter from Pendrith Machinery, sent to the Grouard Residential School. Also enclosed is a cut showing their various types of Dough Mixer.

As you are no doubt aware, the Residential Schools of Grouard, Jossard and Sturgeon Lake are very much understaffed. To knead bread for all the pupils and staff by hand is really a hard task.

I have been approached by the principals of the above mentioned schools with a view to obtaining them each a dough mixer of 100 lbs capacity.

As noted in the letter from the Pendrith Company, these will not be available for another 9 months from date of order. Would it be possible therefore to supply these schools with one of these mixers each for next October.

Re: Residential Schools,
Lesser Slave Agency

Mr. Landry, Indian Agent, has made a request on behalf of the Grouard, Jousard and Sturgeon Lake Schools for bread mixers. Attached is a copy of his letter, together with a letter from the Pendrith Machinery Company, Toronto, quoting a type of Mixer which the principals believe to be suitable.

I have visited these schools and know the need of some device which will relieve the pupils and staff of the drudgery in mixing large quantities of dough. There is no training for the pupils in doing this; a girl can only learn to bake when the household quantity is the unit. Therefore, it is recommended that this, and other institutions which are not now supplied with mixers, be supplied as early as possible.

This particular request is for your consideration and comments.

We have your letter of the 11th inst., with reference to supplying bread mixers to the Grouard, Joussard and Sturgeon Lake Residential Schools.

Recently we submitted to the Minister's office, a list of the labour-saving equipment that we considered might be supplied to Indian Residential Schools. Bread mixers were included in the list.

C
We have not yet received a decision from the Minister, but if he favours the supplying of the equipment we have recommended, we will keep in mind the requirements of the three schools mentioned in your letter.

Memorandum

Indian Affairs Branch

Re Tractor for Grouard Residential School
I.A.B. File 131-1-5.

We called for tenders on the Cockshutt Tractor No. 80 described on your requisition of the 1st instant, but replies have not been very satisfactory. Cockshutt Plow Company, Edmonton, state that they will be unable to furnish one of these tractors before 1948, and the Head Office at Brantford, state that it would be late summer before they could deliver the tractor. They give a price however of \$1,638.78.

Kindly advise if the above tender is satisfactory, or do you wish us to endeavour to procure a similar tractor of other make on which we might be able to obtain a better promise of delivery.

Dear Mr. Phelan,

Will you please advise amounts provided in the estimates for 1947-48 for repairs and improvements and purchase of new equipment for the five Schools of the Vicariate of Grouard.

When in Ottawa last Fall, I submitted to you a list of requirements for each school. Kindly refer to my letter of March 28th 1947 in which letter these requirements were itemized.

As material is in extremely short supply, I would appreciate very much knowing as soon as possible how matters stand, so I can get busy and have these repairs and improvements done without any further delay.

With kind regards, I remain

Yours sincerely,

We have no information on the underground water supply in the area around Grouard. We are informed that the survey of the underground water supply in the Prairie Provinces made some years ago by the Geological survey did not extend as far north as Grouard.

We have forwarded your letter to our District Chief Engineer in Calgary who has some personal knowledge of conditions in the area, with a request for a report on the probable supply and approximate cost of the well.

CALGARY - ALBERTA

High Prairie, Alta.
May 15th 1947

Rev. Father Baugher:-
M. Lennan. Alta.

Dear Sir:-

The undersigned visited the Indian School and Mission at Grouard today, and discussed the water supply and results of well drilling and dug wells with Father Tessier.

According to the information as I understood it a deep well was drilled to something over 700 feet. The quality of this water was apparently somewhat similar to that which was obtained in the Hospital well at M. Lennan, drilled to 652 feet. This shows a high sodium chloride & sodium carbonate content with a tendency at times to be quite murky when freshly pumped. This being due to fine clay material held in suspension in the water.

The deep wells at M. Lennan are considered to be drilled to the base of a marine ^{shale} formation known as the Smoky River Shales. No suitable water has ever been known to have been obtained in this marine shale bed. The underlying formation, known as the Dunvegan, may have some suitable water at its base, but this is considered to be at around 1000 to 1100 feet from surface. Therefore at Grouard, since no previous drilling has proved the existence of suitable water at this depth, it is not recommended that a well to this depth be tried.

It was reported that a bed of fine sand, estimated to be 20 feet in thickness, had been encountered in both drilling and in digging for water at the Mission buildings. However this sand was always of such fineness that it gave trouble in the well, and also the quality of the water obtained was high in iron content and in its hardness.

It is my opinion that if this bed of sand was at one time a part of the lake bottom, that this deposit may continue eastward ^{part}

toward higher ground, and if it were an old lake beach, that the material eastward would tend to be closer to a shore line and therefore coarser, such as coarse sand or gravel. It is also thought that water held in fine or coarse gravel would probably be free of its iron content and thereby softer in quality. This fine sand material may also be altogether glacial deposit, and glacial gravels could be in association.

It is further proposed that a test hole or holes might be drilled easterly for possibly $\frac{1}{2}$ mile toward the eastern boundary of the property. This is proceeding higher up the slope of the hill, and farther from the existing lake. The purpose of these test holes would be to test the fine sand deposit found at 30 feet at the buildings. If these sands tend to become coarser, or to become a gravel bed then it is thought a sufficient and suitable quality of water may be obtained from a well possibly 75 to 100 feet in depth. If such were obtained in a test hole this company could construct a suitably sized well complete with proper steel well casing, and install a continuous pump test on the well for, say 48 hours, until the quantity of water to be obtained had been ascertained. A sample of water would also be sent for chemical analysis to Edmonton.

This work could possibly consist of 4 or 5 test holes, with a total of say 250 or 300 feet of drilling. Then possibly a permanent well at the most suitable location.

It is proposed that if suitable quality & quantity of water could be located even within a distance of $\frac{1}{2}$ mile from the building area, that the cost of bringing that water to the building area by underground pipe line would be less expensive and more satisfying than the drilling of a deep well at the building site.

This company would be willing to undertake this work for the mission at the rate of \$8.00 per hour for all time spent by drilling equipment or crew, to include the setting up

dismantling & moving of equipment. A time log would be kept to show the nature of all time worked. Since the equipment does not have a truck available it would be necessary to assist in the moving of the drilling machine to the site of the new test hole, by means of a truck or a tractor or horses. This only would consist of approximately 1 hour or hours. There would be necessary to make a charge for shipping or hauling the machine and well casing into the Grounds Mission and set again. This is estimated at approx. \$200.⁰⁰ The well casing is supplied at the following rate - f.o.b. the Mission: For 8" steel well casing \$2.90 a foot, for 6 1/4" steel casing \$2.00 a foot for 5 3/8" steel casing \$1.85 a foot. For 5" steel casing \$1.40 a foot.

The equipment has been promised for work on the Town of Westlock water supply approximately June 1st. No other commitments have been made at this time.

V. Meek, Esq., Controller, Dominion Water & Power Bureau,
Ottawa.

I wish to acknowledge receipt of your letter of the 21st instant in reference to a copy of a letter received from the Director of Indian Affairs, asking to be advised if a water resources survey had been made in the area of Grouard and if a well could be dug at a cost of not more than \$4000 to give a sufficient supply for 225 persons under Bishop Langlois of Episcopal Corporation of Grouard.

As instructed, I have made contact with Mr. D. F. Hamelin of Donegal Mansions, Sunnyside Blvde, Calgary, and wish to report as follows.

Mr. Hamelin advises me that he is a graduate in geology from the University of California and took a post-graduate year at Stanford. Mr. Hamelin has apparently had considerable experience in well-drilling with the Dept. of Transport and one of the last jobs completed with that Department was at White Court, Alberta. Mr. Hamelin confers with Dr. Allan and other geologists in Alberta and on account of such contacts, along with his education, appears to have a grounding in geological knowledge that would be most useful in well-drilling work.

The survey as requested by the Indian Affairs Director has apparently not been made and no one can say definitely that the water is available at the particular location in question. Mr. Hamelin is, however, optimistic that a shallow well might tap a sufficient supply for, say, 7500 gallons at the above school.

For a well one-hundred (100) feet deep, his firm, he estimated, could drill it at approximately the following cost.

200 hours of drilling time	@ \$8.00	\$ 1,600.00
50 feet of 8" Casing	@ 3.00	150.00
100 feet of 5" Casing	@ 1.50	150.00
Transfer charges, drilling equipment		100.00
Travelling expenses of Mr. Hamelin or his assistant to Grouard, etc.		100.00

If a shallow well were found where a suction pump could be used, the pumping equipment might range from \$175.00 to \$300.00.

If it was a deep well, the pumping device might cost up to \$600.00

Hence, if pumping equipment cost \$600, Total Cost 2,700.00

Exigencies, 10% 270.00

Grand Total \$2,970.00

(Over)

Indian Affairs. (RG 10, Volume 6366, file 761-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

- 2 -

If the well is a shallow one, the cost may be accordingly reduced, whereas if it be considered advisable to go deeper than one hundred feet, it might cost more.

In any case, I believe Mr. Hamelin to be a suitable driller and would suggest that he be engaged to drill the Grouard well. His rig is at present near that area.

District Chief Engineer.

Bishop Langlois of the Episcopal Corporation of Grouard as requested that a well be dug at the above residential school. It is a church-owned school and in our 1947-48 estimates there is provided an amount of \$4,000. for general repairs and purchase of new equipment.

We communicated with the Controller, Dominion Water and Power Bureau with a view to ascertaining if a well could be dug at a cost not exceeding the amount available in the current year's appropriation. It is understood that the well would have to provide sufficient water for a school with a pupilage of 200 and a staff of 25.

We are now in receipt of a report from the Dominion Water and Power Bureau and I enclose for your information a copy of the report from their district chief engineer at Calgary.

From the information we have received it appears that it should be possible to secure water at a reasonable cost and I would appreciate it if you would approve authority being given to the Dominion Water and Power Bureau to proceed.

With reference to your memorandum of June 16th, file 70543-15-20 A with reference to the above.

We communicated by letter on May 7th with the principal of the above mentioned school and have not as yet received a reply.

We are today wiring this school in order to get an immediate reply and as soon as we receive an answer we will advise you.

Re: Tractor for Grouard Indian Residential School

Further to our memorandum of June 20th regarding the above, we have now received a letter from the Grouard School which reads in part as follows:

"This will confirm our order for one Cockshutt Tractor No. 80 on rubber with oversize rear tires, starter and lights to be delivered to Grouard Indian School, railway Station: Enilda, Alberta, early this fall."

Will you please, therefore, place the order for this machine with the head office of the Cockshutt Plow Company, Brantford, who have advised you that delivery can be made by late summer.

Proposed Well at
Grouard Indian Residential School.

Please find attached a report submitted by Mr. O. H. Hoover, District Engineer of our Surveys and Engineering Branch, located at Calgary, Alberta. This report concerns the digging of a well at the Grouard Indian Residential School, located a few miles north of Grouard, Alberta, at the west end of Lesser Slave Lake. We would appreciate receiving from you, as soon as possible, your views concerning this report, as we are very anxious to contact Mr. Hamelin, who already has his rig in this area. We hope that you can provide this information in the near future.

Memorandum to: Col. Bernard F. Neary,
Supt. of Welfare and Training,
Dept. of Mines and Resources,
Ottawa, Ont.

We are in receipt of your memorandum of July 11th re the proposed well at Grouard Indian Residential School and attached report from Mr. O.H. Hoover, District Engineer of the Surveys and Engineering Branch in Calgary. The following information is taken from R.L. Rutherford's Report #21 (1930) of the Research Council of Alberta, entitled Geology and Water Resources in Parts of the Peace River and Grande Prairie Districts, Alta. While Rutherford's survey extended only to a few miles east of McLennan, Alta. (Twp. 77, Rge. 19 W. 5th), we have utilized it in order to predict as closely as possible the continuation of conditions eastward to the Grouard location in Twp. 75, Rge. 14, W. 5th.

Accordingly, the Grouard area and that covered by the Research Council's report are both underlain by the Smoky River Shales beneath which lies the Dunvegan Formation comprising an alternating series of sandstones and shales, the former known to be water-bearing. Above the bedrock lies an unknown thickness of glacial drift and Recent alluvium. Such drift is commonly composed of impervious boulder clay with lenses or pockets of sand and gravel scattered throughout which may be good aquifers. The base of the drift is also a common groundwater horizon. Thus there appears to be three chances for obtaining an adequate supply: a shallow well tapping sand or gravel deposits in the drift; the plane of contact between the drift and bedrock; or from the sandy members of the Dunvegan Formation.

In the McLennan area, existing geological conditions indicate that a good supply of water cannot be obtained from the upper strata. Dug and bored wells here are usually less than 100' deep, mostly penetrating clays and shales of the drift and the water where obtained is extremely hard. It is recorded

Indian Affairs. (RG 10, Volume 6366, file 761-5, part 4)

that a few shallow wells which have penetrated superficial coarse glacial deposits or peat bogs produced good water. Assuming similar surface conditions around Grouard, it may be possible by sinking test holes prior to digging to discover a satisfactory shallow sand or gravel aquifer. Otherwise digging at random would be hazardous.

Drilled wells are a more satisfactory source. Some have been recorded as penetrating the sandy layers of the Dunvegan Formation and getting water which, although not hard, is inclined to be salty. However, here we have the problem of depth. In McClennan several such wells went to over 650' in depth before striking a Dunvegan water horizon. The Formation outcrops toward the north and dips southward, (Map #14, Report #21) hence since Grouard is farther south than McClennan, the depth to the same aquifer would be greater, and salty water is frequently found at such depth. From the standpoint of drilling costs, therefore, it would be inadvisable to try for this horizon.

We have no information regarding groundwater at the base of the drift. This could be tested before drilling by sinking an auger hole. Regarding depth to bedrock, an oil well drilled at High Prairie (Twp. 74, Rge. 17, W. 5th) recorded 668' of surface deposits, which, again because of the southerly regional dip, should not be as great around Grouard, in the absence of local hills. No water was reported from the drift in this well, although much of the deposition was sand.

From the above you will see that the best course seems to be that of primarily sinking test holes in the surface deposits, penetrating, if necessary, down to bedrock, in hope of encountering a sand or gravel aquifer therein, or a source at the top of the bedrock. Unless such a horizon is encountered near the surface, the well may have to be drilled even up to 650' to reach a satisfactory supply, but at least the possibilities can be explored in this manner at no great expense.

DEPARTMENT OF MINES & RESOURCES
SURVEYS & ENGINEERING BRANCH

Calgary, June 25th, 1947.

V. Meek, Esq., Controller, Dominion Water
& Power Bureau, Ottawa.

I wish to acknowledge receipt of your letter of the 21st instant in reference to a copy of a letter received from the Director of Indian Affairs, asking to be advised if a water resources survey had been made in the area of Grouard and if a well could be dug at a cost of not more than \$4,000. to give a sufficient supply for 225 persons under Bishop Langlois of Episcopal Corporation of Grouard.

As instructed, I have made contact with Mr. D.F. Hamelin of Donegal Mansions, Sunnyside Blvde, Calgary, and wish to report as follows.

Mr. Hamelin advises me that he is a graduate in geology from the University of California and took a post-graduate year at Stanford. Mr. Hamelin has apparently had considerable experience in well-drilling with the Dept. of Transport and one of the last jobs completed with that Department was at White Court, Alberta. Mr. Hamelin confers with Dr. Allan and other geologists in Alberta and on account of such contacts, along with his education, appears to have a grounding in geological knowledge that would be most useful in well-drilling work.

The survey as requested by the Indian Affairs Director has apparently not been made and no one can say definitely that the water is available at the particular location in question. Mr. Hamelin is, however, optimistic that a shallow well might tap a sufficient supply for, say 7500 gallons at the above school.

For a well one hundred (100) feet deep, his firm, he estimated, could drill it at approximately the following cost.

200 hours of drilling time	@ \$8.00	\$1,600.00
50 feet of 8" Casing	@ \$3.00	150.00
100 feet of 5" Casing	@ \$1.50	150.00
Transfer charges, drilling equipment		100.00
Travelling expenses of Mr. Hamelin or his assistant to Grouard, etc.		100.00

If a shallow well were found where a suction pump could be used, the pumping equipment might range from \$175.00 to \$300.00.

If it was a deep well, the pumping device might cost up to \$600.00

Hence, if pumping equipment cost \$600, total cost 2,700.00

Exigencies, 10% 270.00

Grand Total \$2,970.00

Indian Affairs. (RG 10, Volume 6366, file 761-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

- 2 -

If the well is a shallow one, the cost may be accordingly reduced, whereas if it be considered advisable to go deeper than one hundred feet, it might cost more.

In any case, I believe Mr. Hamelin to be a suitable driller and would suggest that he be engaged to drill the Grouard well. His rig is at present near that area.

We communicated with the Controller, Dominion Water and Power Bureau with a view to ascertaining if a well could be dug at a cost not exceeding the amount available in the current year's appropriation. It is understood that the well would have to provide sufficient water for a school with a pupilage of 200 and a staff of 25.

We are now in receipt of a report from the Dominion Water and Power Bureau and I enclose for your information a copy of the report from their district chief engineer at Calgary.

From the information we have received it appears that it should be possible to secure water at a reasonable cost and I would appreciate it if you would approve authority being given to the Dominion Water and Power Bureau to proceed.

Dear Father Beuglet:

With reference to previous correspondence, the Deputy Minister has now approved the employment of Mr. D.F. Hamelin, Donegal Mansions, Sunnyside Blvd., Calgary, to dig a well at the Grouard Residential School.

As you are probably aware, an amount of \$4,000. has been provided in the current year's appropriation for repairs and improvements at the Grouard School. This is the total amount that we can spend and consequently if digging the well will involve a higher expenditure than the amount mentioned we will only be able to allow \$4,000. However, if you strike water at less cost than that mentioned above, any balance can be expended later for repairs and improvements at the Grouard School.

No doubt you will make arrangements with Mr. Hamelin to start work as soon as possible and we would appreciate it if you would keep us informed regarding the progress of the work as we are anxious to know if you are successful in striking water and at what depth.

The attached copy of a report from the Bureau of Geology may be of some interest to you.

Dear Mr. Neary:

Enclosed please find account in the amount of \$4295.20 in connection with drilling of well at the Grouard Residential School. Please pay us the amount of \$4000. being provided in the current year's appropriation for this expenditure.

The well was drilled at a depth of 270 feet and the water was encountered in a 20 foot bed of sandstone. It is felt that a quantity of 3000 gals a day was definitely established during the pumping tests which is sufficient for the school. A sample of the water was submitted for a chemical analysis. This water is soft and has a salt content of 1666 P.P.M. which makes for a slight taste in the water. However, the results are quite satisfactory.

Yours very truly,

Grouard Indian Residential School

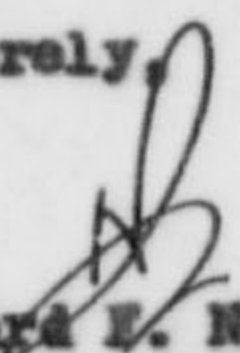

Dear Father Plourde:

We recently received a requisition for a dough mixer for the above Residential School. Before proceeding with placing a purchase order for this machine we have been requested to ascertain the number of Indian and non-Indian children who are attending this school.

It would be appreciated if we could also be informed as to the number of non-Indian children who are attending the following church-owned schools:-

- (a) Holy Angels
- (b) Vermilion
- (c) Jousard
- (d) Sturgeon Lake.

Yours sincerely,

Re: Destruction by fire of
Electric Plant at
Grouard School

My dear Mr. Phelan,

I am in receipt of a telegram from His Excellency Bishop Routhier, in which he states that the electric plant of the Grouard school was completely destroyed by fire on December 31st 1947.

The school is now lighted by a make-shift plant which is of such a temporary nature that it must be replaced immediately.

This electric plant was used for pumping water and servicing the various departments where small electric motors were in use. It is, therefore, essential that no time be lost in replacing it. Bishop Routhier is most anxious to hear when the Department will place the order for a new plant.

We are informed by Fairbanks Morris of Edmonton that a 10 KW generator with Diesel engine and batteries would cost \$4049.00. In order to expedite the matter Bishop Routhier would appreciate being authorized to place the order himself and forward invoices to the Department.

Hoping that the above will receive your immediate attention, I remain,

Yours very truly,

J. G. Plourde, O.M.I.

In the case of each of the above mentioned schools, we forward the per capita allowance as follows:

"Make cheque payable and send to:

McLennan, Alberta."

In the case of other vouchers such as payments of manual training instructors, night watchmen, etc., the vouchers are some time issued in favour of the principal concerned and some times they are issued in the same manner as shown above. It would simplify our bookkeeping and be more satisfactory to all persons concerned at head office, if all vouchers in future for any payments due these schools would read as follows:

"Make cheque payable and send to:

Re: Dough Mixer for Grouard

My dear Mr. Phelan,

You no doubt remember our conversation regarding the above matter, and your request that I secure additional information so as to enable you to buy a mixer more adapted to the needs of the school.

The Reverend Sister in charge says, in a letter received this morning, that a one-sack mixer will be sufficiently large and will be more in accordance with the size of their bake oven than the two-sack mixer which I asked for in the first place.

Hoping that this information will serve the purpose, I remain,

Very truly yours,

Dear Mr. Phelan:

Regarding lighting plant which was destroyed by fire at Grouard on December 31st, 1947, when in Ottawa in January you explained that there was a credit balance of some \$1700.00 in favour of the schools of the Vicariate of Grouard from the amounts provided in the estimates for 1947-1948, and it was agreed that this amount would be applied to cover part of the cost of a new lighting plant for Grouard Indian School and the balance would be paid from the estimates for 1948-1949.

I am enclosing receipted invoices for the new lighting plant being installed at Grouard in the amount of \$4,687.00. I would appreciate this amount being reimbursed as soon as possible so as to boost my bank account.

Yours truly,

Dear Mr. Phelan,

Regarding lighting plant which was destroyed by fire at the Grouard Indian Res. School on December 31st, 1947, when in Ottawa in January, the matter of replacing same was discussed with you and Father Plourde in your office and I was authorized to purchase a new plant which was bought and installed at the cost of \$ 4,687.00. Receipted invoice for this expenditure was forwarded to you on March 24th, 1948. When discussing the matter of purchasing this new lighting plant, you explained that there was a credit balance of some \$1,700.00 in favour of the Schools of the Vicariate of Grouard from the amounts provided in the estimates for 1947-1948, and it was agreed that this amount would be applied to cover part of the cost of a new lighting plant for Grouard Indian Res. School and the balance would be paid from the estimates for 1948-1949.

I would appreciate this amount being reimbursed at your earliest convenience.

Yours very sincerely,

L. Bouglet, O.M.I.

Re: Grouard

When in Ottawa last January, I informed the Department that the lighting plant was destroyed by fire at Grouard on December 31st, 1947. As the school was without light and power and the matter of replacing this plant was urgent, I was asked to take the necessary steps to buy a new engine, generator and batteries upon my arrival at Edmonton. This plant was bought and is now installed.

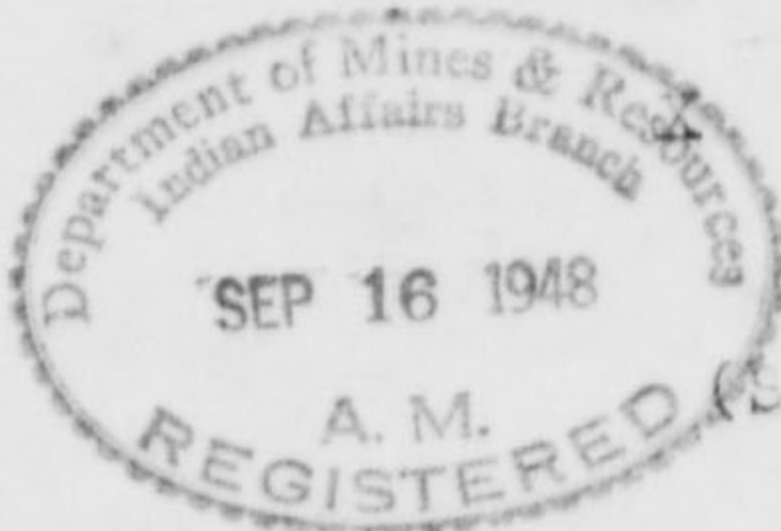

It was explained to me that there was at that time a credit balance of some \$1700. in favour of the residential schools in the Grouard Diocese from the amount provided in the estimate for 1947-48, and it was agreed that this amount would be applied to cover part of the cost of a new lighting plant for Grouard Residential School and that the balance would be paid from the estimates for 1948-49. On March 24th, 1948, I forwarded to the Department re-ceipted invoices from Bruce Robinson Electric Limited, Edmonton, in the amount of \$4687.00 for this purchase but the account has not been paid as yet. I would appreciate this amount being re-imbursed. Should you not have received the invoices, kindly let me know and I shall have additional copies made and forwarded to you.

I believe, Mr. Neary, that the above requisitions are legitimate and trust that you will give them your very careful consideration.

DEPUTY MINISTER

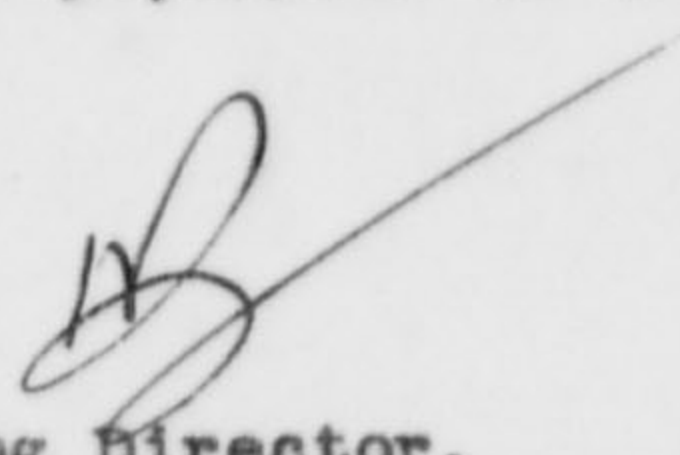

Re: Grouard Indian Residential School.

The above is a church-owned school and the lighting plant was destroyed by fire on December 31st, 1947. The Oblate Order immediately purchased a new lighting plant at a cost of \$4,687.00. Receipted account for the amount stated has been forwarded and I attach copy of same.

In the current year's appropriation we have available an amount of \$2,675.00 that has been provided for repairs and improvements and purchase of new equipment at this school.

The Oblate Order requests that we allow this amount towards the expenditure which they have incurred in installing the new lighting plant.

I would appreciate it if the Minister would approve our paying the amount of \$2,675.00 to the Oblate Order.

Re: Bread Mixer for the
Grouard Indian Res. School.

Dear Mr. Phelan:

The Grouard I.R.S. has never had a bread Mixer and the children and the Sisters have always prepared the dough by hand.

The size that they need is for 150 pounds of flower. If I remember well this has been promised for the school but funds always seemed to be too low for its purchase.

As no money has yet been spent this year for the Grouard group of schools, I am sure that we will not be able to give this excuse to the Rev. Sisters and that you will place the order for this machine immediately.

Yours very truly,

Mr. Philip Phelan,

Dept. of Indian Affairs,
Ottawa, Ont.

Dear Mr. Phelan,

Will you please advise the amounts provided in the estimates for 1949-1950 for repairs and improvements and purchase of new equipment for the five schools of the Vicariate of Grouard.

The Buildings at the Grouard Indian School are deteriorating for lack of paint and are a disgrace to the visitors; painting should be done without further delay.

At Fort Vermilion a new D.C. Generating plant is urgently required to replace the old one which has become inadequate to supply light and power to the School which has greatly expanded during the last few years. It is estimated that a 10 K.W.D.C. Generating Plant would cost approximately \$4000.00. Owing to the high cost of labor and commodities of life, the Principal explains that he can not bear this expenditure himself, unless he receives financial assistance from the Department.

I understand that funds were made available to build new barn at Sturgeon Lake and a Gymnasium at Jousard.

The amount of \$1500. is requested by the Principal of the Wabasca R.C. Indian Res. School for general repairs.

Yours sincerely,

Dear Father Beuglet:

With reference to your letter of the 16th instant we would prefer if you would forward us a requisition for repairs and improvements and purchase of new equipment which you state are necessary at the five schools in the Grouard diocese.

A separate letter and requisition should be forwarded for each school. When we receive these, careful consideration will be given to them and your requests will receive favourable consideration as far as funds will permit.

With special reference to the third paragraph of your letter regarding the new D.C. Generating plant for the Fort Vermilion Residential School we would appreciate it if you would forward a special requisition giving complete details regarding the type of machine required and if possible quote a catalogue number.

As you are aware all equipment and materials have to be purchased from the Departmental Purchasing Agent and detailed information is required not only to assist them but to make certain that you receive what you need.

Dear Sir:

This will acknowledge with thanks your letter of August 27th, in which you acknowledge receipt of our quotation dealing with a direct current motor for use on your dough mixer.

We note this mixer is at present equipped with a Type RS, single phase, 1 HP Century motor, for which we would be prepared to make an allowance of \$42.50. For your information would say, direct current motors are approximately two and one half times more costly than alternating current motors of the same size, which will serve to explain what might appear to be a vast discrepancy in price.

If we can be of any further assistance to you in this matter, kindly let us know.

Yours very truly,

Attention: Father G. Tessier, O.M.I.

Dear Sir:

We are in receipt of a telephone call from the Canadian Fairbanks Morse Co. to the effect they had received an enquiry from you for a 1 HP 115 Volt Direct Current motor.

From the information given to us it appears you purchased a Dough Mixer which came equipped with an alternating current motor, and which you are now desirous of changing to direct current. Since Canadian Fairbanks Morse have nothing to offer in a motor of this description they have turned this matter over to us. For your information would say we can supply from stock a 1 HP direct current motor and take pleasure in quoting as follows:

1 Type D 1 HP 115 Volt 1750 RPM Direct
Current Compound Wound Leland
Motor\$148.40

The above price is quoted Net F.O.B. Edmonton, Sales Tax included.

No doubt you will want to trade in the motor at present in your possession, but without a full description it would be difficult for us to arrive at an allowance. If you care to give us the complete name-plate reading of your present motor, and at the same time stating if it is new, we would be glad to prepare an estimate.

Trusting to hear further from you in this matter, we remain,

Yours very truly,

Rev. Father:

In reply to your letter to us of August 18th, we wish to draw to your attention that the Department of Mines and Resources' Purchase Order distinctly called for a 60 cycle, 110-200 volt motor, and no mention whatsoever was made that a D.C. Motor be supplied. Had a D.C. Motor been specified on the order, of course the price would have been considerably higher.

As there are no D.C. Motors available in Toronto, it would be necessary for us to order one from the U.S.A. for you, and delivery would be approximately eight weeks' time. Therefore, we strongly recommend that you get an authorization for a local Purchase Order to purchase the D.C. Motor which Bruce Robinson Co. Ltd. have on hand. No doubt, if you explain to them that the A.C. Motor which is now on your Machine has ~~never~~ been used, they will make you a reasonable allowance for it. We feel that handling the transaction in this manner would be most satisfactory to you, as there would then be no return freight for you to pay on the motor which is now on the Mixer.

We trust that we have made it quite clear that it is not our fault, as the Department's Order did not specify a D.C. Motor.

Monsieur R. A. Hoey, Surintendant.

Monsieur :

Il y a tantôt 50 ans que je m'occupe des Indiens dans ce pays du Nord, et plus de 44 que je me trouve plus ou moins en rapport avec l'éducation donnée aux jeunes Indiens dans les écoles de l'Alberta Nord. Aujourd'hui, me voici principal de l'école Indienne de Grouard, Alberta. J'en suis venu avec vous, Monsieur, à cette conclusion qu'il faudrait faire quelque chose de pratique pour nos jeunes Indiens. Les filles apprennent la couture, la cuisine, la tenue d'une maison: très bien, mais nos jeunes garçons! Ici, nous avons commencé déjà à leur montrer à faire quelque chose par eux-mêmes: les objets qui leur seront nécessaires dans la vie qu'ils devront mener dans le bois: outils, canot, maison, quelque meubles, etc. Mais je ne puis oublier qui sont naturellement chasseurs et pêcheurs et je crois que le plus grand service qu'on pourrait leur rendre serait de les entraîner dans l'élevage des animaux à fourrure.

Hélas! Ces espèces d'animaux disparaissent vite dans notre Nord autrefois si riche en fourrures. Déjà même beaucoup sont entièrement disparus. Quand je pense que nos Indiens pour vivre en sont réduits à chasser l'écureuil qu'on ne regardait même pas il y a quelques années, tout comme l'hermine d'ailleurs!

A Grouard, situé à l'extrémité ouest du Petit Lac des Esclaves en Alberta, nous avons une place idéale pour ce nouveau genre d'industrie. Nous pouvons trouver sur place et facilement et sans beaucoup de frais, tout ce qui serait nécessaire, et je sais avec quel plaisir, quel entrain nos élèves se porteraient à ce genre de travail si conforme à leurs goûts. Plus tard, ce pourrait être pour eux un moyen assez facile de se procurer le vivre et le couvert.

Et voila pourquoi, Mr. le Surintendant, j'ose venir vous demander d'avoir la bonté de nous fournir quelques couples de visons pour commencer notre oeuvre ici. Ce qui m'encourage c'est que nous savons ici que deja vous avez encouragé certaine école dans cette voie.

Et ce serait meme avec plaisir que je recevrais les conseils que votre experience voudrait bien me suggerer et m'aider ainsi a faire une réussite dans ce genre d'éducation tout nouveau a Grouard.

J'ai l'honneur d'etre, Monsieur le Surintendant,

Extract from Inspector Schmidt's report on the Grouard Indian residential school visited on November 28, 1938:

MANUAL TRAINING

Boys: The older boys help with the chores around the institution, and get a good general training in farming, gardening, care of live stock, horses, and general repair work, under the supervision of the lay brothers who live at the mission. They are in charge of this work, and have a complete line of carpenter's, blacksmith's and mechanic's tools. The Principal intends using part of the basement, under the school (class) room for a manual training shop for the boys. He remarked that they had no tools, and could not very well borrow same from the mission brothers to use in this shop. I suggested that a requisition for same be submitted without delay, and that this boys' shop be opened and going as soon as possible.

Girls: The girls do general house-work: cooking, baking, laundry, knitting, sewing, mending, patching. They also make new clothes for both the boys and themselves. They are, however, more or less handicapped for sewing, as they have no proper sewing room. This matter I will take up under the heading of Buildings.

CLASS-ROOMS: A separate frame building having four lovely large, well-lighted class-rooms, is used. This is heated by a hot-air furnace and is very comfortable. It has a full-sized basement, part of which the Principal intends to partition off for the purpose of establishing a manual training shop for the boys, who will work under the supervision of one of the brothers.

Dr. H.W. McGill

Will you please note the attached requisition for the purchase of eight Singer Sewing Machines for the Grouard Residential School.

Please advise if any machines have been purchased in the past for this school and if so were they paid for by the Department. Do you make a practice of purchasing sewing machines for other Residential Schools? Are there any instances where the machines are purchased by the Church authorities themselves?

It would seem that the number of machines asked for is somewhat large. Might it not be wise to reduce the number?

Memorandum:

DEPUTY MINISTER

I am in receipt of Mr. Jackson's memorandum of August 2 enclosing the attached requisition which includes 8 sewing machines for the Grouard Indian Residential School.

This school is located in the Diocese of Grouard and there are four other schools in the same Diocese; namely, Sturgeon Lake, Vermilion, Joussard and Wabasca R.C. His Lordship Bishop Lajeunesse is extremely interested in providing advanced domestic training for the older girls of these five schools. Last year he made arrangements for two or three of the Sisters to take a special course in domestic science and for the academic year 1940-41 he intends to bring to Grouard from the other four residential schools in his Diocese the most capable older girls in order that they may have the advantage of a year's course in advanced domestic science under the guidance of trained Sisters.

As these girls will be included in the number of regular grant-earning pupils this special programme will not involve any extra expense to the Department other than the equipment of the rooms in which domestic science will be taught. The cost of the equipment will be taken from the amount provided in the current year's appropriation for repairs, improvements and new equipment at the Grouard Indian Residential School.

In order to have sufficient sewing machines available for those taking the course the number shown on the attached requisition are required.

I feel that this is an excellent course for the older girls and is preferable to advanced academic training for them. Under these circumstances I recommend that the equipment included on the requisition be purchased.

In the second paragraph of Mr. Jackson's memorandum he refers to the purchase of sewing machines. It has always been our practice to supply a few of these to each residential school in order that the staff and the older girls may make clothing required for the pupils. If you do not wish sewing machines to be supplied in the future please let me know.

You will note, however, that the sewing machines requested for Grouard are for a special course and not for general use in the school.

LESSER SLAVE LAKE AGENCY

REPORT FOR THE MONTH OF APRIL, 1941.

The pupils of the Domestic School of Grouard are doing excellent work. At the time of my visit, they had sixty-three complete boys' suits already packed to be sent to Jousard School. Rev. Sister Eustache, who is in charge, told me that those had been made within a month's time and beside other works. The girls also take lessons in cooking, washing, ironing, knitting and all kinds of fancy works. I was very much interested in the practical cooking lessons given to them which include meat curing, smoking and canning and sausage making etc... They also learn to take care of milk and cream, as well as butter making. The pupils have been picked from Jousard, Sturgeon Lake, Wabasca Fort Vermilion and Grouard Residential Schools. There are thirteen of them.

It was brought to my attention, by His Lordship, Bishop Langlois and Rev. Father Habay Principal of Grouard School, that something similar to Domestic School should be attempted with the boys, if we wish to make a success with the young Indians. They intimated that, as long as the boys will have nothing to do when they come out of schools, all our good work with the girls will be useless. They suggested that, if the boys of a certain age could be taken to a school especially organized for them under a competent person and taught a trade along with farming, we could expect some results, as they would be in better position to make a home and provide for those girls, whenever they get married. Of course the boys would have to remain there until they are eighteen years old.

Reverend Sir:

When Mr. Doucet visited Alberta this spring he had not sufficient time at his disposal to enable him to visit your school. However, I know from personal conversation with Bishop Langlois that you are very much interested in encouraging manual training work among the boys and it is hoped that you will put forth special efforts in this regard during the academic year 1941-42.

A curriculum covering a simple course in manual training is now being prepared and will be forwarded to you before September 1. We are also arranging to send to your school the tools which are considered necessary in order to enable you to carry out the proposed curriculum. In addition you may expend an amount not exceeding \$25.00 in purchasing material required to follow the course.

On the part of the school management it is expected that they will provide a suitable room for the classes and also arrange to have someone reasonably well qualified conduct these classes.

You realize, of course, that our funds are limited and it is only by co-operation between this Branch and the school management that we can conduct the manual training along lines that we hope will be really profitable to the pupils.

As mentioned above, the curriculum to be

Dear Bishop Langlois:

For your information I enclose copy of a letter which is being forwarded to the Principal of the Grouard Residential School. Similar letters are being sent to each of the Principals of the other residential schools in your Diocese. While it is quite possible that some manual training has been taught at all your schools our intention is to make an endeavour to place the work on a regular basis. In order to do this a copy of the curriculum in regard to woodwork that we wish followed during the academic year 1941-42 will be sent to each Principal. In addition we will forward to each Principal the tools which we consider are necessary to follow the curriculum.

I feel certain that the Principals of the schools in the Grouard Diocese will co-operate fully in carrying out the proposed programme.

Dear Sir:

I have on hand your circular letter of October 15, 1941. The Course, the Job Sheets, Reference Books and tools sent have been received.

We intend to make a start on the Manual Training Course as soon as our carpenter returns from a neighbouring Mission School, where Buildings are being repaired.

I thank you for the great interest you take in helping us to help our pupils.

I notice in your letter of October 27th that, due to the absence of your carpenter-instructor, the manual training classes have not yet begun at the Grouard School. This is rather unfortunate. I would appreciate it if you would notify me as soon as these classes are started.

You probably have noticed in the Monthly Report Form that we require this report to be sent to us at the end of each month whether or not there has been any instruction. We would appreciate your co-operation in this phase of the instruction.

I am happy to inform you that the Manual Training Classes have begun and that our Carpenter-Instructor will follow the directions given by the Department for instructing our young pupils. There are eight enrolled for the present.

I shall forward our first report at the end of the month.

Would it be possible to obtain from the Department the manual, Hand Woodworking by Evans? Among the tools sent by the Department there were no back saws. I believe it is necessary for the work our pupils will have to do. If you could possibly get one or two for us you would greatly oblige.

Reverend Sir:

I was pleased to note from your letter of the 14th instant that the manual training classes have begun work.

In the first paragraph of your letter of October 27 you stated that the "Reference Books" had been received. Under these circumstances I cannot understand why you request, in the last paragraph of your letter of November 14, a copy of "Handworking by Evans". Some weeks ago we placed an order with the Government Stationery Office for the following books for your school:

Woodworking for Junior High Schools
Problems in Farm Woodworking
Instructional Units in Hand Woodwork
Junior Handicraft
Hand Woodworking by Evans

Have you received all of these books just mentioned?

We have not been supplying back saws. This is a special tool which Indians ordinarily would not have available. The other saws which you have can be used as it is our idea that as far as possible the use of the simpler tools should be encouraged.

Dear Mr. Haey:-

Referring to my request last February for linoleum to cover our Gymnastic Hall, I would add that should it not be covered with material of this kind, it will still be necessary before very long to spend considerably on repairs of this floor. Were this done with concrete and paint, it would not better the sanitary condition. I am not pressing you as I feel you are giving this request your careful attention.

There was also a request with regards the Bishop Sound Picture machine which we would like to purchase and keep here after his departure. It means a great deal for the Indian population and its education.

I have been trying to get a projector for post cards and magazines pictures etc.

for use with the children. This is a very effective way of presenting and teaching actuality. The University of Alberta is offering us to-day a machine of this description capable of presenting slides as well. They have an unlimited number of slides which we could rent at a nominal price. The machine is not new. They are offering it at the price of \$50.00. It seems this machine is suitable for our school purposes and I am asking you if you could assist us in the purchase of this also.

Our Youth Training is still progressing among the children. At the end of the year, when the Indians gather for the sports day, we intend to have a field day in which Drill and Gymnastics will be the chief item.

Thanking you in anticipation for the assistance you may give us.

DEPARTMENT OF EDUCATION

CALGARY ALBERTA

Dear Reverend Friends, and Girls and Boys of Grouard Mission:

Sister Jean has given me the opportunity of expressing my appreciation for all your hospitality and the opportunity of seeing so much that was interesting and also seeing in person so many who were only names previously.

All persons connected with the Grouard Mission are to be congratulated on the progressive outlook of this educational institution and the very friendly spirit which prevails.

There are so many features to which I should refer but will content myself with mentioning a few which appealed to me particularly - the remarkable cleanliness of your premises on a muddy day - and yet it was a pleasant and comfortable cleanliness with no feeling of rigidity; the value of your system of uniforms and rank badges with the corresponding responsibility of living up to the standard; the quality of the physical work in "fundamentals" and dancing - I was delighted with the singing; the steam baths - a great deal of credit is due to Father Forcade for his perseverance and ingenuity with respect to this activity. He has made a contribution, not only to your School but to the general problem of bathing, etc.

One could continue listing pleasant memories but wet weather at that time and space now forbids. Sometime in the future I hope to renew my acquaintance with you when the boys probably will be able to take me over the School "Farm" and show me another group of splendid achievements of the pupils and Staff of your School, which is a credit to your Church and the Indian Department.

You may be interested to know we arrived in Edmonton on time after further experience with mud and seeing a big black bear. To all, my sincerest thanks for a pleasant and educative experience.

Once again, "Aur Revoir".

GOVERNMENT OF THE PROVINCE OF ALBERTA
DEPARTMENT OF EDUCATION

Edmonton, Alberta
June 1, 1942

Dear Sister Jean:

I should like you to know how much Mr. Ross and I appreciated the opportunity we had last week of seeing something of the work of the St. Bernard Mission. Not to make my letter too long I shall confine my comments to two or three matters.

First, we were greatly impressed with the neatness and home-likeness of the classrooms of the school. Indeed, I cannot remember when I have seen rooms so spick and span. Coupled with this was the evident happiness of the children. I had formed that opinion of the Mission children from reading the "Echoes" but was hardly prepared to find the feeling so general.

Then we were so pleased with the Health and Recreation program. The degree of excellence reached by both girls and boys would have done credit to classes which had been in training much longer than those at the Mission. Nor must I forget the splendid baths. These, I am sure, account in large measure for the healthy, happy appearance of all the children. On our way home Mr. Ross commented more than once on the high standard of results which you have attained.

And, lastly, I must mention again what I said when speaking to the children. The Mission provides a first-rate opportunity for an all-round education. In addition to the regular school subjects the girls get training in the domestic arts under conditions which approach nearly to those to be found in the homes which we hope they are going to have. A similar training on the farm for the boys will make the opportunity complete. I can think of hundreds of boys and girls in Alberta for whom I could wish just such a well-balanced education.

Our visit was all too short but left us with a definite desire to repeat it.

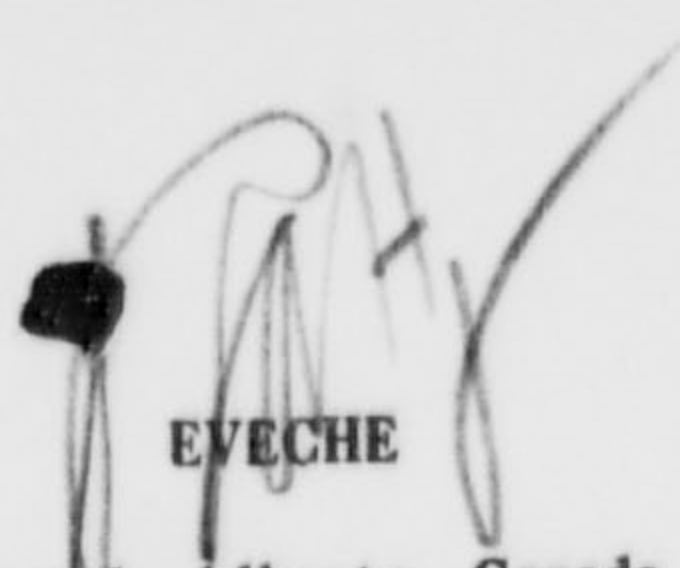

Very sincerely yours,

Sister Jean Placidus,
St. Bernard Mission,

Dear Mr. Hoey:

On May 26th, Mr. G. Fred McNally, Deputy Minister of Education of Alberta, and Mr. Joe. H. Ross, of the Dominion-Provincial Youth Training, honoured the Grouard Indian School with their visit. Their visit was short on account of the inclement weather, it having rained continuously during the preceding night, and the rainfall threatening to continue for some length of time. You, no doubt, know the plight of the motorist on a 275 mile trip on gumbo roads soaked by rain.

I take pleasure in enclosing copy of the respective letters, perhaps somewhat laudatory, received from these distinguished visitors, by Sister Jean Placidus, directress of "The Grouard Echoes". You will doubtless appreciate reading these letters which deal with a work to which you have devoted your best years.

I simply wish to call your attention to the wish expressed by both these gentlemen, to see, beginning next Fall, for the older boys of our Indian Schools, a post-school course equivalent to that which we are endeavouring to organize for the older girls. This work is essential and should be undertaken by your Department as soon as possible, war or no war. We have already discussed the matter together and, once again, I offer you my services and my entire collaboration to assist you in putting it to a test.

Best personal regards.

I have for acknowledgment your letter of June 6 and also copy of communication received by Sister Jean from the Deputy Minister of Education and the Director of Health and Recreation for the province of Alberta.

It was to me very gratifying to learn that Dr. McNally had been able to visit the Grouard Residential School. The letters received by the Sister from these officials indicate that you have succeeded in providing a well balanced and worthwhile educational program at the school. It is particularly encouraging to learn of the emphasis that is being placed upon vocational and physical instruction. Mr. R. G. Hoey,
Supt. of Welfare & Training,
Ottawa.

Dear Mr. Hoey:-

Under Ministry of Education
We find we are obliged to exchange our Lettinen printing machine on a new machine for the printing of our "Grouard Echoes" this year. The children are highly interested in this work and I feel we can do more advanced work with a newer model of the same type. This is strictly for school work and I would ask your Department if it were possible to help us in the purchase of the machine. The total cost is \$350.00. I have now brought it down to a net cost of \$200.00.

We would therefore appreciate a great deal any contribution your Department could make towards this purchase.

Thanking you kindly,

I remain,

Yours truly, G. Torcade, O.M.S.

Dear Father Forcade:

I have your letter of the 10th instant, requesting financial assistance in the purchase of a gestetener. Under existing regulations any purchase over \$50.00 has to be made by the Purchasing Branch and, under present conditions, I cannot see my way clear to recommending the purchase of such an expensive machine. However, I will be prepared to arrange a payment of \$50.00 toward the cost of the machine, provided you purchase it. If you do, you should obtain an account and you should attach this to a voucher form which should read -- "To amount allowed toward purchase of gestetener for vocational training purposes at Grouard Indian Residential School, as per receipted account attached ...\$50.00."

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Mr. Hoey:

Answering yours of August 17th, I wish to thank you very sincerely for the allowance of \$50. you have granted us on the purchase of a Gestetener machine. I have given the order for it already and it should be installed here within the next two weeks.

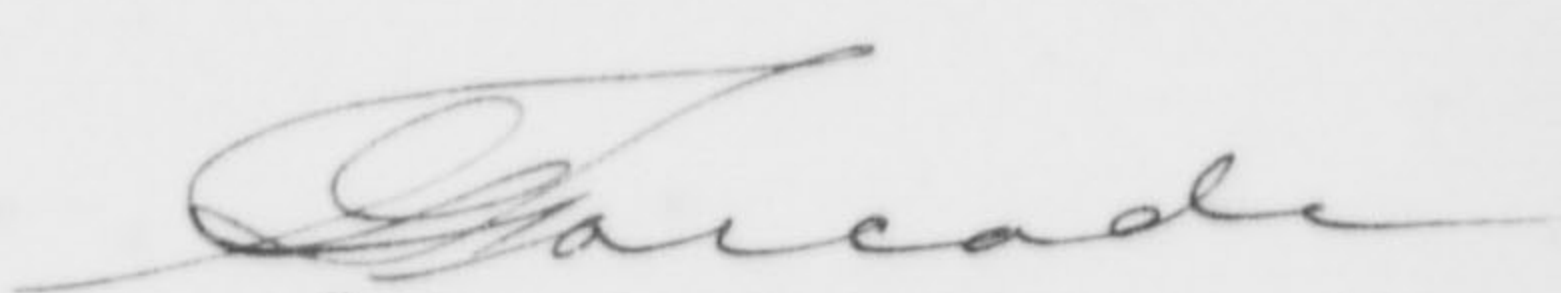

I may add that the children as well as the teachers are greatly interested in this equipment, knowing that they will use it themselves in the production of their own school paper.

Incidentally, I may add that this printing shop and equipment along with the multiple photographic apparatus I have on hand, are being installed in the school house itself and are considered as one of the older pupils' school activities.

Thanking you kindly, I remain,

Yours truly,

Dear Mr. Hoey:

The more I study the people here, the more I see it is necessary for us to teach them how to earn their living. To make them feel this, you must create some ambition in them. I am directing my activities towards industries among them. We have begun this in class. One of our activities is leather work and bead work. We show them how to make use of their skill and the value of it in leathercrafts. We are more or less boycotted through lack of material and especially beads. Do you know of some channels through which we could get them? You will hear more about this through our ECHOES.

I remain,

Yours respectfully,

EX'D.

Ottawa, September 30, 1942.

Dear Father Forcade:

I desire to acknowledge receipt of your letter of the 23rd instant and to state that I was more than delighted to learn of the attempts you are making to promote worthwhile handicraft projects at your school. It is my hope that you will be as successful in this regard as you have been in the development of your physical courses.

We have experienced the utmost difficulty in securing beads. In this connection we have communicated with a number of agencies in the Dominion, including a representative of Czecho Slovakia. It would appear that beads are not available at this time, nor are they likely to be available at any time in the immediate future. However, we have on hand a small quantity of small white beads, and we would be prepared to send forward 5 pounds, should you consider such a small quantity of any value to you. I am personally of the opinion that Indians, for the time being, should be encouraged to take up handicraft work which does not involve the use of beads.

Yours very truly,

R. A. Hoey,
Supt. of Welfare and Training.

Dear Mr. Hoey:

I wish to thank you for your prompt response to my appeal for material on Indians. I was indeed happy to receive the helpful booklets and pamphlets you sent for research work. We have already begun to use them.

The photographs you sent of the Exhibitions of Indian handicraft are especially helpful, as it gives one an idea of what can be done, and also spurs one's enthusiasm. I wish to assure you of my sincere gratitude.

Reverend Father Forcade was called away on business for a time. Before leaving, he asked me to thank you for your kind letter, and to tell you that we would be very happy to receive the white beads you offered to send. We shall be making head and arm bands, and the white beads as a background, with colored decorations, make up very beautifully. It is hard to get any light colored beads here, so the white ones you are able to send will be a boon.

Please accept our gratitude for your interest and kindness. We deeply appreciate it.

Yours sincerely,

Dear sir,

On my last trip to Ottawa, last Fall, I informed you that we intended to purchase a Loom in order to teach the art of weaving to our Indian girl-pupils at the Grouard Residential School.

You seemed to approve the project when you assured me that the Department of Indian Affairs would defray the expenses thereby entailed.

I am pleased to advise you that I was able to purchase loom and accessories in Edmonton. Please find enclosed the receipted Invoice for same. The Grouard Indian School would appreciate your co-operation in obtaining from your Department a refund for this expenditure.

With every good wishes and kind personal regards, I remain,

Supt. of Welfare & Training,

Dept. Mines & Resources,
Ottawa, Ont.

Dear Sir:

About two and a half years ago I was appointed Assistant Principal at the Grouard Indian Residential School. On my arrival I found that Indian handicraft had almost disappeared from the school and, as the authorities were anxious that it should be re-established as soon as possible, I immediately began to interest the children in this particular activity.

Along with my endeavours as far as the school children were concerned I also tried to interest the former girl pupils of the school and their parents, with the result that in a relatively short time moccasins, gloves, curios of various kinds and even buckskin coats and parkas were being made in reasonable quantities by both the older school girls and the former pupils of the school living either on the reserve or close to the school.

The result of these various activities was that we found ourselves with about \$4000.00 worth of these articles for which we found a very ready market with the Hudson's Bay Company and the American tourists, as well as the employees of the various companies that were working on the Alaska road project.

The skins for all these articles were bought from the local Indians and from the Hudson's Bay Company, as well as from the Indians of British Columbia. As we ran out of materials we attempted to purchase skins from the Indians of Ontario, as well as from those of the Mackenzie District, but we found that transportation costs were too high and we consequently had to curtail our production.

I believe that I am quite within the truth when I say that about 60% of the women of the reserve, ranging in years from 22 up, worked for the school along with the children and that the above families shared, in various degrees, in this amount of \$4000.00, with the result that a great deal of personal pride was taken in the work they were doing and a consequent betterment in social conditions resulted.

This experience has led me to believe that something basically sound could be established for the older pupils of the Grouard School, as well as the former ones, if we could arrive at a more standardized method of production. For the last three weeks I have been investigating manufacturing conditions among the Indians of Little Lorette in the Province of Quebec and the results that these people have obtained by the establishment of small manufacturing plants, some of which are even housed in private homes, are proof that something similar could be set on foot in Northern Alberta for our Indians.

I have three projects in view which I am now submitting to you for your kind consideration and approval, if you should see fit to do so. The first of these projects is one for the manufacturing of standard models of moccasins, house slippers, work mitts and gloves. For the time being the leather for these various articles would be bought from the regular sources, but later on it would be our ambition to utilize the skins of the wild animals of Northern Alberta, as well as the domestic skins that could easily be bought from the Indians and the white settlers of our district.

The second project would be the establishment of a sawmill. There is, in the territory closely adjacent to our Grouard School, considerable timber which could be turned out into boards and building lumber at a reasonable cost, provided (and that, of course, would be our aim) only local labour was used.

My third project would be the setting up of a small tannery. I am now learning the tanning business in an amateurish way, but I am informed that the data which is being given to me now by one of the leading tanners of the City of Quebec will be sufficient for what we have in view for our Indians.

For the present I would like the Government to help me in the purchase of the material which will be necessary for the manufacture of the moccasins and other articles mentioned above.

Later on, if this project is a success, I will take the liberty of asking the Government to help me in the two other projects.

I hope, dear Mr. Hoey, that the above rough outline of my ambitions regarding the social uplift of our Indians will be sufficient to induce you to grant the help which I am now seeking.

Yours very truly,

Mr. R.A. Hoey,
Supt. of Welfare & Training,
Indian Affairs Branch,
Dept. Mines & Resources,
Ottawa, Ont.

The following is a list of the machines and accessories for the manufacture of house slippers that can be bought from A. Gagnon, Loretteville, Que., and delivery of which could be had immediately:

1. A $\frac{1}{2}$ H.P. motor D.C. 110 volts;
2. 2 Union special sewing machines for soles and assembling;
3. 1 Singer machine for sewing the binding on moccasins;
4. 2 Singer machines for assembling;
5. All the dies for soles from size 3 to size 8;
6. 800 pairs of forms for babies', boys' girls', women's and men's slippers;
7. Patterns for all the above forms;
8. 1 machine for shaping the slippers;
9. 2 Mallets;
10. Shafting, hangers and transmission pulleys for above machinery;
11. 2 Tables for cutting leather;
12. 1 Table for 6 sewing machines;
13. 1 Knife and blades for cutting;
14. Stands for thread.

We are given to understand that the above machinery is in first-class order and is fully guaranteed by the owner. We did not have the opportunity to examine the machinery, but we did see the forms, the dies, the tables and other accessories and none of these articles showed any appreciable wear. This leads us to believe that the owner's recommendation can be accepted at its full value.

The price asked for the above was \$1000.00, but on learning that this machinery was needed for an Indian school the owner kindly consented to reduce the price by \$200.00.

On information gathered from various manufacturers of house slippers and moccasins, we are of the opinion that this machinery will be quite sufficient to start us in business and that with it we can manufacture a readily salable product.

Yours very truly,

Memorandum:

DEPUTY MINISTER.

I am sending forward herewith copies of two letters received by me from the Reverend Father Forcade, of the Grouard Residential School.

Subject to your approval, I would like to ask Mr. Doucet, who is at present at Restigouche, to visit Lorette on his return journey and make an inspection of the machinery referred to in this correspondence. If, in Mr. Doucet's judgment, this machinery is in good, serviceable condition and suitable for the organization of a worthwhile handicraft project, I would recommend its purchase by the Department for the Grouard School. The purchase price - approximately \$800.00 - should, in my judgment, be charged to the amount set apart annually for the promotion of handicraft. You are aware that, although we have an official in charge of handicraft promotion in the Branch, we have been spending very little money on this work at any time during the last two or three years.

Father Forcade, who is at present in Quebec, taking a course of training in the tanning and processing of leather and in the manufacture of gloves and slippers, and with whom I have discussed this proposal at considerable length, informs me that he could provide work for a great many men and women in the Grouard district by the establishment of this industry. A large number of young men from the Grouard district joined the Armed Forces and are now serving overseas. It is just possible that the establishment of an industry such as this would provide employment for them in the immediate post-war period. In any event, Father Forcade has done very effective work in the organization of the school courses at Grouard and in the organization of the pupils, particularly the senior pupils. He is now taking a course of training at his own expense

DESCRIPTIONPRICE

"FORANO" Champion Planer and Matcher, fig. 251, page 88.

The engraving represents our Lowering Bed Single Surfacar and Matcher, which embodies all the latest improvements and adjustments for general work where a good serviceable and up-to-date planer and matcher is desired. It will single surface material up to 24" wide and up to 6" thick, and will match (tongue and groove) shiplap, etc. up to 14" wide.

THE CYLINDER is made from best quality solid steel forging and is slotted on the four sides in order to take special cutters. The cylinder spindles are 1-15/16" diam. and runs in well lined bearings 9" in length. The two pulleys are 5" face. The chip-breaker is pivoted and self-adjusting. There is also an adjustable pressure bar right behind the cylinder and a "foot pressure" to extend out between the side heads when matching.

THE SIDE HEAD SPINDLES are steel, 1-15/16" dia. and runs in large, well oiled bearings. Each spindle is supported by a large thrust ball bearing. The spindle pulleys are of ample size and should carry belts 3-1/2" wide. The width between the side heads is regulated by the hand-wheel shown at the right hand of the operator. A graduated gauge rule indicates the exact width. The adjustment of the table is made by the large hand-wheel shown on the opposite side.

THE FEED arrangement is the strongest ever applied to a machine of this type, there being three pairs of feed rolls of 5" diam. the first one being fluted. Every one of the six rolls is power-driven. The chain drive is very strong and positive. The feed is started and stopped by an effective belt-tightener device which is under complete and convenience control of the operator. An extra feed pulley is furnished

Révérénd Père,

Sincères remerciements pour votre demande de récente date au sujet de machinerie pour moulin à scie portatif, moulin à bardeau, planeur embouveteur, etc., et il nous fait plaisir de vous adresser, sous ce pli, nos cotations détaillées pour chaque item.

Nous avons donné comme conditions 30 jours net au cas où le Gouvernement achèterait lui-même et qu'il paierait le plein montant, cependant tel qu'entendu si le Gouvernement ne paye qu'une partie, nous vous allouons 18 mois, par versements égaux à tous les trois mois, pour payer 50% du montant total, avec 5% d'intérêt par année.

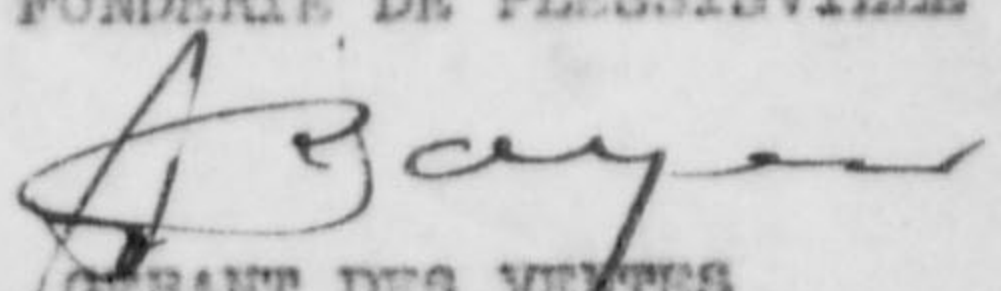

Nous tenons à vous faire remarquer que nous sommes actuellement en mesure d'accepter vos commandes et de vous donner une livraison fort raisonnable si nous tenons compte des circonstances difficiles que nous traversons; et comme nous prévoyons une plus grande activité dans nos usines pour les mois à venir, vous avez donc tous les avantages à nous faire parvenir votre commande le plus tôt possible.

Nous vous remercions beaucoup de votre visite à nos bureaux, et nous ne doutons pas que notre entrevue sera le commencement de relations intéressantes à plusieurs points de vue.

Dear Mr. Doucet:

Reverend Father G. Forcade, O.M.I., who visited the Department yesterday with Father Plourde, is very anxious to purchase a set of machinery suitable for the manufacture of moccasins and slippers and he wishes the Department to assist him in this purchase.

Father Forcade informs me that this machinery is at present at Loretteville and is readily available, should we decide to purchase it. I have been wondering if you would find it convenient to stop off at Lorette, on your way home from Restigouche, with the object of looking over this machinery and deciding on its usefulness and serviceability. We do not feel that we could recommend financial assistance in the purchase of this equipment until it has been inspected by you. Father Forcade's address is:

Rev. G. Forcade, O.M.I.,
15 Avenue des Oblats,
Quebec City, Que.

If you can make arrangements to undertake this inspection, you might communicate with Father Forcade in respect to the matter.

Yours sincerely,

R. A. Hoey,
Supt. of Welfare & Training.

Memorandum:

DEPUTY MINISTER.

I am sending forward herewith copies of two letters received by me from the Reverend Father Forcade, of the Grouard Residential School.

Subject to your approval, I would like to ask Mr. Doucet, who is at present at Restigouche, to visit Lorette on his return journey and make an inspection of the machinery referred to in this correspondence. If, in Mr. Doucet's judgment, this machinery is in good, serviceable condition and suitable for the organization of a worthwhile handicraft project, I would recommend its purchase by the Department for the Grouard School. The purchase price - approximately \$800.00 - should, in my judgment, be charged to the amount set apart annually for the promotion of handicraft. You are aware that, although we have an official in charge of handicraft promotion in the Branch, we have been spending very little money on this work at any time during the last two or three years.

Father Forcade, who is at present in Quebec, taking a course of training in the tanning and processing of leather and in the manufacture of gloves and slippers, and with whom I have discussed this proposal at considerable length, informs me that he could provide work for a great many men and women in the Grouard district by the establishment of this industry. A large number of young men from the Grouard district joined the Armed Forces and are now serving overseas. It is just possible that the establishment of an industry such as this would provide employment for them in the immediate post-war period. In any event, Father Forcade has done very effective work in the organization of the school courses at Grouard and in the organization of the pupils, particularly the senior pupils. He is now taking a course of training at his own expense

Report on four samples of clay submitted by Rev. Father G. Forcade,
Grouard, Alberta.

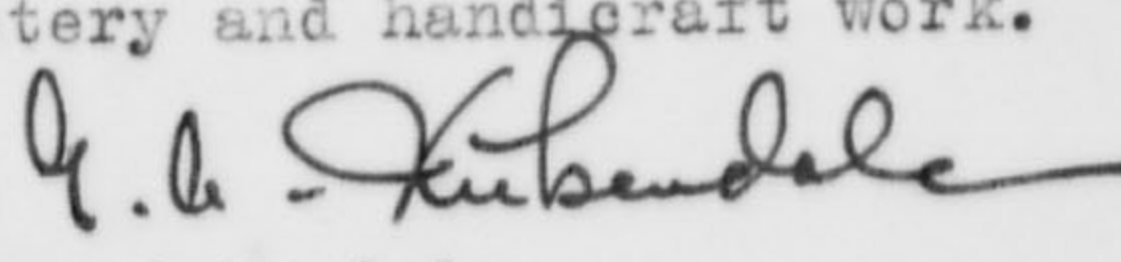

Four samples of clay, marked No. 1, 2, 3 and 4, were received with the request that they be examined to determine whether they could be used for pottery and handicraft work.

A physical examination of the four samples gave the following results:

Sample No.	1	2	3	4
Calcareous	Non	Non	Non	Very
Sand	None	None	very gritty	Gritty
Water of Plasticity %	22.3	22.8	21.9	26.9
Plasticity	Good	Good	Poor	Poor
Drying behaviour at 65°C.	Good	Good	Good	Good
Softening point	Cone 4	Cone 4	Cone 4	Cone 3
Remarks	Highly carbonaceous	Highly carbonaceous	Highly carbonaceous	

Samples 1 and 2 have good working properties for a pottery clay but would be very difficult to fire due to their short vitrifying range and high carbon content. This type of body would also be difficult to glaze. Samples 3 and 4 have poor plasticity, and because of this and their sandy nature, would not have satisfactory working properties on a potter's wheel.

None of the four samples of clay tested could be classed as a satisfactory clay for use in pottery and handicraft work.

Mr. C. W. Jackson,

Department of Mines and Resources.

The four small samples of clay submitted through you by Rev. Father G. Forcade, Grouard, Alberta, were subjected to tests in our Ceramic Laboratory by G. A. Kirkendale, Ceramic Engineer. His report is herewith submitted, in duplicate.

As the samples were very small they could not be tested fully, but the information obtained is sufficient to judge their suitability for the making of craft pottery and I believe that Mr. Kirkendale's conclusions that the clays are not well suited for pottery making are justified.

I will be glad to discuss the matter with Father Forcade and suggest more suitable sources of clay.

The Secretary,

Attention Mr. Hoey.

Dear Sir,

Reverend Father Forcade who is actually engaged in organizing a small manufacturing plant for slippers, moccasins, gloves, and mittens in connection with the Grouard School has forwarded the following list of material needed to start operations.

This list is made up of amounts of material, either in feet or yards, required for each article. To arrive at the quantity to be purchased, one would have to know the number of pairs of each item which can be manufactured with the equipment that will be available.

This is a rather unknown factor as the employees which Father Forcade will dispose of will be without any experience. Nevertheless, he is of the opinion, after consulting experts in Loretteville, that an expenditure of eight or nine hundred dollars would enable him to operate for three or four weeks. If this estimate is correct, he would not need any further help, and even might begin to pay the Department part of the funds allowed him, by the sale of the manufactured articles and a system of prompt collections.

The prices supplied in the enclosed list are those current in the city of Quebec, and are similar to those being paid by small manufactures in the same line. No names of firms are given, but these can be supplied at a moment's notice.

My purpose in writing the present letter is to place before you a tentative plan regarding this venture.

Yours very truly,

R. P. J. O. Plourde

Ottawa, December 1st, 1938.

Regulations Established Under Authority of
Section 94 B of the Indian Act, Chapter 98, R.S. 1927
as Amended by Chapter 31, 2 George VI.

1. These regulations and any amendments thereto may be cited as the Indian "Revolving Fund" Regulations.
 2. "Minister" shall mean the Minister of Mines and Resources.
 3. "Director" shall mean the Director of the Indian Affairs Branch, Department of Mines and Resources.
 4. "Inspector" shall mean the Inspector of Indian Agencies in the Provinces of Quebec, Ontario, Manitoba, Saskatchewan, Alberta, and the Indian Commissioner for the Province of British Columbia.
 5. There shall be a "Revolving Fund" in the amount of not more than three hundred and fifty thousand dollars as provided in Section 94 B of the Indian Act, Chapter 98, R.S. 1927, as amended by Chapter 31, George VI.
 6. The Director may with the approval of the Minister grant loans from this fund to Indian Bands, group or groups of Indians, or individual Indians for the purchase of farm implements, machinery, live stock, fishing and other equipment, seed grain and materials to be used in native handicrafts. The Director may also, with the approval of the Minister, expend and loan money from the said fund for the carrying out of co-operative projects on behalf of the Indians.
 7. (a) Loans to an Indian Band shall not exceed the sum of five thousand dollars (\$5,000.00).
(b) Loans to a group of groups of Indians shall not exceed the sum of two thousand dollars (\$2,000.00).
(c) Loans to an individual Indian shall not exceed the sum of five hundred dollars (\$500.00).
- All such loans shall be repayable in five annual instalments with interest on the principal sum at the rate of five per cent (5%) per annum and shall be deposited to the credit of the revolving fund account. The restriction as to the amount of loans in this section mentioned shall not, however, apply in the case of co-operative projects on behalf of the Indians.
8. Loans made under these regulations to Indian Bands, group or groups of Indians and individual Indians, and money expended or loaned for co-operative projects on behalf of the Indians, shall not in all exceed in any one year the sum of one hundred thousand dollars (100,000.00).

I enclose copies of forms for an application for a loan from Revolving Fund to be used in connection with the Grouard Indian Residential School Craft Project which is being organized by Reverend Father Forcade. These forms should be signed by five or six recognized Indian craft workers who will be employed in the proposed slipper and moccasin industry, for which this Department is purchasing certain required machinery.

Reverend Father Forcade is at present in the East but will notify you immediately on his return to Grouard. He will also notify you of the date on which he will have the group of applicants at the school prepared to sign the forms, and of the time of meeting. You, or your clerk, must attend at Grouard School at the time appointed by Father Forcade. Your signature, or that of your clerk "for Indian Agent", is required in the space provided at the foot of the forms which should then be forwarded by you to Inspector C.P. Schmidt at Calgary for his approval. I am writing Inspector Schmidt in this connection today.

When this application for loan has been approved by the Minister, instructions regarding its administration will be sent you. The money will probably be used for the purchase of leather and other materials by Father Forcade, who will submit, through your office, receipts covering such purchases.

Reverend Sir:

I enclose, for your information, copy of a letter to Mr. N.P. L'Heureux, Indian Agent, Driftpile, Alberta, regarding the proposed application for loan from Revolving Fund, for the promotion of a craft project for the benefit of Indian workers near Grouard.

K.M.
The regulations provide that such loans can be administered only through Departmental employees, but funds can be made available as soon as the loan in question is approved by the Minister, Honourable Mr. Crerar. If you do not require the whole amount of \$1500.00 for immediate use, it would be wise to apply only for what is required, in order to save interest. The procedure is for this office to make an accountable advance to the Indian Agent, from which he can issue a definite sum to you. For any funds issued to you, you will be required to sign the Agent's cash book receipt form. You, in turn, must take receipts for every item of expenditure, and these receipts should be sent to the Indian Agent with a covering credit voucher or list, which, in turn, will be forwarded to Ottawa. Receipts covering all expenditures up to the full amount of the loan must, in due course, be presented to the Treasury Office by our Department.

Interest is charged at the rate of 5% per annum, and it would be advisable for you to set aside, toward the payment of interest and principal, at least one quarter of the money received for goods sold. You will see by the forms that the first payment on the

loan must be made not later than November 1, 1944, but earlier payment will be to your advantage in the saving of interest.

From the enclosed copy of my letter to Mr. L'Heureux you will see that he has been instructed to attend at Grouard School as soon as you have explained matters to a group of Indian workers who are prepared to apply for the loan. There will doubtless be numerous details to be settled from time to time as to procedure, but these can doubtless be arranged as the work progresses. I wish to be clear on one point, however, and that is that the Agent is responsible to this office for the funds in question, but from the time you accept an advance and sign a receipt for same you will be considered to be responsible to him, as he must receive from you either receipts covering expenditures, or a refund of any amount not so covered.

As soon as the application for loan is returned to Ottawa, signed, we will transmit it to the office of the Minister for approval.

Dear Mr. Hoey:

Since I saw you last, I have been moving around a great deal. Back in the West, I travelled north with the Bishop and I am now on my way home. This accounts for the fact that I have given you no further information on my activities. I presume that Father Plourde has informed you, however, and I trust it was satisfactory to you.

I have purchased the equipment necessary for the making of boudoir slippers from Mr. A. Gagnon, Loretteville, P.Q., and I had him send the account to your Department, as it was understood. Everything should be satisfactory in the equipment. I had the machines thoroughly inspected and I saw to the packing and the shipping of these myself.

In Calgary, I saw Mr. Schmidt, Inspector of Indian Schools. He informed me of the procedure to be taken at Grouard by the Indians in asking the Department for a loan. I asked Mr. Schmidt to delay this as I thought we should at least start on our own and, if things go well, we could keep on manufacturing without the necessity of such a loan. In any case, you will hear of this later.

Please accept my thanks and my very sincere appreciation for all that has been done by your personally and by your Department towards the setting up of this industry among the Indians which I hope will be a success. I have no doubt in the world it will be unless some day unexpected difficulties arise. We shall keep you posted of the progress of this initiative. The Bishop who is very interested, is now working with me to prepare location for this instalment. The machinery has not yet arrived.

Thanking you once again, I remain,

Yours truly,

P.S.- Mr. A. Gagnon, Loretteville, is not by any means a wealthy man, and I am sure he would appreciate the payment of his equipment at the earliest possible date.

Dear Mr. Kacy:-

I am returning Mr. Gagnon's invoice on the machinery. Everything is included and found to be in good shape.

The people here have started a log building for this factory. It will be 30 x 50 in size. There will be plenty of room. They are quite enthusiastic though it is a new proposition for them to take up, by themselves, any new enterprise. In my estimation, the Grouard Indians are the hardest population of any in Canada. We have hopes in the youth however. Sister Jean's departure has given us such a severe blow that it has

APPLICATION FOR LOAN
UNDER THE REVOLVING FUND REGULATIONS

The Secretary,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Sir:

We, the undersigned Indians of the Lesser Slave Lake Agency,
Alberta
Province of....., hereby apply for a loan of \$2,000.00 under
the terms of the Revolving Fund Regulations authorized by an Act to
amend the Indian Act, dated June 24, 1938.

Purpose: This loan is for the following purpose: To assist in
carrying on "Reserve Industries" at Grouard..Reserve
e.g. by providing employment through production and
sale of machine-made slippers.

Loan from other sources. No other loans have been applied for by any of us,
the undersigned, from the Revolving Fund.

Subject to Act and Regulations. We are informed of the provisions of the Revolving Fund
Regulations and agree that the loan to be made to us in
respect of this application shall be governed by the
terms of the said Regulations or any other made thereunder.
We agree that all advances made to us in connection with
this Loan shall be expended under the supervision of the
Indian Affairs Branch or their representative, the Indian
Agent.

We understand that this Loan of \$2,000.00 is to be repaid on our behalf,
to the Minister, Department of Mines and Resources, or his Agent, in not
less than four equal instalments of \$500.00 each, as follows: on
the first day of November in each of the years 1944, 1945, 1946, 1947,
with simple interest at the rate of not more than 5% per annum.

Dated at Grouard, this 14th day of April

ATTENTION: Mr. R.A. Hoey, please.

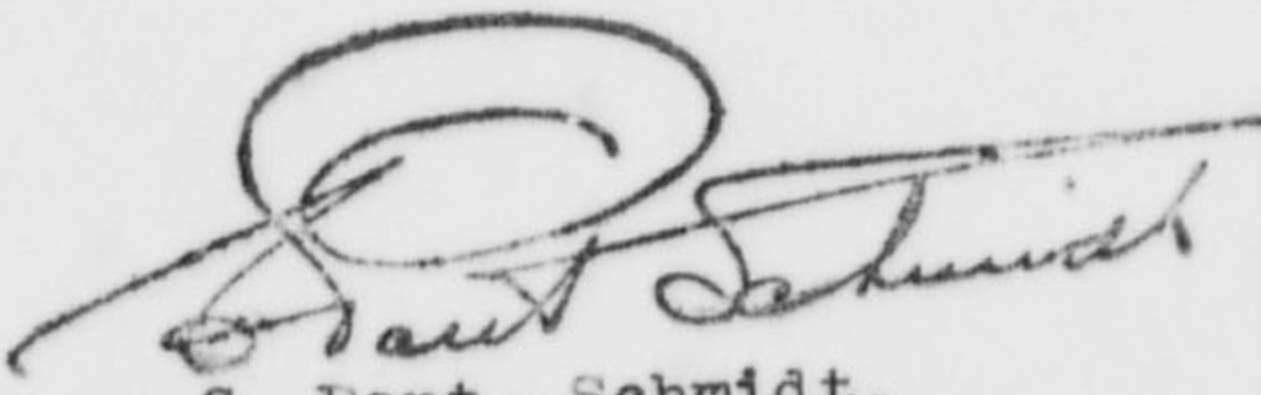

Reference your file No. 131-1-11 of September 2nd, 1943, re application for a loan from Revolving Fund, for the promoting of a Craft Project for the benefit of Indian workers in the vicinity of Grouard, in the Lesser Slave Lake Agency: I have for acknowledgment your letter of the 20th instant, enclosing application forms for my signature.

I note that this application is for \$2000.00, which is \$500.00 more than the original figure mentioned in your letter. Also, of the five Indians who signed, three are women, one a spinster. The Pay Ticket numbers not having been given, I do not know what bands they belong to; nor can I say whether J. B. Giroux and Mrs. Marguerite Giroux are man and wife. Also, from the information I have, this work shop (building) is not located on the Indian Reserve; it is on the Mission property at the Grouard Residential School.

I have not received a copy of Indian Agent Demers' covering letter or report on this matter.

I would ask that this matter be brought to the attention of Rev. Father G. Forcade who, I understand, is in Eastern Canada at the present time, and will no doubt call on you before returning to Grouard.

I am returning herewith the application forms, in triplicate, duly signed by myself.

Cher Père Plourde,

Un tout petit mot en attendant de vous donner plus de nouvelles. J'ai parlé au Père Routhier au sujet du Plant Electrique de High Prairie. C'est celui dont nous nous sommes entretenus par télégramme. Le Père Routhier consent à ce que le Vicariat nous avance l'argent voulu pour payer le marchand de High Prairie en attendant que le Dept. nous rembourse. Le Père Routhier est ici et s'en retourne à McLennan. Il doit en parler au Père Beuglet. Je compte que tout va s'arranger. Ci inclus, les renseignements fournis par le propriétaire de ce Plant, Mr. J. Nelson et la lettre de recommandation d'un électricien expérimenté. Le Fr. Nicol a vu ce Plant et croit que nous ferions là un bon marché. Je vous avertirai dès que j'aurai une réponse du Père Beuglet au sujet de l'argent.

Nous avons enfin obtenu notre liste de Prix de la Commission. Nous pouvons vendre à marché ouvert maintenant. C'est dommage que cette liste ne soit pas venue il y a deux mois. La demande de Noel est forte.

Bonjour mon Père et à bientôt pour d'autres nouvelles. Je crois cependant que vous pouvez continuer vos démarches auprès du Dept. pour ce Pouvoir électrique.

Bien à vous en Notre Seigneur,

Opus and Presidential School November 8th 1945.

Mr. Philip Phelan.
Chief Training Division.

Dear Sir.

After having filled the form sent to me by your department according the best of my knowledge, I made up my mind to put a few additional words in this letter, as to let you know more clearly whether or not I have the required capacity of being the Instructor for the Indian Boys in this Quillard School.

My little experience with, or in touch with the School Boys dates from 35 years. -- this started exactly in 1909.

From that time I had very often some Boys working with me after school time and during their free hours. This was always general work, like farm work as with teams on wagons, sleighs, plows, Mower machine Binders etc. besides, we use to work also with engines, and also eventually with Tractors, crushing feed for stock, making flour for about a month a year... and many other kinds of work we have to face with here and there....

From 1936 I worked mostly in the general shop work with some Boys coming to be trained for many hours a week. I tried to teach the Boys

according my knowledge in the wood work, which does not consist in anything really or fully technical or expertness; but of something practical and really useful in every House or on every farm and specially among the Indian people.

The last year 1944 before June: the Boys had performed the following items in the Shop: 4 or 5 night-Cup-board which they call also wash-stand, with 2 shelves and a drawer in each one. 4 Kitchen and Family tables, 2 radio tables, 3 cabinet or Medicine Cup-board with mirror or picture on the door, 3 big Chairs, 3 or 4 Stools, 2 big loan or garden Benches, 2 wall Shelves blocs (special for Indian Houses), 5 strong little wagons (for children playing), 3 little bob sleighs for children playing. 2 Wheel barrows, and many Hobbies (see over)

made by the beginners which is too long to be stated.
besides the biggest Boys have many reparings,
not only in the wood work ^{but} also in the tin works,
farm implements reparings, as handling axes, forks,
hoes, and even a few tools eventually.

In the Spring time I use to take care of a garden
which also is attended by all the Shop Boys, this
works consist of sowing, lining, weeding, transplan-
ting etc. etc. The Boys use to show a real interest
in this work, and as a result, the heavy crop in
the fall has often given evidence that the work and
trouble was not scattered in vain.

If you wish me to give you any other data of my
little experience with the Indian Boys, please let me know about
it, and I will be pleased making my best also in this
regards...

Sincerely yours.

Re: Grouard Indian School. Alta.

Dear Mr. Phelan,

Asnobody asked me for making any kind of report about the Boys training in the woodwork during the season ending June 30th.46. I put in mind to make here a short statement of what the Boys have performed in the Shop during the teime past away. ~~~~~~~~~

The boys came to the shop in two groups, one of the groups included 5 boys, some of them came to work for the third year some of them for the second. The other group where only 4 boys, all of them except one came to the shop the first time.

The conduct of the boys, in general, was satisfactorily, and if some ones eventually did not show a full interest, yet the most part of them gave a good application to thier work and consequently showed also a real betterment from the previous years.

The boys have only made during the year what is absolutly utilitæes for the houses, farms, and around the barns, because as these Indian boys are already as big as ordinary Men and liable (at least for one part), not to come to school anymore, it is advisable to teach them to do what they are going to need in their own house to-morrow, also I use to ask every boy before they begin one project to ponder which item they need or like more to have in their house or on their "so-called" farm. The answer is nearly always what is realy useful for any house and much more for every Indian houses, which use mostly to be empty from wall to wall.

The following citations will give you a short account of the articles made by the nine boys this year: The number of the pæces stamped by myself before the two-weeks exhibition at the end of the year amon- ted to about ~~85~~ 87 pieces.

Children cribs, 7; Kitchen and family tables, 7; utility ~~cupboard~~ cupboard, 8; general utility trunks, 5; chairs with elbow-rest, 12; other chairs, 5. Laun benches 6 feet long, 2; Medecine cabinet, 8. Stools, 7. Besides this, they have also made (around the spring time), many bird houses, guns, many wagons, (toys), and also bigger wagons, which they use around the houses for hauling kitchen wood, etc. Many other things are not quoted here. I add only some tool earriers, many flowers stands.

Of these many things stated here above, I was pleased to find, the Principal of this school graciously willing (in spite of quite many expenses to support the shop in boards, planks, nails, screws, paints, etc. to give to each boy, of the shop-work, two of the best pieces they have performed during the year, two pieces to their own choice, this was a gracious revelations for the parents and also a "start-pieces", of desirable ambitious for having later-on, yet more furniture in their houses which will also contribute in some extend to the improvement of their welfare.

~~The boys~~

ve also made many ~~pieces~~ of metal work, as scoops, dust-pans, repairing and soldering.

The boys of the second and third year ha-
They have made a garden and although under my supervision, they have themselves lined, planted, covered and cared of until the time of their going for vacations, and I ascertain that actually we are not ashamed to show to the welcome visitors the "Boys Garden".

Any remarks you would make to me about this letter which is made in ~~any~~ way of a little report, or any other advise for the future, would be received with thanks.

Sincerely yours.

Mr. Bernard F. Neary,
Supert. of Welfare & Training,
Dept of Indian Affairs,
Ottawa, Ont.

Dear Mr. Neary,

Last year, on July the 17th. 1946,
Brother T. Nicol, accepted by your Department to be a Training Instruc-
tor for the boys of our Indian School, for the Carpenter work, made
a report to your Department, addressed to Mr. Phelan himself.

As he didn't have special forms for
such a report, he made it just by himself, Last year, (1946-1947), Brother
Nicol gave absolutely the same training to those boys, three times a week,
in the afternoon, by groups of 4 boys, each time.

If you want to have more informations
about the training done, in that line, you could write to our Indian Agent,
Mr. J. Landry, High Prairie, Rev. A. Plourde of Ottawa could tell you some-
thing about it too. During the year (1945-1946,) your Department has allow-
ed the salary of \$600.00 for our Manual Training Instructor, Brother
Nichol. Last year, the same Brother gave the same training, three times
a week, but he didn't make any report, because he didn't have any special
forms, for it. Would you kindly send me those special forms, so he could ma-
ke those reports required by your Department.

As Brother Nicol didn't receive any

Dear Father Tessier:

Your letter of the 21st instant addressed to the Superintendent of Welfare and Training has been referred to me for attention.

I was pleased to note the two snaps enclosed. On close observation I noticed that the articles made by the pupils are objects that are most useful in their homes. You are to be commended for these directives. By this means, the desire of better living may be created.

I am enclosing forms for Monthly Reports as required in this letter. Also you will receive in the near future two sets of plans and badge charts together with new regulations concerning the badges. Kindly have the form "Application for Manual Training Instructor" completed and returned to this office at your earliest convenience. At that time I will be able to look into the matter of remuneration for Brother Nicol.

Re: Grouard Indian School. Alta.

Dear Mr. Neary,

As requested in your last letter regarding our Manual Training Instructor, I send you to-day the first report for the present year.

As we didn't have all the children in for the month of september, our Instructor started just in october, exsctly october the 6th. Since that date, however, the training wood - work is attendes in due time regularly, and every boy seems to be interested at the work. One of them is in for the third year, four for the second year and three for the first year.

Finally, we could find a form to make that class monthly report. I do hope that it will be satisfactory. In the same I enclose the Application for the Manual Training Instructor, Brother T. Nicol. Thanks.

Dear Mr. Neery,

For any one of these boys, we are asking for their first badges. As we have already mentioned it, already, we can hardly have a boy following the three years course until at the end. We regret this very much, indeed, because it is surprising to see some of them improving their knowledge in the carpenter-work quite rapidly and we could say that those who stay at least two years, acquire really a certain knowledge of doing in a proper way all the furniture or other items either for houses or farms, what is suitable to have on their homes, and which would be a contribution for a betterment in their life of every-day and so an appreciable improvement in their welfare. Thanks.

Yours very truly.

Dear Mr. Phelan:-

I was given to understand at the
Indian School Convention last fall that
the Dept. would send me a number
of goats for milking.

I have been banking on these
considerably and would like to know
if it is still your intention to send
me some, in what number; if they
will be milking at the time I am
about when you expect they will
come. I am ready for them and
promise you to make good in the
results.

Thanking you kindly,

The Department is in receipt of a letter from the Grouard Residential School requesting us to supply them with goats. At several of the Indian residential schools in Eastern Canada we have started goat herds with satisfactory results and we would like to see some of these herds encouraged at some of the residential schools in Alberta. With special reference to the recent request from the Grouard Residential School, I would appreciate your advising if you can obtain 6 female goats and 1 male goat in your province. An early reply would be appreciated stating where you can secure the goats and their cost.

Calgary, April 28th, 1943.

Indian Affairs Branch, Dept. of Mines and Resources, OTTAWA.

Reference your No. 131-1-11 of the 5th instant re purchasing six (6) female and one male goats for the Grouard Indian Residential School, I beg to say that I have made enquiries, and have not found anything suitable in the Southern part of the Province. It would appear that the greater number of the few herds that were in the South, were sold a short time ago for use on the bombing range (gas experimental work) at Suffield, Alta., near Medicine Hat.

In company with Mr. S.G. Freeborn, Senior Live Stock Field Man for the Dominion Department of Agriculture, Room 411 Public Building, Calgary, we looked over two lots in the outskirts of Calgary, but did not find any females that would be worth buying. We saw a two-year old Toggenburg Buck which could be used providing females of the same breed or species can be found. This animal is well bred (good blood line) but apparently has not had proper care and attention, and therefore has not developed as well as he should have. We were unable to get a price on this animal, which belongs to a Mrs. Grace Court, now of Vancouver, B.C. The party who is keeping the animal says she will demand a high price. He is most anxious that she get rid of the animal which he claims is very cross and vicious, and has to be kept in a pen or tethered.

Edmonton District:

Through the office of the Edmonton Exhibition Association, Ltd., I was informed that Mr. J.J. Thompson, 11143 - 106 Street, Edmonton, has a number of female goats, ages two to six years, some of which are fresh, and others due to freshen soon. His price ranges from \$20.00 to \$35.00 each. The name of the breed was not given.

Mr. W.H.T. Mead, Live Stock Promoter, Provincial Department of Agriculture, informs me that Mr. N.S. Thompson of 8550 - 74th Ave., Edmonton, has six female goats to sell, for \$30.00 each, all bred and to freshen soon. These are of the Saanen breed. He has no male animals to sell.

Note || Mr. G.C. Laight, Indian Agent, Winterburn, informs me that Mr. G.A. Johnson, 9555 - 103A Ave., Edmonton, has six female goats and a buck, ages one to three years, for which he is asking \$155.00.

I have just been informed that a Mr. Henry Guenette, 11210 53rd Street, Edmonton, had a few young goats; however these may have been disposed of; I have not communicated with him.

Agent L'Heureux writes that he does not know anyone in the Grouard district who has goats for sale.

From information I can gather, a fairly well bred female -- two to three years old -- with a flow of two quarts or better of milk, is worth about \$35.00 to \$40.00. Prices are higher than they were two or three years ago.

If a buck cannot be found in Alberta I would suggest buying a buck kid in British Columbia, to be shipped to Grouard when weaned. He would be ready for service next Winter.

In conversation with Mr. S.G. I recommend that this be done; personally I have never had anything to do with goats. It might be well for our Branch to take up with Mr. R.S. Hamer, Director of Production Services, Department of Agriculture, Ottawa, the matter of having Mr. Freeborn make the purchase for us on his first trip to the Edmonton district.

Re: Purchase of Goats,
Grouard Residential School.

I desire to acknowledge receipt of your letter of April 28 and to thank you for the information contained therein.

We are of the opinion, from our experience in the East, that the Saanen breed of goat is the best adapted for use at our residential schools. This is a dairy type of goat, with a milk supply averaging about one gallon per goat per day.

We are interested in the goats at present the property of G. A. Johnson, 9555 - 103 A. Avenue, Edmonton. If these goats are a good breed and are in a healthy condition, we do not consider the price of \$155.00 excessive. Would it be possible to have Mr. Freeborn inspect these goats at the time of his visit to Edmonton? The actual purchase could be made by Indian Agent Laight. We would like these goats purchased at as early a date as possible.

Dear Miss Blanchfield;

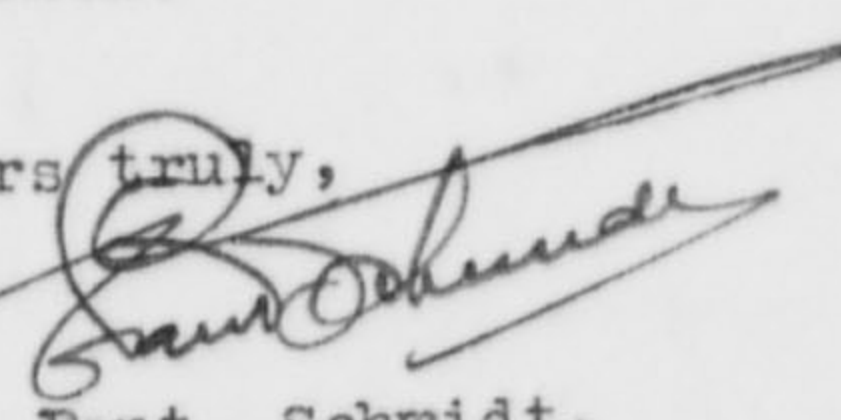

I have received your letter of the 8th re goats and called at Mr. G. A. Johnson's home, 9555, 103rd Ave. this evening but he was not at home. However, I spoke to him on the Phone (his number is 21406) and he tells me that he has disposed of some of the females but knows where he can get others to replace. He still has the billy goat.

Would you please call on Mr. S. G. Freeborn and if he comes to Edmonton (say next week) he could call Mr. Johnson on the phone and arrange to see the goats immediately. Mr. Johnson has a car. It is five miles to the farm. If these goats are not suitable, (note what Mr. Hoey says regarding breed "Saanen") he could see the others mentioned in my letter to Mr. Hoey (copy of which I enclose herewith together with Mr. Hoey's letter).

As regards price, he can be governed by Mr. Hoey's letter, i.e., 7 at \$155.00 is not considered excessive. ($\$155.00 \div 7 = \22.15) I do not want to suggest an average price. Mr. Freeborn knows more about this than I do and I know that he will select good milk producers. When he has found suitable animals, I would ask him to kindly contact Mr. G. C. Laight who will make the actual purchase and submit the voucher. Mr. Freeborn will, I am sure, advise him of any precaution or arrangements, if any, to be made in the Railway car.

I understand that Mr. Johnson expects to leave on a trip East before the end of the month.

Re: Purchase of Goats, Grouard Indian Residential School, Lesser Slave Lake Agency, Alberta.

Reference Mr. Hoey's letter No. 131-1-14 of the 3rd ultimo, copy of which Miss Blanchfield sent me while I was in Edmonton, I beg to enclose herewith copy of my letter dated at Edmonton on May 12th, 1943, addressed to Miss Blanchfield, which is self-explanatory.

Mr. Freeborn was contacted, and it was arranged that he and Indian Agent G.C. Laight of Winterburn would go together to see the goats. Mr. Freeborn's report on this matter reads as follows:

Calgary, June 2, 1943.

"

"Dear Mr. Schmidt,

" In connection with the milk goats required for the Grouard Residential School, I contacted the Indian Agent at Winterburn, Mr. G.C. Laight, and we first got in touch with Mr. G.A. Johnson, 9555 - 103A Ave., Edmonton, and in company with him visited half a dozen prospects. Afterwards we contacted Mr. J.J. Thompson, 11143 - 106th St., and went from there to Mr. N.S. Thompson of 8550 - 74th Ave., Edmonton. I also checked up on Mr. O. Scott who has quite a number of goats in the neighborhood of 155th St. and 106th Ave., and Mr. Frank Adamson, 82nd Ave. and 80th St.

" We could not find anything that I would care to recommend for the Grouard purchase. Apparently the younger goats have been pretty well picked over, and the only goats of suitable size, type, quality and character were goats from five to eight years of age. While we could purchase five or six old goats that, properly mated with a good buck, might be expected to produce fair grade milk goat kids, I was of the opinion that for a foundation flock such as the Grouard Residential School would be expecting, an average age of six to seven years was too much of a handicap.

" The best goats were in the hands of Mr. N.S. Thompson, Mr. Frank Adamson and Mr. J.J. Thompson. Mr. N.S. Thompson informed me that he had just one yearling doe in kid but not freshened yet that would be of the general character that we might require. She was out on his farm elsewhere and it was raining hard so we did not inspect this individual.

" Mr. N.S. Thompson also informed me that the goats that he previously offered for sale were snapped up very quickly. He directed us to Frank Adamson if we could use old goats, giving the old goats that Adamson had for sale a good recommendation.

" I regret that we were unable to locate the making of a herd that would promise satisfaction, but I do think that a herd of this kind should not average more

"than two to three years of age so that while the kids that are produced by the herd are taking their time to develop the management of the new venture will at least have strong goats in their prime with which to get experience.

" If there is anything further that I can do along this line you have only got to mention it and I will try to help you in any way I can.

Yours very truly,

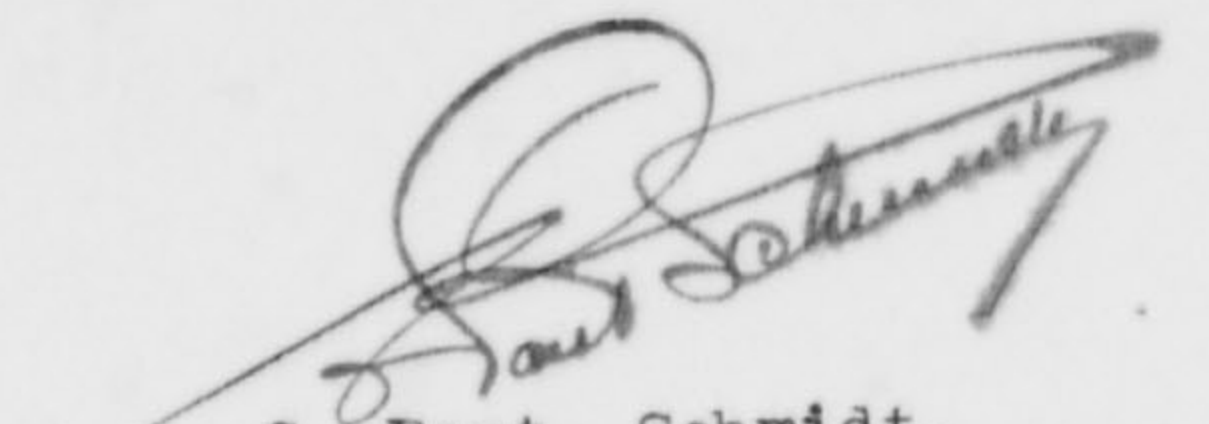

(Sgd.) "S.G. FREEBORN"

Senior Fieldman.

In conversation with Mr. Freeborn at this office today, he informs me that he does not know where he can find any young goats that will be suitable for our purpose; and that in the aged class -- 5 to 8 years of age -- he probably could have obtained 6 animals, but of this number one only would have been five years of age. I understand from Mr. Freeborn also, that it is quite difficult to get good milk goats from British Columbia.

From what I can gather, one of the reasons for the shortage of young goats is, that they have been purchased in large numbers by the Department of National Defence.

Mr. Freeborn will keep us in mind in his travels around the Province, and will advise me if he locates any goats which he thinks will be suitable for the Grouard School.

MEMORANDUM:

To: Mr. R.A. Hoey, Supt. Welfare & Training,

Re: Goats for Grouard Residential School

Mr. S.G. Freeborn, referred to in my letter of April 28th and June 14th, last, called and says he believes that in a short time he may have a report from Mr. T.G. Stewart, Dominion Government Field man in B.C., to say that they can buy and ship six (6) goats from a point in B.C. to the Grouard School at a cost of approximately \$50.00 each. Total \$300.00 F.O.B. Shipping point. These will be of very high grade breeding and due to freshen this spring.

Mr. Freeborn is anxious to know whether we want them at that price; he will write me as soon as he has definite word from Mr. Stewart in B.C.

He says we don't need to worry about a buck (Billy Goat) till late next summer and a good animal may be found, somewhere nearer, before that time.

For your information please. Immediately Mr. Freeborn's letter is received, I will communicate with you, giving cost including transportation, when a decision may be made whether to purchase or not.

Re: Establishment of goat herd, Grouard Residential School.

I have for acknowledgment your letter of January 29, in which you intimate that it may be possible to secure six goats through Mr. T.G. Stewart, Dominion Government Field man in British Columbia, for the marginally-noted school. The price quoted, \$50.00 per head, appears to be a little high, but, in view of existing conditions, it is not at all likely that we can secure goats at a lower price.

We are anxious to establish at Grouard a goat herd from which we could later distribute goats to needy families and particularly families who urgently need a milk supply for their children. It will be acceptable to the Department, therefore, if you make arrangements for the purchase and shipment of these goats. It will be necessary to communicate with the Principal of the school and to satisfy yourself that they have the building and feed necessary to maintain these goats. You should also explain to him that, while the original cost is being borne by the Welfare Division of this Branch, we will expect them, in the course of time, to make a contribution of goats to needy Indians equivalent to the amount of this purchase.

She will sell two of the best ones out of these three. These does were sired by a buck by the name of Raughtys. All his get have given up to 3 qts. per day, first kidders. These does are bred to a buck by the name of Malta, whose dam so far has given 2,750 lbs. milk in 10 months. The sire of Malta is Cleveleys Paul, a buck that was bred by Mrs. M. Lockwood, Cobblehill V.I., B.C., and is a Grandson of Cleveleys Elizabeth, with an extra good B.C.P. official milk record.

Note - None of these breeders would like to ship these goats until the weather was sure to be good, say about the end of March, or April, seeing they are going so far north, but they would like to know that they would be purchased by the Grouard Institution, as soon as possible, so they would hold them for this Institution.

Attention Mr. R.A. Hoey, Superintendent of Welfare and Training. Your file 131-1-11 of April 5th and 131-1-14 of May 3rd, 1943. - Re Purchase of Goats for the Grouard Indian Residential School.

Reference my memorandum of the 29th ultimo, re the above, I beg to enclose, herewith, a memo on the matter handed to me by Mr. S.G. Freeborn, who in conversation stated that he had kept me in mind and made many inquiries during his travels, and that he finds that there are very few goats or as he says, "no supply for sale in Alberta". He therefore recommends that we purchase those listed on his memo which he believes are a very good milk strain, and very well bred. He suggests that we buy, at once, because if we pass these up, we may not get another chance, for a long time, to get as good, or "nearly as good" animals. Also, if we don't buy at once they will have "kidded" in a short while and may be kept and not sold for another year, at least.

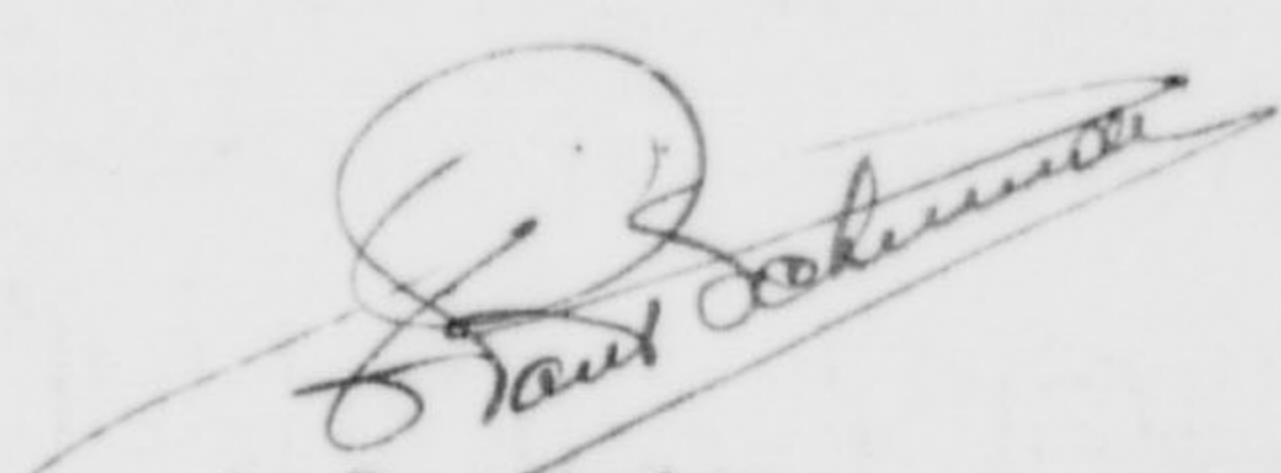

Mr. Freeborn recommends buying the three (3) owned by Mr. R.C. Hirst; the one (1) owned by M. Straham and two, if not all three, offered by Miss Joy Barnes, and that they be shipped (crated) all in one shipment, at once, before they start kidding.

I have made inquiries from the C.N. Express Company re rates from Vancouver to Enilda, Alta, this is \$6.75 per cwt, if crated. By shipping them express there is no need of having a man in charge to feed and water.

I have for acknowledgment your letter of the 2nd instant and also memorandum received by you from Mr. S. G. Freeborn, sent forward therewith.

In this connection, may I refer you to my letter of February 1, 1944, in which you were authorized to proceed with the purchase of these goats. The prices quoted seem to be a little bit better than the prices first indicated. I am disposed to think that you should buy the 7 goats referred to in the memorandum. At the time of shipment you should send forward all available information that you can secure, with respect to the care of these animals and the most suitable feed with which they should be provided.

I note the suggestion in the last paragraph of your communication, that you be permitted to proceed to British Columbia to make this purchase. I have today discussed this request with the Director and we are agreed that, in view of the fact that you have had no holidays this year and are not likely to be in a position to take holidays at this comparatively late date, it will be satisfactory to the Department if you proceed to the coast to make this purchase and take a few days' rest prior to your return to duty.

Re: Establishment of Goat Herd - Grouard Indian Residential School.

Reference Departmental letter No. 131-1-14 of the 4th instant, I beg to report that I proceeded to Vancouver, where in company with Mr. T.G. Stewart, Dominion Live Stock Fieldman, we drove out to the owners' homes to look over the goats offered, which I found to be very nice animals: -- all white, with fine coats of hair, sound of limb, and very tame and easy to handle. Four of these had kidded a few days before, giving male kids, which were destroyed; the owners have not the grass in their very small holdings to rear non-productive goats; their interest is in milk-producing animals only.

I was very much impressed with the udders of these goats, i.e., the size of them: They were giving 2, 3 and 4 quarts, and are not yet up to their full flow of milk; they are still young.

One is due to freshen in March, and the other two are due some time in April; these, with the four mentioned in the first paragraph of this letter, make up a total of seven (7).

There was one thing which I wanted to find out first-hand for myself, viz., whether these goats were specially cared for, groomed, and what they were fed; or, in other words, whether they were pampered like some dairy cows: I found that this was not the case. They are out in the open, with a shed which they can enter if it is stormy and snowing. As regards feed, they are given a small feed of chop (oat hulls mostly) and a bit of green feed. As for grazing, their small plots are cropped very close. I was glad to see this condition, because they cannot get worse anywhere, and at the Grouard School they will be properly stabled and well fed.

Mr. Stewart will arrange for shipping (in individual crates) sometime around the 15th of March. This will give the animals that have already freshened time to pick up stamina for the trip, and those that do not come in till April will have time to rest and get familiar with their new surroundings and the people who handle them.

Dear Mr. Hoey:

Our enterprise is getting along very well though it is a tremendous amount of work at the beginning. However, everyone is interested and co-operating beautifully.

We all appreciate a great deal the help that your Department is giving us. We have received the sum which has been granted for labour. Nothing has yet been so timely in our project; we thank you very very much.

We have been notified that the goats will be coming about the 15th of the month. Everything is ready here to welcome them. A man here has already been hired to take care of them. We have a good barn for them and with proper care, as I expect they will get, we should obtain satisfactory results both to the Government and to the people.

In the name of all those you are so generously helping, I wish to thank you very heartily and assure you that we intend to keep up the good work.

Yours truly,

MR. ARNEIL

(Extract from Mr. Morris's report on Lesser Slave Lake Agency - Grouard School)

Mr. Robert

Six milking Saanen goats recently purchased in British Columbia were inspected. They are good animals and are being milked regularly. The school will give one female goat to some responsible needy Indian for each goat purchased. Note - a good male Saanen goat should be sent to the school from Ontario as one cannot be obtained in the West. I would suggest that Father Primeau at Spanish be requested to send one of his male goats to Grouard in August. It is important to send a young animal that has been acclimatized in the northern district. If this is done, then Inspector Arneil should be asked to obtain another Saanen male in southern Ontario for the Spanish herd.

*Male goat should be
purchased in B.C. and
shipped to Grouard School.
Distance from Spanish is too
great. WSA.*

In our above mentioned letter this animal was referred to as a "male" but we are now in receipt of a recommendation from Mr. J. E. Morris that a male goat be supplied this school.

Will you kindly ascertain definitely whether or not a male goat is required at Grouard. If so, you are authorized to purchase a good animal in Alberta or as far north in British Columbia as possible in order that same may be acclimatized to weather similar to that in the Grouard area.

If the above purchase is made, please quote file and date of this letter as authority, when submitting a voucher for payment.

I am sending forward herewith a schedule of Mr. Lazenby's Treaty payments. You will note that Treaty will be paid at Cross Lake July 31 to August 4. I am not at all sure, however, that you can make satisfactory arrangements for your visit to Norway House and Cross Lake on the dates submitted by the Indian Agent. In view of the criticism that has been directed against the Department in respect to the administration of relief, the health of the Indians, the failure to provide hunting and trapping grounds etc., and in view of the fact that Inspector Hamilton has not visited Cross Lake at any time within the last ten-year period, I am anxious that your inspection of the Norway House Agency should be as complete and as searching as it is possible to make it. You should feel free to remain there for the length of time necessary to undertake this task thoroughly. If you cannot reach Norway House by way of The Pas you may be able to make arrangements to fly in from Winnipeg or Lac du Bonnet.

Dear Mr. Hoey,-

Re, Saanen male Goats

Regarding the sending of male goats to the Grouard, Blue Quill And Duck Lake schools as recommended in my reports I wish to make it clear that I never intended that young goats be sent. I do feel that good animals six months old could be sent without any difficulty. These three schools are very interested in the raising of goats to be distributed to needy T. B. Indians and we will have to encourage the project by helping to obtain breeding stock.

I investigated the possibility of obtaining saanen male goats at Edmonton, Calgary and at any other place where I thought goats could be obtained. This question was very thoroughly discussed with Inspector Schmidt and all the agents I have visited to date and in every case they state that there are no good breeding goats to be had. Mr. Schmidt stated regarding the purchase of goats in British Columbia that there ^{are} only a limited number available at a very high price and that in his opinion there has been a great deal of inbreeding already. He was of the opinion that if goats are to make a success of in the Agencies in the West good breeding stock will have to come from Ontario.

Dear Mr. Schmidt:

We have not been very successful to date with the goats which the Department of Indian Affairs had sent us for the well-being of the Indians.

We have lost one through illness and another is now stricken with the same disease, and I fear that we will lose it too. The climate does not seem to agree with them. Moreover, I have received complaints that they destroy the trees, the flowers, etc., in our gardens.

This experience is, therefore, unfavourable to us and I am of the opinion that it would be only right for us to return them to the Department of Indian Affairs that they may dispose of them in favour of other schools, more especially as they will not be useful to us for next year since we have no he-goat.

Taking for granted that we do not lose the one which is ill at the present time, we have five left, in addition to the 2 kids which were born here.

Trusting to hear from you in this connection at your earliest convenience, I remain,

Goats - Grouard Indian Res. School.

I am enclosing herewith copy of letter received this day from Rev. Jos. Habay, O.M.I., Principal of the Grouard School, re the above. This letter is not encouraging; rather I should say, it is discouraging, as the reasons given for wanting to get rid of the goats are not what I consider major ones.

If the goats are destroying flowers, &c., in the gardens, and shrubs and trees, could not a higher and tighter fence be built around them; or the goats kept in a closed pasture field?

As regards a he-goat: The Department have authorized the purchase of one -- "the best to be found" of the Saanen breed; and Mr. S.C. Freeborn, Senior Fieldman, Dept. of Agriculture, Live Stock Division, Production Service, and myself have already started making enquiries. I am awaiting a reply from a party at Timeu, Alta., South and West of Smith, who I understand has a well-bred Billy, bred from a good strain, with good milk production behind him.

I would ask you to please take this matter up with the Rev. Principal, and get his reasons and full particulars (if there are any besides "that they destroy the trees, the flowers, etc. in our gardens") as to why he wants to get rid of these goats.

Please submit a full report to our Branch at Ottawa on this matter, to whom I am sending a copy of this letter; please let me have a copy of your report for my file.

AIR MAIL

Ottawa, August 1, 1944.

Mr. C. P. Schmidt, Inspector of Indian Agencies,
Calgary, Alberta.

I have for acknowledgment copies of correspondence relating to the goats purchased a few months ago by the Department for use at the Grouard Residential School.

The purchase of these goats represented an attempt to provide the Indian pupils in attendance at the school with a certain amount of training in the care and feeding of these animals. We have been assured from time to time by nutritionists, particularly by Dr. Kruse, of the Milbank Foundation, New York, that it is almost impossible to provide a balanced diet, particularly for children, in the absence of fresh milk. If such is the case, training in the care and feeding of goats is just as important as instruction in Reading, Writing and Arithmetic.

nm The objections raised by the Principal of this School are scarcely convincing. If the goats have given trouble in the destruction of trees, there is no reason whatever why they should not be fenced in or tethered. Thousands of small farmers in Europe keep goats on small plots of land, surrounded by beautiful trees. This is done by tethering and by careful supervision. The Department, however, has no desire to keep goats at a school in opposition to the wishes of the Principal. It might be well, therefore, for you to discuss the matter somewhat fully, by letter, with the Principal himself, and, if necessary, transfer these goats to another residential school in the Lesser Slave Lake Agency. If the school principals are unwilling to accept them, you might canvass the possibility of having the goats distributed to a reputable and dependable Indian family.

I am in receipt of a letter from C.P. Schmidt, Inspector of Indian Agencies, as also a copy of a letter from Rev. Joseph Habay O.M.I. Principal of the Grouard School, Re Coats, and wish to make the following report.

On Sunday July 30th, I met Rev. Father Habay at Jousard, and had a talk with him about these goats. He told me that the main reason for not wanting to keep the goats, was that they were into everything, destroying shrubs, gardens, flowers etc., and that the Nuns were very much against that. He is also under the impression that they have contracted some disease, and that if they are left there, they might lose them all. They have already lost one, and another is sick. I might add that there were no other reasons given to me by Father Habay. I tried to get him interested in the keeping of these goats, but he seemed to be disgusted with them.

RE: GOATS.

You are authorized to buy sixteen female goats at fourteen dollars each (\$14.00) and six male goats at ten dollars (\$10.00) each from the Rev. Mr. Jones; payment to be made out of the Welfare Vote. You are also authorized to purchase two female goats and one male goat from Father Rivard at twenty-five dollars for the three animals.

This herd is to be established at Norway House; the milk to be used for tubercular patients and the children of families who are unable to provide milk.

There has been considerable inbreeding in this herd; therefore, you are requested to separate the males at the earliest possible date. Probably you can arrange to pasture them on another island until they are distributed. The male goat purchased from Father Rivard should be used with this herd.

One male goat has already been sent to Island Lake. The others should be disposed of as follows:-

One to Father Trudeau to establish a herd at Cross Lake.

One to Indian Agent Lovell at The Pas.

(Note: It is suggested that this goat be sent there by aeroplane when Dr. Yule next visits Norway House.)

Two good billies should be selected -

One to be sent to the Duck Lake Indian Residential School,
Duck Lake, Saskatchewan.

One to the Blue Quill School in Alberta.

It is suggested that you write to Father George Letour, Duck Lake, Saskatchewan, and Father L.C. Letour, St. Paul, Alberta, asking them to provide you with the proper shipping instructions.

(NOTE: I understand they will not bring goats out on the "Keenora" until after the tourist season is over: therefore these two goats most likely will be shipped the later part of September or the first of October. In my opinion, it might be wise to send these goats Via Prince Albert: the one for Duck Lake could be transported from there by truck, the one for the Blue Quill School could be placed off at a station on the main line to Edmonton. If this is done the goats will be delivered in the shortest possible time.)

EX'D.

Dear Mr. Morris:

Further to my letter of July 10th, regarding the shortage of male goats at Spanish, a letter has now been received from Father Prineau in which he states they expect to have more kids than was originally anticipated.

I quote hereunder from Father Prineau's letter:

"Following up your letter of March 30th (File 24-13) in reply to my letter of the 24th to Mr. Morris, I am pleased to say that we expect to have more kids than we thought there would be at that time. There are already five that have arrived, four billies and one nanny. There will be a good number of others I hope, as more of the nannies were bred than Brother Grubb had thought. I shall let you know later this month as to the number of kids we expect to be able to provide this season."

On passing this information on as it has just occurred to me you may wish to alter the instructions you recently gave to Mr. Laszby regarding the shipping of billies to Saskatchewan and Alberta.

Yours very truly,

Mr. J. E. Morris,

Re: Goats and Grouard Indian Residential School.

I have for acknowledgment your No. 131-1-14 of August 1st, last, re the above.

I visited the Grouard Residential School on the 26th ultimo, when I had a long talk with Rev. J. Habay, the Principal, whose parting words were: "I would be very pleased if you would send the goats somewhere else; no one cares to have them around the place here, and I have more complaints about these animals than everything else put together!"

I mentioned goats when at Sturgeon Lake and Joussard Residential Schools, and it was obvious that they did not want any.

I recommend, and beg to ask for authority, to send the five (5) remaining females to the Youville Residential School at St. Albert, near Edmonton, who have asked for goats. (Vide: Your No. 110-1-14 of August 5th, last.) I had a talk with the Sister-Principal of this school in September, when she said she would be pleased, and was prepared to take goats at any time.

May I have a reply by air mail or radiogram, and I will immediately wire the Principal of the Grouard School to ship the goats by railway, at once.

Re a buck to place with these five females: I do not think I will have any difficulty in getting one. If a suitable one cannot be found locally, Mr. T.G. Stewart, Dominion Live Stock Fieldman at Vancouver, B.C., says he can get one there. These five females are well bred, and I am anxious to get a well-bred buck to keep the strain as high a R.O.P. as possible.

Re: Goats -
Grouard Indian Residential School.

I have for acknowledgment your letter of the 6th instant and have noted with interest the somewhat disturbing information contained therein.

May I re-emphasize the fact that these goats were purchased for the Grouard Residential School in response to a number of requests for goats, received by us from the church authorities. The expenditure involved in this purchase - travelling expenses, freight on goats, purchase price, etc., was quite substantial. I feel that you, the senior administrative officer of Indian Affairs in Alberta, should inform the school authorities that this is not the kind of cooperation expected from them by the Department and that this is an experience that should not be repeated at any time in the future.

mm
In view of all the circumstances, you are authorized to take the steps necessary to have these goats transferred to the Residential School at St. Albert. It is my hope that the Indian pupils in attendance at this school will have an opportunity to receive instruction in the general care and feeding of these animals. Ultimately, of course, we shall have to establish goat herds in the North. As a matter of fact, the Hudson's Bay Company, with years of experience behind them, are establishing a number of goat herds this year at their outlying posts. We do not deem it wise, however, to ask a school principal to keep animals in the care of which he is no longer interested.

George BIG BEAR, Grouard, Alberta,
Treaty/
Sudden Death.

Statement of Father PROULX:

"Grouard, Alberta.
Sept. 15/36.

Father Marcel PROULX states:

About 7.30 am. On Sept. 15/36. I was called into the boys room by Sister Marcella she pointed out one of the boys in bed & I felt his pulse there was none, Artificial respiration was tried without result, I learned that the boys name was George Big Bear a treaty from Whitefish Lake.
Sgd. Father Marcel PROULX

4. The room where the boys sleep is a large place and has 75 beds, at present there are 65 boys sleeping in the room, I was given to understand that there is always one of the Sisters present when the children are in the room, and during the night one of the Sisters sleeps in an adjoining room on the same floor, so that she is always available if necessary, on the night in question Sister Gerard was on duty, and she advised me that there was no disturbance during the night and the boy had not complained, neither had the boy complained since his return from Whitefish Lake about not feeling well, the Sister did notice that the boy had not been looking very well since his return to school on September 1/36, but as he appeared to be getting along alright no attention was paid to this, the mother of the child resides at Whitefish Lake and a messenger was sent to notify her of the death of her child, also Mr N. P. L'HEUREUX of DRIFTPILE who is the Indian Agent was informed of the boys death. Statement was also obtained from Coroner McIntyre as follows:

"High Prairie, Alberta.
Sept. 16/36.

Statement of E. L. McIntyre Coroner of HIGH PRAIRIE, On Sept. 15/36. Corpl Faulkner and myself were notified that a boy (George BIG BEAR) 10 years of age had died in bed in the GROUARD CATHOLIC MISSION boys dormitory. We proceeded by auto livery and motor boat to the R. C. Mission at Grouard, after taking statements and examining the body, I decided that the boy had died from natural causes. The body was that of a male child of about 10 years of age, fairly well developed and slightly debilitated. He had a well marked scabies condition on the body, and the pupils widely dilated, but there were no marks of violence on the body. Apparently the boy had had influenza of both respiratory and gastric intestinal type during the latter part of the holidays and he had returned to school in a debilitated condition.

(b) He also had congenital V.D.S. death had apparently been caused by heart failure (V.D.H) from influenza, the condition had been aggravated by congenital V.D.S., I signed the death certificate accordingly, I decided that an inquest was unnecessary.

Sgd. E. L. McIntyre, M.D."

5. In view of the above statements and my investigation I am concluding this case, the boy is being buried at GROUARD, death being registered before W. B. MILLEY, Esq., of that point by the Rev. Father FAHER of Catholic Mission.

Attached copy of this report for Mr L'HEUREUX of DRIFTPILE who is Indian Agent for this district.

1. Sept. 15/36. I received a phone call from E. L. McIntyre Coroner at HIGH PRAIRIE, that the above named a boy age 10 years had been found dead in his bed at the Catholic Mission School at GROUARD, he had apparently been alright the night before, and when the Sister in charge of the room had gone around to waken the boys at 7.30 am she found him dead in bed.

2. Accompanied by Coroner McIntyre via auto livery we left HIGH PRAIRIE and patrolled to the GROUND boat landing, where we met the ferry boat and continued our journey to GROUARD, upon arrival we were shown the body of the boy, examination of the body showed there were no marks of violence, statements were taken from the witnesses as follows:

"Grouard, Alberta.
Sept. 15/36.

Gordan BIGBEAR states I am 8 years of age, and a Treaty Indian my mother resides at WHITEFISH LAKE where she is still living, my brother George (Deceased) spent our vacation at WHITEFISH and returned to school on the 1st of Sept. 1936. George was about 10 years of age.

(b) About July 1/36. My brother & I left school & went to WHITEFISH LAKE, my brother was in good health at that time, after he had been home for about two weeks he took sick, he had headaches and vomiting spells, he was sick for a long time at home, he would get up to eat his meals and go right back to bed again. "

"Grouard, Alberta.
Sept. 15/36.

Sister Mary AUXILIATRICE states:

I am in charge of the boys room at the Catholic Mission at Grouard, George & Gordan Big bear arrived from Whitefish Lake about Sept. 1/36. for school.

(b) George ate well, but he was pale & thin when he came back to school, I was not on duty this morning Sister Mary Auxiliatrice. "

"Grouard, Alberta.
Sept. 15/36.

Sister Paul GERARD states:

The boy (George BIGBEAR) was feeling fine when he left school for vacation, coming back in September, he was pale and then this morning waking the boys up I found the boy dead, I called him by name, but no answer so I felt his pulse, and heart beat and could not find any sign of life. The boy appeared to be better the night before even better than usual, he was not sick during the night. Sgd. Sr. Paul GERARD.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Joussard Indian School for the Quarter ended Sept 30th 19 41

Principal

Ron Paul Serrano

Dated

October 1st 19 41

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Joussard Indian School for the Quarter ended March 31st 19 42

Principal Rev. Paul Lerrand

Dated April 1st 19 42

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance

and tuition at the *Joussard Indian* School for the Quarter

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance

and tuition at the Joussard Indian School for the Quarter

ended September 30th 1942

Principal Rev. Paul Lerrand

Dated October 1st 1942

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Jossard Indian School for the Quarter ended December 31st 1942

Principal Rev. Paul L. Lemaire

Dated January 1st 1943

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Jossard Indian School for the Quarter ended June 30th 1943.

Principal Rev. Paul Serrano

Dated July 1st 1943.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Joussard Indian School for the Quarter ended Sept 30th 1943

Principal Rev Paul Servant

Dated Oct 1st 1943

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

J. J. Demers
Indian Agent

Dated at Driftville
this 30th October 1943

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Jessard Indian School for the Quarter ended December 31st 1943

Principal

Rev. Paul Serrand

Dated

January 1st 1944

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Joussard Indian School for the Quarter ended September 30th 1944

Principal Rev. Paul Lorrain 0711

Dated October 1st 1944

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Jossard Indian School for the Quarter ended March 31st 1945

Principal Per Paul Lorrain

Dated April 1st 1945

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

P. J. Demers
Indian Agent

Dated at Driftville Alta.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Joussard Indian School for the Quarter ended June 30th 1945

Principal Rev. Paul Serrand

Dated July 2nd, 1945

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

F. J. Demers
Indian Agent

Dated at Swifts Creek Alta.
this 5th July 1945

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Joussard Indian School for the Quarter ended September 30th 1945
Principal Rev. Paul Serrand
Dated October 4th 1945

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Joussard Indian School for the Quarter

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Lesser Jousard Indian School for the Quarter ended September 30th, 19 46

Principal P. Paul Lerand

Dated October 5th, 19 46

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

A. B. B. B.
Indian Agent

Dated at Wapikone, Alta.

this 7th October, 19 46.

NOTE

Principals will please be guided by the instructions printed on the last page.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Joussard Indian School for the Quarter ended June 30th 1947.

Principal Rev. Paul Lorrain

Dated July 3rd 1947

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

P. Lorrain
Indian Agent

Dated at

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Joussard Indian School for the Quarter ended December, 31st, 1947.

Dated January 5th 1947 Principal Joseph Habay

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Dated at High Prairie this January 26 1948.
A. Landry
Indian Agent

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Jousseard Indian School for the Quarter ended March 31st, 1948

Principal Joseph Habay
Dated April 9th, 1948

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.

7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Joussard Indian School for the Quarter ended June 30th, 1949.

Principal Joseph Halay

Dated 19 49.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Dated at SEER SLAKE LAKE AGING this JUN 30 1949 1949.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance

and tuition at the Joussard Indian School for the Quarter

ended Dec. 31st 19 49

Principal

Joseph Hahay

Dated January 19 50

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

B. S. Papp
Indian Agent

Dated at High Prairie

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Jousseard Indian School for the Quarter ended June 30th, 1950.

Principal Joseph Haban
Dated July 1950.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Dated at High Prairie
this July 4 1950.

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Joussard Indian School for the Quarter ended September 30th, 1950.

Principal Joseph Habay
Dated October, 1950

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column, under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Joussard Indian School for the Quarter ended December 31st 1950

Dated January 1951.
Principal Joseph Habay
Principal

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Dated at High Prairie
this 29th of Dec 1950
B. S. Lopp
Indian Agent

NOTE

Principals will please be guided by the instructions printed on the last page.

Ottawa, October 22nd, 1919.

Reverend Sir,-

The September quarter grant of the St. Brune Boarding school is being paid on an average attendance of 50 pupils and amounts to \$1812.50. From this amount a deduction of \$60.00, for supplies purchased by the school from the Militia Department, is being made and a cheque for the balance, - \$1752.50, is being sent you.

The grant for the Wabiscaw Lake R.C. Boarding school is being paid on an average attendance of 14.81 and amounts to \$536.86. This school also purchased supplies from the Militia Department to the amount of \$60.00, which amount is being deducted from the grant and a cheque for the balance, \$475.86, is being sent you.

Your obedient servant,

J. D. McLEAN

INSPECTOR'S OFFICE,

W. REGINA, SASK., 28th February, 1934

Re: St. Bruno Residential School
Joussard, Alta. R/C

R

Dear Mr. Allen:-

While at the Lesser Slave Lake Agency, I drove to the above Indian School on February 23rd in order to examine the books and report thereon.

The Indian Agent introduced me to the Principal, Reverend C. Falher, O.M.I., and upon enquiring as to the finances and records, the Principal informed me that he had no books at the school nor did he handle the grant or make any expenditures.

It appears that Bishop Guy at Grouard handles the grants and finances on behalf of some five residential schools in this northern Alberta diocese which is distinct from the Diocese of Edmonton and St. Boniface in Manitoba.

As Grouard is some 35 miles west and north of Driftpile at the extreme end of Lesser Slave Lake and travelling by road this time of year would be difficult, I did not make the trip, as I considered the Department would not wish me to spend the time or expense in so doing. From the conversation with Father Falher I gathered that Bishop Guy had taken up the matter of auditing with the Department.

Grouard is fifteen miles from railhead, the train service from Driftpile is twice weekly and there was a possibility of Bishop Guy being away, in which event I would be unable to learn very much regarding the records etc.

This for your information.

Yours faithfully,

H. B. Rayner
H. B. Rayner,
Auditor.

Dear Sir:

At the request of His Lordship Bishop Guy, the Department is approving, as from April first, next, a change in the name of two Indian Residential Schools in the Lesser Slave Lake Agency, conducted under the auspices of His Lordship, as follows:-

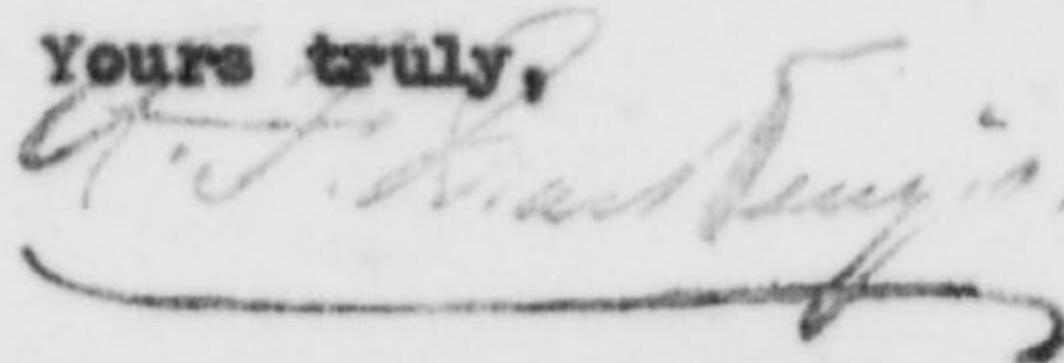

St. Bernard's Indian Residential School to be changed to
GROUARD " " " and

St. Bruno's Indian Residential School to be changed to
JOUSSARD " " "

In future, in all official correspondence, you should refer to each of these schools by the new name, as given above.

Mr. Agent L'Heureux is being informed.

Yours truly,

A. F. MacKenzie,
Secretary.

Grouard, Alta., Nov. 26 th, 1940.

Mr. Philip Phelan, Chief, Training Division,
Department of Indian Affairs,
Parliament Buildings,
Ottawa, Ont.

Dear Mr. Phelan,

Re: Advances on December term.

I take the liberty of requesting the
Department to make me an advance on the December quarter
grants. My ambition is to clear as many bills as possible
before the end of the calendar year.

I would appreciate receiving the fol-
lowing amount:

1) On Grouard School:	\$2,500.00
2) On Joussard "	2,500.00
3) On Wabasca School:	2,500.00
4) On Sturgeon Lake School	2,000.00
5) On Fort Vermilion School	1,500.00

\$11,000.00

Thanking you in advance for the sym-
pathetic attention you will give to this request,

I remain,

Dear Mr. Phelan,

Yours very truly,

F. S. Lajoie, O.M.I.,

Dear Mr. Phelan: Re: JOUSSARD INDIAN SCHOOL

I wish to inform you that no earnings for the quarter ended June 30th for the above school have reached this office as yet. Will you please look into the matter and advise. Earnings for Wabasca, Grouard, Sturgeon Lake and Fort Vermilion have duly arrived, and we fail to understand why earnings for Jousard have not reached us.

Dear Father Beuglet:-

The delay in paying the June quarter per capita allowance of the Joussard Residential School is due to the fact that we have not yet received from the Principal the June quarter return. Please arrange to have this forwarded.

In the meantime, we are forwarding a part payment of \$2,600. and any balance due will be sent when the return reaches us.

JOUSSARD INDIAN RESIDENTIAL SCHOOL

JOUSSARD ALBERTA

SEPTEMBER 1, 1947

Mr. Philip Phelan,
Chief Training Division,
Dept. of Mines and Resources,
Indian Affairs Branch,
O T T A W A O N T.

Dear Mr. Phelan:

The entrance of the children from the two reserves of Driftpile and Sucker Creek, to Joussard Indian Residential School, had been fixed as at September 2nd by Mr. Landry, Indian Agent. However, due to an epidemic of measles on the Sucker Creek Reserve, the date has been delayed to September 14th and even later, if found necessary.

Will you please advise me if in the trimestriel report of September, I should mention the absence of the children on account of illness, and if the grant will be allowed in this case - as for the vacation period, (July and August). In a similar case at Grouard a few years ago, I remember that the grant was not discontinued for the month of September.

Thanking you in anticipation, and with kind personal regards, I remain,

Yours very truly,

Joseph Habay

Dear Father Habay:-

We have your letter of the 1st instant in which you advise that owing to illness on the reserve, several children from Driftpile and Sucker Creek will not return to Jousard for some weeks.

We regret this situation but we cannot see our way clear to allow grant when children are absent. Consequently, when preparing the September quarter return grant should be requested for those children who were in the school on June 30th and who have not returned owing to illness for 62 days (holiday leave), plus the actual number of days such pupils may be in residence during the September quarter. A note should appear opposite each of them stating the reason for their absence.

Yours sincerely,

Philip Phelan
Chief, Training Division.

Mr. A. Landry, Indian Agent, High Prairie, Alberta.

With reference to the attached September Quarter Return of the Joussard Indian Residential School, it is requested that you draw the Principal's attention to the fact that children who are not in Residential Schools for the full quarter should have an explanation and the dates of their absence shown opposite their names. It is also noted that numerous pupils have not returned due to neglect on the part of the parents. Please inform us what action has been taken in stopping the Family Allowance to their parents.

We are forwarding a part payment to the La Corporation Episcopale C.R. de Grouard, McLennan, Alberta, in order that the delayed payment of this Return will not cause undue financial inconvenience.

I desire to refer you to official letter of November 13th, 1947, with which we sent back the September quarter return of the Joussard Indian Residential School. In that letter we requested that the return be reviewed and amended where necessary.

Recently we received the December quarter return but the principal has not yet sent back to us the September quarter return. Grant for December cannot be paid until we receive the September return.

Please arrange to have this forwarded to us immediately.

Dear Father Beuglet:-

The Department found it necessary to send back the September quarter return of the Joussard Indian Residential School as it had not been properly prepared. This return was sent to Indian Agent Landry on November 13, 1947.

At the end of December we received the December quarter return but we could not pay the grant for that quarter due to the fact that we had not received the September quarter return.

I would appreciate it if you would arrange with the principal of the Joussard Residential School to complete his September quarter return and send it to the Department by air mail so that the amount due for September and December can be paid.

It will interest you to know that the per capita allowance has been increased by 17%, effective from October 1st, 1947.

Yours sincerely,

Bernard F. Neary

Extract from Mr. Inspector Yule's Report on the
St. BRUNO BOARDING SCHOOL. April 9, 1923.

Schiff

Previous information indicated that there were only two rooms at this mission. A third room was established. This room is not properly equipped with seats and desks. Long tables and forms are used with children facing each other. It is not a suitable class room arrangement. Proper seating accommodation should be provided.

Ottawa, June 27, 1923.

Sir:

The report of the Public School Inspector who visited the St. Bruno's Boarding School in April, last, has been received by the Department. In his report he draws attention to the need of proper equipment for the third classroom which has been established at this school. He states that at present the room is not properly equipped with seats and desks - long tables and forms being used, with the children facing each other, which is not a suitable classroom arrangement.

The Department would be favourably disposed to providing single desks sufficient for the requirements of this third classroom; but, before doing so, it will be necessary to ascertain the sizes of the desks needed and the number of each size. For the information of yourself and the principal, I beg to say that single desks are made suitable for children of the following ages:-

Ages 5 to 7 years.				
"	7	"	9	"
"	10	"	12	"
"	12	"	14	"
"	15	"	18	"

Kindly consult the principal and inform the Department the number of desks that would be needed to suit the children between the above ages. As soon as we have this information, we will be in a position to place an order here for the desks. You should also give full shipping directions. Kindly attend to this matter at your earliest convenience.

I may further add that, if any blackboards are required for this extra classroom, the same will be supplied if the dimensions are given - that is both the length and breadth.

Your obedient servant,

J. D. McLEAN

Ottawa, October 4th, 1923.

Rev. Sir:

I have to acknowledge receipt of your letter of the 23rd of August, furnishing a list of the desks required for the use of St. Bruno's Indian Residential School.

In reply I beg to say that we are asking for prices for the delivery of 40 single desks, of the sizes mentioned by you, and a teacher's desk and chair, for delivery at Indiana Station, E.D. & B.C. Railway. As soon as quotations are received, an order will be placed and you will be informed as to the name of the firm who will supply the desks.

An order will be placed with the Government Stationery Office to forward to you at Indiana Station a hyloplate blackboard, 30'x4'. This will be supplied in 10' lengths.

An order is also being placed with Messrs. Bromley & Hague Ltd., Winnipeg, to send you a 9' Union Jack. This firm will forward their account, in duplicate, to you, and upon receipt of the flag, you should certify the account, and send it immediately to the Department. We are not prepared to supply the other flags asked for.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

Dear Sir:

Re #131/4/5, dated Oct. 5/22

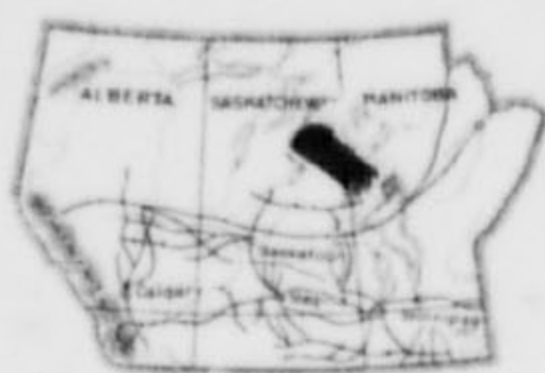

We are pleased to quote you the price of
\$344.38 F.O.B. Indiana Station, Alta. for the following
list of equipment:

8 - Single Economic School Desks, size #E for pupils age 7 to 9 years	
16 - Single Economic School Desks, size #D for pupils age 10 to 12 years	\$296.88
16 - Single Economic School Desks, size #C for pupils age 12 to 14 years	freight chgs. to Indiana - 47.50
1 - Teachers Desk #11	
1 - Teachers Chair #6	Total - \$344.38

We have large stocks of these goods on hand
and can give you prompt delivery, and would also bring to your
particular notice the sanitary school desk which we supply.
This is listed in our Catalogue #22 on page 18, and you will
notice that all dust-catching and floral designs are entirely
done away with, and we believe there is not a better cast steel
desk on the market today.

Dear Sir,

It is my sad duty to inform you that fire has destroyed St. Bruno's Boarding School. This unhappy accident occurred on 30 December last; it was a Sunday, the children had been called to church, nobody was in the building and no warning could be given early enough to stop the fire. -
My contract with the government was that I had to build the Schools at my own expense, a somewhat larger grant perhaps being allowed for boarding children. Twenty years ago, this country was still closed to civilisation, and the government found it a little hard to build our schools. Presently, conditions are changed. The Edmonton - Peace River railway passes at 3 miles from St. Bruno's Mission. The task of rebuilding the school is so great for me that I humbly pray the government to undertake the work. -
We have about 90 children there and we expect to have 100. Nearly all the Indians of Lesser Slave Lake belong to the Roman Catholic Church, and besides the children who have their parents, numerous orphans are to be cared for. The sisters have taken the girls with them and Rev. Father Groux, principal of the school, has taken the boys in his own house, waiting for the rebuilding of the school which I trust the government will undertake as soon as possible. -

I remain, Dear Sir,

respectfully yours

Memorandum:

Mr. Scott.

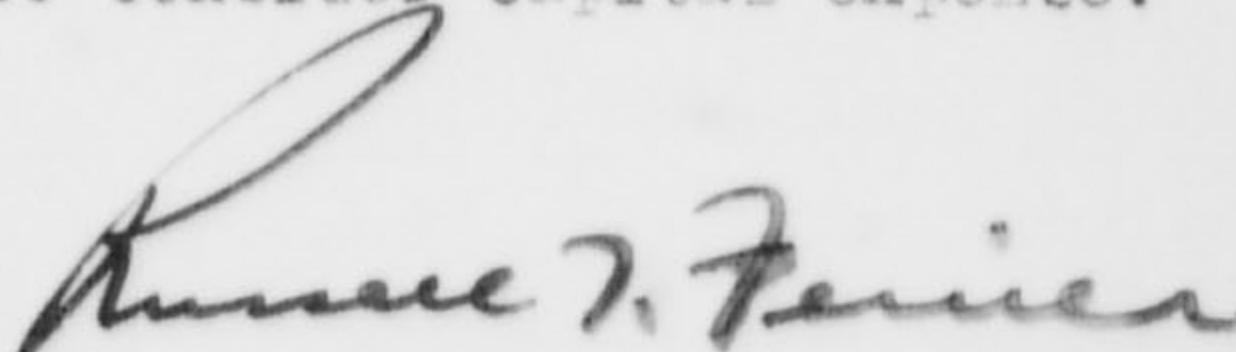

The St. Bruno's Indian Residential School had two large buildings, a principal's residence and some smaller structures. The building operations were during the years 1912 to 1914; the property was church-owned.

The Indian agent reports that the main building has been burned, and inasmuch as we have filled rush requisitions for books, etc., I believe it was the boys' building, in which were the classrooms, that was lost. His Lordship's letter states that the St. Bruno's Boarding School has been destroyed and it may be that the other large building or the girls' wing has also been burned; but from the information that is now at hand I believe that only one of the large buildings was lost.

This building had three classrooms and the boys' dormitories. His Lordship states that the girls are being cared for with the Sisters (in the girls' building, I believe, as the Sisters' quarters were in this structure) and that the boys are living in the principal's residence.

For two years the school has earned the maximum grant of 80 and there are on the roll at present 84. The Bishop states there were about 90 children at the time of the fire.

Thirty-nine boys are now crowded into the principal's residence and the accommodation in the girls' building will be much too small as classroom facilities will have to be found there. Without doubt, the situation is urgent as a great number of these pupils are orphans without homes and cannot be sent away. A building with three classrooms and proper residential facilities for **60** boys should be erected at the first opportunity. The Government does not own any Indian residential schools north of Edmonton and Saddle Lake, but the opening up of the Grouard territory and the presence of a railway station three miles from the St. Bruno's Indian Residential School suggests that the time has arrived for the Department to consider capital expense.

Memorandum:

Honourable Charles Stewart.

With reference to the attached letter from His Lordship the Bishop of Athabasca, I have to inform you that the main building at the St. Bruno's Indian Residential School, near Crouard, Alta., will have to be replaced without delay. This institution had more than the average number of orphan children and the authorities will be in serious difficulty if the main building is not rebuilt as soon as the building season opens. I have discussed this problem with Rev. Father C. Falher, the business manager for the Diocese, who is at present in Ottawa, and I am pleased to report that the Oblate Fathers will rebuild if the Department will assist. Rough sketches of the proposed building are being made by the Department Architect and he has provided the church representative with a list of the materials required.

I wish to recommend that His Lordship be asked to rebuild at the first opportunity and that the Department promise a grant of \$12,000 for the purpose, if they will erect a building which conforms to the specifications laid down by us. A frame structure of three stories, 80 ft. by 40 ft., wired for electricity and heated by two hot air furnaces, will be in keeping with the other buildings at the school and will be suitable for this locality. The Church will be put to an expense of roughly \$18,000 and the Department has funds available in the Appropriation for Indian Education for a grant of \$12,000 this fiscal year. His Lordship will have to prepare a declaration concerning his expenditures for materials which can be purchased immediately and he can support such declaration with receipted accounts for at least the amount of our grant.

Father Guy wired His Lordship the Bishop of Athabasca, at my request, for advice as to how we could help and I was referred to Father Falher, who concurs in the arrangement I have outlined.

Dear Bishop Grouard,

I have your letter of the 10th ultimo, with reference to the St. Bruno's Boarding School at Lesser Slave Lake, which was destroyed by fire recently.

In reply I may say that I have taken this matter up with the Department and on the 28th ultimo, I issued instructions that the Department was to give you a grant of \$12,000. towards the erection of this school in accordance with the specifications laid down by the Department of Indian Affairs. This sum of money is available in the Appropriation for Indian Education for the fiscal year ending March 31st, 1924, and it will be necessary for you to prepare a declaration concerning your expenditures for materials which I understand can be purchased immediately, and you can support the declaration with receipted accounts for at least the amount of the grant which is being given.

Shawee under the Grouard

It will be necessary for you to submit the vouchers before the end of the fiscal year, but I presume that this can be done without inconveniencing you.

Trusting that this will be satisfactory, I remain,

Yours sincerely,

Dear Bishop Grouard:

I was very sorry to learn of the fire at the St. Bruno's Indian Residential School and I discussed with the Honourable the Superintendent General what action the Department should take to assist you. After an interview with the Rev. Father Falher, I made a recommendation and Mr. Stewart wrote you on the 7th instant. On the 28th ultimo I informed Father Falher of the nature of our action and he, I am sure, has lost no time in making arrangements for the materials necessary for the reconstruction of the boys' building and classrooms.

Your Lordship should prepare a declaration concerning your expenditures for material and support it with receipted accounts amounting to at least \$12,000. The declaration and receipts should be forwarded as soon as possible as funds are available in this year's appropriation for Indian Education. May I remind you that our year ends on the 31st proximo and that it would be advisable to have your communication reach the Department on the 25th or 26th so that there will be time for a cheque to be drawn.

Yours very truly,

Duncan C. Scott

Dear Sir:-

As per our last interview I endeavored and succeeded in purchasing, and paying for the materials and have some hauled to St. Bruno's Mission, where we are to build as soon as possible.

I enclose herein all the statements or receipted accounts with the testimony of His Lordship Bp. Grouard as requested.

It may be that the statement of goods bought from A. Prud'homme in Montreal is by this time in your hands, as I left it to Rev. Father Guy, to settle for me.

I am writing F. Guy about the matter.

I have some money left out of the grant allowed to me. Will you kindly permit me to use it for the building of the school.

Thanking you for all, I remain,

Respectfully yours

Reverend Sir:

I am pleased to inform you that a cheque for \$10,775.85, being the Department's grant towards the rebuilding of the wing at the St. Bruno's Indian Residential School, has been directed to you under separate cover. The Auditor General will likely require a more detailed statement from the Canada Western Lumber Co., Limited. The Department has received the receipted account showing an expenditure of \$5521.87 for lumber and freight prepaid. I should be pleased if you would ask the Lumber Company to give you an itemized account and also freight receipts from the Transportation Company showing the charges that were prepaid on the four cars. These papers are required by the Department and should be forwarded to Ottawa as soon as you can secure them.

Your obedient servant,

J. D. McLean,  
Asst. Deputy & Secretary.

Dear Father:

Attached hereto you will please find  
Invoices in quintuplicate covering car No. S.P. 68295, which is the  
balance of material for the Saint Bruno Residential School at Indiana,  
Alta. The original and two copies of this Invoice are to be forwarded  
to The Department of Indian Affairs at Ottawa, but before doing so,  
it will be necessary for you to certify these correct. The other two  
copies you may retain for your own use.

We will appreciate very much your attention  
to this matter, and remain

Yours very truly,

Dear Sir:-

ORDERS ARE ACCEPTED BY THIS COMPANY SUBJECT TO DELAYS RESULTING FROM FIRE STRIKES OR OTHER CAUSES BEYOND ITS CONTROL. NO ORDER FOR SPECIAL GOODS WILL BE CANCELLED AFTER WORK HAS BEEN COMMENCED THEREON. PRICES F.O.B. EDMONTON. IN QUOTING PRICES DELIVERED FREIGHT ONLY IS GUARANTEED AND ALL OTHER RESPONSIBILITY IS DISCLAIMED BEYOND THE DELIVERY OF THE GOODS TO THE TRANSPORTATION COMPANY IN GOOD ORDER.

Referring to our Quotation No. 553-4-5  
for lumber and millwork for Goussard School, on  
Estimate No. 554 we have an item of  
16,800 lineal feet 1x4 #1 E.G. Fir Flooring  
We think this may be an error in copying and perhaps  
it should be  
16,800 board measure feet #1 1x4 Fir Flooring  
If the latter is required it would increase the amount  
by \$593.60 making the total \$9,514.73.

Yours very truly,

Dear Sir

The Frasermill took the contract for furnishing a list that we put in tender for <sup>part</sup> material delivered at Indiana for the sum of \$7780.94. This tender was lower of over four thousands dollars. An another one was over two thousands. I think it is better to send you three tenders

I signed already three copies of Frasermill that I send to you. Now I send all the copies of material send by Frasermill. Except the freight. They send only one copy of price of each car. Am asking to them <sup>display</sup> of the five cars and will send to you  
yours truly

Mr. Lurvey Orr, Architect  
Ottawa, Ont.

Dear Mr. Orr -

In a letter addressed to you about the end of January, we had mentioned the necessity of having storm windows for the old building as well as the new one.

Having received no specifications whatever in connection with the plans sent for the new wing being built, we are sometimes at a loss as to whether certain articles have been granted or not. Could you enlighten us on the subject? The cold weather coming on would necessitate the use of storm windows soon. We had also mentioned having screens for convenience as well as protection sake, but have had no answer concerning this either.

I hope I am not putting you to any inconvenience in asking you this, so many little things come up every day that I seem to be continually putting in a demand for something.

There are 65 windows in the old building and all would need storm windows.

The new wing is progressing

Hoping to hear from you  
by return-mail, I remain,

Yours very gratefully,

Dear Sirs:-

We attach hereto statement of account showing  
a balance outstanding of \$5,152.16 covering lumber supplied to  
the St. Bruno Residential School, Indiana, Alta.

We presume that all accounts have been  
passed for payment by the Rev. J. B. Ciroux in charge at  
Indiana and we would appreciate it if you would trace same  
for early settlement and advise us.

Yours very truly,

## PROPOSAL AND QUOTATION (Dept. of Indian Affairs)

Gentlemen:-

We would appreciate if the following would be given your very earnest consideration.

After considering the requirements of the Indian Residential School Building at Desmarais, Alberta, carefully, we advise that you install a large enough plant to take care of present and anticipated requirements. By this we mean that it would be a very poor investment to install too small a plant only to find later that owing to additional equipment you needed a larger plant.

For absolute efficiency and smoothness of operation we are going to advise the installation of one of the 4 K.W. Super Smooth Electric Plants with four cylinder engine and complete with radiator for cooling, plant to include complete switchboard and 16 Cells 210 Ampere Hour Glass Jar Storage Battery for 32 Volt operation at a price of \$1312.00, Thirteen Hundred and Twelve Dollars, F.O.B. Toronto all taxes paid.

In consideration of the work this plant is going to be used for, we will allow you a discount of 15% making a net price of \$1115.20, Eleven Hundred and Fifteen Dollars and twenty cents.

In addition to the plant first suggested, we are going to offer you another of smaller capacity and less money, as it may happen that you can do with the smaller plant.

For a second consideration we suggest the installation of a Super Smooth, 2½ K.W. (2500 Watt) Plant complete with switchboard and including 16 Cells, 168 Ampere Hour Glass Jar Storage Battery, 32 Volt at a price of \$1095.00, Ten Hundred and Ninety-five Dollars, F.O.B. Toronto, all taxes paid.

On the basis of the same discount, this would make a net price of \$930.75, Nine Hundred Dollars and Seventy-five cents.

A 2500 Watt Plant will operate 63 forty Watt Lamps or Electric Motors up to 2½ H.P. directly from the generator not counting on the current from the battery.

Gentlemen:—

We have been in touch with the Reverend Mr. Beuglet at St. Martin's Mission, Desmarais, Alta. regarding an Electric Light Plant for the Indian Residential School.

We have just received a letter from St. Martin's Mission stating that the Department of Indian affairs are going to supply the Electric Light Plant for the new School, therefore, if you have not already purchased a plant we would appreciate very much if you would give some consideration to our product.

Catalogues of the different Plants are enclosed and we are quoting you the same price as quoted direct to the Mission.

If we can be of any assistance to you in selecting the proper plant for this installation we would be only too glad to help you in whatever way possible.

The attached quotation sheet will give you all details as to the Electric Plants quoted on.

It also occurred to us to-day that if there will be a Water Pumping System required and if you have any details as to the requirements on this equipment we will be very glad indeed to quote prices.

In the event that St. Martin's Mission are to look after that part of the equipment themselves we will be glad to quote prices to them direct.

We look forward with very much pleasure toward receiving an early reply.

Yours very truly,

MADDOX ENGINEERING COMPANY.

Mr. Brew

Hon. J. H. Duncan Campbell Scott,  
Deputy Supt. Gen. of Indian Affairs.

Dear Mr. Scott,

You will no doubt be interested in the progress of the work being done on the new wing. The plumbing is well advanced, most of the piping finished, and the steam-fitters have arrived to-day to begin their work. The contractor announced to-day, also, that the needed reparations in the old house would begin immediately after the Christmas holidays; which means that we will have to take possession of a few rooms in the new wing, most likely the class-rooms. I am enclosing a little snap shot which will give you a little idea of its appearance, later on we will have a better one to show you.

The cold weather has arrived and caught us unawares, we <sup>are</sup> having forty below zero weather just now and find it hard to keep warm. I seem to be continually asking for something, Mr. Scott, but it seems that if we had storm windows on the old building,

Indian Affairs. (RG 10, Volume 6367, file 762-5, part 2)

PUBLIC ARCHIVES  
ARCHIVES PUBLIQUES.  
CANADA

it would be so much easier to heat the house. We mentioned this when we sent in the plans, but no answer was given as to whether they had been granted or not. The storm windows are all on, on the new wing, and it makes such a difference for heating. We would need 65-12 pane windows 8 by 12 for the old house. If they have been granted we should be pleased to know it as soon as possible, so that this may not be delayed too long.

I am making out the list of needed furniture for the different apartments as I mentioned in a recent letter and will forward it soon, for your approval.

My requests are many, it seems, but I should like to have everything just as you would have it I am sure if you were here, hence my many demands. If, however any of these things seem unnecessary to your point of view, you have only to say so, the refusal will be well accepted.

Trusting to hear from you shortly regarding my new request.

I remain,

Yours very sincerely,  
Sister Mary Gilberte  
Superior.

Dear Sirs:-

We attach hereto statement of account covering purchases of materials supplied to St. Bruno School, Indiana, Alta. and also payment made thereon. From this statement you will note that there is an apparent overpayment of \$723.03. We would appreciate it if you would check our figures over and advise us.

Yours very truly,

CANADIAN WESTERN LUMBER CO. LIMITED.

MEMO.

With regard to the overpayment of \$723.04 I may say this is due to the fact that invoices Nos. 9871, for \$1272.54, No. 9872 for \$780.78, and No. 9873 for \$575.47 were rendered twice. The first lot which will be found on the closed file was paid on the 10th October 1929 by cheque No. 3949 and the second lot on the current file was paid on the 25th November by cheque No. 5129. These invoices as rendered are misleading so far as the amount claimed for freight is concerned, owing to the firm having deducted the same from their bills. Their quotations, however, were for prices f.o.b. Indiana and including the freight. The deduction of freight shown in the invoices should not appear there at all, as it is only made for the purpose of ascertaining the amount on which they had to pay sales tax. The total amount of freight claimed by the company is \$1905.75, but as the duplicate payment was for \$2628.79, an overpayment of \$723.04 was made and will be returned to the Department.

Dear Sirs,-

Ottawa, January 10th., 1930.

Attention Accounting Department.

Referring to your letter of the 12th instant, enclosing a statement of your account covering purchases of material supplied to St. Bruno's School, Indiana, Alta., I beg to state that upon looking into this matter, it is found that your statement is correct (with the exception of the cash payment by cheque No. 3949 which was for \$2628.79, instead of \$2628.78) and an overpayment of \$723.04 was made to you. Kindly forward your cheque in favor of this Department for the amount of the overpayment.

Yours truly,

Honorable Doctor,

We have received information that "The Dominion Power Works from Calgary has forwarded to Ottawa plans, specifications in regard of drawing water from the lake for St Bruno's School. You have always been so interested in our needs that I thought of communicating this to you at once. We understand that its approval means a big expense to the Department and no doubt will not be an obstacle to your eager desire of improving our modes of living in this northern country. We are anxious to have these approved plans and long for the day which will permit us to see the work on its way. Could they be sent immediately?

The Lockerbie & Hole Co. are ready to give expert men at once. You realize that winter season is the most convenient time for this labor. Trusting in your kindness to do all in your power to favor us, I remain, Honorable Doctor,  
Yours truly, R. J. B. H. Gerout.

To Revd. Father Giroux,  
Jussard, Alta.

Revd. Sir,

During my recent visit to St. Bruno's Mission I took the liberty of looking over your lighting plant. I am very sorry you were not home so that we could have discussed the matter together as I believe you will find it necessary to increase the capacity of your plant to take care of new building. Your present engine is of an old type and has seen much service and has reached that stage when it cannot be depended upon for heavier work. It is of the gravity feed type with low tension ignition necessitating batteries and coil for starting and is getting much the worse for wear. It is not necessary for me to point out to you the inconvenience and possible danger of <sup>failure of</sup> the lighting system in an institution such as you have at St. Bruno. The generator would be overloaded during your peak load which would make the whole outfit unreliable.

I would recommend not less than a 6 K.W. plant and can give you the following styles at prices mentioned:-

|                                                                                                            |           |
|------------------------------------------------------------------------------------------------------------|-----------|
| 6 K.W. Lister-Bruston Automatic 110 Volt less Batteries                                                    | \$2389 00 |
| 6 K.W. Lister Non-Automatic " " " "                                                                        | \$1700 00 |
| 12 H.P. Marshall Oil Engine, 6 K.W. Generator 110 Volt Shunt Winding<br>with switchboard and Texrope drove | \$2140 00 |

The above prices are F.O.B. Indiana or Enilda and include installation. Transportation and board from nearest station to be provided by you. Unskilled help to be also provided by you and necessary base to be provided in suitable place in accordance with blue prints before arrival of expert for installation.

I have not included batteries in above prices as your present batteries are in first class condition and will serve you for several years.

It would give me pleasure to discuss this matter further with you or if you decide to change I can promise you prompt and satisfactory service.

*We can allow 100% for old generator switchboard  
The engine is of no value to us.*

Yours respectfully,

Honorable Dr. D. Scott.  
Deputy Superint. of Ind. Aff.  
Ottawa.

R.

Honorable Sir,

Another difficult problem has presented itself this week and I hasten to lay it before you, being totally unable to contend with it myself.

It seems as if there is no end to these particular needs, and just when we think one has been satisfactorily settled another one comes up.

Our lighting plant having been out of order we were obliged to call in the electrician who afterwards wrote the enclosed letter to Rev. Father Giroux. I can truthfully corroborate this statement of his, for since we are having extra lights in the new building our engine seems to be constantly out of order. Although having no knowledge of lighting plants I did not think at the time that it was caused by the lack of power. However, you will see by Mr. Giles' letter the real state of things and I do not in the least doubt of your capability in arranging it to the satisfaction of all and the advantage of the school.

Work has begun in the old building and reparations are in full swing. We are gladly putting up with the many inconveniences this causes us.

rejoicing in the fact that we will soon  
be comfortably settled in our pretty new home.

Last week we had the pleasure of Mr. Mac-  
rison's visit. He was delighted with the improve-  
ments and said it surpassed his expectations  
in convenience and beauty. Numerous visitors  
have come lately and all are amazed to find  
such a mansion in the far North. We do  
not hesitate to give you all the credit for  
it dear Mr. Scott and are glad of every  
opportunity to speak loudly of your benevolence  
for our Indian missions.

You cannot imagine, Honorable Sir,  
what a load of responsibility it takes from  
my shoulders to know that I can rely on  
you so entirely to straighten all these  
problems which seem to come daily.  
The promptness with which you comply  
with our many demands makes me  
feel that I need not be afraid of coming  
again knowing full well that you will  
always arrange matters for the best.

I am also sending you the list  
of furniture needed for each apartment.  
Resting confidently upon the words  
"Ask and you shall receive" I thank  
you for past favors and beg to remain,  
Yours very gratefully,  
Sister Mary Gilbert.

MEMORANDUM:

DR. SCOTT.  
-----

A letter has been received from Sister Mary Gilbert of St. Bruno's School advising that their lighting plant is out of commission. The present plant was installed some years ago and of course is not large enough to provide light for the old building and the addition which was made this summer. A 6 K. W. generating plant will be required and the cost will be approximately \$2,400.00. If funds are available I would recommend that a new electric lighting plant be installed.

Dear Sister Mary Gilbert:

I have your letter of the 14th ultimo, giving a list of the laundry equipment and furnishings required for the new building at the St. Bruno's Indian Residential School. I have also your letter of the 8th instant, with reference to the need of a new electric lighting plant, and I wish also to refer to Father Giroux' letter, concerning the water supply. I may say that the Dominion Water Power Engineer's report has not yet been received. I regret to inform you that there are no funds for these purposes at the present time. This year, the Appropriation for Indian Education is completely assigned and there is no item in the Main Estimates for the coming fiscal year for the purpose. I may be able to secure a supplementary estimate, and, when this is being prepared, it may be possible to include an item for your school.

Yours very truly,

Dear Mr. Johnston,-

From past correspondence with reference to the proposed water supply system for the St. Bruno's Indian Residential School I do not appear to have received a final recommendation from your Commissioner of Irrigation at Calgary. As the addition to this school is about completed it will be necessary to give immediate consideration to the installation of a satisfactory water supply system. I will be glad to have a report and recommendation from you at the earliest possible date.

Yours very truly,

J. T. Johnston, Esq.,  
Director, Dominion Water Power Branch,

Dear Mr. Scott:

I am coming today to acknowledge receipt of your letter and to give you a few more details concerning our present problems.

I have just learned that the Dominion Water Power Engineers' report has not yet left Calgary. I sincerely hope they will forward it immediately, as everything seems to be waiting for the water system to be installed. The plumbers are leaving today as they have done all they can do till the water is in. The steam fitters are nearing the end of their task too until the power house is built. That must be delayed till the frost disappears. The boiler has been here for some little time. Since all this is completed as is almost all of the carpenters' work except that in the basement and the first floor, we are more than ever anxious to see it entirely so.

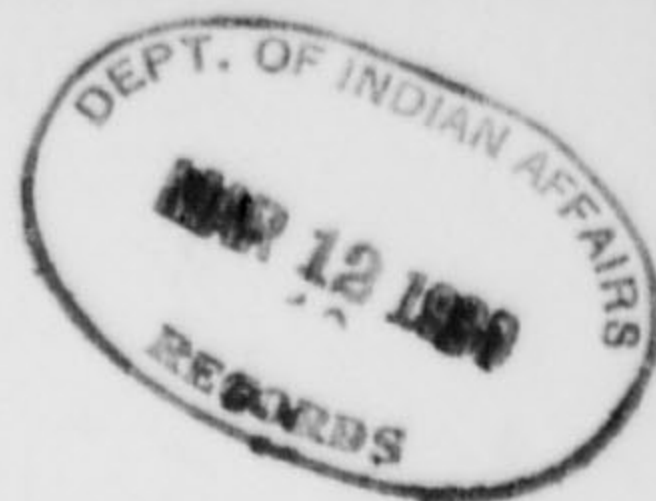

Father Giroux desires us to move the children into the new house within the next few weeks. Though we are so eager to have them enjoy the comforts, conveniences and the invaluable training which this would mean, still we cannot bring ourselves to move them now when such a thing would mean the carrying of water in pails to the top floor for use in dormitories and other

rooms. Then too, we have sandpapered, scraped, varnished and waxed our new floors till they are really beautiful, and it seems almost sinful to bring the old beds here to scratch and ruin, as they must, if moved. Then, our "thirty year old tables" as you called them, would be sadly out of place in our bright new dining rooms, I fear.

In September you approved of the plan of the carpenters building tables and benches when they were unable to work on the building. They have worked steadily on the house so that there has been nothing done in the line of furniture making. Does your approval still hold good, or would you advise me not to ask them to do this?

With all these perplexing realities before me, your letter would indeed be disheartening did I not know that you have now, as always, our interest at heart, and I feel that somehow you will find a way out of all these difficulties. In the firm belief that you will succeed in securing a supplementary estimate in which to include an item for our school, I will trust and hope.

Thanking you again for your helpful kindness, I am

Very truly yours,  
Sister Mary Gilbert.

Dear Sir,-

I have your letter of the 7th instant with reference to the proposed water-supply system for the St. Bruno's Indian Residential School.

In reply I have to advise you that the installation of a satisfactory water-supply system for this school is under consideration. The matter has been referred to the Dominion Water Power Branch and the Department is awaiting a report from the Commissioner of Irrigation at Calgary. Until this report is received and the possibility of a satisfactory water-supply system is established no action can be taken in the matter.

Yours faithfully,

Dear Sirs:

We understand that you are going to install  
some Laundry Equipment in the new Indian School which is  
at St. Bruno Mission, Indiana, Northern Alberta.

We were requested by the Heating Contractor  
to furnish him with prices but since that time we have  
been advised that the Department will probably buy the  
Laundry Equipment direct.

We would appreciate it if you would advise  
us definitely in this regard, therefore, and state if  
we should submit prices to your Department in Ottawa.

Thanking you in anticipation.

Dear Dr. Scott,-

In further reference to your letter of the 6th instant regarding a report on the proposed water supply system for the St. Bruno Indian Residential school, I wired to the Commissioner of Irrigation at Calgary as soon as your letter was received asking him to make a definite recommendation on this matter as soon as possible. The Commissioner wired in reply that a report would be mailed in a few days recommending an expenditure for water supply and fire protection at approximately \$14,000.

I have today received an interim report on this subject, copy of which is enclosed, outlining the works required for the domestic water supply and fire protection of this school.

The Commissioner states that plans are now being prepared in his office together with an estimate and that these will be submitted at an early date so that the work can be proceeded with as soon as the approval of the Indian Department has been obtained.

The Commissioner states that he does not think it would be desirable in this case to call for tenders and considers that the best method to follow would be to give the work to Mr. Towers, who was contractor on the Onion Lake school work and Ile a la Crosse Hospital, on a cost plus basis.

I will communicate with you again as soon as further information is received from the Commissioner.

Yours very truly,

J. T. Johnston,  
Director.

10th January, 1930.

Commissioner of Irrigation,  
Calgary, Alberta.

Sir,-

Reference the investigation of a suitable water supply for the St. Bruno Indian School in the NW $\frac{1}{4}$  of sec. 8, tp. 74, rge. 13, west 5th meridian, near Joussard, Alta.

I am forwarding under separate cover the following:-

1. Blue-prints of the new building together with the alteration and installing of heating and plumbing fixtures in the old building.
2. Profile of ground line over proposed pipeline from the lake to the new boiler room (not built as yet).
3. General and detail plans to accompany this report, in order that proper plans may be prepared.

The first matter under consideration was selecting a site for an intake at the lake. Depths were taken at places all along the frontage of the school bounds within reason, and it was found that the lake was very shallow near the school. Many holes were cut other than those shown on the plan, until it was found that the site which is shown on the plans was the best location that could be obtained. It was expected that some eight or ten feet of water would be obtained fairly close to the shore if locating was carried out to the east of the school, and the Rev. Father Giroux loaned me a fisherman who was conversant with the lake around this vicinity. The site selected was produced into the lake for 1,800 feet, in order to determine if any banks would intervene in low stages of the lake which should, however, be discontinued as the lake is in a fairly low stage this fall and winter.

A pumphouse can be located immediately on top of the well defined bank where the pipeline comes out of the lake, and the floor of the pumphouse would be about twenty-four feet above the present water level and about thirty-five feet above the bottom of the well.

It will be observed from a study of the profile that the bed of the lake rises at station 6  $\nearrow$  70 to station 7  $\nearrow$  20 and is more shallow than closer to the bank.

It is proposed that the pipeline should be carried out to about station 3  $\nearrow$  00 if that be deemed sufficient; otherwise, it will have to be carried out to station 9  $\nearrow$  00 with a trench constructed to lower it over the hump between stations 6  $\nearrow$  00 and station 8  $\nearrow$  00.

In connection with this pipeline into the lake it must be recorded that great ice shoves occur on this shore and with a maximum ice depth of four feet, it is possible that sheet ice in the break-up may be up-ended and gouge into the shallow water, with possible damage to the pipeline.

On the other hand, if the formation of the ground should be favourable at the well, it might be preferable to

connect an intake into the well and pump directly from the well into the proposed 4,000 gallon pressure tanks in the boiler room. Taken on the whole, I am inclined to recommend that the latter procedure be adopted, with an 8" pipe between the lake and the well, with double strainer on the lake end.

The pump house is proposed to house an eight or twelve horse-power gasoline engine, together with a suitable pump, and will be kept heated in the winter time with a stove. The water line from the pump house to the school will be below frost line, and should be fairly easily constructed for the most part.

A fire hydrant should be located some thirty feet away from the new building with a shut-off valve in the 4" main, so that in the event of a fire, the hydrant will function, either with the closed valve or pumping into hose as well as into the pressure tanks.

The dimensions of the boiler house are shown, in which it is proposed to house the pressure tanks, with a water pressure of forty pounds into the tank and coming out into the school service at around twenty-five or thirty pounds.

Owing to lack of space it is suggested that these tanks be placed on top of the other on an I steel frame and connected together, with a trip valve at the entry.

Regarding a site for a tank as outlined in the third last paragraph of your letter of instructions the total water used will be around 10,000 to 15,000 gals. per diem, and with the use of two pressure tanks in the boiler room there would be around 4,000 gals. always on hand, and with a centrifugal pump, it would simply be a matter of pumping sometime in the morning and afternoon. There are no pressure tanks at the school. No existing water system is in the school, except the old summer service on the top of the ground, with a small gasoline engine on the lake shore.

Please instruct me as to any other further information which may be required, as careful note was made of all pertinent data, when visiting the school.

Your obedient servant,

(Sgd) W. G. Stuart.

Dear Mr. Orr:-

Re Indian School, St. Bruno Mission,  
Indiana, Northern Alberta.

We understand that a Laundry Plant will be installed in the New Indian School at St. Bruno Mission, and we would appreciate it very much if you could advise us if the order for the Laundry Equipment will be placed through a Contractor or by the Department direct.

If the order is to be placed through a contractor, would you please tell us who the successful contractor for this job is, so we could get in touch with him. If the order is to be placed through the Department, could we be of any service to you in this connection?

Dear Sir:-

With reference to your account dated the 6th of February last for lumber supplied St. Bruno's Residential School, it would appear that there was an error in the calculation of the last item, namely;-

40 pieces 2 x 6 x 18 calculated at 480 board feet instead of 720 board feet, making an under-payment of \$6.00.

Kindly cheque this up and let me hear from you.

Yours truly,

F. H. Paget

Dominion Water Power and Reclamation Service

Calgary, Alta.,  
May 13, 1930.

Sir,

41,167.

Plans have now been prepared in connection with the water supply and fire protection system for the St. Bruno Indian Residential School. We have also prepared an estimate of cost for the construction of the works and for the necessary material, copies of which are attached.

The estimate of cost for the 40,000 gallon elevated tank was submitted by the Dominion Bridge Company and is considered a trifle high. We have therefore requested the Horton Steel Works of Toronto to submit an estimate for this work. With the amalgamation of the Riverside Iron Works and the Manitoba Iron Works with the Dominion Bridge Company, it is now impossible to get competitive bids on this class of work in western Canada.

Encl.

Our estimate includes the figures submitted by the Dominion Bridge Company, as it was thought advisable to get the scheme under consideration by the Department of Indian Affairs with as little further delay as possible because it is not considered that an alternative bid will reduce the cost of the tower by more than a few hundred dollars. Mr. Towers is ready to take his men on to the job at a moment's notice to start work on the pipeline excavation and the concrete base for the tower and pumping plant.

The Dominion Bridge Company has advised us that if awarded the contract for the tower, they will manufacture same at their new plant in Calgary and will commence work on it within two or three weeks from date of order.

In regard to the material for the pipeline, Messrs. Bell and Morris have informed us that the pipes will be shipped from Toronto immediately upon receipt of order.

Would you please forward a copy of the plans and estimate to the Department of Indian Affairs and ascertain from them whether they wish to proceed with the works.

Your obedient servant,

(Sgd.) J. S. Tempest,  
Commissioner of Irrigation.

Reverend Sir:

I write to inform you, with regret, that the item in the Department's Estimates to complete the new building at the St. Bruno's Indian Residential School has been disallowed and that there are, therefore, no further funds for the payment of accounts this year. I have reviewed the expenditure in connection with the building, and I find that in the fiscal year 1929-30 the Department paid nearly \$41,000. There has already been paid this fiscal year - since April first - \$11,780 and there are unpaid accounts on the file, which will now be paid, amounting to \$3,780.

I regret that the Department cannot favourably consider any further time sheets or accounts for materials. The shelving and cupboards and furnishing, the laundry equipment, the electric light and the water supply will have to stand until funds are provided by Parliament.

Reverend Sir,-

I beg to refer you to the Department's letter of the 6th June regarding accounts for expenditure in connection with the St. Bruno Indian Residential School. In that letter it was stated that the Department was about to make payment of accounts to the amount of \$3,780.00, (which was done,) but that it would not be possible to favourably consider any further time sheets or accounts during the present fiscal year. Under the circumstances, I return herewith the accounts recently received from you for expenditure in connection with the school.

Your obedient servant,

Sir,

Your file number: 131-4-5.

I have received your letter of the  
11th instant with reference to the water supply  
system for the St. Bruno Indian residential school,  
and note that there are no funds available to  
carry out this work during the present fiscal  
year. The Commissioner of Irrigation has been  
advised accordingly.

Mr. ~~Forrier~~

St. Bruno Mission  
Joussard, Alta.

Honorable Dr. Duncan C. Scott  
Supt. of Indian Affairs.

Dear Mr. Scott -

I hope you will not find me too persistent in coming to ask you to take a very special interest in the matter of securing the furniture for our new house. I was speaking about the opening of our school after vacation to His Lordship, Bishop Luy, as we want to receive the pupils in their new quarters on their return to the Mission. He advised me to write to you immediately asking if you could possibly give your full approval which would enable us to make the purchase as soon as possible, and prepare it all during vacation.

I might state here, that His Lordship said you would probably come out to see him this summer; that would mean a visit to St. Bruno's. What an honor it would be for us all, to open wide the doors of our beautiful school for the first time, to its greatest and most generous benefactor. We are hoping that this joy will not be

denied us and rejoice in the anticipation of its realization.

Since we know that His Lordship, Bishop Guyn, is an intimate friend of yours his presence among us seems to make you nearer also. He has been here frequently and how we love to receive him. He is so kind, so understanding and sympathetic. If it were possible, we would wish to give him a princely reception at each visit, but just now this is almost impossible, the nicest and best apartments not being equipped as yet. However, I know you will understand our present predicament and, as you have so often done before come to our aid.

The letter sent recently by Mr. Mackenzie somewhat disheartened me at first, it seems so hard to have to put up with another few months of hardship caused by the lack of water and laundry equipment, being the laundress. I can speak through experience, but as in the other cases, this problem placed under your care and attention is sure to succeed.

Should my request be granted, kindly tell me which firm you would like to patronize.

Yours very sincerely,  
Sister Mary Gilberte,  
Superior.

File No.-131-4-5

Dear Doctor Scott:-

Rev. Father Giroux and Rev. Sister Mary Gilberte have referred to me their correspondence with regard to present difficulties re the completion and furnishing of St Bruno's Indian Residential School. Their intention is obviously that I take up the matter with you personally.

At the time the last letter from the Department was received, removal of the old furnaces had been done and excavation for the new power (or boiler) building started. The principal is at a loss how to proceed as the boilers and furnaces which are already on the ground must be installed before Winter. At this time of the year labor is cheap and the principal is more than anxious to see the work brought to completion.

I understand that lack of funds is responsible for orders lately received at St Bruno. May I suggest that the principal (or our Corporation) be allowed to borrow from the Bank such amount as will be necessary to complete the work or such amount that you may think fit, same to be reimbursed the principal (or the Corporation) when funds will be provided by Parliament.

Regarding the furnishings, a list of which has been supplied the Department by Rev. Sister Mary Gilberte, May I make the same suggestion?

The Department is to be congratulated on the work done at St Bruno and it would be almost a disaster if same was not brought to a proper completion. I understand that you intend coming to St Bruno this year. I would be more than pleased to meet you there and even bring you to St Bernard's School and Mission.

Hoping to be favored with the acceptance of the above suggestions and even begging the advantage of a telegram addressed at Grouard as the matter is pressing, I remain

Yours very truly,

Dear Sir:-

Answering Mr. Scott's wire of July 4th. regarding  
our account for the St. Bruno's Mission, Jousard, Alberta. I have  
taken the matter up with Father Giroux who signed and forwarded  
them on to your Department on May 30th.

Father Giroux arrived in Town this Morning and  
has signed the enclosed Duplicate Copies which I am forwarding  
to you, as no doubt the others have been lost. I have not  
received any money on this job since February and would appreciate  
a check as soon as possible.

Thanking you in anticipation, I remain

Yours truly,  
J. P. Fitzgerald,

Rev. Sir,-

I beg to refer to Departmental letter of the 9th of May when the accounts of J. P. Fitzgerald were returned to you, as it was considered that the charges were excessive. These accounts have been returned to the Department, but the prices have not been revised. The account amounts to \$5,960.56, and a cheque for \$3000.00 has been sent to J. P. Fitzgerald on account. Before the balance of the account can be paid it will be necessary for the company to submit revised accounts together with time sheets for all labour and a detailed statement of fare and expenses.

In the charges for your information I would draw your attention to 4205 feet of 26" radiation. This radiation is listed at fifty cents per foot, and you will note that their charge is considerably in excess of this amount. The same applies to other items in the account.

Your obedient servant,

A. F. MacKenzie.  
Acting, Asst. Deputy & Secretary.

Principal,  
St. Bruno's Mission,

Sister Mary Gilberte's list is enclosed. #2435

I leave the whole matter to your kind consideration with the hope that you will take action as work is now too far ahead to stop. As already suggested whatever amount the Department can give will be welcomed and the Rev.Principal can borrow from the Bank until a final sum is provided for in the Estimates.

Yours very truly,

DEPARTMENT OF INDIAN AFFAIRS  
CANADAMemorandum:Approved July 24, 1930.  
DR. SCOTT.

You remember that Bishop Guy wrote concerning the completion of the work at the St. Bruno's Indian Residential School. He represented that the new boilers and other mechanical plant should be installed and that the furnishings should be secured this year and he suggested that the Church might borrow the money until the Department could arrange for an appropriation. You asked His Lordship for an estimate of the cost.

The following figures have now been received. You will note that practically all the work and equipment that is required to really complete the new wing is requested. However, there is no mention of electric light or water supply, which have been estimated at \$2,400 and \$27,400, respectively.

|                                                                                                            |             |

| Labour since May 17th, including<br>boiler house .....                                                     | \$ 6,237.00 |
| Installation of mechanical plant,<br>(including the supplying of<br>laundry equipment and bake oven) ..... | 6,800.00    |
| Installation of water supply and<br>arranging for laundry sewage disposal...                               | 2,750.00    |
| Furnishings .....                                                                                          | 2,435.00    |
| Miscellaneous .....                                                                                        | 792.00      |
| Total .....                                                                                                | \$19,014.00 |

It is not clear whether the cupboards and shelving, etc., are included in these figures.

We have already paid approximately \$17,500 from this year's Vote for this school. There is no item for the purpose in the Main Estimates and the one in the Supplementaries was disallowed. The only suggestion I can make is that Bishop Guy's proposal, to borrow the money, be approved.

Dear Sir

I am a returned man, having been  
4 years in the trenches overseas. M.M. 14 & 15 stor  
Reg no. 62252. 22nd Battalion. I am a  
carpenter by trade with 20 years experience.  
I just finish working a St Bruno mission school  
where your department has just built a  
new school. As I have always signed some  
blank receipts for the time that has the hours  
that were sent at your department.  
I don't believe having received the amount due  
to me for the hours that I worked. Will  
you kindly please tell me how many hours work  
are registered at my name by your department  
and the amount paid to me by your  
department.

An answer will be much appreciate  
as soon as it is possible.  
Yours truly

August 1, 1930.

Dear Bishop Guy:

I have Your Lordship's letter of the 9th ultimo, estimating the cost of completing the work at the St. Bruno's Indian Residential School. I note that you do not include the electric light or the water supply. I take it for granted that these improvements can stand until next year.

The item for this school was disallowed in our Supplementary Estimates and the accounts we have already paid this year have had to be charged to the general Appropriation for Indian Education. This Vote is really completely assigned and I regret that the Department is forced to accept Your Lordship's proposal. Arrangements should be made to have the really necessary work completed by church funds. Time sheets and receipts, in duplicate, should be kept, showing the expenditure. I shall arrange to have an item in next year's Appropriation to reimburse the church authorities.

Sir,-

Referring to your letter of the 21st ultimo, relative to your wages as carpenter on the construction of the St. Bruno Indian Residential School, I beg to state that the Department cannot give you any information in the matter, as your name does not appear on the labour returns paid by the Department.

Your obedient servant,

A.F. MacKenzie  
Acting Asst. Deputy and Secretary.

## PRICES AND DISCOUNTS No. 13

# Corto and Safford Radiators.

STEAM OR WATER.

Peerless and Ontario Wall Radiators.  
Steam or Water.

**CREDIT TERMS**—Approved credit 2 per cent. discount for cash if paid by 15th of month following date of purchase, or net cash by the last day of month following date of purchase.

**GUARANTEE**—Our goods are guaranteed only to the extent of furnishing BY FREIGHT new castings or sections for any found defective in manufacture and no labor charges or consequential expense in connection with goods claimed defective will be allowed. No claim will be allowed for defective material unless presented within 60 days from date of shipment. This guarantee constitutes a part of the terms of sale of all orders accepted and shipped by us.

### FREIGHT ALLOWANCE:

1. No Freight Allowance on Repairs.
2. No Freight Allowance whatever on shipments weighing less than 100 pounds.
3. Shipments to Ottawa, Hull, P.Q., London, Sarnia, Windsor, Walkerville, Sandwich, Ford City, Amherstburg, full freight will be allowed. Discounts set out pertaining to these points will apply.
4. ONTARIO SHIPMENTS.—F.O.B. Toronto, Guelph, Hamilton, Brantford, St. Catharines, freight equalized thereon, discounts set out pertaining to these points will apply, less lowest actual rate of freight to railroad points of destination up to but not exceeding 30c. per 100 pounds.
5. F.O.B. Montreal.
6. QUEBEC AND MARITIME SHIPMENTS—On shipments OUT OF MONTREAL to all points EAST OF MONTREAL there is no freight allowance. On factory shipments for points East of Montreal freight will be equalized on Montreal only, actual rates of freight applying to each respective shipment. (This does not mean freight to Montreal will be allowed on Factory shipments for points East of Montreal, but as before stated, freight will be equalized on Montreal only).
7. MANITOBA, ALBERTA AND SASKATCHEWAN SHIPMENTS—Carload shipments to points in these Provinces are F.O.B. Toronto or Brantford, less 30c. per 100 lbs. Freight allowance will not be made on shipments from stocks at Winnipeg, Regina, Calgary or Edmonton.
8. All allowances for freight will be made from face of invoice.

**RETURNS**—Goods must not be returned except by special permission, and when so returned will be subject to discount to cover cost of rehandling, cleaning and putting into saleable condition. DISCOUNT AS FOLLOWS: Painted Radiators or Sections, allowance 1c. per pound net. Loose Section (new), 15%. Complete Radiators (new), 5%. All less freight or other charges.

**ORDERS**—All orders are accepted subject to strikes, accidents or other causes beyond our control. Orders booked for forward shipment must be shipped within six months from date of order, otherwise they are subject to cancellation.

**SHIPMENTS**—All goods are shipped at buyer's risk, and care should therefore be exercised by him in signing railroad receipt, to see that any damage to goods is noted upon it, thus giving him the basis for claim against the railroad. The responsibility of this Company ceases upon delivery of material in good order to transportation company.

**SPECIAL NOTICE** On occasion of any advance in these prices only orders actually mailed before the advance is made will be invoiced at the price effective prior to the advance. All orders mailed after an advance will be invoiced at the new and advanced prices.

PLUMBING AND HEATING

EDMONTON, July 30th 1930  
ALBERTA

Mr. A. F. MacKenzie,  
Acting Asst. Deputy Secretary,  
Dept of Indian Affairs,  
Ottawa, Ont.

Dear Sir:-

Rev. Father Giroux has forwarded us your letter regarding our account on St. Bruno's Mission School.

The enclosed Price Lists will explain to you how we arrived at the cost of Radiation. On February 1st. 1930, you will note on Price List #13, Radiation was charged at \$115.00 per 100ft. less 49%, leaving a total of \$58.65 per 100 Feet, therefore;

|                                           |               |
|-------------------------------------------|---------------|
| 4205ft of Radiation @ \$58.65 per 100ft - | \$ 2,466.23   |
| Plus 20%                                  | <u>493.25</u> |
|                                           | 2,959.48      |

|                                         |              |
|-----------------------------------------|--------------|
| Plus freight from Edmonton to St. Bruno | <u>94.70</u> |
|                                         | \$ 3,054.18  |

The above prices on radiation were in effect until June 10th. 1930, when the revised prices came in and radiation was charged at 50¢ per foot, as you will note on Price List #14, and that is probably the price you were figuring with.

You will note on attached Time Sheets that we pay the Steamfitters \$1.20 per hour and Helpers 50¢ per hour and charge their time out at \$1.50 per hour and 75¢ per hour.

Trusting you will get this matter straightened out right away as we would like to get this account cleared up and we feel that the prices are fair.

Yours truly,

Sir:

I have your letter of the 2nd instant, with further reference to your account for \$2,873.21. I am unable to find any record of this and it is possible that this refers to work that has been done more recently at the St. Bruno's Indian Residential School. The Reverend Principal himself is arranging for payment for the later expenditures, and I have to suggest that you correspond with him.

Sir,-

As you made enquiry some-time ago regarding work done on St Bruno Indian Residential School building, I have to inform you that arrangements in the matter were made by the Principal of the school. The Department did not have it done under contract, but accounts for the work which were submitted by the Principal were paid. The following statement shows payments made per hour for work done during the week 12th May to 17th May, 1930.

Dear Mr. Kennedy:

I have your letter of the 16th instant, with enclosure, concerning the engagement of Mr. P. Lussier at the St. Bruno's Indian Residential School, Grouard, Alta. The improvement at this school has been undertaken on a day labour basis, and the Reverend Principal is responsible for the engagement of the men. The expenses for the past few weeks are being paid by the church authorities, who expect to be reimbursed by the Department if funds are provided at the next session of Parliament. The labour up to May 17th has been paid by the Department, and I find that the name of P. Lussier occurs on the time sheets for this calendar year, as shown on the attached page.

Your correspondent states that he was threatened with dismissal if he did not sign blank forms at the end of each week. I will ask the Reverend Principal of the School for an explanation if your correspondent so wishes.

Yours very truly,

Encl.

Dear Mr. Kennedy:

I have your letter of the 20th instant, with enclosure from Mr. E. Tanguay, of Donnelly, Alta., with reference to his engagement at the St. Bruno's Indian Residential School. His name appears on the time sheets, as shown on the attached page. The schedule of wages paid on this work appears to have been as follows:-

|            |   |     |                       |
|------------|---|-----|-----------------------|
| Carpenters | - | 60¢ | per hour.             |
| Painters   | - | 45¢ | " " "                 |
| Labourers  | - | 35¢ | " " " ; & 45¢ per hr. |

As I indicated in my letter to you of the 18th instant, this building was not erected by contract but on a day labour basis, and the Reverend Principal in charge of the School was responsible for the engagement of the men. Mr. Tanguay may be informed that the labour up to May 17th only has been paid by the Department. I may say there is no record of a communication from him to the Department direct.

Yours very truly,

Encl.

Dear Sir:-

I re-enclose herewith the account of \$95.08 which you rendered in May for lumber supplied for St Bruno's Indian Residential School. Kindly attach thereto a receipt covering the freight charge of \$10.12, and return the account to the Department in order that the matter of payment may receive attention.

I return also the June account of \$57.10, as a receipt is required in support of the freight charge of \$6.17.

Yours truly.

experience at teaching in Indian schools. There are 45 boys and 63 girls enrolled.

The school building is an up-to-date, modern frame building, and, being practically new, is in splendid condition. The building is heated with hot water, and lighted with electric light. Water is on tap throughout the building.

The water supply is pumped from the lake. The installation is at present only a temporary one, but it has worked very satisfactorily during the present winter. It will be necessary to put the pipes down deeper below the frost line and carry them farther out into the lake in order to insure permanency.

The building provides two large, well equipped dormitories. In the boys' dormitory there are 50 beds, 24 basins, 3 baths, and 3 toilets. In the girls' dormitory there are 65 beds, 28 basins, 3 baths, and 3 toilets.

Fire protection consists of stand pipes with hose connections on each floor and a number of chemical fire extinguishers conveniently placed throughout the building. The building is three stories high with a basement. Three outside stairway fire escapes are provided with easy access to them on each floor. An outside stairway is placed at each end of the building, and one in the centre. I was informed that the children are being given instruction in fire drill. I found this building in excellent condition throughout.

An ample supply of wholesome food is provided. The children are given milk, as well as meat

and vegetables, daily. They have a well nourished appearance, and I heard no complaints regarding the food supplied at this school.

Seven cows are kept for milking purposes. They have a large garden, but last year the potato crop was a failure, and they have to purchase their supply. They had, however, plenty of carrots and other vegetables for their requirements.

They have a large laundry room, but the only equipment is five set tubs and some small old wash tubs and hand machines. The Sisters say that washing for 112 children makes heavy work for both the children and the staff, and they would like to be supplied with two medium sized washers, an extractor, mangle and section of drier, a low pressure boiler for heating hot water for the laundry, and a stove for heating the irons. They can do the bulk of their washing then with power and still have sufficient small clothes left to provide instruction for the girls.

The girls are given instruction in sewing, knitting, and fancy work, as well as in general housework. The boys assist with the garden work and care of the stock.

Wood has been exclusively used for fuel until this winter. A seam of coal was discovered about four miles from the school building, and 50 tons were secured at the beginning of the winter. This coal has proved to make very satisfactory fuel.

Gentlemen:

I have to request that you will arrange to supply from your nearest branch office, for the use of the St. Bruno's Indian Residential School, one (1) sewing machine, described in your catalogue as follows:

No. 2 - 5 Drawer Machine, 127 - 3 G.O.

Your local Agent should inform Rev. C. Fahler, O.M.I., Principal, St. Bruno's Indian Residential School, Joussard, Alta., when this machine is available, and he will give the necessary directions for delivery.

The account, in duplicate, covering the cost of the machine should be forwarded to Rev. C. Fahler at the above address. This account should show the retail price and discount of 50% allowed off the 90 day list price, "on which terms purchase is made". Rev. Father Fahler is being informed of the order placed with you, and requested, upon receipt of the machine, if in good condition, to certify the account and send it to the Department for payment.

Yours truly,

F. H. Paget,  
Accountant & Purchasing Agent.

Dear Bishop Guy:

Pursuant to our conversation of yesterday, I have to inform you that the Department will arrange to supply, for the laundry of the St. Bruno's Indian Residential School, a washer, an extractor, a drying tumbler, a 5 horse power steam boiler and a 5 horse power gas engine. These will be shipped to the Reverend Principal at Indiana. At a later date, Mr. Orr will make arrangements regarding shafting, belting and installation.

Your Lordship may secure a laundry stove, two hand operated domestic washers with wringers and an inexpensive mangle. Receipts for these can be forwarded with the other receipts for furnishings.

Memorandum:

Mr. Buskard.

We require some laundry machinery for the new addition built last year to the St. Bruno's Indian Residential School. There are two firms in Canada manufacturing this equipment, namely the Canadian Laundry Machinery Co. represented in Winnipeg by Stanley Brock, Ltd. and the Beaver Laundry Machinery Co. in Winnipeg.

Will you please advise if it will be satisfactory to obtain prices from either or both of these firms. The cost of the equipment will be approximately \$2,500.00. Funds are provided for in the Vote for Indian Education.

## Beaver Roller Bearing Washer

Header on End

THIS is a very strongly constructed washer, built for heavy duty. The material through-  
out is of the best grade and no pains have been spared to produce a machine that can  
be relied upon to give many years of satisfactory service.

The Main Trunion Journals operate in roller bearings. Less power is required to  
drive the machine and wear is almost entirely eliminated, with the result that all gears are  
always in correct mesh and alignment. Broken gears, worn trunion journals and bearing  
replacements are never necessary on this washer. The main bearings are entirely separated  
from the tub by packed stuffing boxes, which absolutely prevents oil and grease from enter-  
ing the washer or water from coming out.

The Reversing Movement is our Beaver Ball Bearing type in which all the thrust  
of operating the belt shifter slides is taken by hardened steel balls. The movement is designed  
so as to give a positive even shifting of the belts, irrespective of wear, so that the cylinder

runs the same number of revolutions in either direction. The gears are machine cut from solid blanks and the main gear is thirty inches in diameter. The gear has a split hub to facilitate easy removal. A combined gear lock and hand wheel is provided.

The Cylinder is of the best grade all heart stock long-leaf yellow pine with hard Maple ribs. The three lifting ribs are extra deep to ensure rapid washing. The trunions are bolted to heavy brass rings. The hinges are of brass bolted through a brass batton with an enclosed brass lock.

The Outer Case is of the finest clear Cypress and is furnished with a brass apron at the door opening. Inspection plates are provided in each end so that trunion bolts may be tightened without removing the upper half of the case.

The Inlet and Outlet Tees are connected by a  $1\frac{1}{2}$  inch pipe into which steam can be injected. When steam is being used to heat the water this construction gives a rapid circulation and absolutely prevents any steam from coming in contact with the wood of the cylinder or case. The water inlet is 2 inches in diameter. The steam inlet is  $\frac{3}{4}$  inch. A 3 inch plug type discharge valve is supplied.

This Washer can be arranged for motor drive, in which case it is driven from the motor through short belts. The motor is carried on a substantial cast iron base bolted firmly to the frame of the machine.

At a small additional cost these machines may be equipped with a Beaver 6 inch foot operated discharge valve, Beaver Water Level Indicator, visible anywhere in the wash room, Beaver Soap and Soda filling doors, and Monel Metal Lifting Ribs in the cylinder.

## Beaver Heavy Duty Extractor

ANGLE DRIVE

**A** HEAVY DUTY EXTRACTOR Designed to operate at high speeds, self-balancing, and requiring only a minimum of attention.

The Curb, Legs and Base are one solid massive casting, weighing almost 300 lbs. more than the ordinary curb. This tends to absorb vibration, allows the Machine to balance easily, and to pick up speed quickly.

The Wide Square Base distributes the weight over a large area, and allows this Machine to be operated at higher speeds than is possible with a small or round base.

## Beaver Heavy Duty Extractor — Continued

The Basket is of Perforated Copper, heavily tinned and strongly reinforced by steel bands. The Oversize Steel Spindle operates on a hardened ball point and button running in a long bronze bearing. The bearing is supported by two large rubber springs, so arranged and designed as to make this Machine self-balancing. A large amount of working space has been provided round the bearing, making very easy and quick adjustment or changing of the rubber springs.

The Beaver circulating oil system ensures complete lubrication of the main bearing at all times. The oil well is very accessible for inspection of the oil level and refilling. From the oil well the oil is led to a sump in the base of the machine, whence it circulates through the bearing, returning to the sump. Owing to the large capacity of the oil well only occasional attention is required.

All Beaver Extractors have countershafts attached to the curb, and may be for straight or angle drive. The angle drive, as shown in the cut, costs a little more than the straight drive, but effects a saving in floor space, and allows the Extractor to be placed in line with the washers. All Extractors have our improved adjustable friction clutch pulley, which gives a gradual increase in speed without strain to any part of the Machine. Motor drive extractors are direct connected with push button control.

A Galvanized wire safety cover is fitted and so arranged that the cover must be closed before the Machine can be started.

Dear Sir:

Re your No. 131-4-5, Laundry Equipment, dated May 19th, we quote  
f.o.b. Indiana, Alberta, \$2022.00, and will supply the following:

- One (1) only 36" x 54" Beaver "V" Type  
belt driven Wood Washer.
- One (1) only 26" Beaver Solid Curb,  
Angle Countershaft Extractor.
- One (1) only 40" x 32" Beaver Junior Royal  
Drying Tumbler.

This equipment is similar to that already supplied your Depart-  
ment on previous occasions, and is manufactured entirely by the  
Beaver Laundry Machinery Co. Ltd., of Toronto, a strictly Canadian  
Company.

We can make prompt delivery through our principals, the Beaver  
Laundry Machinery Co. Ltd., and guarantee you absolute satisfaction.

The following are the detailed specifications:

Sir,-

I have your letter of the 27th of May, with reference to the laundry machinery required for the St. Bruno's Indian Residential School, and I beg to advise you that your offer is accepted.

The equipment should be shipped addressed to Reverend Father Falher, Principal, St. Bruno's Indian Residential School, Jossard, Alta. to be delivered f. o. b. Indiana, Alta.

Before making shipment I would ask you to kindly communicate with the Reverend Principal and obtain the necessary information as to the quantity of shafting required for the installation, and on receipt of this information advise me what the cost will be for the shafting and also for sending one of your representatives to the St. Bruno's School to make the installation. When writing to the Rev. Principal it might be advisable to send him a sketch showing the suggested layout for the machines.

RE: Laundry equipment at St Bruno Indian  
Residential School.

Dear Mr Ferrier:-

Upon my return I made a special trip to St Bruno  
Indian Residential School with the view of ascertaining the possibility of in-  
stalling the new Laundry equipment which the Department intends to provide for.

The room intended for the Laundry machinery is a  
large one and will more than satisfy the purpose. The floor will have to be pre-  
pared specially for the draining of the water. This work will have to be done un-  
der the direction or orders of the Company installing this equipment. In fact the  
whole installation will have to be supervised by the Company's man. Upon receiving  
advice from the Department as to the name of the Company chosen I will get in  
touch with the proper office and send diagram of room and place of drain.

Following your letter of recent date I am placing  
with the J.H. Ashdown Hardware Company an order for a 24" cold mangle and two or-  
dinary washing machines.

RE: Electricity at St Bruno Indian  
Residential School.

Dear Mr Ferrier:-

In accordance with my promise I have interviewed the Lister Company authorities regarding their supposed purchase of machinery in connection with the installation of an electric plant at St Bruno Indian Residential School.

I was told that said machinery was indeed put up and ready for shipment at Winnipeg. When I insisted upon knowing what authority had been given them to do so I found out that they would not insist for our taking same. Therefore, I would consider and approve of your suggestion of taking the plant lately discarded at Duck Lake provided same would be strong enough to accommodate St Bruno School.

I do not know in what condition is the St Bruno equipment but if it were in good order I would suggest that same be sent over to Sturgeon Lake School.

I suppose that a man will be provided by the Department for the new installation at St Bruno and in the case of a new installation at Sturgeon Lake Indian Residential School.

RE: Water system at St Bruno Indian Residen-  
tial School.

Dear Mr Ferrier:-

Upon my return I discussed with Rev. Fr Falher the water  
system question as suggested by you and Mr Scott during my visit in Ottawa.

We are both of opinion that the present temporary sys-  
tem installed by us could be made permanent by certain alterations and changes  
that would entail an expense that would range between \$1500.00 and \$2000.00.  
The water supply would then be assured satisfactorily for quite a number of years  
thus relieving the Department from the heavy expense expected.

However, the amount referred to above would not include  
the erection of a water tower or a water tank, the former outside or the latter in-  
side. We have presently a pneumatic tank in the basement. If same could be changed  
to a larger one I presume we could easily substitute the new pressure tank to the  
water tower or inside water tank (which would work from the upper story).

Hoping that we will be able to meet your desires in  
allaying the cost of the water system installation, I remain

Yours very truly,

Ottawa, July 2, 1931.

Sir:

The Department wishes to use the electric generating plant, which is now surplus to requirements at the Duck Lake Indian Residential School. It is required for the St. Bruno's Indian Residential School, at Jousard, Alta. Will you please make arrangements to have the 15 horse power engine, the dynamo and the two direct current motors properly crated and shipped, by freight, prepaid, to the Principal of the School, the Rev. C. Falher, O. M. I. Indiana is the freight address.

Your obedient servant,

Right Reverend Sir:

I have Your Lordship's letter of the 15th ultimo, with reference to laundry equipment at the St. Bruno's Indian Residential School. On the 22nd ultimo, the order for this equipment was placed with the Beaver Soap and Chemicals, Limited, of Winnipeg, and the Rev. Father Falher, O. M. I., was written to the effect that the Company has been instructed to communicate with him to obtain information regarding shafting, etc., and, at a later date, to send one of their mechanics to make the installation.

I have the honour to be,

Right Reverend Sir,

Your obedient servant,

Right Reverend Sir:

I have Your Lordship's letter of the 15th ultimo, with reference to an electric plant for the St. Bruno's Indian Residential School. The Department is now arranging to ship, from Duck Lake, Sask., a 15 horse power engine, a dynamo and two direct current motors. I am also securing the name of a competent local battery service company, who will supply the batteries and will supervise the installation of the entire electric plant.

Your Lordship will receive a separate communication with reference to the advisability of transferring the old electric light plant and batteries from St. Bruno's to the Sturgeon Lake Indian Residential School.

I have the honour to be,

Right Reverend Sir,

Your obedient servant,

Re Your No. 131-4-5.

Dear Sir:

We were very glad to receive advice of your acceptance of our tender on Laundry Machinery for St. Bruno's Indian Residential School, and we have written to Reverend Father Falher for the necessary information to permit us to figure on a complete installation for this equipment, including our engineer's services.

We will advise you further in this regard just as soon as we hear from the Reverend Principal.

Yours very truly,

I wish to state that Rev. Fr. Falher,

me that the batteries of the present plant at his  
school are in bad condition. I believe we could  
find a man able to repair same at a minimum cost.  
Otherwise, new batteries would have to be  
installed.

PERSONAL

Mr Duncan C. Scott, Litt. D.,  
Deputy Superintendent General,  
Department of Indian Affairs,  
OTTAWA, Ont.

My Dear Doctor Scott:-

I take the liberty of asking if it would be in order for the Department to give at least a partial payment on accounts promised for St Bruno's and Wabasca Indian Residential Schools.

I must say that we have already paid more than \$2,000.00 interest at the Bank for Wabasca and \$1,200.00 for St Bruno. The returns from Wabasca are not in yet and I must admit that through the inexperience of the Principal proper receipts were not signed by the men nor labor returns made. I have asked the Principal to prepare a return with affidavit and hope that same will prove satisfactory. Regarding St Bruno everything is in order and labour returns, receipts and invoices in part are presently in Mr Ferrier's office. Pending the sending of the balance could you not send us a partial payment at least to allay the situation.

If possible I would also ask for an advanced payment of about \$12,000.00 or more on the quarterly grant of September covering St Bruno's, St Bernard's, Fort Vermilion, Wabasca and Sturgeon Lake Residential Schools. Of course I presume said amounts were voted by Parliament.

Thanking you in advance, I remain

Yours very truly,

+ *J. G. G. O. S.*

Dear Bishop Guy:

I have your letter of the 10th instant, with reference to a partial payment on account of the building activity at the St. Brano's and Wabasca Indian Residential Schools. I regret that our Vote is not yet available, but I can promise that Your Lordship's request will not be overlooked and that cheques will be directed as soon as possible. I have asked Mr. Ferrier to arrange also for advances on the September quarter grant to the schools in which you are interested.

Dear Sirs :-

Refer to File 131-4-5.

Attention T.R.L. MacInnes.

We quoted you on May 26th on Laundry Equipment for the Indian School at Indiana, Alta., giving you factory prices, freight, cartage and sales tax, which apply to this equipment.

We would appreciate it very much if you would advise us if this order has been placed. The equipment on which we quoted you is completely manufactured in Canada by the Canadian Laundry Machinery Co., Ltd., and is of the same type equipment which we have been furnishing to the Indian Schools for some time.

We surely would be very pleased to receive this order and would appreciate any information you can give us in connection with it.

Yours very truly,

Memorandum:

HONOURABLE THOMAS G. MURPHY.

In June, 1929, with the concurrence of the Honourable Charles Stewart, the Department arranged to enlarge the St. Bruno's Indian Residential School, near Grouard, Alta. In view of the location, the Church authorities were given the responsibility for the undertaking, on a day labour basis. Plans were prepared by the Department Architect and the work was proceeded with. The Department gave instructions that competitive prices were to be secured and that local labour was to be engaged as far as possible. During the fiscal year 1929-30, the expenditure for the new building amounted to \$39,980.14. During the past fiscal year, \$23,591.20 was expended. Last year, funds were not available to complete the work, but it was extremely desirable that the building activity should be continued. It was therefore arranged that the Oblate Order should pay the bills and then present receipts for reimbursement this year. You will remember that there is an item of \$37,000 in the current Appropriation for this purpose and to complete the mechanical plant. Receipts, amounting to \$18,544.52, are now to hand, and, with your concurrence, I propose to make reimbursement to His Lordship Bishop J. Guy, O. M. I., of Grouard.

I may say that all of the \$37,000 available will not be expended. In addition to the present payment, there will be purchased this year laundry machinery at a cost of \$2,275; there will be improvements to the water supply, at a cost of \$1,750; and approximately \$800 will be required to put the electric lighting plant in good condition. The electric plant is a used one, from another of our schools, where Hydro is available. I expect that the building will be completed at a total cost this year of less than \$25,000, which, of course, includes the present payment. I have asked Mr. Ferrier, who is informed concerning the matter, to offer any explanation you require.

| <p>The St. Bruno's Indian Residential School has been enlarged by the Church Authorities, on a day labour basis. Last fiscal year, funds were not available in the Appropriation for Indian Education to complete the building and furnish it. The work had to be proceeded with, and the Department asked the Church Authorities to pay the bills and to submit receipts this year for reimbursement. These are attached, and the Superintendent General has approved of the payment. Funds were provided in this year's Appropriation for this purpose.</p> <p>Certified Correct,<br/><i>Russell T. August 11, 1931.

Dear Bishop Guy:

I am pleased to inform you that there is being directed to the Banque Canadienne Nationale at Edmonton a cheque for \$18,544.52, payable to the Roman Catholic Episcopal Corporation of Grouard. This is to reimburse Your Lordship for expenditure incurred recently at the St. Bruno's Indian Residential School. It is understood that future accounts in connection with the authorized improvements at this school will be forwarded direct to Ottawa for payment.

Yours very truly,

Dear Sir:

Re - Yours 131-4-5, June 22nd.

We have been in correspondence with Father C. Falher, Principal of St. Bruno Mission and also with the Bishop of Grouard, in regard to the equipment for St. Bruno Indian School and we believe we now have all details necessary for us to figure on a complete installation.

In addition to the 36"x 54" Washer, 26" Extractor and 40"x 32" Tumbler, which we are supplying they will require a 5 H.P. Boiler and a 7½ H.P. Gasoline Engine, together with all the necessary Shafting, Hangers, Pulleys, Belting, Piping and Fittings, to properly instal.

We enclose herewith a sketch of the Laundry Room, showing where it is proposed to place the equipment and we quote you on the necessary materials as follows:-

|                                                   |           |

We estimate our Engineers time from Winnipeg to Indiana and return at 12 days for which we would make a charge of \$20.00 per day including all expenses. So the cost to your Department for the whole job would be \$1,214.50.

The machinery is now completed and awaiting shipping instructions at our factory in Toronto and if you will authorize us to go ahead with this work, same will be put in hand immediately.

Yours very truly,

**MEMORANDUM**

5th July, 1929.

Dr. Scott.

I have been directed by the Honourable Mr. Stewart to acknowledge the receipt of your memorandum of the 18th ultimo regarding the desirability of employing a heating contractor to install a low pressure steam heating system in the St. Bruno's School.

In this regard I may say that Mr. J.P. Fitzgerald, Jasper Avenue, Edmonton, has been very strongly recommended as a heating contractor and I feel sure he would carry out this work satisfactorily.

If the services of a consulting and heating engineer are required, you might employ Fraser McLean, Tegler Building, Edmonton.

Dear Sir:

I beg to report that I have been working as Painter at the New Indian School at St. Bruno, Alta., and that I have been compelled to sign blank forms at the end of each week, and that at several times, I have requested to be advised as to reason and purpose of said blanks. The answer was to the effect that; My refusal to sign as requested would result in my being summarily dismissed from the job. As I was in great need of work I was bound to sign as requested.

So that up to the present I am at a loss to know if my time has been paid in full, and the standard Government wage.

Therefore I would be greatly obliged to you, if you could enquire at the Department of Indian Affairs in regard to this matter and obtain a full statement in my behalf as to the number of hours credited to me and also the rate per hour.

I started to work on said building in October last until April this year.

Kindly answer at your earliest convenience by registered mail as I am afraid that an ordinary letter would never reach me.

Thanking you in anticipation, I am, Sir,

Yours respectfully,

(Sgd.) P. Lussier.

Dear Dr. Scott:

I attach for your information  
copy of a letter that I received from Mr. P.

It seems a rather strange  
proceeding that a man employed on work of this  
kind would be compelled to sign blank forms on  
the threat of dismissal if he refused to do so.

Will you be good enough to write

you have in the Department.

Dear Mr. Kennedy:

I have your letter of the 16th instant, with enclosure, concerning the engagement of Mr. P. Lussier at the St. Bruno's Indian Residential School, Grouard, Alta. The improvement at this school has been undertaken on a day labour basis, and the Reverend Principal is responsible for the engagement of the men. The expenses for the past few weeks are being paid by the church authorities, who expect to be reimbursed by the Department if funds are provided at the next session of Parliament. The labour up to May 17th has been paid by the Department, and I find that the name of P. Lussier occurs on the time sheets for this calendar year, as shown on the attached page.

*Copy on 131-4-5*

Your correspondent states that he was threatened with dismissal if he did not sign blank forms at the end of each week. I will ask the Reverend Principal of the School for an explanation if your correspondent so wishes.

Dear Sir:

I beg to report that I have been working as carpenter-joiner at the erection of the New Indian School at St. Bruno, Alta. (near Grouard) from the 31st July, 1929 to 10th instant.

Since the beginning of my employment on said job, I have been requested at the end of each week by those in charge to sign blank cheques in connection with my time, and up to the present time I have never been able to find out the exact amount of time credited to me nor the regular standard wage allowed by the Department to the different employees in connection with said work.

I have written three times to the Department of Indian Affairs for information in connection therewith but up to the present my letters have not been returned and are still unanswered.

Therefore, I would be very obliged if you could obtain in my behalf from the said department the following particulars: A full statement of my time from the 31st July, 1929 to 10th August, 1930. The rate per hour and full amount paid by the Department. Also departmental regulations in connection with the schedule of wages allowed to employees, such as - carpenters, joiners, painters & labourers working on Government constructions (Indian Schools).

When at the department kindly ask the official in charge to give you the three letters forwarded by me for your perusal.

Hoping Sir that you will accede to my humble request,

I am, Sir,  
Yours respectfully,

September 23, 1930.

Dear Mr. Kennedy:

I have your letter of the 20th instant, with enclosure from Mr. E. Tanguay, of Donnelly, Alta., with reference to his engagement at the St. Bruno's Indian Residential School. His name appears on the time sheets, as shown on the attached page. The schedule of wages paid on this work appears to have been as follows:-

|            |   |     |                     |
|------------|---|-----|---------------------|
| Carpenters | - | 60¢ | per hour,           |
| Painters   | - | 45¢ | " " ;               |
| Labourers  | - | 35¢ | " " ; & 45¢ per hr. |

As I indicated in my letter to you of the 18th instant, this building was not erected by contract but on a day labour basis, and the Reverend Principal in charge of the School was responsible for the engagement of the men. Mr. Tanguay may be informed that the labour up to May 17th only has been paid by the Department. I may say there is no record of a communication from him to the Department direct.

Yours very truly,

Duncan C. Scott

Dear Dr. Scott:

Mr. E. Tanguay of Donnelly,  
Alberta, has complained to me that he worked at  
the St. Bruno Indian Mission, as a carpenter, as  
follows:

|                            |          |
|----------------------------|----------|
| 1930 - May from the 17th - | 50 hours |
| June                       | - 240 "  |
| July                       | - 260 "  |
| August                     | - 70 "   |

and was paid at the rate of 60¢ an hour. He received  
altogether the sum of \$372.00.

The Department, I believe, allows  
90¢ an hour for carpenter work. Mr. Tanguay is demanding  
that the additional 30¢ an hour be paid him.

I may say that a Mr. Desrosiers of  
Falher has made a similar complaint to me.

What position do you take with regard  
to this complaint? Do you think that the Department has  
any responsibility in connection with this matter?

Yours truly,

Dear Mr. Kennedy,

I beg to acknowledge the receipt of your letter of March 16th. with reference to the claim made by Mr. E. Tanguay with reference to the rate of wages paid him as carpenter working on the St. Bruno Indian residential school.

As you no doubt remember we have had some previous correspondence on this subject. The building was being erected by the Principal of the school on a day labour basis, and I presume that he paid the local rate for carpenters. This school is near Indiana Station on the Northern Alberta Railway.

I wrote you on September 23rd. last on this subject and on the 18th. of the same month with reference to a claim of Mr. P. Lussier. I think if Mr. Tanguay was paid the local rate for labour he would have no complaint.

Dear Dr. Scott:

I have your letter of March  
19th in reply to mine of March 16th.

*we didn't*

Last year when I wrote regarding these claims, I was not clear on the point about the exact amount that was paid by the Department for the labour and the actual amount that was paid to the carpenters. There may be something that I don't understand about this matter, but I can hardly agree that when the Department allowed \$1.00 per hour for carpenter work on the St. Bruno Indian Residential School, that the carpenters should be satisfied when they received only sixty cents per hour. The point is, that somebody must have received the difference of forty cents per hour and I am wondering what service was given entitling anyone to retain this money.

Dear Mr. Kennedy:

I have your letter of the 23rd instant, with further reference to wages paid last year at the St. Bruno's Indian Residential School. You seem to be under the impression that the Department allowed either 90¢ or \$1.00 an hour for carpenter work. This is not the case, as the labour returns and supporting receipts now before the Department show that Mr. E. Tanguay and the other carpenters received 60¢ an hour. As I mentioned in my letter of the 19th instant, I presume the Principal paid the local rate for carpenters. The Department then reimbursed him at that rate.

Ottawa, August 24, 1931.

Right Reverend Sir:

With further reference to my letter of the 2nd ultimo, relative to the installation of the electric light plant at the St. Bruno's Indian Residential School, I have now to inform Your Lordship that you may engage the MacKillop Electrical Company, of Edmonton South, for the installation, etc., provided their proposals, with prices, are considered entirely satisfactory. The engine, the dynamo and two direct-current motors have already been shipped to the school from Duck Lake, Sask., where they were no longer needed. The company which makes the installation will be able to give you advice regarding the renewal of the present batteries and any additions that have to be made. You might ask the Rev. Principal to see that the expense is kept as low as is consistent with efficiency.

Under separate cover, there is being directed to Your Lordship a cheque for \$576.86, reimbursing you for the bake oven which you purchased after authority was granted, for the St. Bruno's Indian Residential School.

I have the honour to be,

Right Reverend Sir,

Your obedient servant,

Dear Sir:

By letter of the 11th inst. I was advised that there has been directed to the Banque Canadienne Nationale at Edmonton a cheque for \$18, 544.52 payable to the Roman Catholic Episcopal Corporation of Grouard, said cheque being intended as a reimbursement for expenditure incurred at the St Bruno's Indian Residential School. The Bank has duly received the cheque and credited our account with same.

Please receive our thanks for the settlement of the accounts forwarded to the Department in connection with St Bruno's Indian Residential School.

Dear Sir:

On April 10th, you wrote asking us to ship a sewing machine to St. Bruno Indian Residential School at Joussard, Alberta. This machine was shipped on May 1, 1931 and the invoice sent as requested in your letter but we do not seem to have any record of having receiving payment.

Will you kindly let us know if you sent a check for \$45.00 which was the amount of the invoice.

Re: Installation of lighting for  
St. Bruno's School.

Dear Sir:

After making an inspection of the second-hand equipment and checking the wiring and load at this school, we believe it would be to your advantage to install complete new equipment somewhat larger than the present plant. Your power load alone consisting of motors already connected, require more power than the  $7\frac{1}{2}$  K.W. generator would deliver. On top of this you would also have your lighting load. Taking this into consideration we would recommend that you install not less than a 10 K.W. generator. We are making an estimate of a plant of this size, using a semi-Deisel type of engine which uses crude oil for fuel. The first cost of the plant would be a little greater, but the saving of fuel would more than off-set the greater cost.

We also found that the wiring in parts of your building and the line is in very bad shape. This creates a great fire hazzard and we are also quoting you a separate estimate on the clearing up of this work.

The plant we are quoting you is in stock in Winnipeg, so immediate delivery could be made.

We are submitting a tentative estimate on repairing and installing your  $7\frac{1}{2}$  K.W. plant. If you decide to have the plant installed it would have to be shipped to Edmonton, where we would give you a detailed estimate on complete over-haul.

However no guarantee could be given as to the power delivery or life of the plant. In our estimation the plant is completely worn out and it would be folly on your part to install this plant, more especially since your school is in such an isolated position. Many parts of the plant are missing, there being no water tanks, switch board, piping, silencer, etc., and some parts of the engine are missing also.

Enclosed you will find estimate on plant and a rough sketch of the installation in the space reserved in the engine room for the plant.

Sir,-

I beg to refer to your letters addressed to the Reverend Principal of the St. Bruno's Indian Residential School, with reference to the installation of the lighting plant for this Institution.

*Duck Lake*

I do not quite understand why the plant which was shipped from the Blue Hills School is in such a poor state of repair as this plant was purchased and installed in 1925. As the Department's funds are very limited this year, it is desired to keep expenditures as low as possible. In your quotation for repairing and installing the above you quote a lump sum including batteries. Would you kindly advise me the price separately for repairs and the batteries, also give me more information as to the condition of the plant and the need of repairs.

Our quotation on a new plant of 4 K.W. greater capacity using a Renton Hornsby Semi-Deisal crude oil engine, at a price of \$ 4200.00 is only \$ 1665.00 greater than re-installing the plant now at the school. We consider that this would be the most economical in the long run and there would be ample capacity to handle the load for many years.

We would also call your attention to the wiring in the engine room, laundry, outside line and pump house as being in a very unsafe condition. The wiring is run open over pipes, cement walls, etc. and is a great life and fire hazzard. We also gave a quotation of \$ 528.00 for piping this part of the building and repairing the line.

Hoping that we may be favored with this valued contract we remain,

Re: Your letter of October 6th, No.-131-4-5

Dear Sir:

In answer to your letter re, plant at the Blue Quill Indian School. In checking over this plant we find that there was no switch board, no fuel tank or cooling tank, no piping of any kind, also several small parts of the engine were missing. Also the generator commutator needs turning down and new brushes etc.

As we stated in our letter to the principal of the school we considered that the engine could not be repaired except at a cost equal to that of a new engine. The generator can be repaired at a very small cost but this generator is not large enough to handle the load now connected at this school. If the plant was repaired and installed you would find that it would be greatly over-loaded from the start and would have to be replaced in a short time.

The foundation, piping, tank, switch board etc., needed to install this plant, amounting to nearly one thousand dollars would be of no use when installing a larger plant at some future date. Therefore we would recommend that if possible a larger plant should be installed at this time, using a crude oil engine. The generator when repaired could be used in some smaller school with a new engine.

Our quotation on the work amounting to \$ 2535.00, was \$ 750.00 for the batteries, F.O.B. Indiana and \$ 1785.00 for the supply of new parts, installing foundations etc. for the new plant, batteries and engine.

Dear Mr Ferrier:-

I am sending you under separate cover the vouchers and receipts in connection with the installation of the water supply at St Bruno Indian Residential School. I have borrowed the necessary amount in favor of the school. Kindly refer to previous correspondence in the matter. I had spoken of a water tower but not knowing the intentions of the Department I have not allowed same to be erected. We will try to spend the Winter with the present equipment and hope that everything will turn out satisfactory.

Yours very truly,

+ J. Guyon, S.J.

Re: Your File 131-4-5, St. Bruno Mission.

Dear Sir:

Rev. Father C. Falher has returned our invoices covering the above installation with his O.K., and a letter dated October 17th to the effect that he is very well satisfied with this equipment.

We would appreciate it, therefore, if you would arrange to have the enclosed accounts passed for payment at your early convenience.

Yours very truly,

In consideration of the sum of one dollar (\$1.00), the receipt of which is hereby acknowledged, and of H. G. Love & Company, Edmonton, Limited, of the City of Edmonton, in the Province of Alberta, supplying materials for the installation of an electric lighting plant, including one Ruston 22 H. P. Class 5 M Crude Oil Engine Complete; one Lester D. C. 125 V, 1200 R. P. M. Generator with Pulley; one Switchboard for battery charging; one V four belt drive for 25 H. P.; one 200 amp. hour Globelite Battery together with all necessary material to complete said installation, we hereby assign, transfer and set over to the said H. G. Love & Company, Edmonton, Limited, all our right, title and interest in a contract for the said plant to be installed for the Department of Indian Affairs, Ottawa, at St. Bruno's Indian Residential School located at Slave Lake near Grouard, in the Province of Alberta. The said contract is for the sum of Four thousand, seven hundred and twenty-eight (\$4,728.00) less an allowance of two hundred and fifty dollars (\$250.00) for old lighting plant and is confirmed by a telegram dated at Ottawa November second, 1931 and is as follows:-

"MacKillop Electric Company,  
10436 - 82 Ave., South Edmonton.

Reference your letter fifteenth. Your offer accepted for installation new lighting plant St. Bruno's School with allowance for old plant also rewiring as recommended last paragraph your letter

(signed) Duncan C. Scott"

The above telegram confirms the acceptance of certain figures set out in letters dated September 24th, 1931 and October 15th, 1931, addressed by ourselves to the Secretary, Department of Indian Affairs, Ottawa, Canada.

It is also agreed and understood that all monies due or accruing due to ourselves from the Department of Indian Affairs, Ottawa, for work performed or material purchased for said contract shall be paid to the

K. F. MacKenzie, Esq., Secretary,  
Department of Indian Affairs,  
Ottawa, Canada.

Dear Sir:-

Herewith we beg to enclose an assignment of the contract for the installation of an electric lighting plant at St. Bruno's Indian Residential School, from the MacKillop Electric Company to ourselves, in the sum of \$4,478.00. This is the amount due them upon completion of the contract less the sum of \$250.00 which was allowed for an old lighting plant and this is confirmed by a telegram dated at Ottawa November 2nd, 1931 signed by Duncan C. Scott and addressed to the MacKillop Electric Company.

We are also enclosing an order from ourselves to Messrs. Mumford, Medland Limited of Winnipeg in the sum of \$2,752.00. This is to be deducted from the aforementioned amount of \$4,478.00 and is to be forwarded direct to them upon completion of the work and final inspection, the balance of the amount being sent direct to ourselves. We would be pleased to have you honor these two amounts and acknowledge receipt of same by letter stating that these arrangements are satisfactory and will be carried out by yourselves.

Mr. MacKillop informs us that the work is now proceeding and should be finished the early part of December and we would appreciate it if, upon completion of the plant, inspection could be made and settlement effected as quickly as possible.

Department of Indian Affairs,  
Ottawa, Ontario.

Dear Sir:

Re your 131-4-5 of June 22nd, ordering laundry machinery  
for St. Bruno's Indian Residential School.

This equipment was supplied as per your instructions, and  
your Department was invoiced on July 31st.

We subsequently invoiced the Department for installation  
charges on this equipment in September, and these accounts  
have all been paid, but we have not received payment for  
the July invoice covering the machinery, amounting to  
\$2022.00. We would much appreciate it if you would  
facilitate payment of this account.

Yours very truly,

Sirs,-

In reply to your letter of the 18th instant, I beg to say that seemingly the Department did not receive your account of \$2022.00 covering machinery supplied for use at St. Bruno's Indian Residential School. The account in duplicate should be sent to the Principal of the school in order that he may certify thereto and forward to the Department. This is necessary before the matter of payment can be given consideration.

Dear Sir:-

On November 23rd last, H. G. Love & Company Edmonton Limited forwarded to you an assignment of a contract for the installation of an Electric Lighting Plant at St. Bruno's Indian Residential School, from the MacKillop Electric Company to themselves, in the sum of \$4,478.00. They also enclosed an order from themselves to pay to us \$2,752.00 to be deducted from the above mentioned amount of \$4,478.00 and to be forwarded to us direct.

We have no information on file that you have received this order or accepted same, and would appreciate it very much if you would advise us that you have this order on file and that same will be honored in due course on approval of the wording.

Yours very truly,

Dear Sir,

Re Payment for Addition to St. Bruno's  
Indian Residential School

Education cheque No. 2268 for \$18,544.52 was issued on August 10th, last, in favour of the Roman Catholic Episcopal Corporation of Grouard, Alberta, to reimburse them for expenditures made during 1930 in connection with the enlargement of St. Bruno's school. I desire to draw your attention to the following remarks in connection with this payment:

- (1) An explanation of this payment is given on your form 52 accompanying the accounts, from which I infer that your department was liable for the expenditures but that, as funds were not available from the appropriation for 1930-31, the Corporation was requested to pay the accounts and to submit receipts for re-imbursement from this year's funds

In this connection I would refer you to Section 49, Sub-Section 2, of the Consolidated Revenue and Audit Act which states that "all estimates submitted to Parliament shall be for the services coming in course of payment during the fiscal year, and to Section 60 which requires me to direct the attention of the House to all payments charged to the appropriation accounts which "did not occur within the period of the account". The intention of these sections, it appears to me, is to prevent such payments as the one in question.

I

Department of Indian Affairs,  
Ottawa.

Indian Affairs. (RG 10, Volume 6368, file 762-5, part 3))

PUBLIC ARCHIVES  
ARCHIVES PUBLIQUES.

I am therefore of opinion that if authority could not have been obtained for the payment of this account in 1930-31, the amount should have been specifically mentioned in the estimates for 1931-32, in order that Parliament might know they were voting moneys for an indebtedness incurred in a previous year. As neither of these courses was followed, I am of opinion that the approval of the Governor in Council should have been obtained before payment was made.

- (2) Included in the total payment are two items of \$203.27 for material supplied by Gaults Alberta Limited. The vouchers are similar in all details except that one is marked "copy". Apparently a duplicate payment of \$203.27 has been made. This firm's account of December 17th for \$149.73 provided for a discount of three per cent. if paid within ten days of the first of the following month, but though payment was made on January 8th the discount was not deducted, resulting in an overpayment of \$4.49. *Mr*
- (3) The accounts submitted by the J.H. Ashdown Hardware Company, which total \$455.87, have not been receipted. They contain the following overpayments: accounts for \$2.26, \$2.15 and .55¢ dated March 4th and 6th, 1930 were all previously paid by Education cheque No. 1549 of June 9th, 1930; account for \$4.34 dated March 18th, 1930 was included twice in account paid by cheque No. 1549; discount of two per cent. on statement of account of September 17th was not deducted, causing an overpayment of \$3.05. *Total Statement was receipted*
- (4) *13 after* Seventeen labour paylists for the period December 1st to March 28th have not been properly certified. *but receipts were attached*
- (5) In many cases freight charges by the various firms are not supported by way-bills or receipted vouchers. These should be supplied in all cases. *difficult*

I desire to again draw your attention to Section 54 and Section 58, subsection 21 of the Consolidated Revenue and Audit Act which provides, respectively, that the

departmental officers shall audit the details of the several accounts in the first place, and that the vouchers bear evidence of having been completely checked. The vouchers covering the payment in question are being returned to you under separate cover in order that the matters referred to in this letter may be adjusted.

Dear Mr. Gonthier:

I have your letter of the 31st ultimo, concerning the payment for the addition to the St. Bruno's Indian Residential School. I note that this indebtedness should have been specifically mentioned in the Estimates or the payment authorized by the Governor in Council.

The Department is writing to the church authorities for a refund of the following amounts: \$203.27, which was a duplicate payment; \$4.49, which was a discount at 3% and \$3.05, which was a discount at 2%, and the following amounts, which were previously paid by Indian Education cheque No. 1549 - \$2.26, \$2.15 and 55¢, or a total of \$215.77. Further, I am writing to the J. H. Ashdown Hardware Company, with a view to securing a refund for \$4.34, which was included twice in one of their accounts.

You refer to the Ashdown accounts totalling \$455.87 as not receipted. If you will examine their statement for this amount, where it is turned up, you will find their receipt of November 26, 1930.

The 17 paylists which have not been properly certified had attached thereto receipts and it was thought by our officers that these would be sufficient in this case. However, I have arranged to have these forms properly certified, and they will be returned

- to you

to you in due course.

I now realize that all freight charges should have been supported by way bills, even in a case like this, where reimbursement is being made. It would be extremely difficult, in view of elapsed time, to secure these supporting papers, and, unless you insist, I will not commence correspondence in this connection.

I have noted for future guidance, and have given instructions, concerning your remarks that departmental officers shall audit the details of the several accounts in the first place and that the vouchers bear evidence of having been completely checked.

JAN 14 1932

Ottawa, January 13, 1932.

Dear Bishop Guy:

You will remember that I discussed with Your Lordship certain overpayments which had been made in connection with the \$18,000 cheque which was directed to you in reimbursement for the work during 1930 at the St. Bruno's Indian Residential School. I have gone over these accounts carefully with the Auditor General's office, and it is true that Your Lordship forwarded double duplicate receipts for the J. H. Ashdown payment of \$203.27. This amount will have to be refunded to the Receiver General. Further, there was included in the Ashdown receipts accounts for \$2.26; \$2.15 and 55¢, which had been paid direct from the Department to Ashdowns some month before. The Auditor General also points out that, in two of the Ashdown accounts, you did not take the discount allowed for prompt payment, and the amounts in this connection are \$4.49 and \$3.05, or a grand total of \$215.77. The Department has no option in this matter but to write to Your Lordship, asking for a refund of this amount. Please have your cheque made out to the Receiver General and it will be deposited to Indian Education.

I am enclosing 17 paylists which have not been properly certified, and I should be grateful if you would have Father Falher sign these if he has knowledge of their correctness and return them to me.

Dear Sirs,-

14-7-32  
I beg to draw attention to the fact that on the 9th June 1930 the Department sent you official cheque No. 1549 for \$680.56. This cheque covered accounts for supplies furnished for the above mentioned Indian Residential School. Your invoice No. 4833 for \$.4.34 was added in twice, through inadvertence, and an over-payment thereby made. Under the circumstances I have to request that you will kindly make refund.

Dear Sir:

We beg to acknowledge receipt of your letter of January 11th in connection with the assignment of the MacKillop Electric Company to ourselves and our order to make payment to Messrs. Mumford, Medland Limited, Winnipeg. We understand that this plant has now been completed and that the invoices covering same have been delivered to the Indian School by the MacKillop Electric Company. These have been O.K.'d by the Rev. Father Falher, the whole total of which amounts to \$4,734.81 including extras for which invoices have been rendered. We hold an assignment from the MacKillop Electric Company for \$256.81 which is dated 24th December, and we understand that they have notified you to the effect that this amount is to be forwarded to us along with the other amount.

Yours very truly,

File No. 131-4-5B

Dear Sir:

Referring to our letter of January 16th, we now beg to enclose a letter from the MacKillop Electric Company, together with certified invoices covering a total of \$4734.81. These invoices are made in triplicate with the exception of No. 838 which is in duplicate. However, as the originals are complete in triplicate, we take it that this will not make any particular difference regarding the settlement. However, should you require an additional copy, this can be made out and forwarded.

We would appreciate having this go through just as quickly as possible, and that you will arrange to send Messrs. Mumford, Medland, Limited, at Winnipeg, the sum of \$2,752.00 and the balance to be sent direct to ourselves which amount is covered by assignments which we hold on file and which are referred to in our letter of November 23rd and our letter of January 16th.

Yours very truly,

Dear Sirs,-

Referring to your letter of the 18th instant, enclosing a letter from the MacKillop Electric Co., together with certified invoices covering a total of \$4734.81 for installation of plant and equipment at St. Bruno's Indian Residential School, I beg to state that the account of \$4478.00 is in order and will be paid as follows: \$2,752.00 to Messrs. Mumford, Medland Limited, of Winnipeg, and the balance of \$1,726.00 to yourselves.

The other three accounts are herewith returned for the following reasons. The account for \$110.00 for installing fire bell should be accompanied by the quotations furnished to Rev. Father Falher by MacKillop Electric Company. The account for \$109.31 totals \$129.31, if all the items charged therein are correct. The necessary amendment should be made to this account. In the account for \$37.50 the item of \$17.50 appears to have been struck out. If this is correct, this account only amounts to \$20.50. If the MacKillop Electric Company is entitled to charge for labor, the item should be properly inserted. As soon as these accounts are returned with the quotations asked for and the corrections made, payment will be made to you.

Yours truly,

F.H. Paget

Gentlemen:

Regarding the difference in amounts in the invoices for material and labor at the St. Bruno's Mission. We find that on invoice 832 the amount should be \$ 129 .31, an error of twenty dollars was made in addition and \$129.31 is the correct amount instead of 109.31.

Regarding invoice 835, the amount of \$ 37.50 is correct. The charge for labor should have been shown as \$ 17.06 , making the total as submitted correct. This accounts for the error in scoring out amount.

With reference to invoice <sup>828</sup>830, this account for fire alarms installed was for - four fire gongs, four break glass alarms and test switch installed in metal moulding and conduit connected to the storage batteries of plant. The quotation was given verbally to Father Falher by our workman while he was on the job. The account for this has been O.K.'d by Father Falher.

We trust you will find these explanations quite clear.

Yours very truly,

MacKillop Electric Co.

Attention Mr. F.H. Paget,  
Chief Accountant and Purchasing Agent:

Gentlemen:

We are in receipt of your letter of January 28th in connection with the St. Bruno Indian Residential School -- MacKillop Electric Company. We note your different remarks regarding the discrepancies in these accounts. We immediately got in touch with the MacKillop Electric Company, and have had these accounts amended and are returning same herewith.

In connection with Invoice No. 828, we are enclosing a letter from the MacKillop Electric Company in which they explain this matter. Apparently, there was no specific contract, but was a verbal arrangement between the Rev. Father Falher and the MacKillop Electric Company. No doubt, it was installed in order to cover the necessary inspection for a school of this type in order to give the proper fire alarm to prevent any trouble in any part of the school. We understand the previous arrangement was not according to regulations.

With reference to Invoice No. 831, this was a clerical error, the correct amount being \$129.31. This has been amended, no figures other than the total being changed. On Invoice No. 834, the labor was put in at \$17.50 instead of \$17.00 and this was also a clerical error. The amount, however, of the bill is \$37.50.

We trust that the above explanation will now put these in order and that they will be passed and a remittance forwarded as soon as convenient.

Ottawa, October 31st, 1932.

Sir,-

The Department is informed that a night watchman has been regularly employed at the St. Bruno's Indian Residential School since April 1st, last. It has been decided to allow the school management a grant of \$40 a month towards the salary of this watchman and cheque in payment for the period April 1st to September 30th is being forwarded to the Reverend Principal.

In future, you should forward, at the end of each quarter, a voucher for this service. It is understood, of course, that you will satisfy yourself that the watchman has been regularly employed and has performed his duties in a satisfactory manner during the quarter for which the voucher is being issued.

For your guidance in requesting payment for this service in future, I enclose a sample voucher. Vouchers should, of course, be forwarded in triplicate.

Sir:

*R*

I beg to inform you that I am in receipt of a letter from the Reverent Principal of the St. Bruno's Indian Residential School at Joussard, Alberta, asking for permission to sell an old lighting plant which he has at the school.

From information I have received, some years ago the Department shipped the St. Bruno School a lighting plant from some other school, possibly Gleichen. Later on when the new school was built at St. Bruno's, a new lighting plant was put in as the other one was old and practically worn out and much too small for the new building. The Reverent Principal now informs me that he has an opportunity of selling this old plant although he has not stated the price obtainable.

I have informed him that I am not in a position to grant this authority, but am submitting the matter to the Department. If it is order for him to sell this old plant, I would ask that his request be granted, as the plant in question is useless there, and will only deteriorate from year to year.

Your obedient servant,

The Secretary,

Sir:

I have your 407-11A of the 5th instant, regarding a request which you received from the Principal of the St. Bruno's Indian Residential School for permission to sell an old lighting plant, which is surplus to requirements at that institution.

In reply I have to say that the Department has no information concerning the nature of this equipment. We are communicating with Mr. N. P. L'Heureux, local Indian Agent, requesting full particulars as to the condition of the lighting plant and the amount that would be realized by its sale.

Sir:

Mr. Inspector Christianson has forwarded to the Department a letter which he received from the Principal of the St. Bruno's Indian Residential School, requesting permission to sell an old lighting plant which he has, surplus to requirements at the school.

In July, 1931, the Department forwarded a 15 horse power engine, one dynamo and two direct current motors from the Indian Residential School at Duck Lake, Sask., for use at the St. Bruno's School. Please make enquiry and ascertain if this is the equipment the Principal now wishes to dispose of. If not, you should furnish full particulars, stating the nature of the lighting equipment, its condition and the amount the Principal can obtain if it is sold. Please give this matter your early attention and report to the Department.

Your obedient servant,

A. F. MacKenzie,  
Secretary.

Gentlemen:

I have to request that you will supply, from your nearest branch office, four (4) only D-P Watchman's Clocks, complete, with ten stations and also one year's supply of record dials for each. The clocks should be shipped, charges prepaid, addressed to:

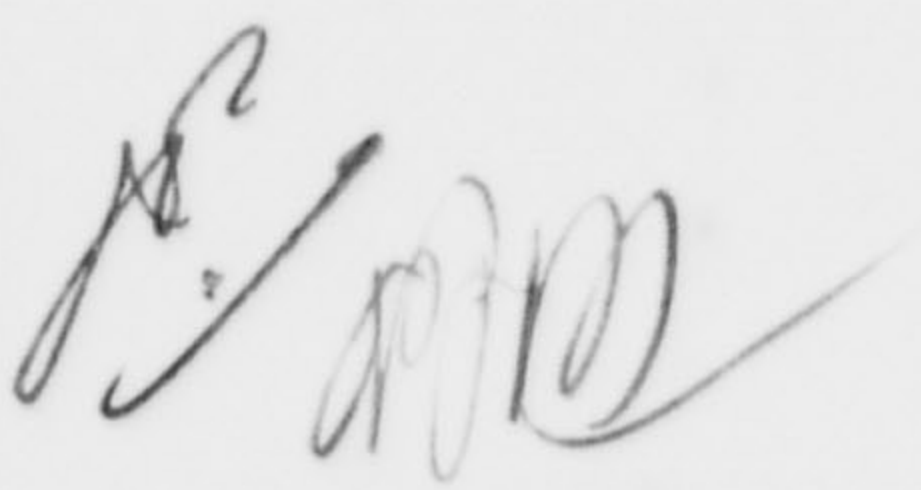

Right Rev. Jos. Guy, O.M.I.,  
Bishop of Grouard,  
Grouard, Alta.

Your account, in triplicate, covering the cost, together with receipt for the shipping charges prepaid, should be forwarded to Bishop Guy, whose post office address is Grouard, Alta. He is being informed of the order placed with you, and requested, upon receipt of the clocks, if in good condition, to certify the account and send same to the Department for payment. The price of these clocks should not exceed that charged for other clocks which have been ordered from you firm by this Department.

Full instructions should be furnished with each clock.

Right Rev. Sir:

I have to inform Your Lordship that an order is today being placed with the Canadian Fairbanks-Morse Co. Ltd., Ottawa, to supply, from their nearest branch office to Grouard, Alta., four (4) only D-P Watchman's Clocks, each complete with ten stations and one year's supply of record dials. This Company have been requested to forward the clocks, charges prepaid, addressed to you, and to also send to you their account, in triplicate, covering the cost, with receipt attached for the freight charges prepaid. When the clocks have been received, I should be pleased if you would certify the account in the usual manner and forward same to the Department for payment.

I would request that Your Lordship arrange to have the clocks distributed to the residential schools under your auspices, as follows:

St. Bruno's,  
St. Bernard's,  
Wabasca Lake,  
Sturgeon Lake.

It is hoped that the services of reliable night watchmen have been obtained for each of the above schools. The Department is allowing a grant at the rate of \$40 a month towards the salary of each of the night watchmen at these schools, and cheques in payment will be sent at the end of each quarter to the respective principals.

Sir,

With reference to your letter of the 16th instant No. I3I-4-5 re the old lighting plant of St. Bruno's School.

I beg to say that I have been over to the Mission to see the plant and the Rev. Principal informed that it came from the Peegan School in 1924.

(1) The Engine - Cushman Motor Works, Model 67 No. 36, 20 H.P.M - 600 Revolutions . The valves are pretty well worn out.

(2) Dynamo Generator No. 10 - 22- 7- 8I Type R.C. 27 A. Volts No. load 125, Speed 17000 . The Dynamo is from the Canadian General Electric Co.

(3) Motor I, 4 H.P.

(4) Switch Board

(5) 53 Batteries, almost worn out.

The Rev. Principal told me he can't get sale for the whole plant but he was offered 50¢ a Piece for the Batteries, and I consider that the whole work needs a general over hauling before anything can be done with it, as the machine is in a poor condition.

Sir:

I have your letter of the 4th instant, stating, in detail, the equipment comprised in the old lighting plant on hand at the St. Bruno's Indian Residential School. It is noted that this plant was transferred from the Peigan R. C. Residential School to the St. Bruno's School during the year 1924.

Regarding the sale of the batteries, it is considered that it would be advisable to keep the lighting plant intact, unless the Principal is in a position to arrange for the sale of the entire equipment. We are not aware as to what value should be placed on this plant, which you state consists of a 20 H.P. engine, dynamo, 4 H.P. motor, switchboard and batteries. If the Principal is unable to dispose of the entire plant at a fair price, I would request that he arrange to have same stored until the Department is able to make arrangements to have it transferred elsewhere.

In the event of this plant being sold, the proceeds should be forwarded to the Department for credit of the Receiver-General. However, before completing the sale and delivery of the equipment, you should inform the Department definitely as to the amount that would be received and if you consider same a fair remuneration.

Your obedient servant,

A. F. MacKenzie,

MEMORANDUM

Schools Branch:

With reference to the attached account for \$538.45 covering cost of a vacuum pump at St. Bruno's Indian Residential School and submitted to the Department by the Right Rev. Joseph Guy, O.M.I., I might say that before cheque ~~was~~ issued to reimburse the Reverend Gentleman ~~for~~ this expenditure, the same should be authorized by the Deputy Superintendent General. Would you kindly take the necessary action in the matter?

Dear Sir

Having received letters from  
Hond. they are telling me that the  
waterpipes for the supply of water from  
the Lake to St Bruno mission at  
Joussard, Alberta, are frozen this  
year again.

I will be very thankful if you  
could let me know if the Department  
would do anything to have a safe water  
intake line.

As I would like to be advised  
as I am qualified for this job. Having  
23 years experience in northern Alberta  
and having built the present water system  
under Rev Father's Father's plan

which is proving defective. I understand  
the Lake shore conditions, and I will  
gladly give you an estimate for tender  
on a completely new scheme for  
digging and installing a "Tank Reservoir"

Dear Sir:

I would like to call to your attention the fact that in our school we have only one fire extinguisher per floor. A visitor recently advised us that in a building of this size, at least two extinguishers should be placed on each floor. Should you deem it advisable to follow this advice, we shall be glad if you have four more extinguishers sent to us.

Very truly yours,  
C. Feltner O.M.

Ottawa, May 3, 1933.

Rev. Sir:

I have your letter of the 23rd ultimo, regarding the fire extinguishers available for use at St. Bruno's Indian Residential School.

In this connection it is noted that at the present time there is only one fire extinguisher located on each floor of the building. It is considered, if these extinguishers are kept in good order, that they should be sufficient for the requirements of the school. Our Appropriation this year has been considerably reduced, and we will have no funds to provide an extra supply of extinguishers.

Your obedient servant,

Mr Harold W. McGill M.D.,  
Deputy Superintendent General,  
Department of Indian Affairs,  
OTTAWA, Ont.

Dear Doctor McGill:-

I have to bring to your attention a rather serious situation which has just been declared at St Bruno Indian Residential School.

The school is of rather recent construction, I mean the new portion of the building, and we have found that the beams and first floor are all rotten on account of the presence of water. The house is threatening to collapse and in different places, specially where there are columns, the floor gives in.

I would ask you to send as soon as possible, as the matter is pressing, a building inspector, to report and advise for immediate action.

Yours very truly,

Dear Mr. Christianson:

I am in receipt of a letter from Right Rev. Jos. Guy, O.M.I., Bishop of Grouard. This letter reads, in part, as follows:

"I have to bring to your attention a rather serious situation which has just been declared at St. Bruno Indian Residential School.

The school is of rather recent construction, I mean the new portion of the building, and we have found that the beams and first floor are all rotten on account of the presence of water. The house is threatening to collapse and in different places, specially where there are columns, the floor gives in."

If at all possible, I should appreciate your visiting this school within the next month or six weeks and reporting to the Department regarding its condition and giving an estimate of the cost of the repairs required. If you find it impossible to go, please let me know if you are aware of any competent person who could visit this school, for a reasonable cost, and report to the Department.

Yours very truly,

INSPECTOR'S OFFICE,

IN YOUR REPLY REFER TO

No. 405-11A.R.C.

ALSO TO DATE OF THIS LETTER

PB CALGARY, ALTA., March 26th, 1934.

Dear Doctor McGill:

I have the honour to acknowledge receipt of your letter No. 131-4-5 of the 21st inst. in connection with the St. Bruno School in Lesser Slave Lake Agency, and note that his Lordship Bishop Guy has brought to your attention that the floor beams, &c., are rotting.

I shall carry out your instructions and proceed to that point as soon as the snow has gone so that I will have a better opportunity of going over the outside of the building. It will probably be the last week in April or the first of May before I can arrange to go. There is a good carpenter at High Prairie, Mr. Reykdahl who is on the preferred list, and I shall arrange to have him there at the same time so that we can go over the school thoroughly to see what is actually required, and I shall get him to give me an estimate of the cost of doing the work while I am there. I trust this will be satisfactory.

Just a few days ago I had a letter from his Lordship stating that he would be in Calgary on the 6th of April, and when I see him I will advise him that I have been instructed to go over the buildings.

Your obedient servant,

Doctor Harold W. McGill,

Dear Doctor McGill:

I have the honour to acknowledge receipt of your letter No. 131-4-5 of March 21st, in connection with St. Bruno's Indian Residential School at Grouard, in which you state that His Lordship Bishop Guy of Grouard had reported that the first floors were all rotten, threatening the collapse of the building.

I have just returned from the Peace River country where I spent a week and while there I spent a couple of days at St. Bruno's School, and investigated the trouble thoroughly.

This building was only erected something like 4 years ago and is an addition to the old school. The heating plant, machinery, &c., are all located in the basement of the older part of the building, and the rooms in the basement of the new part are the kitchen, pantry and the girls' and boys' dining rooms. The basement floor is practically at ground level. The foundation under the building is of surface cement. The floor consists of stringers, 12 X 12, placed on the ground, and 2 X 12 floor joists placed on top of the stringers, then a rough floor, paper and edge-grained fir flooring.

On investigation I found that the floor in the boys' dining room is all rotten; also in the hall next to the dining room and part of the kitchen. The reason for this is that the school is

built on ground which slopes towards the lake. Evidently the water has been getting under the foundation and I found that underneath the floor there was nothing but muck. As there was no air passage under the floor, no doubt the ground has been wet there all the year round, which has caused the rotting of the floor. One part of the floor in the dining room, an area of about 6 X 12, had dropped down onto the ground and the joists under the floor in the dining room and hall and part of the kitchen are simply rotten: The wood can be pulled away with your hands, and it would not be long before the whole of the dining room floor would cave in. If this happened it would be disastrous to the rest of the building, as the partitions that are holding the upper floor in place would, of course, gradually sink with the floor, causing destruction to the upper floors and roof.

To repair this damage, I have the following suggestions to make: That the flooring and joists be taken out of the above-mentioned rooms to be replaced by a layer of gravel and stone, and filled in with cement. The joists should be sunk into the cement and then a wooden floor placed on top of the joists. This would prevent anything of this nature happening again. The present flooring could be used as first flooring as the latter is all rotten, as well as the joists, and we would only have to purchase a new top flooring. The sand, gravel and stone can be procured on the lake shore, which is only a few hundred yards from the school. We can employ Indian labour and teams to haul this to the school. I am attaching hereto a list of the material required. This will have to be purchased in Edmonton and I can arrange for this. The Department will realize that while the work is being proceeded with it might transpire that something else is required which would necessitate the purchasing of additional material. It might be well to put weeping tile drain around the school to keep the water from getting under the remainder of the foundation that is apparently intact.

It was very difficult to get at the trouble as the floor is only about 18 inches from the ground, and we had to take up the flooring in several places. I engaged the services of a carpenter from High Prairie, Mr. Reykdal, who had done considerable work for us. I would also recommend that he be engaged to do the work. He does not wish to take out a contract as he does not know exactly what it is going to run up to, so we would pay him the minimum wage for carpenter foremen. All he requires is another carpenter and the rest of the work can all be done by Indians. The wages we should pay the Indians would be \$2.50 per day for team, man and wagon, and about \$1.50 per day for a single man.

I discussed the matter thoroughly with the Principal, Rev. Father Falher, and he was of the same opinion as I am, that the above method of repairing the school is the only feasible one. However, if our Architect has something better to suggest, we would be pleased to follow any suggestions that would be more suitable than the above-stated plan. The Department will readily understand that we may run into something else when we get the floor out, although I do not think this will happen, as the carpenter got under part of the floor in the girls' dining room which adjoins the boys' dining room.

I am attaching hereto a floor plan of the school which will assist the Department in understanding what I am writing about. It will be necessary for us to rent some jacks to jack up the partitions, as in one or two places I found that they had given away to a small degree. The school owns a cement mixer.

I hope I have made myself quite clear and that the Department will understand that immediate steps should be taken to have this attended to. If the work is carried on as I have suggested, the Agent would have to be

Memorandum:

Doctor McGill.

With reference to Inspector Christianson's letter hereunder, regarding the condition of the basement floor at the St. Bruno's Indian Residential School it would appear that there is grave danger of the interior of the building collapsing unless something is done immediately. I do not agree with Inspector Christianson that a new wood floor be installed over the top of the concrete, but would recommend that a concrete floor be provided in the basement. It would be a waste of labour and material to place a wood floor on the top of the concrete.

Without seeing the building it is rather difficult to make an accurate estimate of the cost, but I would recommend that an expenditure not exceeding \$500.00 be authorized, and that as much of the labour as possible be performed by the school. I have been advised by the Schools Branch that \$500.00 is available.

Dear Sir,-

I beg to acknowledge receipt of your letter of the 7th addressed to the Deputy Superintendent General, with reference to the St. Bruno's Indian Residential School and in reply to say that \$500.00 is available for providing a new floor in the basement of the School.

I note your recommendation with reference to the means of providing this new floor, but I think it would be more practical to install a new concrete floor in the basement. It is not necessary to place wood joists and wood floor on top of the concrete. The life of a floor laid in this manner is very short. A straight concrete floor with the proper footings for the partitions would be much more serviceable.

It is expected that the school will supply some of the labour and in this manner keep the cost within the above mentioned amount. If the services of a foreman are required Mr. Reykial of High Prairie may be employed.

Yours very truly,

Dear Doctor McGill:

I have the honour to refer you to my letter No. 405-11A.R.C. of the 7th instant, in connection with the St. Bruno School. In going over the damage done at this school by the water getting under the foundation and rotting the joists, the Agent and myself were of the opinion at first that there must be a spring on the slope back of the school, but as Father Falher, the Principal, had been there for years and also a great many of the Sisters, they assured us that they had never heard of a spring being there, and I came to the conclusion we were wrong, and the water that was getting under the building was simply from rain, snow, &c.

I am now in receipt of a letter from Mr. L'Heureux, the Agent, stating that last Sunday he met Mr. G. Dandurant, who was the head carpenter when this school was erected, and he informed him that when the school was being built he found a small spring at the southeast corner of the building, and at the time he wanted Father Giroux, then Principal, to have the spring drained to a depth and pour concrete where the water would come in contact with the foundation, but Father Giroux did not want to use concrete for the sake of economy, and construction was made regardless of the spring. You will note by the plan that the boys' dining room, where most of the trouble is, is located in the southeast portion of the building

so it is quite plain now that this spring was covered up at the time of the construction and the water from it has worked its way under the foundation and kept the earth under the building continually wet, which has caused the rotting of the joists, floor, &c. Therefore, when the repair is made it will be necessary to clean out this spring and give it an outlet to some other point.

I mentioned in my report that Mr. Reykdal, who is one the preferred list, would act as foreman, but that he needed the services of another carpenter. Mr. Dandurand is anxious to get work, and I would like to know if it would be in order to take him on when this work is gone on with. I understand he is a first class carpenter, and evidently he is as he was the foreman when the building was erected. He lives at Donnelly, Alta., a town West of High Prairie.

Sir:

I beg to acknowledge receipt of your letter No. 131-4-5 of the 15th instant in connection with the floor in St. Bruno Indian Residential School, and note that \$500 is available for providing this. I also note what you have to say about wood joists and floor on top of the concrete. I suggested the straight concrete floor to the school authorities, but the sisters objected strenuously to the concrete and it was to accede to their wishes that I recommended the wooden floor. The delay in answering your letter was caused by the fact that I was away at Saddle Lake Agency and just returned yesterday morning.

I note in the last paragraph of your letter you state that if the services of a foreman are required, Mr. Reykdal of High Prairie may be employed: I take it from this that you question whether or not a foreman is required. In using the word "foreman" it was not intended that we were going to employ Mr. Reykdal to stand around and supervise the work. Someone reliable must be in charge, as the whole building could easily be affected when tearing up the flooring, &c., by letting one of the partitions drop, and Mr. Reykdal would be working as well as the others, but would have charge of the men employed.

I am taking steps to have this work gone on with along the line suggested in your letter.

Sir:

At the request of Inspector Christianson, the Department is forwarding to you an accountable cheque for \$300, in connection with the replacing of the floor at the St. Bruno's Indian Residential School. This amount is intended for the payment of labour. You should prepare a payroll, in triplicate, at the end of each week. This payroll should give all the information required on the form, and, when you pay the labourers, you should have each sign opposite his name on the payroll. There is a column provided for this purpose. When accounting for the \$300 which is being sent to you, you should return the receipted paylists to the Department.

The spring is underground and cannot be seen from the top surface, but evidently is located right along side of the foundation, and naturally the water has to find an outlet. As the school is built on a slope which falls towards the lake it finds its way under the building. In my opinion something should be done to remedy this this fall, and the only way I know of doing it is to put a drain right under the school, as the spring is on the upper side of the slope. If this is not done the whole foundation is going to be affected, and some of the parts have already sagged to such an extent that it is hard to close the doors.

If authority is given Mr. Reykdal is quite capable of making a satisfactory job of this, as I discussed it with him on my return trip from Fort St. John.

I may say that Dr. McGill was with me at the time I visited the school and he is now familiar with what condition the building is in.

RECORDS

IN YOUR REPLY REFER TO

No. 405-11A. R.C.

ALSO TO DATE OF THIS LETTER

INSPECTOR'S OFFICE,

CALGARY, ALTA., Aug. 30th., 1934.

Sir:

I beg to refer the Department to my letters of May 7th. and 14th., 405-11A.R.C. in connection with the damage done to the Foundation and floors in the St. Bruno Indian Residential School, in the Lesser Slave agency.

The Department authorized \$500.00 for this work to be carried on, and to hire Mr. Reykdal as working foreman in connection with the work.

The Department also intimated that a concrete floor would be more suitable and last longer, if a joice and a wooden floor was placed on top of the concrete. I gave this information to the agent and told him to take this up with the principal as I know the principal was anxious to put a board floor on top of the concrete, and as I have had no reply from them I was of the opinion that the school authorities were satisfied with the instructions of the Department as to the concrete floor.

During the time I was away on my holidays a letter came in from the agent stating that the school principal wanted to put the board floor on top of the concrete, also that he wanted to dispense with the services of Mr. Reykdal, as he was getting .65¢ per hour, whereas he could hire a competent carpenter for .30¢. I could not comply with this as it was contrary to the wishes of the Department, and the man was not on the approved list. I therefore wired to the agent not to go on with the work any further until the Deputy Minister and I arrived there.

While up there with Dr. McGill I looked into the matter and found that the work of putting down the floor in the boys' dining room was not completed, and required either the board floor on top, or another layer of concrete, and as only \$41.59 was left out of the appropriation of \$500.00 I could not authorize the work to be gone on with. The principal evidently is quite determined that he wants a board floor on top of the concrete. Mr. Reykdal advised me that it would take approximately \$150.00 to complete the work. If the Department do not feel lik putting up any more money I suppose it would be in order to inform the school that they could complete the balance of the work whenever they wish to but that the Department would only be responsible for the balance of the appropriation which is expended.

I realize, however, that putting the board floor on top of the concrete will not be very satisfactory. The money expended to date has been well spent, as it took a lot of gravel and sand to fill up the hole caused by taking out the flooring and parts have been placed on cement foundations etc. to keep the upstairs floor from sagging, but an important point is getting rid of the water from the spring which is under the southeast corner of the building. Putting in the cement floor gets rid of the water from the spring on that side of the building but I understand now that it has worked its way to the other end and in time will ruin the whole foundation of the building.

Dear Sir,-

Replying to your letter of the 30th ultimo, with reference to the drain under the foundation at the St. Bruno School, I beg to say that the department looks with favour on your recommendation that something be done this fall to remedy the condition.

Before authorizing the work however I would ask you to give me an approximate estimate of the cost of providing the necessary drain.

Yours very truly,

Dear Dr. McGill,

We are appealing to you for more desks. On our requisition list of June last, we repeated our request for fifteen desks as they were refused us in 1932 & 1933. But you will readily understand the difficult position in which we find ourselves with over 125 Indian pupils and only 103 desks.

This year we cannot say that we have been refused, as no mention was made of desks when school supplies arrived. We will be very grateful if you could do something about this matter.

We hope you enjoyed your visit to the North as much as we did in receiving yours and trust we shall have that pleasure again some day.

Thanking you for the consideration we have received at your hands,

Believe me, dear Dr. McGill,

Yours very gratefully,

Reverend Sir,-

I have been directed to acknowledge the receipt of your letter of the 15th instant, requesting that fifteen (15) desks be supplied for use at the St. Bruno's Indian Residential School.

In reply I have to say that an order is being placed by the Department to ship, addressed to you at Jousard, Alta., seven (7) No. 4 single school desks and eight (8) No. 5 single school desks. It is hoped that, when these desks arrive, they will be satisfactory and provide ample seating accommodation for the pupils at your school.

Your obedient servant,

*T. R. L. MacInnes*  
T. R. L. MacInnes.  
Acting Secretary.

Dear Dr. McGill,

Kindly accept our most sincere thanks for the promptitude with which you acceded to our request for more desks. We received them yesterday. Your kind interest is greatly appreciated by all the staff but particularly by the little ones themselves for whose benefit we were so persistent.

Thanking you again for this favor,

I am,

Yours very gratefully,

October 1st, 1934.

Sir:

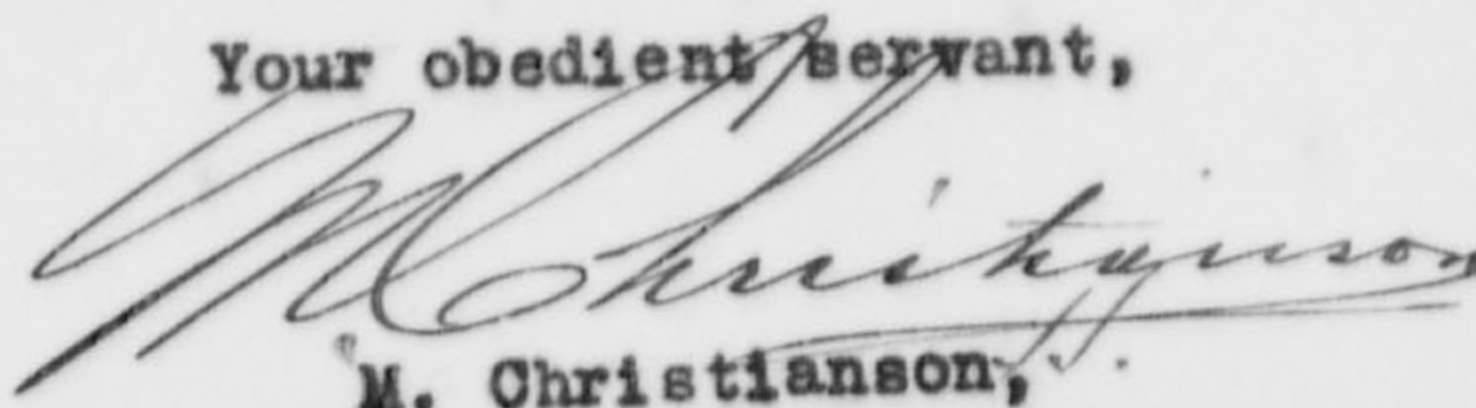

I beg to acknowledge receipt of your letter No. 131-4-5- of the 12th ~~ultimo~~ in connection with the drain under the foundation at St. Bruno's School. In reply would say that I am this morning in receipt of a letter from Mr. S. J. Reykdahl of High Prairie, who is on the approved list, and he states it will take 200 feet of 3-inch piping at an approximate cost of \$250.00, but I find that the 3-inch piping is \$53.79 per 100 feet here, which when freight, &c., is added would bring the cost of the piping to \$125.00. Then, 15 sacks of cement are required, to be used at the ends of the piping, at an approximate cost of \$20.00, and the labour has been estimated at \$150.00, making a total cost of \$295.00. I presume the labour is reasonable as most of the work in laying the pipe, digging the trench, &c., has to be done under the building.

I would also refer the Department to my letter No. 405-11A.R.C. of August 30th in connection with completing the floor in the boys' dining room: As I pointed out in this letter, it will cost approximately \$150.00 as estimated by Mr. Reykdahl, to complete this work. When Doctor McGill and I were there, what the school asked was that the concrete floor be finished and then battleship linoleum laid. I would respectfully ask that this matter be brought to the attention of the Deputy Superintendent General as he is familiar with what condition the floor is in. I should then like to be advised as soon as possible as to what steps are to be taken.

Ottawa, October 12, 1934.

Sir:

I have to acknowledge receipt of your 405-11A. R.C. of the first instant, in connection with the drain under the foundation and also with reference to the flooring of the boys' dining room, at the St. Bruno's Indian Residential School.

Regarding the drain under the foundation, you may arrange for the purchase and forwarding to the school of the quantity of three inch piping and the cement required and also for the labour in installing the drain. It is noted you recommend that this drain be put right under the school, to carry off water from a spring under the foundations. Mr. S. J. Reykdahl may be engaged to perform the labour. The total cost for material and labour should be kept within your estimate of \$295.00, if possible.

With reference to the completion of the floor in the boys' dining room, the Department is not prepared to authorize the installing of a board floor on top of the cement. It is considered that, if a smooth cement finish was placed over the concrete floor which has been recently put down, this would be satisfactory, and the floor could then be covered with Battleship linoleum. The Department has authorized an expenditure of \$500.00 for installing the cement floor - \$300.00 of this amount being forwarded to Mr. Agent L'Heureux to pay for labour. This is the full amount that it is possible to provide towards the cost of the flooring, and, if this amount is exceeded in completing the floor, the school authorities will have to be responsible for payment of any expense over that amount. Should you consider it necessary, you may arrange for the purchasing and forwarding of the quantity of linoleum that would be required for this floor - obtaining a good, serviceable grade.

After the work in connection with the drain and the flooring is completed, I would request that you forward accounts, in triplicate, properly certified, covering all costs. As stated above, \$500 is all the Department can provide towards the cost of the cement floor. You should have Mr. Agent L'Heureux forward you time sheets, properly certified, in accounting for the expenditure of the advance of \$300, which was sent him - these to be sent to the Department by you.

Your obedient servant,

Sir:

With reference to your letter of the 13th instant, enclosing pay lists amounting to \$199.10 for labour in digging a drain at the St. Bruno's Indian Residential School, I beg to say that an accountable cheque for the amount mentioned is being forwarded under separate cover.

You should have the enclosed pay lists receipted and return same with a covering voucher, in order to account for the advance which is being sent to you.

I would refer you to the advance of \$300 forwarded to you on June 26th, last, in connection with labour for repairs to the basement floor at the St. Bruno's School. Please forward a voucher accounting for this advance.

OFFICE OF  
INDIAN AGENT

Driftpile, Alberta,  
January 5th, 1935.

Sir,

When visiting the St Bruno Indian Residential School at Joussard, last month, the Reverend Principal mentioned that the lower floor of the new wing had continued to rot and that then the damaged portion extended to the North West end of the new wing, under the kitchen and passage-way.

Inspection disclosed that the first ply of flooring (dressed Spruce) is in the condition stated: it breaks up in pieces at the pressure of the finger. The joists have also started to rot where they come in contact with the flooring which has bulged causing the doors in the passage-way to jam in an open position.

The area affected is approximately 48' x 50'.

This report is submitted for your consideration.

Yours faithfully,

N. P. L'Heureux,

Sir:

I enclose herewith copy of a communication received from Mr. Agent L'Heureux, Driftpile, Alberta. You will observe that he refers to the condition of the lower floor at the north west end of the new wing, under the kitchen and passage-way, of the St. Bruno's Indian Residential School building.

Early last fall, as you are aware, the Department authorized considerable expense in installing a cement floor and repairing drain at this school. The amount that has already been authorized is the total available for this school during the current fiscal year.

You might obtain and forward, for the information of the Department, a report regarding the further repairs required to the flooring, as mentioned by Agent L'Heureux. Please state in detail the work required and give an estimate of the cost of material and labour. It is considered, however, that the school authorities should be responsible for the greater part of any additional repairs required to the flooring.

The Department has not yet received all the accounts for the labour and material in connection with installing the cement flooring and repairing the drain. In communicating with Agent L'Heureux, you might request that he forward all accounts through your office, as instructed in official letter to you of October 12th, last.

INSPECTOR'S OFFICE

PB CALGARY, ALTA., January 15th, 1935.

IN YOUR REPLY REFER TO  
NO. 405-11A.R.C.  
ALSO TO DATE OF THIS LETTER

Sir:

I beg to acknowledge receipt of your letter of the 11th instant, No. 131-4-5 in connection with repairs to the floor under the new wing of St. Bruno's Indian Residential School: As the Department are aware I reported on this in my letter No. 405-11A.R.C. of May 7th, last, when I pointed out that the whole of the floor in the dining-room and part of the kitchen and hall had to be replaced. The sum of \$500.00 was authorized to repair the floor and before the floor in the dining-room was completed the appropriation was exhausted. The dining-room floor is just rough cement with no finishing top on it. I was authorized to purchase linoleum to cover the floor but there is no use doing this as long as the floor is unfinished as at the present time, and there are no funds available for this work, and the school authorities do not seem to be inclined to do it.

I was just writing the Agent in this connection when I received your letter. The floor that is mentioned in the Agent's letter is what was reported on in my letter above referred to. I now have the following suggestion to make:

Mr. Reykdahl has been doing the work for us up in that part of the country as the Department are aware. He is a very good carpenter, but probably lacks experience in handling a matter of this kind. In my opinion the matter of this floor gradually rotting under the building is serious. The drain we put under the floor will probably in time dry up the earth, but this will take some time, and if it is successful it will prevent

further rotting. I think we should have someone with more experience than Mr. Reykdahl to look after the repairing of the floors there, as unless it is attended to properly it will probably ruin the building altogether. As the Department are aware, this was an addition built onto the old school building. I would suggest that the matter be left in abeyance until the frost goes out of the ground next spring, and that Mr. Gardner-Smith be sent up there to look after the repairs. He has had a great deal of experience with the building of our schools and to put the floors of this building into first class shape again so that there is no danger of the foundation caving in will be quite expensive. The only time to do this would be during the summer holidays as the floor would all have to be torn up in the kitchen, hall, &c. Hiring men who are really not competent to do work of this nature is more or less of an experiment, whereas if the work was placed in Mr. E. Gardner-Smith's hands we would be assured of something permanent. I shall be glad to know what the Department think of my suggestion.

Your obedient servant,

  
M. Christianson,

Ottawa, February 5, 1935.

Sir:

I have your 405-11A R.C. of the 15th ultimo, in connection with repairs to the floor under the new wing of the St. Bruno's Indian Residential School and also with reference to proper drainage. It is noted that the sum authorized for the repairs to the floor last summer was used up before the work was completed.

The Department will give consideration to your suggestion, that Mr. Gardner-Smith be sent up to the school next spring, to look after the work required in placing the floor in good condition and installing proper drainage to prevent the foundation of the building caving in. The cost involved will determine the work that can be carried out, as, owing to the expenditure this year, only a small amount was provided in our Appropriation for the coming year towards repairs at this school.

I would request that you draw this matter to the attention of the Department next spring.

Your obedient servant,

A. F. MacKenzie,  
Secretary.

INSPECTOR'S OFFICE

PB CALGARY, ALTA., February 4th, 1935.

Sir:

I beg to acknowledge receipt of Department's letter No. 131-4-5 of the 10th ultimo, in connection with work on St. Bruno's Indian Residential School.

I am now returning herewith returning the Pay Sheets and Voucher No. 686A covering E. R. No. 2550, for \$199.10. As the Agent has only returned the voucher in duplicate, I have had another copy made. I trust this will be satisfactory.

I am also forwarding herewith Voucher No. 686 accounting for the advance of \$300.00 in connection with repairing the floor, and you will note that \$256.25 has been expended, and Agency Cheque No. 10643 for the balance of \$43.75 is attached. This covers the advance in full.

The Agent informs me that this all the expense to date, with the exception of a voucher for \$53.01 which was forwarded to the Department in December.

I trust you will find these vouchers in order.

Your obedient servant,

*M. Christianson*

Sir,-

Inspector Christianson has forwarded to the Department your credit vouchers No. 686 and No. 686A. The necessary paylists were attached to voucher No. 686A and this voucher is acceptable to the Department.

It is noted from your voucher No. 686 that you state that the paylists covering the payments of \$231.00 and \$19.25 were attached to your cash book report. The Department can find no record of having received these paylists. Consequently, it will be necessary for you to forward, as soon as possible, paylists in duplicate, properly receipted, accounting for the wages, amounting to \$231.00, paid by cheque #10522 and, also, paylists in duplicate, properly receipted, for the wages covered by cheque #10543.

Paylists accounting for advances should be forwarded with the voucher accounting for the advance and should not be sent in attached to the cash book report.

Dear Sir,-

It has again been reported to the Department that the foundations of the St. Bruno's School are in a dangerous condition. I am today writing Mr. E. Gardner Smith asking him to make an inspection of this building at his earliest convenience and report to the Department as to the condition of the foundation.

He has also been instructed to communicate with you before making the inspection and I would ask you to kindly give him whatever assistance you can in making this trip.

Yours very truly,

A. F. MacKenzie.

Dear Sir,-

It has been reported to the Department that the foundations of the St. Bruno's School, near Grouard, Alta., are endangering the building, and I would ask you to kindly arrange, at your earliest convenience, to make a careful inspection of this building and report to the Department the conditions of the foundation, and what work would be required, if any, to put it in a safe condition.

Kindly consult Inspector Christianson before you proceed to St. Bruno's and he will give you all the information necessary as to the location of the school and the best means of reaching it.

I am today writing to Mr. Christianson advising him that you have been instructed to make this inspection.

Yours very truly,

A. F. MacKenzie.

Dear Doctor McGill:-

I wish to remind you of the condition of  
St Bruno's School's basement which is a danger, and a threatening one,  
for staff and children. You promised to look into the matter but  
I am taking the liberty of pressing for immediate action.

With anticipated thanks, I remain

Dear Bishop Guy,

St. Brunos School

Replying to Your Lordship's letter of March 19th. regarding the above subject, I would say that immediately following your visit to Ottawa I took this matter up with Mr. Orr, Departmental Architect. Arrangements were made at once to have Mr. Gardner Smith, our building inspector in Alberta, proceed to Jousard to make an examination of the St. Brunos school basement.

I have no doubt that upon your return to Grouard you found him already on the ground.

Yours faithfully,

INSPECTOR'S OFFICE

PB CALGARY, ALTA., March 25th, 1935.

Sir:

Replying to your letter of the 18th inst. with respect to the St. Bruno's School near Grouard, Alberta, I have today conferred with Mr. Inspector Christianson regarding the school and its condition, and he is strongly of the opinion that it would be much better to await the end of the winter before my going up there. He informs me that there is still a good deal of snow in that area and it would be very difficult to plan the work intelligently until the snow disappears and the frost comes out of the ground.

Mr. Christianson is familiar with the existing conditions in this school and does not consider there is any immediate danger.

As soon as weather conditions in the North permit I shall make the trip and report fully to the Department, as requested.

Kindly advise if this delay meets with the approval of the Department.

I have the honour to be,

Your obedient servant,

Dear Sir,-

Replying to your letter of the 25th with reference to the St. Bruno's School, it will be satisfactory for you to make this inspection as soon as weather conditions will permit.

The Department, however, is anxious to have your report as soon as possible in order that a decision may be made as to whether the work will be undertaken at this school during the coming summer or not.

Attention of Mr Sutherland

The Secretary,  
Department of Indian Affairs,  
OTTAWA, Ont.

Dear Mr Sutherland:-

Please find enclosed time sheets and receipts in connection with work done last September and October at St Bruno Residential School. The wharf protecting the water supply pipes gave in during Summer on account of high water and waves. Hence the repairing and filling in with dirt, sand and gravel.

A sum of \$500.00 had been included in the estimates for repairs at the above school. Repairs for an amount over \$500.00 have been made but the assistant principal had no receipts prepared. I understand that an amount has been used in connection with the repairing of the basement floor but said amount was a special grant. If in order I would suggest that balance of the money voted be added to the \$135.00 presently asked for.

With anticipated thanks I remain

Yours truly,

Sir:

I beg to acknowledge receipt of the Department's letter No. 131-4-5 of the 18th ultimo in connection with Mr. E. Gardner Smith inspecting the St. Bruno School: In conversation with him I informed him I did not think it would be advisable to go up at the present time, and I also wrote to the Agent at Driftpile asking him if there was any danger of the foundation giving way at present. I am just in receipt of a letter from him stating that he quite concurs in my statement that it would be useless for Mr. Gardner-Smith to visit the school at the present time. The time for him to make his inspection would be as soon as the frost comes out of the ground, which would be sometime in May.

I trust this will be satisfactory to the Department.

Your obedient servant,

Right Reverend Sir:

With reference to conversation with Your Lordship during your recent visit to the Department, regarding your request that the Department supply one pure-bred bull and a number of milch cows, for use at the St. Bruno's Indian Residential School, I now have to inform you that you may incur an expenditure not exceeding the sum of \$500 in the purchase of the cattle. In this connection I would suggest that you be guided by an official of the Provincial Department of Agriculture, in order that you may ascertain definitely, before making the purchase, that the cattle are free from tuberculosis or other infectious disease.

I would request that you obtain accounts, in triplicate, in favour of the party from whom the animals are purchased, that you certify these accounts in the usual manner and forward them to the Department for payment. If you make payment at the time of purchase, the amount will be refunded to yourself.

I have the honour to be,

Right Reverend Sir,

Report on St. Bruno's Indian School.

Sir:

In accordance with instructions from the Department, I made a trip of inspection to the above school, where I spent two days. All arrangements for my transportation, and for my being met at the station, had been kindly made in advance by Mr. Inspector Christianson. I deemed it advisable to have the man come who did some work on the building last year, and he arrived the next day. This man, Mr. Reykdale, explained what he had done, and his reasons for doing it, and I learned from him all he knew about the situation. The Reverend Principal, Father Fallare, extended every courtesy and assistance.

The whole trouble is in the newer extension, built about six years ago. On entering its basement an unpleasant odour is very noticeable, coming from trapped water and rotting wood. I made small openings in the basement floor in several places, and with a flash-light I was able to examine the conditions below. I found 7" of water under part of this floor, and muddy soil under another part. Not wishing to cut the floors more than necessary, I bored 3/4" holes in other places, and made soundings with an iron rod. The soil conditions vary from several inches of water to only dampness. I was astonished at the extent of the rotting of the wood in so comparatively short a time, which perhaps can be explained by the entire lack of ventilation under the wood floors.

In an attempt to cope with the water under the floors, Mr. Reykdale had laid a tile drain, carrying it to a ravine about 150' behind the building. The outlet of this drain was not visible, having been carried to a covered place on the side of the ravine. I hired a labourer to dig out the end of the tile drain, and on exposing it, there was not a drop of water being carried. Later I found the other end of the drain at its starting place under the basement, and it was above the present water level, and doing no good.

I was told that last year the floor in the boys' refectory was breaking through from rottenness, and that Mr. Reykdale and helpers had removed the wood floor in this room and had replaced it with a deep concrete sub-floor, with nailing strips bedded in to take a finish lumber floor, but that the appropriation became exhausted, and the rough concrete sub-floor was as far as this work went, and little or no work was done under the rest of this basement, except to lay another little patch of flooring over weak spots which threatened to break through in various places.

Indian Affairs. (RG 10, Volume 6368, file 762-5, part 3))

PUBLIC ARCHIVES  
ARCHIVES PUBLIQUES.  
CANADA

In examining the conditions under the basement floor I was surprised to observe that instead of concrete being used, the construction is as follows: A laminated sill, about 12"x 12" is laid on the ground, and this mud-sill carries 2"x 12" joists, over which the shiplap sub-floor and finish fir floor are laid. This mud-sill is generally in contact with the soil, and on this account, and perhaps hastened by lack of ventilation, has become more or less rotten, varying in this respect in different places, and this rotting has spread to the joists and flooring. I enclose a small sample of wood taken from this mud-sill, which is fairly representative of the condition of this important member.

Feeling disinclined to believe that the Department's Architect had specified that the basement floor be laid in this way, I asked if a set of plans were available, and after a little search the blue prints of the addition were given me, which revealed the cause of all the trouble. On Plan #609, Sheet 1, Section at A.A. it shows clearly that the basement floor of the new extension was to consist of 6" of concrete, instead of which no concrete has been used, and lumber was substituted, as above described. In pointing this out to the Rev. Principal, he said it was the first he knew of this departure from the plans. He said that under the original building a concrete sub-floor was laid, over which was placed fir flooring, and that there has been no trouble of any kind in the basement.

In addition to the rotting of the basement floors as described, there is still a more serious feature. The interior supporting columns, of which there are eight, go right down to, and are resting on, these rotting mud-sills; and the carrying partitions also depend on the wood below for their support. As these supports disintegrate, the entire structure will be endangered, as you will readily understand. Already there is some settlement, but not very much as yet, but very suggestive of what would eventually develop if allowed to continue.

I was told that in excavating for the extension, some mistake was made, and the excavation was carried down two or three feet too far, and had to be re-filled. As the sub-soil moisture apparently is not very far down, it is possible that water was thus tapped, which may account for the water at present in evidence under this basement. Also, there is no provision for intercepting ground water around the footings by means of tile weeping drains. There are no downspouts from the eavetroughing of the newer building, and these troughs are joined to the troughing of the original building, and I'm sure there must often be overflowing of gutters in the extension.

The Rev. Principal states that the drains carrying the waste water and sewage from the new addition do not function well, and suggests that they be run separate from the original sewer, and be provided with a separate septic tank and disposal field. Not having had an opportunity of checking the fall of the lines in question I am not prepared to say whether or not this suggested change is necessary.

Indian Affairs. (RG 10, Volume 6368, file 762-5, part 3))

PUBLIC ARCHIVES  
ARCHIVES PUBLIQUES  
CANADA

The superstructure of the building seems all in good condition, and I could see no fault with the workmanship. A few doors are sticking, and sagging a little, caused from settlement of the building, but such minor troubles as sticking doors are easily rectified when the cause is removed.

From the foregoing descriptions I think you will be able to form a fairly accurate mental picture of the conditions affecting the newer building. Everything seemed all right in the original structure.

To overcome the troubles I am convinced there is no other way but to remove all the existing flooring in the addition, including the joists and mud-sills. Temporary supports will have to be used to carry the beams above the basement floors, and under the carrying partitions of basement while the changes are being made. Concrete piers will have to be placed to carry the columns, and a footing and dwarf concrete wall to carry the bearing partitions. The water underlying the basement can be drawn away by properly laid tile drains, which would not be difficult to do when the floors are out of the way. Then there should be a gravel fill, well tamped, brought up to within 6" of the finish floor level. The last 6" should be of good concrete, using an approved concrete hardener for the topping coat. By the means thus briefly outlined the trouble now threatening the building will be overcome, and the structure will then rest on the kind of foundation intended by the Architect.

Subsidiary to the remedial measures suggested, there would be some making good of woodwork on the floor angles; the providing of base throughout the basement; substituting new columns where too much rot has developed; placing two additional downpipes from gutters; placing a tile weeping drain around the footings of west and south walls of new addition to intercept ground water from higher ground behind; possibly some correction of drains as mentioned by the Rev. Principal; the jacking-up of beams and carrying partitions where necessary to restore levels; and minor corrections where found necessary as the work proceeds.

As to cost, it is difficult to give even an approximate estimate, but I would respectfully suggest that, if possible, the sum of \$3000.00 be allocated for this work of restoration, and if it can be completed for less, then the balance could be returned. The Sister Superior thinks that it would best suit the operation of the school if the work could start about July 1st, when the children will be away. If a fair-sized crew were put to work I think it could be completed in one month.

All the foregoing is respectfully submitted.

I have the honour to be, Sir,

Your obedient servant

Sir:

I beg to bring to your attention that I have just returned from the Northern part of the Province, and have read Mr. Gardner-Smith's report on the St. Bruno School. I am sure the Department will realize from this the necessity of going on with the work, and I would strongly recommend that the matter be placed in the hands of Mr. Gardner-Smith, as there is no one up in that part of the country who is capable of undertaking this work and seeing that it is done properly.

Memorandum:

Doctor McGill.  
-----

Right Reverend Bishop Guy has reported to the Department that the foundations of the St. Bruno Indian Residential School were in such condition that the building was in danger.

Mr. E. Gardner Smith was requested to make an inspection of this building, and report. He has made the inspection and has submitted a very detailed report on the existing conditions.

The whole trouble is in the new extension which was built about six years ago. In erecting this extension the Church authorities substituted wood sills and joists in place of concrete as shown on the plans prepared for the building. These sills being in contact with the soil and through lack of ventilation have become rotten. The rotting has spread to the joists and flooring and a considerable amount of water is lying in the ground under the floor. The most serious feature is the interior supporting columns, of which there are eight, resting on these rotten mud sills, also the carrying partitions. As these sills are disintegrating the entire structure is in danger, and in a very short time the centre of the building will collapse or sag.

There was also a serious error made when this extension was built when the excavation was carried down two or three feet further than was necessary, and had to be refilled. The foundation is therefore not resting on solid ground. An effort was made last year by the Staff to drain the water from underneath the floor, but the drain was not properly laid and was of no effect.

It is rather difficult to make an estimate of the cost of repair work of this nature, but it is considered that it should not exceed \$3,000.00.

In a letter received from Mr. Christianson he points out the necessity of immediate action, and recommends that the matter be placed in the hands of Mr. Gardner Smith, as there is no one in that part of

the country who is capable of undertaking work of this kind and seeing that it is properly done.

It will be necessary to remove the entire basement floor of the building, replacing same with concrete on a solid foundation. This is the only way to preserve the building, and I would recommend that Mr. Gardner Smith be authorized to supervise this very important work.

With reference to my memorandum of the 6th regarding the repairs required to the addition of the St. Bruno Indian Residential School, at Grouard, Alta., I would say that funds for this purpose will be found in the Vote for Indian Education from the unallotted portion.

In carrying out the repairs a considerable amount of labour will be required, and it would facilitate the work if you could advise me as to whom Mr. Gardner Smith could consult regarding the employment of the necessary labour.

Dr Harold W. McGill,  
Deputy Superintendent General,  
Department of Indian Affairs,  
OTTAWA, Ont.

Dear Doctor McGill:-

Subsequent to my visit at your office Saturday last, I take the liberty of suggesting that amount required for repairs at St Bruno School be included in Supplementary Estimates if not too late for same and if too late, taken from sources different from amounts voted in favor of schools under my jurisdiction. I am positive, the Department in its foresight, takes care of emergency cases such as the one I refer too and I hope that you will act accordingly.

You are aware of my financial difficulties due largely to the fact that we borrowed money at intervals for the construction, upkeep and repairs of buildings in connection with Indian educational and hospitalization work. For the last few years specially the Department has not been over prodigal in its grants in my district. Of course I except this year when you have given consideration to my requests, a fact for which I have already expressed my gratefulness. I would certainly feel sad if this year's generous treatment were allayed by a reduction along the lines that you mentioned in our last interview.

I leave the matter to your kind and generous consideration and wish to thank you in anticipation.

Very truly yours,

Bishop of Grouard.

Dear Bishop Guy,

I am in receipt of Your Lordship's letter of June 11th. with reference to the expenditure for repairs at the St. Bruno school.

I feel inclined to reproach myself as I fear that I may have unintentionally given you a gloomy prognosis regarding the expenditure at this point. I may assure Your Lordship that it is our intention to charge this item to our appropriation for unforeseen expenditure. However the sum may run into a considerable figure and the appropriation referred to may not be sufficient to take care of the whole amount. In the meantime the items for other schools in your diocese will stand and I sincerely hope that it will not be necessary to reduce them for the purpose of meeting the unforeseen expenditure at St. Bruno school.

Yours faithfully,

June 27, 1935.

DR. MCGILL.

Please refer to your memorandum of June 11th (Your File No. 131-4-5) dealing with some repairs required at the St. Bruno Indian Residential School at Grouard, Alberta.

Please advise Mr. Gardner Smith to consult Mr. S. J. Reykdal, of High Prairie, as to the labour required.

Dear Sir,-

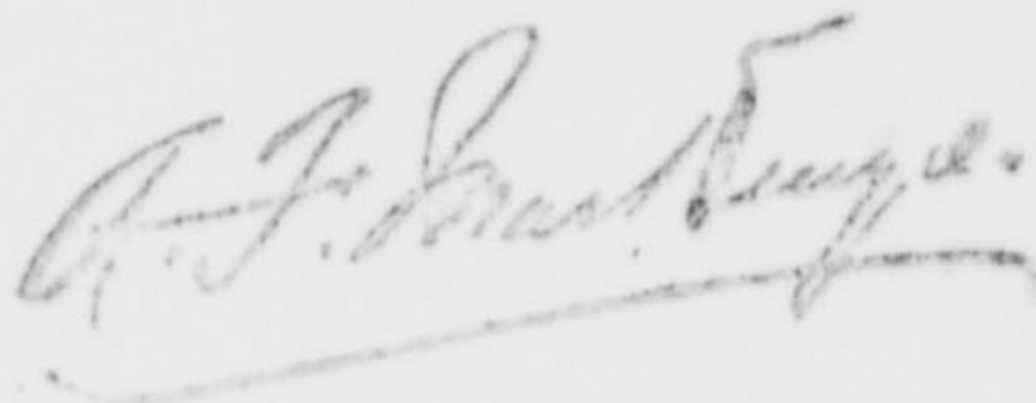

I beg to advise that the Department has decided to proceed at the earliest possible date with the repairs required to the foundation of the St. Bruno's Indian Residential School, in accordance with the report and recommendations made by Mr. Gardner Smith.

You may therefore arrange immediately with Mr. Smith to have this work done under his supervision. In the employment of labour required to carry out the work he should consult with Mr. S.J. Reykdal of High Prairie, and all materials, of course, should be purchased from firms on your approved list.

The work is to be carried out entirely by day labour and vouchers submitted in the usual way for the materials purchased. Mr. Smith will keep proper time sheets for the labour employed, and an accountable cheque for the payment of the labour will be sent to you on application.

Mr. Smith should be instructed to keep the expenditure as low as possible.

Yours very truly,

A. F. MacKenzie.  
Secretary.

Sir:  
I beg to acknowledge with thanks the Dep't cheque 07611 for \$64.13, being in payment of my account for time and expenses in connection with my trip of inspection to St. Bruno's school in May.

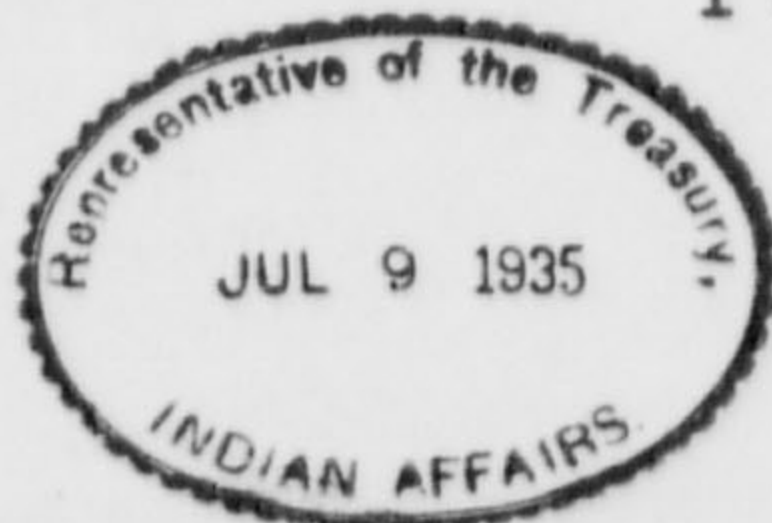

On the slip attached to the cheque is the notation "1 day deducted, May 19- Sunday." Although you have not asked for an explanation why I had charged for this day, I think it is due to the Department that I give such explanation.

I arrived in Calgary from the north trip on Sunday morning, May 19th, and as I understood the Dep't wished to have my report as soon as possible I went to a down town office to which I have access and started the report. Not finishing by noon I returned to the office in the afternoon and completed it, and mailed it on the 5.30 PM train for the east on said May 19th. Therefore as the day had been spent in this way I did not deem it improper to include it in the account. By referring to said report you will note that it was written on the date in question.

I have the honour to be, Sir,

Your obedient servant

"ONE OF CANADA'S GREAT NEWSPAPERS"

EDMONTON, ALBERTA, TUESDAY, JULY 9, 1935

## SUBMERGE 100,000

WHEN RAGING FLOODS RAVAGED NORTH COUNTRY

A pontoon-equipped aeroplane moored in the main street of Slave Lake town, a fisherman placidly angling in the rushing torrent that was the main street of Peace River town, rowboats used as transportation from house to house, railway tracks and highways under water—these among the scenes as torrential rains set rivers and creeks on the rampage and boosted the waters of Lesser Slave lake to record levels. Floods took a heavy toll of towns, villages, farms, railways, highways and bridges. Railway and highway transportation was completely disrupted and settlers were forced to flee from flood-engulfed homes. (1) shows a flooded street of Peace River while a fisherman from a point stage angles hopefully for a chance fish. (2) is the scene as sandbag levees failed to hold rising flood waters and rafts and boats were

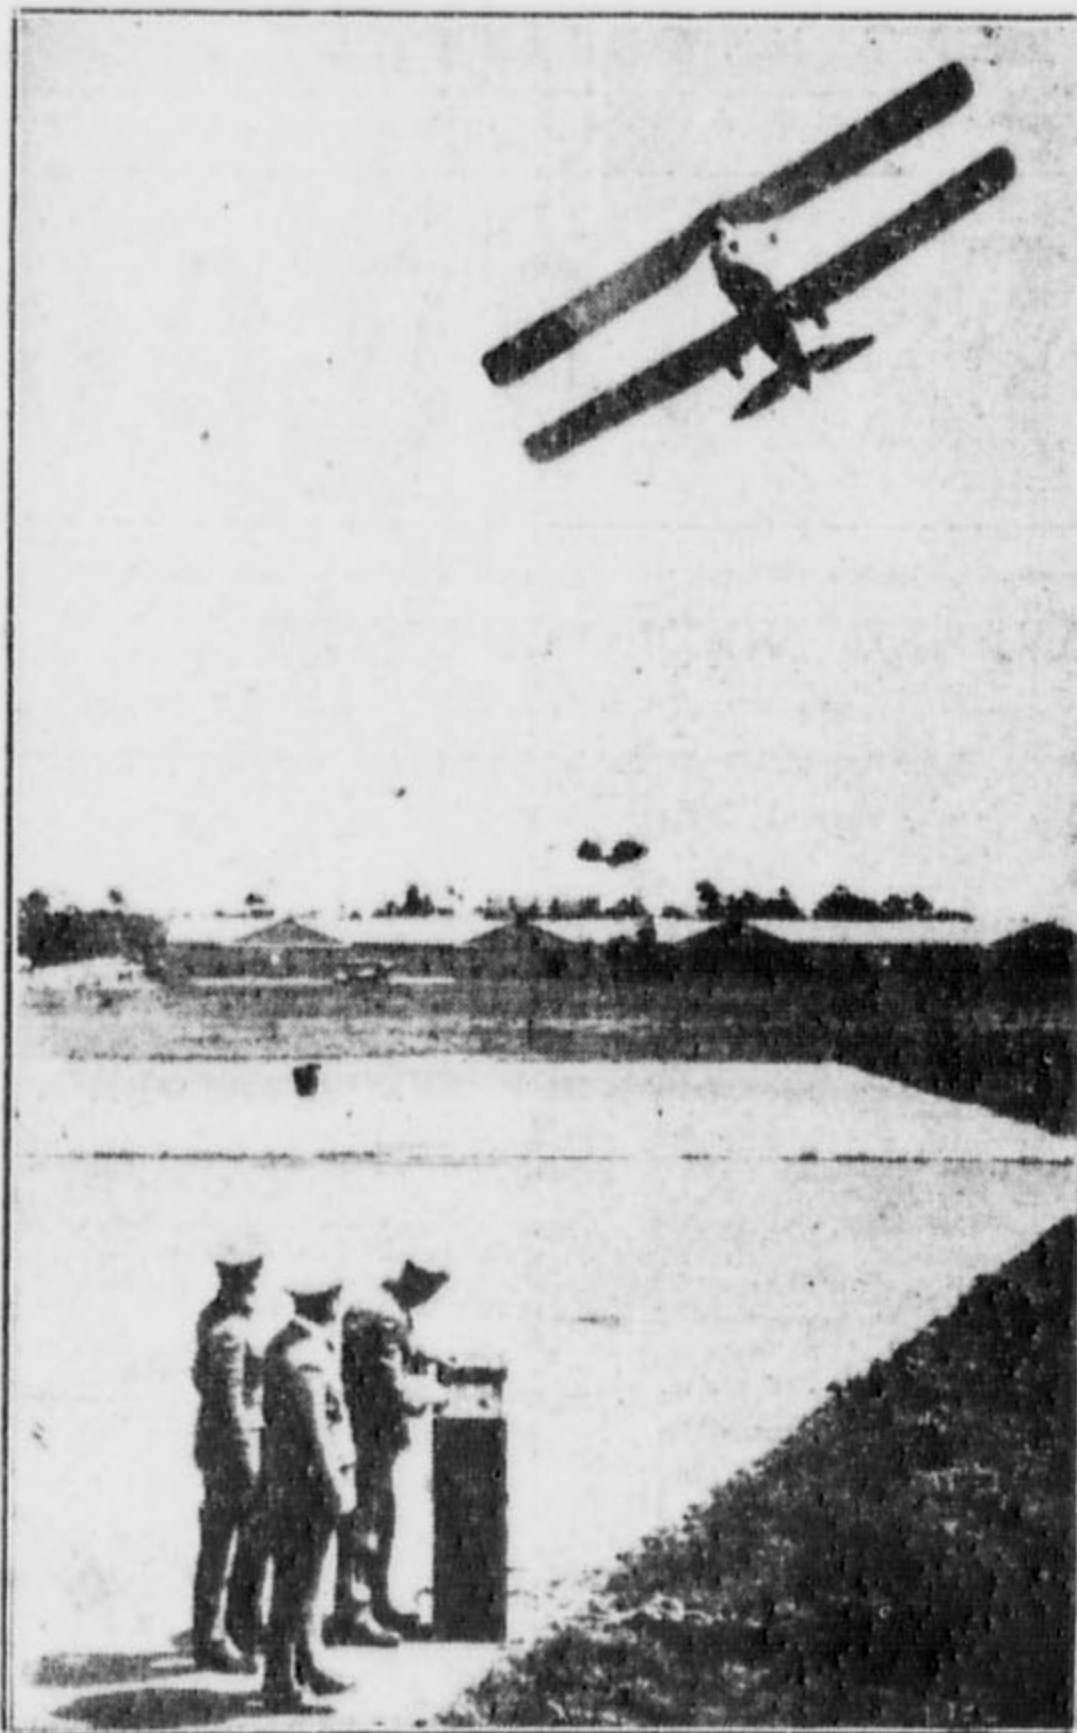

used to salvage property from marooned homes in Peace River. In (3) the turbulent waters of Lesser Slave lake are sweeping over the traffic bridge with automobiles using the bridge as a ferry landing. (4) shows a section crew of the N.A.R. on a handcar at the point where the main line tracks were submerged near Widewater. The men are clearing driftwood that has been swept over the tracks. In (5) an aeroplane is moored in Main st., Slave Lake town. A floating corduroy road in Slave Lake town is shown in (6). While (7) graphically illustrates how Lesser Slave lake escaped its banks to spread havoc through the countryside submerging long stretches of railway. The parallel lines seen are vegetation growing along the submerged right-of-way. In (8) two Slave Lake residents are rowing to the grocery store for provisions.

## NEW ROBOT AEROPLANE

Britain's new air sensation, the pilotless aeroplane, was recently demonstrated over the Royal Air Force aerodrome at Farnborough, Hants, England. The Queen Bee, as the type is called, responded perfectly to radio operation. The ship was controlled from a small wooden cabinet fitted with seven plain white keys. A pilot sat in the cockpit during the flight ready to take over the controls should anything have gone wrong, but from take-off to landing he did not need to manoeuvre the ship. Here is a view showing the master control in action during the flight of the Queen Bee.

returned to their homes or camps or found employment on Manitoba farms. Representatives of the remaining strikers pressed the provincial government for three meals a day and permission to continue their trek "on to Ottawa." Their requests were refused.

CALGARY — Seventy-six camp strikers—part of the contingent which was dispersed at Regina—refused to register for camp work after the Alberta relief commission provided them with sleeping accommodation and food on that condition.

PORT ARTHUR—Timber operators in the Lakeshead district notified 1,000 striking pulp camp workers, if they did not return to work by the end of the week, the camps would be closed. The men demanded higher wages.

VANCOUVER—Ships were loaded in Vancouver's docks Monday by longshore crews despite the fact 900 longshoremen are on strike demanding recognition of their organization.

OTTAWA—Reports were heard in the capital that the dominion government might adopt a new practice in caring for unemployed single men, finding employment for them on farms or in labor undertakings instead of concentrating them in relief camps.

## Agitators Ejected From Relief Camp

OTTAWA, July 9.—While two detachments of R.C.M.P. and the full strength of the air force at Ottawa depot stood by, leaders of the Rockcliffe relief camp workers' strike were ejected from the camp Monday night. The Rockcliffe project is a part of the air station.

Virtual termination of the strike was expected as the leaders were loaded on a truck and brought to Ottawa, five miles from the camp.

"The strike will probably end now," J. S. Downham, spokesman for the group, said as they left the camp.

In Ottawa the men unloaded from the truck under the watchful eye of a single R.C.M.P. officer and one airman, and dispersed quietly.

The Rockcliffe strike started Monday morning when 125 of the 508 men registered at the camp held a mass meeting and presented "demands" of \$1 per day wages, changes in the hospital staff, and

## TRAIN EXPECTED

Food Is Trucked From  
Peace River to  
Grande Prairie

July 12<sup>th</sup>

No improvement in flood conditions around Lesser Slave lake was reported by Northern Alberta railway officials Friday. A special train that left Edmonton for passengers marooned beyond Widewater was expected to arrive here some time Friday afternoon.

Two truckloads of provisions left Peace River for Grande Prairie Thursday to replenish stores in the latter town which has been isolated by flood conditions.

No definite time for the arrival of the train from Widewater had been set here early Friday. It was explained that it was necessary to transfer the passengers over a flooded stretch four or five miles in length. Officials here were busy working out a schedule into Edmonton.

Sir:

Mr. Inspector Christianson passed on to me the Department's instructions that I proceed at once to St. Bruno School and make the repairs as outlined in my report of May 19th.

I arrived in Edmonton yesterday on my way to the school, but am held up here because of floods along Lesser Slave Lake, and train service is at present disrupted. The railway officials are "hopeful" of getting a train through by Monday or Tuesday, so I am waiting over on this chance rather than returning to Calgary. I shall move to an inexpensive rooming house this afternoon so as to keep down expenses during my enforced wait.

I enclose newspaper cuttings showing views in the flooded area.

Short Report on Repairs to St. Bruno School.

Sir:

After a somewhat adventurous journey over submerged railway track where it skirts the edge of Lesser Slave Lake, I arrived here about the middle of July.

My expected source of sand and gravel was covered by some 8 ft. of water, and quite inaccessible, the lake being reported to be 10 or 12 ft. above normal level. Several swollen rivers had poured their flood waters into this lake, and its only outlet became choked with debris and silt, and the level of the lake is not yet falling appreciably. After considerable prospecting I located a small bed of gravel just above the water level of the lake, but distant nearly 3 miles, and over a bush trail which we first had to corduroy in places before loads could be hauled over the soft places. Just as the hauling of the gravel was well started, it was stopped by a half-breed named Cunningham, who claimed the gravel was on his land. I took the Rev. Prin. with me next morning, and after he had talked to the half-breed in Cree for half an hour, it was agreed that the hauling could continue on the condition that we employ the owner's two sons and two teams for the hauling. Not being able to find any other gravel I had to accept the ultimatum, or see our job tied up. Sufficient gravel is now on the job.

Our car of cement came through in the interval between wash-outs on the line. The mud-sills, joists and flooring in the basement have all been removed, and some of this lumber was so rotten that it fell to pieces in the handling. The water underlying the basement is now drained away, and I do not anticipate any more trouble in this regard. To-day we should finish the footings under the carrying partitions, and the dwarf concrete wall; also the reinforced footings under two columns. These will have to remain for perhaps a week before we can safely take down the temporary supports now sustaining the weight of the superstructure. In the meantime we have a deep fill to make, after which we can start on the concrete floors.

My little crew consists of three white men--Scott, Rykedale, and the latter's son, and about eight local Indians.

The school Sisters have had a temporary summer-kitchen built for them at the rear of the school, into which essential articles were moved, for during our work everything had to be moved out of the basement of the affected building, including the range, sink, etc.

I have the honour to be, Sir,

Your obedient servant

Report on Repairs to St. Bruno Indian School.

Sir:

The work of restoring the affected part of the above school is now well advanced, and should be entirely completed by the first week in September.

All the floors in the affected basement have been removed, including the joists and mud-sills. These joists consisted of 2"x 10", spaced at 24" centres, without bridging. A few 2"x 12" were mixed with the others, but had been notched down to the same level, which, of course, weakened them accordingly. Most of the joists had become rotten, also the mud-sills in most places, while other parts were still sound.

With the floors out of the way we were able to deal with the stagnant water underlying this basement, and with less trouble than I expected, we were successful in draining away all this foul-smelling water.

Four lines of studding were necessary to hold up the superstructure during the repair work, also posts to carry the beams. The bottoms of the carrying partitions were generally so rotten that we had to cut off the lower 3 feet, putting in fresh plates and short studs, and new v.joint. Beneath the carrying partitions we put concrete footings 24"x 10", and on these footings we ran dwarf concrete walls 7" thick, to meet the under plates of these partitions. We also jacked up these partitions where necessary to restore levels, about 2½" being the maximum settlement to correct.

Under the supporting columns we placed concrete piers, 36"x 36"x 18", each reinforced with 10 steel bars.

Next came the filling of the space previously occupied by the joists and sills. This took 100 loads of coarse heavy sand, and I kept three Indians busy with tampers while this material was being spread. It will make excellent insulation between the damp undersoil and the concrete floor.

We are now laying the concrete floors 6" deep, including 1½" topping coat treated with Master Mix Concrete Hardener, which will not only give a dust-proof surface, but is a waterproofing as well. These floors should be finished in two more days. The school staff have a strange antipathy to concrete floors, and wanted me to lay nailing strips in the concrete, with wood floors. I refused to consider this, and told them I thought they should have had lesson enough already with wood floors in a basement! The Sister Superior pointed out that in the kitchen especially the hard concrete would be very trying on the feet of those working there, and asked if they might have lino on this floor, and a narrow strip of lino along the adjoining corridor. I replied that I thought I might anticipate the Department's consent to this request provided

it would not run us over the original estimate for the entire work of restoration. As it now seems certain that we shall not exceed the estimate, I have ordered AA battleship for the kitchen floor, and a 3' strip for the basement corridor. This material will be laid on a carpet-felt base, and both materials will be cemented down. The school people are cooperating in every possible way, and are lending us their concrete mixer, supplying oil, gas, etc, so perhaps the providing them with the line is a sort of quid pro quo in return for what they are doing.

We have yet to dig a trench around two sides of the newer building, and to lay a tile weeping drain along the corresponding footings to intercept ground water from the higher ground behind. While the concrete wall is exposed we shall give it a heavy coating of hot asphalt pitch, and shall use gravel for back-filling this trench to within a foot or two of grade. This should insure against any further encroachment of ground water into this basement. The soil here generally inclines to dampness, and water lies but a short distance from the surface.

We have also to place another downpipe from the eavetrough of the newer building, which we shall connect with the tile weeping drain.

Inside the building we are installing new base, as most of the old base was too rotten to use again. Then there will be a few days' painting and varnishing, and the restoring of the kitchen and pantry fixtures which we had to cut off and move out of our way.

As already stated, the work should be entirely finished by the first week in September, and the building will then be in excellent condition in every way.

I have the honour to be, Sir,

Your obedient servant

*E. Gardner Smith*

St. Bruno Indian School.  
Joussard, Alta. Aug. 30, 1935.

The Secretary.  
Department of Indian Affairs.  
OTTAWA.

Sir:

The enclosed telegram from Bishop Guy indicates the Department's consent to the enlarging of the school kitchen, and deeming it sufficient authority, I started excavating for this extension to-day.

The message, however, seems somewhat ambiguous in its wording, owing, possibly, to error in transmission. I would therefore much appreciate more definite instructions direct from the Department, although such instructions may be on its way by mail, in which event this letter may be disregarded.

I have the honour to be, Sir,

Your obedient servant

*E. Gardner Smith*

Dear Sirs:-

Attention Mr. A.F. MacKenzie,  
Secretary.

We have for acknowledgment your letter of the 1st inst., in connection with the attached account. With regard to the deduction of freight \$274.34, we may say that it is the usual custom in the trade where we invoice on delivery basis, to deduct freight charges, for the reason that customers pay these charges direct to the Railway Company.

In the case of the attached bill, we invoiced on our regular basis, but inasmuch as we prepaid the freight ourselves it was necessary also to charge this item to your account.

Under date of September 24th, we mailed statement of account which shows this item separately, and we are now attaching a copy for your information.

We trust this explanation is satisfactory, and are,

Yours very truly,

Mr. R. Guernsey Orr.  
Architect.  
Department of Indian Affairs.  
OTTAWA.

Dear Mr. Orr:-

You will have received my Night letter sent yesterday calling attention to the inadequacy of the kitchen flue in the newer building. I am told that trouble has been experienced with this chimney because of insufficient draft, and as a larger new three-oven range is about to be installed, with a 9" pipe, I feel sure that the existing 8"x 8" flue will prove insufficient. I hesitated before sending you the message, but realizing that I was sent here to restore the defective features of the newer building, I deemed it incumbent on me to inform you regarding this chimney, especially as it appears to me none too safe from a fire hazard viewpoint, and then to be guided by your instructions. As mentioned in my telegram, the walls of the chimney are of single brick, and as it passes through woodwork, it is contrary to safe practice. Also, it is another instance of the disregard of the construction clearly shown on the blue print, where the flue scales 12"x 12", with an 8" wall. On hearing from you, we shall either leave the chimney alone and hope for the best, or take it down and rebuild it according to the blue print, just as you instruct.

Perhaps I should also mention in this connection that both the bakery and laundry chimneys are of similar construction to that of the kitchen, although again the blue print called for 12"x 12" flues and an 8" walls. However, as I have heard no complaint regarding the draft of these chimneys I am not proposing to take them down, but thought of removing sufficient of the enclosing V-joint so I can inspect them for safety, and if they appear to need it, they could be cement-plastered over the brickwork as an extra precaution against fire eating through the single joints of their 4" walls. The main heating chimney appears to have been properly constructed, and of ample dimensions.

On the plan of the new addition it is written that the footings of the extension were to be carried down to the same level as those of the existing building. This requirement was disregarded, and the footings were stepped up 18", and are poor footings at that, consisting largely of cobblestones, with a minimum of cement mixed with them. I believe it is largely if not entirely from this departure from the plans which allowed ground water to pass under the floors of the addition.

In digging the trench around the outside walls of the new addition we encountered considerable water seeping out of the ground, which is now being drained away by our newly placed weeping drain, over which we have put a heavy covering of gravel, so I feel sure the basement will remain dry in the future.

The main departure from the plans was in the substituting of wood instead of concrete for the basement floors. I could mention other minor faults in construction, but they are relatively unimportant. The conclusion, however, is inescapable

Indian Affairs. (RG 10, Volume 6368, file 762-5, part 3))

PUBLIC ARCHIVES  
ARCHIVES PUBLIQUES

that had the contractor carried out the construction in accordance with the plans supplied by the Architect, the \$3000.00 expenditure now being undertaken would have been entirely avoided, and there would not be the present fire hazard from faulty chimneys. I feel it my duty to bring these matters sharply to your attention so that in the future you may take whatever steps you deem necessary to insure that important constructional requirements will not be disregarded.

Before receiving this letter Bishop Guy will have called on you, and will have mentioned the proposal to extend the kitchen 20' longer. I supplied him with rough sketches of the proposed extension, and an estimate of its cost.

The work in hand should be completed by the end of the first week in September, and unless detained for the rebuilding of the kitchen chimney, or the extending of the kitchen, or both, I expect to return to Calgary at the time mentioned.

With kind personal regards,

Your obedient servant

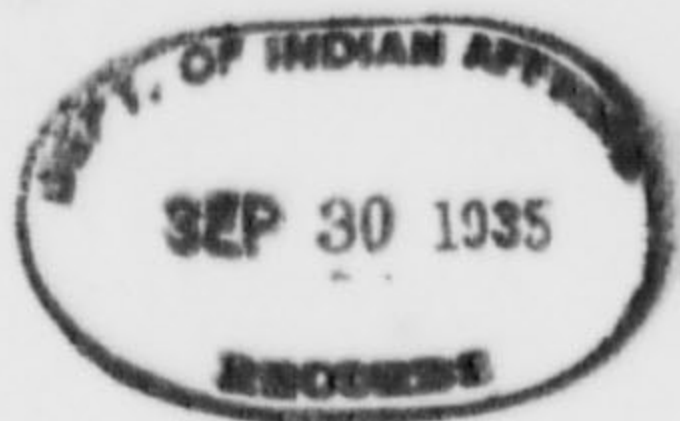

E. Gardner-Smith.

OFFICE OF  
INDIAN AGENT

St. Bruno Indian School.  
Joussard, Alta. Sep't 30, 1935

The Secretary.  
Department of Indian Affairs.  
OTTAWA.

Sir:

As previously advised, the work of restoration of the defective basement of the above school was completed during the first week in Sep't.

Acting on the Department's instructions, we took down the kitchen chimney and rebuilt it with the 12"x 12" flue called for in the drawings in place of the 8"x 8" that had been built. I'm quite certain that had we not done this there would have been insufficient draft for the larger new range recently procured, with its 12" smoke outlet, especially as trouble in this respect had already been experienced with the smaller range with a 7" outlet. Now the new chimney affords excellent draft, and the kitchen Sister is very happy over the change. No local bricklayer being procurable, I had to bring one from Edmonton, and pay his travelling expenses, but he gave excellent service. In order to avoid making the chimney excessively bulky passing through the rooms above, we constructed it in single brick, lined with 12" x 12" vitrified flue lining, which as you know, meets the requirements of safe construction. We used cement mortar tempered with about 10% lime.

Regarding the bakery chimney, as the part above the roof was disintegrating badly from the action of the weather on the lime mortar, we took it down to the level of the roof, and rebuilt ~~it~~ in cement mortar. While we had it down we were able to view the inside of the flue, by the aid of a flash-light and mirror, and, apart from being smaller than called for, and of single brick construction, there seemed no visible fire hazard. I also examined the brickwork of this chimney at a lower level, and decided against taking the whole chimney down, as the joints seemed all well filled and reasonably safe. The school Superior states that this chimney too gives insufficient draft, and smokes badly when the bake-oven is first lighted. I noticed,

ARCHIVES PUBLIQUES.

2.

that the bake-oven is situated some distance <sup>away!</sup> with a long run of horizontal piping, and I suggested that they move the oven close to the chimney for better draft, which they are going to do.

With reference to the cost of the restoration work, I stated in my Report of May 19th that it might run to \$3000.00, but that if it could be done for less, then the balance could be returned. Including the chimney costs, and the providing of lino for the kitchen and corridor, neither of which were allowed for in the estimate, the total cost will be several hundred dollars under the \$3000.00. One delayed invoice is still to be received, which I expect to receive tomorrow, and then the account can be completed, and the returns sent to the Department. The cooperation of the school people, and the free use of their facilities, helped to keep the cost down.

During the past three weeks my small crew and ~~myself~~ <sup>✓</sup> have been engaged in building the 20' extension to the school kitchen, as arranged between Bishop Guy and the Department. This work will be completed in another week, after which I will send a brief Report on this latter work, and a photo of the annex to the larger building. This work, too, promises to come well within the estimate of \$1500.00. I expect to leave for Calgary on Oct. 9th.

I have the honour to be, Sir,

Your obedient servant

Joussard, Alta. Oct. 2nd, 1935.

R. Guernsey Orr Esq.  
Architect.  
Department of Indian Affairs.  
OTTAWA.

Re- St. Bruno School Repairs.

Dear Mr. Orr:

I am enclosing herewith a Segregation of Costs of the restoration work at the above school, in labour and materials.

A few tools, and 2 pairs of rubber boots, which were necessary for the use of Indian labourers, I have left at the Indian Office, Driftpile. The value of these articles is about \$20.00, but I did not think it worth while to credit it to our job.

The work has come well within the Estimate I gave last May of a possible \$3000.00, as we did not run into any unforeseen difficulties, nor did we have to alter the sewage disposal from the newer building, which the Rev. Principal had thought necessary last May. Including the rebuilding and enlarging of the Kitchen chimney, and the providing of lino for the Kitchen and Corridor, the total cost of labour and materials is \$2393.62 at this date, exclusive of my own expense a/c which is paid direct by the Department. The work is now completed, and the school Staff are very pleased and gratified with the result.

Your obedient servant

H. W. McGill, Esq., M.D., M.C., V.D.,  
Deputy Superintendent General  
of Indian Affairs,  
Department of Indian Affairs,  
O t t a w a.

Dear Dr. McGill,-

With reference to my interview of the 28th instant in connection with a small addition to the St. Bruno's Indian Residential School in order to enlarge the kitchen, I wish to make a formal application for the above purpose.

*Note for  
estimates  
also*

This addition will be 20' x 20' and the cost is estimated at \$1,500 by Mr. Gardner Smith, who would take charge of the work and bring it to completion. I enclose plans and estimate of the work made up by this gentleman and would request your approval for this expenditure.

I would suggest that I borrow the above amount, have the work done and submit all expenditures to the Department and would be willing to wait for reimbursement until next year's estimates are voted. This, of course, would enable you to include said amount in the estimates.

Yours very truly,

*Ray. Guy one. S.*

Re- Kitchen Extension--St. Bruno School.

Sir:

As indicated in my letter of the 30th ultimo, I now enclose a Statement of Cost of extending the Kitchen at the above school, and photos of the Extension.

The estimated cost of this extension was \$1500.00, but as some of the work was done at less than the expected cost, we were able to include a canopy over the large new 3-oven range, and provide AA Battleship Lino for the concrete floor of the extension, and still keep within the estimate. The canopy is vented with a 16" pipe through the ceiling and roof, and will relieve the kitchen of much excess heat, and odours of cooking.

One or two small bills had not been received when I made up the Statement of Cost, but with these added, the total cost will be approximately \$1400.00.

The main saving in construction costs was in the concrete cutting, for which I had allowed \$198.00 in the Estimate. This wall is splayed, running from 9" on top where it meets the framing, to about 24" on the bottom. I rounded up all the drills on the place, got them sharpened and tempered, and was all set for a tough cutting job, but found the wall to be so full of large round stones with just enough cement to hold them together, that scarcely any actual cutting was necessary. We were able to knock the wall to pieces with sledges, and as the big stones came rolling out most of the concrete came away at the same time. Though not the kind of concrete work that I am accustomed to, yet because of its wide base it is quite equal to carrying the frame superstructure.

With the completion of the kitchen enlargement my duties at St. Bruno School were finished, and I have returned to Calgary. I much appreciate the employment that I have had, and trust it may be my privilege to serve the Department

Dear Sir:

Replying to your letter of October 1st, we are pleased to advise that the linoleum, paper, and cement for the St. Bruno Indian School at Jousard were supplied to you at the following prices; f.o.b. Edmonton.

|                              |                      |
|------------------------------|----------------------|
| MM Brown Battleship Linoleum | - \$1.60 per sq. yd. |
| Paper                        | - .10 per yard       |
| Cement                       | 1.20 per gallon      |
| Labor                        | 42.12                |

This linoleum was to be laid by our man, but we were later advised by Mr. Smith not to send him. As this labor charge had already been charged to your account, we passed a credit to cover.

We trust that this is the information you desire.

Yours truly,

THE T. EATON CO. LTD.

Sir:

I beg to bring to your attention that the Principal of St. Bruno's School made the following requests: That the institution be furnished with 6 beds of the largest size that is supplied to schools, and 6 mattresses for same; also 12 pillows; and that they be furnished with 2 foot-balls, 2 basket-balls, and a couple of baseballs and bats; also some indoor games, such as ping-pong, &c. The Sisters of the three institutions I visited mentioned how difficult it was to organize games for the children and especially in the winter time. As I have previously mentioned, most of our Indian schools do not provide sufficient interest for the children in organized play, and in talking this over with the various Principals, I think many of them are beginning to realize the real necessity of this.

I would ask that the above equipment be supplied, if possible.

Dear Sir:

With reference to your letter of the 13th instant, I may say that arrangements are being made to forward footballs, etc., to the three residential schools in the Lesser Slave Lake Agency which you recently visited.

The Department has allowed the St. Bruno's School a large amount this year for improvements and repairs, and, under these circumstances, it is regretted that funds are not available at the present time for supplying the beds, mattresses and pillows mentioned in your letter.

Dear Doctor McGill:

I have the honour to report on an inspection of St. Bruno's Indian Residential School at Jousard, in the Lesser Slave Lake Agency:

This is a very fine institution:-  
You will recall when you were there they were having difficulty with the floors giving way. Mr. Gardner-Smith was sent from here early in the summer to repair this, and the work has been carried out in a very efficient manner, and I hope we will have no further trouble in this regard.

Everything about the institution, inside and out, was in very good condition. I went over the laundry machinery, boilers, engines, &c., and everything seemed to be in order. The school maintains the services of a lay-brother and an engineer, both of whom are competent in this line of work, and they keep the machinery in a good state of repair.

As you know, the out-buildings at this institution were poor and in a dilapidated condition. I found that a new barn, 80' X 36', was under erection and just nearing completion. This is to be up-to-date in every way, with hay loft, extensions, cement floor, &c. I do not

know whether the Department are paying for this barn, but at any rate it is being erected. No doubt in due course the other out-buildings will all be replaced as well.

The amount of land being cultivated by this institution is 50 acres, and 10 acres of new land has been brushed. The potato crop was not as good as last year on account of the wet weather, and I found this to be the case all over the Peace River country: There was so much rain during the summer that the potatoes rotted in the ground. They had an abundance of other garden truck, however.

I visited the class-rooms and spent some little time with the children, and everything seemed to be going along very well.

The girls receive an exceptionally good training in household science, but here, as in the other two schools in that Agency, the boys receive very little outside training with the exception of doing a few chores, attending to the gardens, milking cows, &c. Some years ago the Department issued instructions to the schools that the girls were to be taught how to milk cows. I find this is being absolutely neglected in most cases, and I believe the time has come when we should check up on this a little more closely. I am doing this at every institution I inspect, and most of them have promised to see that the girls do the milking during the summer, but it might be well for the Department to again write to the schools.

The children all looked healthy and well-

dressed and seemed to be getting sufficient food. The School have 46 head of cattle, of which 25 are cows, and 10 were being milked at the time of my inspection and the milk is all given to the children in one form or another. They also have some pigs and chickens.

The Staff at this institution consists of the Rev. Father Paul Serrand, as Principal; 15 Sisters of Charity; 1 nightwatchman, 2 lay brothers and 2 hired men. I might bring to the attention of the Department that one of the Sisters is a Graduate Nurse. Father Serrand, the Principal, is a new man there: Some years ago he was Assistant Principal at Sturgeon Lake, St. Bruno's and St. Bernard's, and since then he has been stationed in White parishes, his last one being at Dawson Creek. I was very favourably impressed with the new Principal, and I consider that men of his type are a real asset in the work we are endeavouring to carry out.

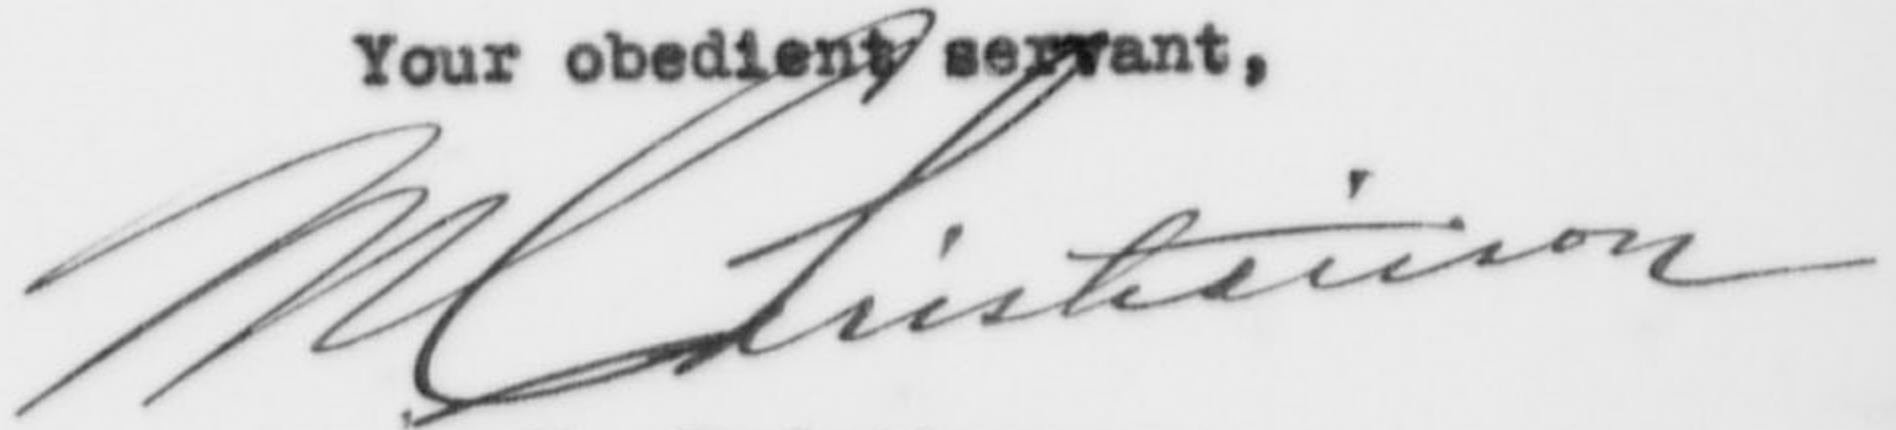

There is also a new Sister Superior: Rev. Sister Peter of Rome was promoted to Mother Provincial, and Sister Agnes, one of the teachers there -- an Irish sister -- was promoted to Sister Superior, and I am quite sure she will render good service as such.

The Principal and the Sister Superior made a few requests which I am forwarding to the Department in a separate letter.

I have the honour to be,

Sir,

Sir:

I have been directed to acknowledge receipt of your 405-11A R.C. of the 13th instant, reporting on your inspection of the St. Bruno's Indian Residential School.

The Department is pleased to note that the interior and exterior of the main building at this school are now in splendid condition.

I have noted that a new barn is in course of erection.

The Department is pleased with conditions, as reported by you, at this school.

Dear Sir,-

With reference to your #1060 of the 19th instant, Voucher 375, for \$181.27, was returned to you for signature under cover of official letter of October 10th, last. The Department has no record of this voucher having been sent back to this office.

Voucher 453 was paid by cheque #25384. This cheque was mailed on the 8th instant.

Voucher 356 was mislaid on our files and, consequently, payment has not yet been made. I am arranging, however, to have a cheque issued at once and sent to the T. Eaton Company, Edmonton.

PRIVY COUNCIL

Certified to be a true copy of a Minute of a Meeting of the Committee  
of the Privy Council, approved by His Excellency the Governor  
General on the 22<sup>nd</sup> NOVEMBER 1935

NOV 26 1935

RECORDS

The Committee of the Privy Council have had before  
them a report, dated 6th November, 1935, from the Superin-  
tendent General of Indian Affairs, representing:

That building operations enumerated hereunder were  
carried out during the past summer at each of the St.  
Bernard's, St. Bruno's, Sturgeon Lake and Wabasca  
Roman Catholic Indian Residential Schools, located in  
the Lesser Slave Lake Indian Agency, northern Alberta;

That as these schools are in an isolated locality, it  
has been found that the most economical method of ar-  
ranging for construction is to place the work in charge  
of the Oblate Order, under whose auspices they are con-  
ducted;

That all work was approved by the Department and carried  
out on a day labour basis, under the direct supervision  
of His Lordship Right Reverend Joseph Guy, O.M.I., Bishop  
of Grouard, at a cost of \$24,800;

That the cost of the work at each school, including  
material and labour, was as follows:-

St. Bernard's:

Erection of a new building, to provide class-  
rooms, sewing room, dormitory and laundry ... \$16,000

St. Bruno's:

|                                       |         |       |
|---------------------------------------|---------|-------|
| Repairing foundation, main building - | \$3,300 |       |
| Erection kitchen                      | 1,400   |       |
| Erecting barn                         | 1,500   | 6,200 |

Sturgeon Lake:

|                                         |     |
|-----------------------------------------|-----|
| Miscellaneous repairs, school buildings | 500 |
|-----------------------------------------|-----|

Wabasca:

|                                         |       |
|-----------------------------------------|-------|
| Erecting machine shed and chicken house | 2,100 |
|-----------------------------------------|-------|

That funds to cover the cost of the above mentioned work  
are provided in the Appropriation for Indian Education  
for the current fiscal year, 1935-36.

The Committee, therefore, on the recommendation  
of the Superintendent General of Indian Affairs, advise  
that authority be granted for the expenditure of the said  
sum of \$24,800 in payment of the cost of the above men-  
tioned work.

The Honourable  
The Superintendent General  
of Indian Affairs.

Clerk of the Privy Council.

It is hoped to be able to pay the accounts covering the cost of erecting the kitchen at the St. Bruno's School from the current year's Appropriation, and I shall be pleased if you will see that these are forwarded at your early convenience. You will know how to certify them for payment. I understand that Mr. Gardner-Smith left the time sheets and invoices with Rev. A. Charest. I am sure you will see that all accounts for materials and labour, covering the expenditure authorized for your schools, will reach the Department before the end of March, next.

With kind regards,

Yours sincerely,

J. D. Sutherland,  
Acting Supt. of Indian Education.

November 29th, 1935.

Dear Mr Sutherland:-

When I left Ottawa, I was expecting you would reimburse without too much delay the different accounts owed on work done here and also pay unpaid bills for same. I have received a wire and the again today a letter from the Canadian Western Lumber Company who are anxious about payment of lumber sold within the last four months. Will you please give them and myself satisfaction?

Could you give me an idea about the way I am handled in the Estimates?

Yours very truly

*J. G. Sutherland*

Mr J.D. Sutherland,  
Acting Superintendent of Education,  
Department of Indian Affairs,  
OTTAWA, Ont.

Dear Mr Sutherland:-

762  
As per your request of last month I am  
enclosing statement in full of cost of Kitchen extension at St  
Bruno's Indian Residential School

Work was authorized with the condition  
that I would borrow the necessary money which would be reimbursed  
by the Department during the next fiscal year. So, I do not hope  
for payment before the vote on the Estimates for the next Session  
is taken.

Yours truly,

*W. G. Sutherland*

Bishop of Grouard.

Total cost \$  
Materials - 688.77  
Labour - 702.55

Attention of Mr Sutherland

The Secretary,  
Department of Indian Affairs,  
OTTAWA, Ont.

Dear Mr Sutherland:-

Please find enclosed account for Red Poll Pedigreed cows as per authority of the Department. There is another account to reach you in a day or two and that will come from the Department of Agriculture, Edmonton, (Mr J.H. Tremblay). I note the total will be \$525.00 but at the time I was almost sure to have a bull for \$75.00 and even \$60.00 but none could be obtained at this time for either of those prices. I hope that everything will be in order for reimbursement and if you cannot send \$525.00 you understand I can stand the difference.

Yours very truly,

*J. G. Sutherland*  
Bishop of Grouard

Gentlemen:-

In connection with your order No. 2005, covering one box of Time Clock Dials, we wish to advise that we shipped these dials to Rev. P. Serrand, Jousard, Alta., and forwarded invoices in quadruplicate addressed to his attention.

We have to-day received a letter from Rev. P. Serrand, advising that the goods have been received in good order, but understands that such goods are supplied to the Indian Mission free of charge, and has returned our invoices.

We are herewith enclosing the invoices which were returned to us, as you will, no doubt, wish to handle this matter through your Department.

Trusting this is in order, we remain,

Yours truly,

The Canadian FAIRBANKS-MORSE Company Ltd.,

Department of Indian Affairs,

Dear Doctor McGill:-

I take the liberty of calling your attention on the fact that the batteries at Joussard Residential School are out of commission or will be in the very near future. We are getting very poor light and soon will have none. Said batteries have been well looked after and have been used quite a long time over the regular one they are guaranteed for.

I would therefore ask for a new set of batteries of 56 or rather as was the case in Grouard and for the same reason two sets of 56 making a total of 112. I suggest Ironclad Batteries and I am sure I am meeting with the approval of the Department Architect.

Please give that matter your kind and effective attention and oblige

Very truly yours,  
*Joseph A. ...*  
Bishop of Grouard.

Dear Bishop Guy,

I have Your Lordship's letter of July 17th and as an explanation of the delay in replying I would say that I have just returned from making official visits to agencies in Manitoba and Western Ontario.

Your letter was marked 'Personal', otherwise it would have been brought to the attention of the Schools Branch, which I am now having done.

Yours faithfully,

Deputy Superintendent General.

Right Reverend Joseph Guy, O.M.I.,
